Among those who attended the hearing were Clarence H. Kelsey and Harold G. Aaron, representing the Advisory Council of Real Estate Interests; James Frank, president of the New York State Association of Real Estate Boards; Walter Stabler, Comptroller of the Metropolitan Life Insurance Company; Louis V. Bright, President of the Lawyers Title and Trust Company; Albert J. Parsons, vice-president of the United States Mortgage and Trust Company; Richard M. Hurd, president of the Lawyers' Mortgage Company; Cyrus C. Miller, of the Bronx Board of Trade; John L. Parrish, Secretary of the Board of Title Underwriters; G. Richard Davis and representatives of the Chamber of Commerce of New York State and similar bodies in Rochester, Buffalo and other up-state cities.

The legislative leaders have indicated in the past week a determination to push through legislation to help the housing situation. With threats from New York City of a rent strike and the attitude of the State Federation of Labor one of insistence that something be done to curb the operations of alleged "rent profiteers" there has developed in the Legislature a sentiment for radical legislation.

What the outcome of this sentiment will be is difficult to gauge at this time, but the fact remains that some sort of legislation more or less drastic can be expected. Authoritative sources state that the scope of the new laws to be enacted will cover the following points:

Creation of a rent commission designed after the federal organization.

State taxation of excess profits from real estate investments.

Encouragement of investments in building construction.

Curtailment of landlord's present rights in summary dispossess proceedings, making it necessary for a landlord to prove that any adjustment or increase in rents is reasonable before eviction can be sustained.

In view of this sentiment in the Legislature it is not improbable that the Lockwood exemption of mortgages bill will pass. This bill was introduced at the summer session of the Legislature, but at that time consideration was deferred on account of the time required for discussing such an important measure. Senator Lockwood declared this week that he is convinced his bill will aid materially in solving the housing problem and he is carrying on a fight which promises to put his bill through the Senate. In the Assembly there are many legislators who believe that encouragement of building is the one solution for the problem and the outlook for the

Auction of Henry Astor Property Brings Record Prices

Total Brought by 141 Parcels is $5,159,075, Making the Sale One of the Most Successful in History of City

CONDITIONS due to the war have in the last year or two forced the breaking of the long-established policy of the largest holders of inherited real estate in New York City of retaining this ownership in unproductive plots and buildings, constructed according to the vogue and necessities of a bye gone age rather than up-to-date development of these properties to the general advantage of their fellow citizens. The income tax and other post-war measures have brought about the sale of many pieces of land and numerous buildings to the amazement of old New Yorkers, who would have taken oath that certain well-known estates would remain intact until the end of time.

This last week has witnessed another phase of the disintegration of large holdings of inherited properties kept for years in a state of interrupted development to the manifest injury of the whole community. In the auction sale of the estate of Henry Astor, which was conducted by J. Clarence Davies and Joseph P. Day on last Wednesday, for the first time in the history of Manhattan Island, property known as the Eden Farm and accumulated by the original John Jacob Astor in 1803 passed at the auction block out of the hands of his direct lineal descendants. The sale took place at the Hotel Astor, Broadway and Forty-fourth street, and resulted in the disposal of sixty three and four story private dwellings, thirty-eight tenements, thirty-nine parcels of land improved with private dwellings under lease, three theatres, seven factory buildings and six vacant lots, making 141 parcels in all. A total of $5,159,075 was obtained.

The sale was the result of a deed of trust signed by Henry Astor on February 15, 1869. This conveyed his holdings situated in what was originally the old Eden Farm and now the Times Square section to John Jacob Astor, William Astor and Charles F. Southmayd. The 141 parcels of property were to be held until his death and then distributed among the Astor heirs, in accordance with the terms of the trust deed.

Henry Astor, who was known as the hermit of the Astor family, was ostracized by his family when, in 1871, he married a farmer's daughter. He lived peacefully and nearly forgotten at Copake, N. Y., until his death, in 1918, in his eighty-seventh year.

The sale was one of the most widely advertised ever held in the city, and attracted a cosmopolitan assemblage to the ball room of the Hotel Astor, which was crowded for the twelve hours during which the auctioneers held the attention of buyers and those drawn together by curiosity and the interest which attaches to anything conducted in the name of one of the oldest families in New York.

The sale of the ground upon which the Astor, Bijou and Morosco theatres are situated started early. The land was sold in two plots, the Bijou and Morosco going together. It was whispered early that several prominent theatrical interests were to bid for the property, but the heart was taken out of them when Robert E. Dowling, president of the City Investing Company, was known to be after the plots.

Somebody representing a big theatrical firm bid $700,000 for the Astor Theatre land, the building of which has a leasehold tenure of forty-two years. Mr. Dowling calmly jumped it $25,000, and then successively raised every bidder until his bid of $790,000 was final. The Astor Theatre is under lease to Bimberg, and soon after the sale it was reported that Mr. Dowling had offered the flat sum of $700,000 for the leasehold, which was promptly refused.

The Bijou and Morosco, which adjoin the Astor in Forty-fifth street, were sold as one. These two properties are under lease, which has fifty-one years yet to run, at the end of which time the landowner is to buy the buildings. Mr. Dowling started his bid for the tract at $300,000 and had only half-hearted competition, buying at $350,000.

The first property to be offered was 150 West Forty-sixth street, which went to H. Rosenberg for $45,000. This property consists of a four story business building. The adjoining building at 148 was sold to Charles Globy for $43,000.

Pincus & Goldstein bought five four story dwellings, each 20x100.5, at 239 to 247 West Forty-fifth street, for $31,500. The same people also bought 251 to 257 West Forty-fifth street for a total of $202,625. Edward Margolies bought the houses at each end of this plot, paying $55,500 for 249 and $43,000 for 259. J. J. Shubert paid $70,000 for 261 and 263, adjoining.

Taken all in all, the prices obtained were high. There were a number of parcels which were sold subject to leasehold. These brought good prices. Where possession could be obtained shortly the competition was keener. The parcels in which the fee to the land as well as the buildings was sold brought exceptionally high prices, tenants being ranked among a number of the successful bidders.

After the sale was over Mr. Day said: "This sale will go down in history as the greatest sale of improved property ever held up to the present time. Those who bought at the Asotr estate sale will make good profits. With the forced liquidation by the banks of people speculating in different commodities this sale, when one considers the figures, has made a record for stability of real estate."

J. Clarence Davies said: "The prices obtained today may look high today, but a few years hence will appear very cheap. Every one who bought at this sale will make money."

Lewis S. Morris, the attorney for the plaintiff, said: "We consider the sale very satisfactory. In most cases the prices obtained for the properties were higher than the assessed valuations. The properties most in demand were those upon which leases expire this spring."

Full details of each parcel sold will be found in the record section of this issue under the heading of "Auction Sales."

Plenty of Money for Building

(Continued from page 339)

measure there is bright. The constitutionality of a rent commission bill has been raised at several hearings, but in spite of this the enactment of such a measure is not altogether unlikely. The advocates of some form of rent commission bill point out that the courts in recent years have been liberal in the interpretation of constitutional questions and cite the recent decision of the United States Supreme Court in the Steel Trust case as against Federal Judge Landis' decision in the Standard Oil case where the facts were not wholly dissimilar.

The suggestion for a tax on excess profits from real estate comes from men in the Legislature who have been hit by increasing rents. This proposal calls for fixing a 10 per cent. net income on the real property values, and this idea has been incorporated in several bills already introduced. Stringent provisions to prevent leasing and re-leasing with additional raises in rent with each exchange of control of property are also suggested.

There is a bill now in process of drafting aimed at the unfair landlord which stands a good chance of passing. This measure will reserve to fair landlords the right of summary dispossession, but it will be so drawn with restrictions that a profiteer going into court to evict a tenant who refuses to pay a higher rent will be forced by the court to effect an agreement with the tenant under penalty of having the court grant a long stay of the dispossess writ, thus forcing the landlord to engage in lengthy legal proceedings to recover possession of his property.

Review of Real Estate Market for the Current Week

Auction Sale of Henry Astor Estate Properties Outstanding Feature of Period in Which Figured Numerous Large Transactions

CONDITIONS in the real estate market often are more accurately gauged by a single event than by a series of transactions of moderate or average proportions. That is what has been realized during the last week. Generally speaking, and except for one notable exception, the deals during the six-day period have not been exceptional either in number or importance when compared with those of similar extent of time during the last few months. There have been the usual large number of sales and some of them have involved capital and other considerations which would have marked them as notable in a less active and widespread market than has existed for a half year or more. Leases of record breaking figures in one or two instances, fixing new foot valuations on prominent thoroughfares, have also figured in the real estate transactions of the week. But the market is so broad and the number of deals so great, with the amount of money involved so large that these individual transfers of titles or leaseholds have taken place without undue excitement and with only passing comment.

The auction sale of the Henry Astor Estate properties, however, held several days ago, is still the subject of talk in all real estate offices and among the isolated real estate owners throughout the city. The more than favorable prices realized at the sale indicates a very firm undertone to the whole realty fabric, to the immense gratification of all those interested in any way in New York City property—a resale of one of the parcels, at a truly remarkable advance over the auction price, which in itself was noticably good, shows that the top of the market has not as yet been reached.

There are other considerations brought to the fore by the distribution of this large holding among a considerable number of owners, the chief of which is the fact that in the most accessible section of Manhattan there will be up-to-date development of properties instead of a continuance of a policy of allowing valuable plots to remain vacant or in a state of partial decay or a tleast of unattractive repair and with the appearance of bye-gone usefulness and an absence of modern improvements, which tells to the disadvantage of surrounding property particularly and of the whole city in general.

The Henry Astor disposal sale marks an epoch in the development of the Heart of New York.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 147 as against 125 last week and 99 a year ago.

The number of sales south of 59th street was 67 as compared with 45 last week and 30 a year ago.

The number of sales north of 59th street was 80, as compared with 80 last week and 69 a year ago.

From the Bronx 72 sales at private contract were reported as against 55 last week and 91 a year ago.

Statistical tables, indicating the numbebr of recorded instruments, will be found on page 351

72d Annual Statement of the Liverpool and London and Globe Insurance Company, Ltd.

The statement of the United States branch of the Liverpool and London and Globe Insurance Company, Ltd., a stock company that has been doing business in the United States for 72 years, as of December 31, 1919, shows total assets of $18,710,036.65, with unearned premiums and other liabilities of $12,959,434.62, leaving a surplus of $5,750,602.03. The assets include $419,000 in real estate, $1,960,750 in first mortgage on real estate, $4,786,346 in Government, State, County and Municipal Bonds, $5,531,158.20 in railroad and other bonds and stock, besides $2,772,864.93 in cash in banks and offices.

A notable fact in connection with the company is that its securities are placed in trust with influential American citizens for the satisfaction of the company's claimants in the United States. The Directors or Trustees of the United States branch are: Walter C. Hubbard, of Hubbard Bros. & Co.; Thatcher M. Brown, of Brown Bros. & Co.; Wm. H. Wheelock, of Brown-Wheelock Co., Inc.; Edw. W. Sheldon, president, United States Trust Co. The assets of the United States Branch of the company are largely in excess of the liabilities.

Activity Near New County Court House.

Charles F. Noyes Company has sold for the Jaffray Realty Company to Sigsbee Graham a group of three modern five and six story loft buildings at the northeast corner of Leonard street and Benson place. The properties are known separately as 109-111 Leonard street, a 6-story building on plot 42.5x81; the adjoining parcel on Benson place is a 6-story building on plot 43x45, and the 5-story building at 113-115 Leonard street, 42.7x124. The combined plot has frontages of 124 feet on Benson place and 85 feet on Leonard street, and is located directly opposite the New York Life Insurance Company's building, occuping the entire block bounded by Leonard street, Broadway and Lafayette street. The property is one of the finest parcels that has been offered for sale.

A few years ago the property was entirely rebuilt from plans of Frederick Putnam Platt, and each building has electric elevators, steam heat and all improvements. The properties originally carried $585,000 first mortgage, held by one of the large insurance companies. The management of the buildings has been placed exclusively with the Charles F. Noyes Company.

Mr. Graham, who has purchased several dozen buildings through the Noyes Company in the lower east side district, and particularly in the vicinity of Maiden Lane and William street, in commenting on this latest purchase stated: "For some time I have been attracted to the property located on or close to Broadway, between City Hall and Canal street, and particularly in the district lying just west of Lafayette street where the demand for space is very great. It is in this neighborhood that the new County Court House is to be constructed. In a quiet way I have been buying in this new district for the past six months. I consider the property at Leonard street and Benson place that I have just purchased the best of any property I have taken over in the district. Not only is the property in this neighborhood in strong demand but firms whose business is in the district are of the very highest order, whether they are in the drygoods business, hardware, paper or import or export business. I shall cancel all leases on the Leonard street and Benson place property on February 1st, 1921, and have instructed Mr. Noyes, who has exclusive charge of my real estate, to offer the property for resale for occupancy."

Messrs. Tyler & Tyler were the attorneys for the sellers, and Messrs. Stoddard & Mark represented the purchaser.

Tenants Buy Park Avenue Building.

A syndicate of four tenants and ten others has bought the twelve-story apartment house at 850 Park avenue, southwest corner of Seventy-seventh street, from Max N. Natanson. The annual rental is said to be $175,000 and the new owners, who will operate it on the co-operative basis, expect to increase the revenue to $250,000 a year. Pease & Elliman negotiated the sale and will be agents for the new owners. The house fronts 155 feet in the avenue and 100 feet in Seventy-seventh street. It is arranged with fifty suits of from seven to ten rooms. Title will be taken by the Park Avenue and Seventy-seventh Street Corporation, incorporated with $500,000 capital, in which A. E. Outerbridge, F. H. Jones, George Richards, H. E. Moller and others are interested. Mr. Natanson acquired the house last October from Frederick Johnson, who improved the site.

Good Prices at Kennelly Sale.

Bryan L. Kennelly offered at public auction Wednesday a number of improved and vacant parcels located in Manhattan and the Bronx. There was a large crowd in the Exchange Salesroom when the first property was offered and keen competition developed for the improved holdings.

Following is the result of the auction sale held Wednesday: No. 117 West 96th street, five-story apartment, 31x100, to Therodorous Bailley for $41,500; 402 West 46th street, five-story apartment, 25x100, to Ellen G. Madigan for $31,500; 420 and 422 East 163d street, 50x100, vacant, to Philip J. Knoblock for $6,000; 376 Bleecker street, a four-story tenement, 21x70, to John H. Nueskern for $15,000; 331 West 4th street, a three-story tenement, 22x55, to C. W. McGill for $13,000; 37 Riverside Drive, four-story dwelling, 20x94, to Harry S. Hochberg for $41,000; two-story dwelling in south side of Adee avenue, between Barnes and Mathews avenues, Bronx, to John J. Monahan for $23,000; plot 100x100 in the west side of Holland avenue, 100 feet north of Burke avenue, to Tonnaso Giordano for $31,000; 128 West 130th street, a three-story dwelling, to Charles Fiedler for $9,200; 208 to 212 West Fordham road, two four-story apartments, 125x57, to J. Edwards for $86,250; 1625 Van Buren street, a two-story dwelling 25x100, to Decrosheron for $6,700.

Important Transaction on Murray Hill.

Pease & Elliman have sold for the Burnside Realty Corporation, represented by L. H. Slawson & Company, the 4-story and basement dwelling, on a lot 34x100 feet, at 238 Madison avenue, the second house below the site of the old Havemeyer residence at the southwest corner of 37th street, which for many years was the limiting point of the business invasion of Murray Hill from the north. The buyer is Frederick A. Lawlor, to whom the same brokers a few years ago leased the Senff residence at the northwest corner of 41st street and Madison avenue, a site which is to be shortly improved by the F. F. French Company with an office building for its own occupancy. Mr. Lawlor is an art dealer, and will use his new location for business.

Loft Building on West 22d Street Sold.

Edgar A. Levy, 505 Fifth avenue, has sold through Mark Rafalsky & Company, to Henry Tishman, the twelve-story store and loft building at 154 West 22d street, on a plot 62.6x98.9.

The purchaser, who was represented by Stoddard and Mark in this transaction, was influenced by the fact of this parcel being adjacent to the Seventh Avenue subway and its especial desirability by reason of its immediate proximity to the 23d Street station of that line.

The seller, who bought the building last August, owns a similar structure on the same street, at number 140, which latter has been definitely withdrawn from the market. The parcel which was sold was held at $400,000.

$1,000,000 Deal in Leather District.

Charles F. Noyes Company has re-sold for Max Marx to M. Dworetzky, one of the most prominent leather men in the "swamp" district, 5-7, 9-11 and 15-17 Jacob street, improved with leather buildings and covering a total plot of about 11,500 square feet. With this re-sale by the Noyes Company, Mr. Marx has now disposed of the fourteen individual properties purchased by him through the Noyes Company from the Central Leather Company at this point. 98-102 Gold street and 53 Frankford street have been sold to a large concern that is going to erect its own building; 92-96 Gold street has been purchased by Louis Goldstein; 9 Ferry street has been purchased by the Manufacturers Leather Company and the Noyes Company sold 11-13 Ferry street to D. John Thow; 15-17-19

Ferry street, corner of Jacob street, to Louis Eskwith, and 1-3 Jacob street to Lewis & Rosenthal. The property involved includes practically the entire block bounded by Ferry, Gold, Frankfort and Jacob streets—over 33,000 square feet of ground, most of which is improved with substantial buildings. The sales and re-sales aggregate approximately $1,000,000. The fact that an operator could purchase this property as Mr. Marx did and turn the entire properties over to separate buyers by contract within thirty days and at very high profits best evidences the tremendous demand for property in the leather district.

New Quarters for Elliman & Co.

Douglas L. Elliman & Co., Inc., have sold to David Dows & Co., owner of the fee, their twenty-one year lease of the premises, 414 Madison avenue, in which are its offices, and has leased for David Dows & Co., to Von Lengerke & Detmold, dealers in Sporting Goods, the store, basement and parlor floor at the same address. The same brokers, several months ago, leased for Todd & Robertson, to Von Lengerke & Detmold, a large store and basement space in the Equitable Trust Co. building at the southeast corner of Madison avenue and 45th street, which the tenant will occupy on May 1st, 1922, at the expiration of the present lease to the Y. M. C. A.

The space taken at 414 Madison avenue will be vacated by Douglas L. Elliman & Co., Inc., on or about May 1st, when they will move to their new quarters in their building now nearing completion at 15-17 East 49th street, where they will occupy the first three floors. The remaining space has been leased for executive offices. Among the tenants are the Pyrene Mfg. Co., Bernard M. Baruch, The National Security League, James Duane, Taylor, Inc., and others.

George Solomon Acquires the Wenoit.

"The Wenoit," a six-story elevator apartment at 604 West 112th street, on plot 87.6x100, has been sold for a client to George Solomon. "The Wenoit" adjoints the taxpayer at the southwest corner of Broadway and 112th street. There are four apartments on a floor, and the property was held at $250,000. Nassoit & Lanning, who were the brokers in the transaction, were also the brokers in the sale of 617 West 113th street, an eight-story fireproof apartment on lot 50x100.

Insurance District Extended.

Charles F. Noyes Company, in conjunction with Charles B. Van Valen, Inc., has resold for J. Early Wood No. 21 Platt street, a four-story and basement building covering plot 23x80 and located just south of Gold street. The buyer is the Underwriters' & Credit Bureau. After extensive improvements have been made the entire building will be occupied by the purchaser for office purposes. The sale is of added interest because this is the first insurance company to have actually purchased for occupancy property east of Gold street. The Noyes Company recently sold the block front on Gold street from John to Platt streets to Harry Aronson, the operator, who expects to resell for insurance occupancy. Cadwalader, Wickersham & Taft were the attorneys in the transaction for Mr. Wood, and A. S. & W. Hutchins represented the buyer.

Wilson Building Changes Owners.

Wm. A. White & Sons have sold for the Broadway-John Street Corporation, Elias A. Cohen, president, the Wilson Building at 73-79 Fulton and 54 Gold street. The property is a six-story building with a frontage of 81.7 on Fulton street and 59.4 on Gold street, comprising a plot of approximately 6,600 square feet. The purchaser is a syndicate of insurance men headed by Alfred M. Best and Wm. Otis Badger. Plans have been made to remodel the property to a modern office building at an estimated cost of $150,000. Space in the building will be occupied entirely by insurance companies and brokers.

Tenant Buys Caledonian Building.

Charles F. Noyes Company has sold in a cash transaction the Caledonian Insurance Company's building known as the Caledonian Building at No. 50 Pine street, twelve stories high, and covering lot 40x100. The property was purchased by Alberti, Baird & Carleton, Inc., a tenant, and one of the most prominent insurance brokerage firms in the district. The building will be renamed the "Alberti Building." It is the best of any structure on Pine street east of William street and adjoins the Harris Forbes & Co. building at the corner of William and Pine streets. The rent roll of the building will be approximately $100,000 and the building is valued at nearly $1,000,000. The Caledonian Insurance Company will remain in the building. Charles H. Post, manager of the Caledonian Insurance Co., handled all the details for his company.

Diamond Match Co. Buys at Springfield.

Harrison S. Colburn Co. and M. B. Howard have sold to the Diamond Match Company an important tract of land in the central part of Springfield, Mass., comprising 40 acres on the Highland Division of the New York, New Haven & Hartford.

The purchaser will immediately proceed to erect a large plant, the first unit of which will consist of steel and concrete buildings with over 300,000 square feet of floor space.

The plant will not be used for the manufacture of matches, but of machinery and supplies for other plants of the company at various points throughout the United States.

Sea Lawn Bought by Children's Aid.

The Lewis H. May Co. has sold for the Brinckerhoff Estate (Emily Brinckerhoff Extrx.) its property known as "Sea Lawn," fronting on the Atlantic Ocean at Edgemere, L. I., consisting of the Homestead and outbuildings on a plot of 7 acres, to the Children's Aid Society of Brooklyn, who recently purchased the Cheever property adjoining. The combined properties contain over 21 acres and have an ocean frontage of 100 feet, and becomes one of the largest individual holdings of ocean front parcels in the Rockaway section. Plans are completed for the erection of numerous buildings to properly house the increased demands this institution is called upon to meet.

Messrs. Wood, Cooke & Seitz represented the institution, and Fred Duncan, the sellers, as attorneys. The property was held at $85,000.

Sale of Corner of Water and Front.

Charles F. Noyes Company has sold for William C. Cammann to the Ninety-five Wall Street Realty Company the five loft and office buildings Nos. 107-9-11 Water street and Nos. 108-10 Front street. The transaction was on an all cash basis, and title will be taken during the month, and the exclusive management of the property has been placed in the charge of the Noyes Company. The property sold has frontages of about 63 feet on Water street and 42 feet on Front street with a plottage of 9,100 square feet.

Mechanics Bank of Brooklyn Buys.

Howard C. Pyle & Co., as brokers, have sold for the Mechanics Bank of Brooklyn, the office building, 205-213 Montague street, to the American Trust Company and the New York Title & Mortgage Company. The property purchased, adjoins the building now occupied by the two firms, making a plot 100x100. The entire property will be used by the purchasers, to increase their facilities, and the erection of a new building is contemplated, in the near future.

This is the fourth large transaction recently announced, in the Montague street section, which indicates the strong business requirements in Brooklyn's financial center, and means much new construction of a desirable and substantial character.

Duane Street Corner Sold.

Wm. A. White & Sons sold for the West Beach Realty Company, Howard L. Eckerson, president, to Smith & Holden, the four story building, 22.9x49.6, at 199 Duane street. The concern has occupied 201 Duane street, corner Washington street, adjoining, for the past fifteen years. The latter property was recently resold to C. V. Smith & Co. for occupancy. P. Willis Holden of 97 Warren street, is the owner of record of 199 Duane street.

Crystal Building Resold.

Frederick Brown resold the twelve story Crystal Building, 40 to 46 West Twentieth street, 107.8x92, through Arthur S. Du Cret & Co. The structure arranged in lofts, was purchased last August by the seller, and is tenanted chiefly by manufacturing concerns. It was erected by the Fabian Construction Company in 1909 and sold two years later to Mrs. Elizabeth Guggenheimer.

Max Marx Buys the Gibbes Building.

Max Marx has purchased through the Charles F. Noyes Company the "Gibbes Building," a modern, 6-story office structure at 65 Murray street and 62-70 West Broadway, held at $250,000 and with a rental value of $40,000 yearly. It is the most important of the thirty-two purchases recently made by Mr. Marx through the Noyes Company. The building has frontages of 25 feet on Murray street and 125 feet on West Broadway, contains two passenger elevators and has perfect light. It is by far the finest office building in the neighborhood and the headquarters of many prominent crockery firms. The facade of the building has been largely copied in this and other cities owing to its graceful lines with perfect light arrangement. St. Luke's Hospital represented by Miller, King, Lane & Trafford, attorneys, was the seller. A portion of the building is available May 1st, 1920, and all the space runs out in 1921 and 1922. Mr. Marx will offer the property for resale. The Noyes Company has been appointed selling agent.

Sale in West End Avenue.

Admiral Realty Company resold through Sharp & Co. the twelve-story apartment, 92x83.4x100 irregular, at 494 and 498 West End avenue, southeast corner of Eighty-fourth street, acquired last October from Thomas McCanus & Son, who erected it in 1911. The house has accommodations for thirty-six families.

Adds to Plot for Building.

Barrett Company, which recently bought the block front on the north side of Rector street, between Washington and West streets, as a site for a sixteen-story structure, has added to the site the adjoining property at 104 and 108 Washington street and 68 to 70 West street, owned by the Edgar family. The enlarged site fronts 177 feet in Rector street, 192 feet in Washington street and 173.5 feet in West street, containing approximately 28,000 square feet.

Record Brooklyn Mortgage.

The Title Guarantee & Trust Company has recorded the largest independent loan which probably has ever been made in the Borough of Brooklyn by a lending institution.

This mortgage is for $1,500,000 and covers the pier occupied by the Kerr Steamship Company and the two large factory buildings back of it, one occupied by the Kenyon Company and the other by the Vulcan Proofing Company. The whole property comprises 300x1,800 feet situated at First avenue from 57th to 58th streets, running to the water.

The Title Guarantee & Trust Company expects to offer this mortgage in participation certificates, endeavoring to relieve the lack of money for large mortgages by attempting the distribution of this very large mortgage on particularly choice property consisting of piers and commercial properties, well rented. The experiment will be watched with considerable interest by other borrowers who are waiting to be served in the same way.

Value Increases Three Times.

Park Theatre, in Columbus Circle and extending through to Fifty-eighth street, has been leased by Mrs. Nellie Flake and another, trustees, to William Cort for fifteen years from May 1, 1921, at $50,000 a year net. Last June Mrs. Flake leased the building at 8 and 9 Columbus Circle, with the exception of the theatre, to Walter Salmon for fifteen years, with a six-year renewal privilege, for about $50,000 a year net. The property was leased to the Pabst Brewing Company about nineteen years ago. The terms then were $37,500 a year net for ten years and $52,500 a year net for the second ten years. It is this lease that is about to expire and at the new rentals the owner will receive about $100,000 a year net, or nearly three times the rental of ten years ago and twice as much as it is returning today.

RECENT LEASES.

Big Leases in the Cunard Building.

It has been known in realty circles for some time that leases of exceptional magnitude have been made in the new Cunard Building now in course of erection at 25 Broadway. The names of the tenants have been so closely guarded, however, that speculation has been rife as to their identity.

The large area of the floors, comprising over 30,000 square feet, and the policy of the owners in only leasing entire floors at rentals of approximately $100,000 per annum, eliminated all but the strongest and largest concerns in the country as possible tenants.

An innovation never before attempted in the leasing of office buildings, was the making of leases for twenty-one years, so that the contracts call for payments of some $2,000,000 during the term. Some of the tenants, whose names we are now permitted to publish, are: The Owencke Corporation, with which Mr. P. A. Rockefeller is identified and whose private offices will be in the building; The International Motor Truck Corporation; Messrs. W. A. Harriman & Co.; The Atlantic Gulf & West Indies Steamship Lines; The Consolidated Steel Corporation; Robertson-Cole Company, and Todd Shipyards Corporation. Messrs. Wm. A. White & Sons were instrumental in interesting Messrs. Robertson-Cole Company, and Messrs. Brown-Wheelock & Company acted for the tenant in the lease to the International Motor Truck Corporation. All of the other leases were made by Mr. Bernard Wakefield, who is managing the renting of the building.

It is understood that the remaining floors are under close advisement by concerns of equal prominence to those mentioned above, and it is expected the building will be fully rented twelve months before the date of completion, which is May 1st, 1921.

The Cunard Steamship Company will occupy the lower three floors of the building with the exception of some banking space on the corner of Broadway and Morris street, which has been leased to a prominent national bank, whose name for the present is not disclosed.

To Alter O'Neill-Adams Building.

Plans were filed yesterday by John R. Scheier, architect, for the United States Realty and Improvement Company, for making over the five-story building at 321 to 335 Sixth avenue, 101 to 111 West 20th street and 100 to 104 West 21st street. The most southerly of the buildings at one time was occupied by the O'Neill-Adams department stores. The property had been occupied by Sonneborn & Co., of Baltimore, who leased the building in September, 1917, to manufacture army uniforms. The alterations now contemplated are estimated to cost $125,000.

High Fifth Avenue Rental.

Charles N. Noble leased for the Kemp estate for twenty-one years a twenty-foot store in 615 Fifth avenue to the Ivy Corset Company, which intends to occupy the south half and sublease the remainder to the Royal Copenhagen and Danish Art Company. The aggregate rentals involve more than $900,000, and are said to establish a new record for Fifth avenue store space.

Leases on West 44th Street.

The Rocky Mountain Club, of which John Hays Hammond is president, leased the property in the south side of West Forty-fourth street, between Broadway and Sixth avenue, where the organization planned to erect a million-dollar clubhouse. The site will be improved by a seven-story modern office building, to be erected by a syndicate in which Joseph Harbater and H. and E. Goldberg are interested.

This syndicate has bought from Laura Marston and others the four-story building at 112 West 44th street, and has leased for a period of twenty-one years with an option of purchase from the Rocky Mountain Realty Company the adjoining three four-story buildings at 114 to 118 West 44th street. The combined site, located a few doors east of the Lambs Club, measures 73.9x98.9, and is to be immediately improved. It is planned to have the structure ready by next July. S. Osgood Pell & Co. were the brokers.

BAUER, MILBANK & MOLLOY, INC., have leased the 7th floor of the Astor Court building to Campbell Ewald Co. for a term of years; also lofts to Best & Co. and the Artistic Novelty Co. at 301 West 37th st.

BROWN, WHEELOCK CO., INC., leased space in building 63-5 Wall st to Francis S. Bacon, Paul Cleland; 132 Nassau st to Henshaw & Sanders, Petro Martinto and D. L. Silverman; 23-5 East 26th st to Spies & Rieger.

CAMMANN, VOORHEES & FLOYD leased for Clarence Sackett floors at 46 West Broadway as follows: 2d floor to Dryfoos, Blume & Co.; 3d floor to H. S. Brightman & Co.; 4th floor to the Export Corporation, and space in the top floor to A. W. Kimber & Co.; also at 88 Front st offices to E. J. Moss & Co.

CUSHMAN & WAKEFIELD, INC., has leased for August Heckscher offices in 50 East 42d st to Chisholm & Chapman, J. P. Devine Co. and Burden Iron Co., and for the Vanderbilt Concourse Corporation offices in 52 Vanderbilt av to W. B. McLean Mfg. Co., Ludson R. Harrington and Daniel O'Connell & Co.

DUROSS COMPANY has leased for J. P. T. Ryan to H. F. Mulford Co., of Phailadelphia, 109 Reade st, a 5-sty and basement building, for a term of years. Charles F. Noyes Co. represented the tenant. Also the store and basement 79 White st to F. M. Lupton Co.

DWIGHT, ARCHIBALD & PERRY, INC., have leased for Guion Brothers 37-39 West 24th st for a long term of years to the 37 West 24th Street Corp. These buildings were formerly occupied by the Collizza Restaurant. The lease is significant of the changing of the character of this block between Broadway and 6th av from being one of the most popular restaurant blocks

PROPOSALS

STATE OF NEW YORK,
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS,
Albany, March 5th, 1920.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 6th, 1920, at which place and hour they will be publicly opened and read, for the construction of Barge Canal Terminals, pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

TERMINAL CONTRACT NO. 19-P.

For paving the terminal piers at Greenpoint and at West 53rd street, New York City.

Contract plans, sheets 1 and 2

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding Exchange, Buffalo, N. Y., and at the office of the State Engineer and Surveyor, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work, according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH,
Superintendent of Public Works.

LEGISLATIVE BILLS AFFECTING REALTY

Measures Introduced at Albany Approved or Disapproved by Real Estate Board of New York

THE Real Estate Board of New York is urging upon the Legislature that in view of the exceedingly grave housing shortage, some legislation should be enacted which would help to relieve this shortage. The board believes that the most direct and practical way to get this is to pass a bill exempting from the provisions of the Income Tax Law the interest on mortgages secured by real estate.

It is felt that real estate mortgages, the interest of which is taxed, cannot compete with tax free securities, to which funds are naturally attracted. This operates seriously against the production of new housing.

The board has advised the Legislature that the rent problem, or that part of it covered by those who charge exorbitant rents, should be attacked from this angle.

The Legislation and Taxation Committee of the Real Estate Board this week acted on bills as follews:

Senate Int. 600, *Pr.* 615, *Black.* To amend the Real Property Law in relation to leases in New York City.

The Real Estate Board believes that the rent legislation bills so far presented are in the main defective and would not cure the evils which they are designed to remedy. They interfere with the contractual relation of both parties and, generally speaking, disregard the rights of landlords and, some of them unwittingly, the rights of tenants. The board believes that the energies of the Legislature should be directed to legislation which would produce as rapidly as possible the new housing so urgently needed by New York City and other parts of the State. The Black bill creates a statutory lease in the absence of all other leases, which must be recorded. The board does not feel that it can approve it.

Senate Int. 630, *Pr.* 647, *Dowling.* To amend the Greater New York Charter in respect to docks, piers, harbor, port and waters; and to certain provisions of said charter relating to functions of the Commissioners of the Sinking Fund.

The Real Estate Board appreciates the necessity for proper port developments, but disapproves legislation which would deprive the Board of Estimate and the Commissioners of the Sinking Fund of authority in the New York City water front. It believes that no authority should be given the proposed commission to promote or carry out any plan before all the details, including cost of execution, should be submitted and approved and authorized by the Board of Estimate and the Sinking Fund Commission. The bill is disapproved.

Senate Int. 375, *Pr.* 410, *Lockwood (Same as Assembly Int.* 520, *Pr.* 585, *McGinnies).* To amend the Education Law, relative to the State Teachers' Retirement Fund for public school teachers.

The board does not believe that any such elaborate pension system should be set up, if at all, until the State authorities have some definite knowledge of the amount of return to be received from taxation, and especially from the Income Tax. The bill is, therefore, disapproved.

REAL ESTATE NOTES.

Mr. Fisher has been in the real estate business for about 25 years, during which time he has been actively identifid with Geo. R. Read & Co., Frederick Southack and Alwin Ball, Parish, Fisher & Co., and latterly with Albert B. Ashforth, Inc. He will now give his personal attention to any matters pertaining to brokerage, leasing and appraising both in this city and outlying districts.

CHARLES F. NOYES CO. denies the report that the ground floor of 118 William Street has been rented to an insurance company. This is the building purchased by Mr. Noyes primarily to secure a permanent home for his business. He definitely states that the ground floor of the building will be occupied by the Charles F. Noyes Company in connection with upper floors. Clinton & Russell, architects, are developing plans for the new building, which will be six stories high, with terra cotta and marble front and with every improvement. The ground floor will cover the entire lot, 25x130, and the upper floors will cover about 25x92.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two 13-story street elevations on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

Labor Troubles Still Holding Up Building Program

Difficulty Between Bricklayers and Steel Erectors Over Open Shop Is the Principal Difficulty To Be Settled

DESPITE a number of recent statements by men prominently identified with building affairs in this city that the disputes between employers and workmen would be speedily settled and the industry again resume its former activity little progress in clarifying the labor situation has been made during the past week, and it now appears as if the differences between the employers and the trade unions, notably the brick layers and steel erectors, would not be settled for some time. It is possible that the existing difficulties between employers and trade unions may result into a long drawn out affair that will require at least five or six months for settlements. This would bring the building industry into the latter part of the year without accomplishment of any of the ambitious program outlined early in 1920.

There is no question about the urgency of the demand for additional buildings in the metropolitan district, but progress in this regard is utterly impossible as long as workmen and employers remain at loggerheads.

Although the labor situation is apparently stabilized in the outlying sections of the metropolitan district recently there have been slight disturbances that have to some extent affected the mental attitude of the industry in Greater New York.

One of these was the circular letter recently sent out jointly by thirty leading building material dealers of Hudson County, in which they informed their customers that in future they had determined to conduct their business on the "open shop" principle. Among the dealers co-operating in this movement were sixteen who recently obtained an injunction from vice-Chancellor Foster in Newark restraining strikers from picketing and well-known officials from aiding the strikers with money and certain other supporting measures.

The letter says in part:

"The dealers in building materials, lumber mill work and masons' materials in Hudson County have determined to do business as open shops. About four years ago most of the lumber yards and masons' material dealers entered into closed shop agreements with the Hudson County Building Trades Council and locals of the United Brotherhood of Carpenters, and influenced, and in many instances compelled, their employes to join unions, even payig their initiation fees to get their employes to join the unions and continue in their employ.

"Causes which brought about the termination of the closed shop agreement seem to the dealers to lie in the fact that the union leaders cannot agree on reasonable conditions in such agreements.

"The closed shop agreement, when it covers an entire territory or industry, is an unlawful one, and has been so adjudged by the courts of Connecticut, New York and many other states and lately, in the Hudson County suit, by the courts of New Jersey.

"Strikes, corruption, assaults, broken contracts, secondary boycott, fines on employe and employer, expulsion from the union, idleness, denial of right to work and do business, reduced production, artificially high prices and high cost of living are the companions of the closed shop agreement.

"That is too high a price to pay for the peace offered by the labor leaders."

At the recent annual dinner of the Westchester County Building Trades Employers' Association James Herron stated that the greatest menace to our country today is the spirit of avarice and demands for high wages. Mr. Herron claimed that trade unions, or disunion, as he called them, must go, for the system of collective bargaining has no place in the high standard of American ideals.

Ronald Taylor, president of the Building Trades Employers' Association of New York City, was another speaker at this banquet, and he recommended a series of luncheon meetings, where the employers affiliated with the building industry from New Jersey, Westchester County and Long Island would meet with those of New York City to formulate some plan for co-operation between all these interests in the metropolitan district.

There is a growing feeling among building interests in the metropolitan district that a closer cooperation between representatives in its various districts will greatly assist in solving disturbing problems.

Frank N. Goble, chairman of the Westchester County Wage and Scale Committee, spoke of the recent attempt to make contracts with the various trade unions affiliated with the industry in the county and he claimed that the unions were in nearly all cases meeting and treating the employers fairly, although, in a few instances, they had decided not to sign wage agreements for the coming year.

Brooklyn Chapter A. I. A. Active for Boroughs' Welfare

Decide to Award a Certificate of Merit to Architects Who Design Structures that Will Assist in Making a "City Beautiful"

AT the regular monthly meeting of the Brooklyn Chapter of the American Institute of Architects, held last week at the Crescent Club, a number of interesting matters were discussed and important matters affecting the growth and development of the organization were settled.

One of the most important of the subjects under discussion at this meeting was the advisability of inviting all of the draftsmen in the various architectural offices to become associated with the Brooklyn Chapter in some manner to be later decided upon. It is believed that the monthly meetings of the chapter can be made instructive to all of the younger men in the profession. Since the war many of the draftsmen have been engaged in different parts of the country, and a number have been employed on large industrial enterprises. An effort is now being made by the labor interests to "unionize" draftsmen, and this does not appear to meet with their approval, as they desire to remain independent and seek employment under such terms and conditions to which they are best adapted by temperament, education and ability.

The building situation was also discussed at considerable length, and it was the consensus of the meeting that a determined effort should be made by the financial interests identified with construction work to stimulate production. Many of the brick yards at present are practically idle or operating to a limited extent of their capacities and it was brought out that this conditions has caused common brick to advance in price during the past few years to a point where it is now bringing $25 a thousand wholesale in cargo lots and upward of $30 a thousand delivered on the job site.

The architects at the meeting declared that with some real financial co-operation home-building industries would be stimulated and this would result in lowering the excessive rentals that are charged by landlords today. The housing situation is serious; it is absolutely acute in Brooklyn and its adjacent districts. Bankers at present do not desire to loan funds in view of the high cost of building materials, but if the producers of these commodities could operate their plants so as to increase production it is thought that prices would be reduced to an extent that would have a corresponding effect upon building costs as a whole.

At this meeting of the Brooklyn Chapter the report of the committee for the certificate of merit was read and adopted. The report is as follows: "The committee recommends that a Certificate of Merit to given to the owners and architects responsible for the best designs in the construction of buildings, store fronts, and architectural operations of merit constructed during the year 1919 and thereafter.

"The architectural profession has suffered considerably during the European war and this recognition by the Brooklyn Chapter of any meritorious design or building operation will constantly keep the Brooklyn Chapter before the public as a vital force in the community, and we believe the example will be emulated for the good of the profession in all parts of the United States.

"A committee of three members of the Brooklyn Chapter, to be appointed by the president, shall inspect and report on the artistic qualifications and merits of said building operations or design and make recommendations at the next chapter meeting. A majority vote of the members present at any regular meeting shall be necessary to award a Certificate.

Activity of Architects Indicate Busy Building Season

Figures Compiled by F. W. Dodge Company Show Recent Improvement in Projected Construction and Jobs Placed Under Contract

IMPROVED weather conditions have considerably brightened the local building outlook and architects and engineers have lately been especially busy upon the preparation of plans for new building and engineering construction that undoubtedly will be commenced within a relatively short time. There has also been a decided increase in the volume of new construction placed under contract during the past week or so and provided there is no added difficulty in obtaining essential building materials and the labor disputes are adjusted, the forthcoming season will be one of intense activity in the structural field.

According to figures prepared by the F. W. Dodge Company, showing the volume and value of new building and engineering construction in New York State and New Jersey, north of Trenton, the week of February 28 to March 5, inclusive, indicated greater activity among building interests than has been noticeable during the two or three week previous Reports gathered throughout this territory indicate that a total of 330 new projects were being planned by architects and engineers that will require an outlay of approximately $24,251,600. During the same period and in the same territory 117 contracts were let, representing a cost of $17,655,500.

Among the 330 operations for which plans were being prepared during the week of February 28 to March 5 were included 88 business and commercial buildings, $6,238,000; 10 educational projects such as schools, colleges, libraries, etc., $3,519,000; 3 hospitals and institutions, $100,000; 31 factory and industrial buildings, $6,492,000; 4 public buildings, $77,000; 14 public works and public utilities, $1,619,600; 7 religious and memorial projects of various types, $397,000; 158 residential projects including apartments, flats and tenements and one and two-family dwellings, $5,048,000; 14 social and recreational projects, $758,000 and 1 not otherwise classified, $3,000.

The list of 177 operations for which contracts were awarded during the week of February 28 to March 5 included 37 business projects such as stores, offices, lofts, commercial garages, etc., $2,773,600; 8 educational projects of various types, $1,540,300; 3 hospitals and institutions, $202,000; 28 factory and other industrial projects, $10,062,100; 2 public buildings, $104,500; 14 public works and public improvements including street openings, paving, sewers, water works, bridges and culverts, etc., $599,500; 1 religious structure, $75,000; 80 residential operations of different types, $1,977,500 and 4 social and recreational projects, $321,000.

PERSONAL AND TRADE NOTES.

D. H. Brillhart, for the past four years manager of Bethlehem Fabricators, Inc., Bethlehem, Pa., and George R. Brothers, who was in charge of the New York sales office of that organization, have incorporated as Brillhart-Brothers, Inc., to engage in general engineering and construction work. Mr. Brillhart graduated from Lehigh University, Bethlehemm, in the class of 1906 and for seven years has been with the Bethlehem Fabricators, Inc., and has served as chief estimator, designing engineer, shop superintendent and manager. Prior to his connection with Bethlehem Fabricators, Inc., he was engaged in railroad construction. Mr. Brothers graduated from Lehigh University in 1908, and for a time was general superintendent of the Bethlehem Construction Co. and for two years prior to that was supervisor of construction at the Lehigh plant of the Bethlehem Steel Co. For four years he was in charge of the engineering department and shops of the Richmond Structural Steel Co., Richmond, Va. Brillhart-Brothers, Inc., will locate their business in Bethlehem.

Competition for Landscape Architects.

A competition for the development of a small country plot, the winner of which will be shown in miniature form, will be held in connection with the "Own-Your Home" exposition at the Grand Central Palace under the auspices of the New York Chapter of the American Society of Landscape Architects, the week beginning May 1.

The object of the competition is to obtain the best design for a plot at the intersection of a supposed avenue and a street; 144 feet on the avenue and 270 feet on the street. On one side the plot faces a sandy beach. The street runs at right angles to the beach and ends at the high water line. A minature house, greenhouse and garage for the site are now being built. According to the terms of the contest there must be flower and vegetable gardens. Any other features are left to the discretion and judgment of the competitor.

Three drawings are to be submitted by the contestants: A general plan on mounted paper, rendered; a planting plan, drawn in ink on tracing paper, and a drawing on mounted paper showing such details as the designer wishes, to explain its work. The scale of all drawings is to be that of the topographical map. The size of the drawings is to be 26x38 inches. The general plan should show grades by figures, no contours. No fences are permitted on the boundary lines.

Any medium may be used in rendering the drawings. More importance, however, will be given to the logical and artistic planning of the plot and the selection of materials in regard to fitness to local conditions and their effect than to the presentation which shall not go beyond what is strictly necessary to make the plans intelligent.

Three prizes, of $125, $75 and $50 will be awarded for the three best designs. Drawings are to be sent to the "Own-Your-Home" exposition at the Grand Central Palace not later than March 27. The judges in the competition are Charles Downing Lay, Gilmore D. Clarke and Noel Chamberlin. A copy of their report will be sent to each contestant. It is open to all members of the New York Chapter of the American Society of Landscape Architects, all draughtsmen and junior draughtsmen employed in offices of practicing members of the chapter and students of landscape architecture at Cornell University.

"Estimating Concrete Buildings."

The Aberthaw Construction Company of Boston has just published a book, entitled "Estimating Concrete Buildings," by Clayton W. Mayers, that will undoubtedly prove of great value to engineers and builders of concrete structures. Estimating the cost of constructing concrete buildings is a process concerning which the majority of architects, engineers and contractors have still much to learn. Indeed, so far as is known the book recently written by Mr. Mayers is the first to be published on this subject.

Pioneer though it is, "Estimating Concrete Buildings" is an extremely clear and well arranged treatise. Starting with the most elementary considerations, it explains each successive step in estimating a building, part by part. The sum of the parts constitutes a complete estimate, which is reproduced in facsimile. An additional section discusses methods of establishing unit costs.

Although the price of $1 has been set upon this book, the Aberthaw Construction Company announces that it will provide free copies to architects and engineers and to technical schools that may wish to adopt it for classroom purposes.

TRADE AND TECHNICAL SOCIETY EVENTS.

National Wholesale Lumber Dealers' Association will hold its annual meeting at Washington, D. C., March 24 and 25.

National Federation of Construction Industries will hold its annual meeting and convention at the Hotel Sherman, Chicago, Ill., March 25 and 26.

National Wholesale Lumber Dealers' Association will hold its annual convention at the New Willard Hotel, Washington, D. C., March 25 and 26.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

Associated Manufacturers of Electrical Supplies will hold their annual convention in New York City, March 18. Details and program will be announced later.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

New Building Firm Organized.

James F. Meehan Company Builders, Inc., have just opened offices at 224-6 West 34th street, as general builders and contractors. The following are the officers of the company: James F. Meehan, president; L. M. Neckerman, secretary, formerly secretary of Wm. L. Crow Co., 103 Park avenue; Edward Shaw, treasurer. The company have just completed the large New Elisberg Hotel, Lakewood, N. J., and are now organized to give architects and engineers any building data they may desire.

CURRENT BUILDING OPERATIONS

INCREASED activity in building circles has been noticeable during the past week and as the spring approaches it is anticipated that conditions in the industry will improve materially. The principal deterrent to real progress at present is the continued strike of the bricklayers and the difficulty between the steel erectors and the trade union over the question of open shop. These two disturbances have been responsible for halting a large amount of active construction in this city and, as a matter of fact, have also prevented the award of contracts for a number of important operations for which the plans are already drawn and all preliminary arrngements completed. Negotiations having for their object the settlement of these disputes are now under way and it is hoped that before long the labor situation will be thoroughly cleared up so that the building industry can proceed with its program of new construction.

The building material situation has recently developed a number of serious aspects. In some lines there is a decided shortage and dealers are pushing manufacturers in an effort to speed up production. The demand for building materials and supplies, although somewhat restricted now on account of the existing conditions, is considerable, and just as soon as the retardent factors are removed a tremendous buying movement is expected that will in all probability be responsible for a mad scramble by builders to get materials, with prices a secondaray consideration. At the present time building material prices are holding firmly, but with a constantly advancing tendency, and, although statements have recently been made that the topmost levels have been reached, it is quite likely that further advances will be announced shortly.

Common Brick.—Owing to the continued strike of the bricklayers the local wholesale market for Hudson River common brick passed through an exceedingly quiet week. At the present time there are but a relatively few jobs going ahead in this city, and the out-of-town construction is largely of frame, so that has but little effect upon the brick situation. Two barge loads of brick were disposed of during the week at $25 a thousand, the price that has now maintained for some time past, and from all accounts this level is not likely to change until the river opens to navigation and new brick arrives. Hudson River producers are starting their plans for this season's operations, but it will be a month or six weeks before brickmaking can be started.

Summary.—Transactions in the North River common brick market for the week ending Friday, March 12, 1920. Condition of market. Demand light; pries firm and unchanged. Quotations: Hudson Rivers, $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, none; sales, 2. Distribution: Manhattan, 1; Brooklyn, 1; covered, 1.

Lumber—The formation of the American Lumber Association by leading Wholesale lumber dealers of the United States has just been announced. The new association will begin operations the latter part of this month with headquarters in Chicago. Its membership comprises wholesale lumber dealers in all important American cities with selling connections in all parts of the world. L. Germain, Jr., head of a large concern in Pittsburgh, has been selected as president of the new organization, and L. R. Putnam, of New Orleans, who resigns as director of adver-

tising and trade extension for the Southern Pine Association, has been appointed manager. The American Lumber Association will have nothing to do with the naming of prices on lumber, which will be fixed by the producers as at present, but a marked reduction in the cost of handling the American lumber output, which a recent survey has shown to cost manufacturers more than $50,000,000 annually, is expected to result from the new association. In addition to standardizing and systematizing of buying and distribution of lumber for the world's trade, the association has already mapped out a program of conservation of the nation's lumber resources. Under the existing system, only 37 per cent. of the tree is marketed. The remaining 63 per cent. rots in the forest as stumps, limbs and tops.

Structural Steel.—Although large building operations in Greater New York have been held up by the dispute between the steel erectors and the workmen about the matter of open shop, there has been considerable new business placed during the past week and the mills are booked up for months ahead with orders for fabricated material for new building projects. Among recent tonnage bookings were included 5,300 tons for the Liggett-Winchester-Ley Building, at 42d street and Madison avenue, awarded to the McClintic-Marshall Company; 4,000 tons for the office building in Wall street for the Munson Steamship Company, to the American Bridge Company, and 1,200 tons for the International Sporting Club, of Lexington avenue, to the American Bridge Company. Plans are under way for a number of other important structural projects in the metropolitan district that will require an immense total tonnage of fabricated material, but these plans will not be ready for estimates for some time to come.

prices are fluctuating somewhat.

Window Glass—It has been reported that if some of the factories accepted all of the business offered to them they would be able to tie up their total output for the next two years. Both manufacturers and jobbers declare that there has never before been such a shortage of both plate and window glass as exists at the present time and from all accounts the situation is not likely to be greatly relieved during the remainder of this year. Prices generally are nominal and subject entirely to the stocks on hand at specified time of delivery. Building interests are offering almost any price for supplies, and in numerous instances are entirely willing to accept inferior grades in order to complete their projects.

Building Stone—Although there has been no heavy demand for this material during the past month or so the prospects for early spring business are bright. Stone prices are considerably higher today than they were during the past year, but it is felt that the present levels will hold for a while unless increased freight rates make further advances imperative.

Linseed Oil.—The market is very quiet and prices are unchanged. There is a bright prospect for increased business within the next two or three months, however, as the spring season usually brings greatly increased building activity and improved buying for repair and alteration work.

Roofing and Building Papers.—Demand is strong and dealers are finding their stocks dwindling and new supplies rather slow in coming from manufacturers. Since the recent advance there has been no further change in prices, but buying interest seems to have increased considerably.

Seventh Avenue Industry Once More

Convinced that Central Station Service is both economical and reliable the third large building of the new needle industry group on Seventh Avenue has followed the example of its predecessors and receives the current for the 7,000 lamps and 340 horsepower from the mains of The New York Edison Company

This sixteen story structure to be erected by the Armion Realty Corporation at 469-479 Seventh Avenue is to be equipped for light manufacturing only, the major part of the power installation being to supply current for the operation of the six elevators, the pumps and the ventilating apparatus

This is the third building of this new industrial group to install *Edison Service* since the first of the year

Let our engineers estimate on your lighting and power needs

Artificial Stone is growing in popularity

Unlike other Building Units, Artificial Stone is a NON-CONDUCTOR of DAMPNESS, COLD and HEAT. It reduces building costs and expedites construction. A wide variety of facing effects produced with crushed granite, marble, brownstone, Indiana limestone, carborundum, etc., makes it a sightly stone for every type of structure and its durability insures the lowest possible maintenance cost.

We court investigation of the most searching kind, and are always pleased to go over the subject in greater detail with anyone interested in building for permanence, beauty and economy.

DISTINCTIVE MARBLE WORK

OUR facilities for supplying marble and executing contracts with promptness and dispatch are exceptional. We specialize in the interior marble work and use only the most carefully selected marble, of which we have a large stock constantly on hand—imported as well as domestic. We have executed contracts for marble in many prominent structures, and shall be glad to send you a partial list of these on request.

MAY WE HAVE THE OPPORTUNITY TO WORK WITH YOU ON YOUR NEXT UNDERTAKING?

Architects and Engineers are specifying and demanding

STEELBILT
Toilet Partitions

in preference to those made of ordinary materials.

STEEL has exclusive advantages. It is non-absorbent and therefore sanitary. It does not crack; in fact, is indestructible. It has a neat, clean appearance. Costs less than other substances and is more easily and economically erected. It is the *logical* material.

STEELBILT Toilet Partitions are made in standard sizes, some of which are carried in stock for quick delivery. Partitions and doors are made in units, of sizes to suit any plan layout.

Write Dept. "R" for full particulars and a copy of our architects' specification sheet.

Another Jump of $21,000,000

The finance committees in the Legislature have completed the state budget for 1920-1921 and dispatches from Albany show an increase of more than $21,000,000 in the total appropriations for the coming fiscal year. When the Legislature of 1919 produced a budget totaling $95,868,000 for the fiscal year through which we are now passing the hearts of taxpayers, from one end of the state to the other, were filled with dismay. Within the short period of twelve months, however, the Albany officials have found ways and means of spending in the next year $21,000,000 more than they found use for in their last efforts at budget-making.

The Citizens Committee on Reorganization in the State Government, of which Mr. George W. Wickersham is chairman, predicts that unless some method is found of halting enormous expenditures at Albany, a budget of $250,000,000 a year will be saddled on the taxpayers of the state by 1925. It is pointed out that in 1914 the state's expenditures were $47,000,000. Five years later the appropriations had doubled, and even now there is no indication that the Albany officials have reached anywhere near the limit.

The present appropriation bill proper carries items aggretating $74,998,603 for the new fiscal year and to these must be added a total of $41,887,276 of appropriations for which provision is made in other bills. It is estimated that the revenues of the state during the period will total $103,109,484, including approximately $15,000,000 of direct state tax. It would be necessary to raise nearly $14,000,000 more to meet the new budget but for the fortunate circumstance that a cash balance of $19,863,553 is indicated in the State treasury when the new fiscal year begins July 1 next.

In official statements from Albany discussing state finances there can be detected a tone of apology on the part of officials because still further appropriations have not been made in the year's budget. Various reasons for not making additional appropriations are given by the leaders, but nowhere can the overburdened taxpayer detect any desire to check, let alone to reduce, the lavish expenditure of the public's money. In fact, some of the official statements from Albany point out how next year the situation can be made worse than it is at present.

The new budget makes clearer than ever the necessity for the prompt reorganization of the state government. The 150 state departments, boards and agencies now in existence at Albany should be consolidated or abolished. The Governor should be clothed with such power as will enable him to be in fact as well as in name the executive head of the state government. His terms should be extended to four years so that he will have sufficient time in which to put into effect actual economy in administration. What Governor Lowden has done in Illinois, Governor Smith or any other equally experienced and capable governor can do at Albany if given the opportunity. The proposed amendments to the State Constitution paving the way for a concrete, economic handling of the state's business should be passed by the Legislature and submitted to the people as soon as possible. Until that is done, it becomes more evident every day, no relief can be expected from further increasing tax burdens at Albany.

Why Building Is Held Back

There was brought to the front at Mayor Hylan's conference on the housing shortage one of the most important and disturbing phases of the perpetual conflict between the employers and the workmen—the question of the open or closed shop. The Mayor, fortunately, at once recognized the fact that until the labor situation is cleared up there is little use in attempting to solve the problems of finance and stabilization of the prices of building materials. He has called together the principal representatives of the warring labor unions for the purpose of first adjusting their differences, which have been holding up the building program since January 1.

Perhaps the Mayor will not try to find a solution of the fundamental principle involved in the statements made by the representatives of the Bricklayers' Union and the Steel Eerectors Association at the conference last Monday. There are political bombs hidden in it. But that this issue must be fought out and settled one way or another at an early date is the conviction of many men in all branches of the building industry. The continuation of unionism is not at stake, but what unionism stands for or should stand for if it is to command further respect and support is the matter that must be clarified.

When a union of the strength of the Bricklayers' Union, with a record of thirty-five years of comparative peace and cordial relations with the employers, balks at control by an association of unions like the Building Trades Council, composed of organizations that naturally affiliate because of the interdependence of the workers upon each other in construction work, it is time for union officials to closely scrutinize the attitude of unionism to see if it is in conformity with American ideals and whether it is not placing itself in danger of causing a revulsion of opinion, heretofore favorable to unionism, in that great body of the American people which has not adopted, and is unlikely ever to adopt, collectivism in the control of its working conditions.

When the same union which refuses to allow other unions to influence it in the making of contracts with employers, or to participate in the formulation of its wage scale, publicly refuses to work on buildings which have been partially constructed by non-union labor, it sets up a standard for itself that is indefensible. The Bricklayers' Union refuses to join with the Carpenters' Union and other building trade unions in fixing wage scales and in making agreements with employers. It asks for a rate of pay in excess of that satisfactory to men in other unions. At the same time by refusing to lay bricks on buildings the steel frame of which has been wholly or in part erected by non-union labor under the open shop plan (which does not discriminate be-

tween union and non-union men in giving out jobs) it throws difficulties in the way of obtaining of work by any man who does not subscribe to the tenets of unionism. The bricklayers refuse to let good union men dictate to them, but they set themselves up to deliver an ultimatum not only to employers but to other union men and to non-union men. The two ideas are conflicting and incompatible.

The situation is not new, because unionism has always held to the dictum that it will not participate in work on which non-union men are employed. But it has now come to be recognized that unionism cannot ask one thing for itself and deny the same thing to others. That there shall be special regulations or laws under which a minority shall dictate what shall be done for the majority, the penalty being the interruption of work which is of prime necessity for the community, is not in accordance with the fundamental principle on which this government was founded.

The strike and the closed shop are declared by union leaders to be their most effective weapons of offense and defense. But if once they were necessary to force recognition of unionism on employers and give it a place in the economical life of the community they have achieved their usefulness. They have been used too often against the general good of the whole people to be tolerated much longer. The attitude of the public towards them may be judged from the position taken by public officials in the Boston police strike, the steel strike and the coal strike. Americans have submitted in the past to the employment of the strike and the institution of the closed shop because it recognized that unionism offered a constructive plan for the betterment of workers, of which there was great necessity, and it wished the movement to succeed. But it will refuse to submit to dictation of this character when, as in the ultimatum of the Bricklayers' Union, it becomes established that the strike and the closed shop are being used for selfish ends by a small class of workers, and to the manifest disadvantage of their fellow workers and the public.

The splendid record of union workers during the war served a purpose other than merely proving their patriotism. It established the fact that unionism, which had started out to better conditions for poorly-paid workers, compelled to long hours of labor to gain a livelihood, had allowed itself to fall into the mistake of recognizing the average as the maximum of a day's work. What had been paid for as a full day's work under union wages before the war was not a real measure of a workman's capacity for work. If it had been there would have been no bonuses paid during the war because workers would not have been able to increase their production over that which was their measure before the war.

With the lesson of the war before them it should be apparent to union leaders that the most effective safeguard for unionism is to make the union label stand for full efficiency and loyalty in the relations of the workman to his employer. In the business world a trade mark or a patent right is of no value unless it comes to mean real quality of material, good workmanship and full value. Millions of dollars are spent in establishing the truth of these claims. When employers have been convinced that a union card means that its holder will serve him with honest effort, true efficiency and vigilant loyalty there will be no need even for weapons less effective than the strike and the open shop to obtain recognition of the union. Union labor will be at a premium and employers will be on the waiting list for a chance to get workmen who by the terms of membership in their unions are not only required but are willing to return a real day's work for the high wages paid to them. When that day comes, instead of having to employ walking delegates to canvass for new members the unions will be obliged to scrutinize the applicants for membership with closest attention lest men who would bring disrepute on the union label shall steal into the organization.

Mayor Hyan, in his conference with the representatives of building trades unions, can do them no greater service, as the friend of labor he professes to be, than in pointing out these very pertinent facts.

After All It Comes Down to God's Law of Supply and Demand—Nothing Else Counts.

(Editorial from the New York Sun-Herald.)

When Mayor Hylan, the Metropolitan Life Insurance Company and other important New York influences and interests undertake to get $100,000,000 of capital put into building new homes they start right. This is an economic job, pure and simple. The natural laws make no distinction between the market for palaces and the market for sirloin steak, the market for cottages and the market for cabbages. If there are too many of any or all of them the selling price or renting price will be low. If there are not enough of them the price will be high. When Mayor Hylan and others tackle this practical job in a way to increase the supply they are going to get somewhere.

Until now nearly every single thing that has been done or said about this problem of the housing shortage has tended to make it worse by discouraging or preventing new construction.

Union labor, howling for lower rents, has refused to work on buildings at wages which would permit them to be put up at reasonable costs and let at reasonable rents.

Leather brain legislators writing balls to regulate rents have simply proposed to suppress the building of houses for rent.

Public administrators seeking to enjoin property owners from getting a fair return on their investments have simply served notice on all other investors not to put any of their money into real estate.

Politicians, pulpiteers and editors declaiming about the dollar of the tenant having been cut in half have shut their eyes to the truth that the dollar of the landlord has also been cut in half. Just like other folk, he has had to put two dollars into construction and equipment where before one dollar would do. He has had to put two dollars into maintenance where before one dollar would do. And then, when he got his profit out, if he got any out, every dollar of it, like any other man's, would buy for the landlord's own living and the living of his family only half what it used to buy.

The sum total of last year's deficiencies, those that have been created since and those that are still to come from natural increase of population during the rest of this year, might run as high as 150,000. If then, the cost of housing a family can be held down to an average of 5,000, it will take not merely $100,000,000, but three-quarters of a billion of dollars to meet the truly desperate situation in anything like adequate proportion.

Problems Mayor Hylan's Housing Committee Must Solve

Review of the Conference of Financiers, Builders and Labor Men Outlines Some of the Involved and Conflicting Interests at Stake

IN response to Mayor Hylan's invitation there assembled in City Hall last Monday the most representative company of men interested in the various phases of the building industry that has been gathered under one roof in a long time. For five hours the leaders in the building loan market, the largest manufacturers of building materials, the most active speculative builders, the best known contractors, the officials of employers' organizations and the accredited representatives of building trades unions threshed out in the presence of the municipal authorities and in the hearing of many citizens crowded in among those who had been asked by the Mayor to attend the conference, with a score of newspaper reporters present, the facts bearing on the shortage of housing in this city and how to remedy it.

As the result of the conference the Mayor was requested to appoint a committee of eleven to include representatives of money lenders, borrowers, builders, material manufacturers, labor and the public to digest the material facts and make recommendations for action to bring about increased housing.

Mayor Hylan conducted the hearing creditably, outlining the salient facts of the present crisis in a carefully prepared statement which met with general approval, and he refused to allow the proceedings to be interrupted by agitators of various sorts who were desirous of breaking in with utopian projects for the amelioration of renters and the human race generally. The Mayor was at his best, and the fault will not be his if nothing more results from the conference than from the one he called last year for the same purpose, and which took up practically similar conditions without accomplishing anything.

The conference was significant from at least one standpoint —during the five hours of continuous talk not one fact was brought out that was not already known to practically every man in the room whose business is in any way related to building and there was little if anything that has not repeatedly been printed in every newspaper in New York some time during the sixteen months since the armistice was signed.

Mr. Walter Stabler, Comptroller of the Metropolitan Life Insurance Company; Mr. William E. Cox, Comptroller of the Bowery Savings Bank, and Mr. John L. Parish, representing the title guarantee companies, repeated the obvious facts about the amount of money which is now available from these sources or will be during this season and coming years, and the fundamental and practically unchangeable conditions upon which such loans will be or can be made. It is not being hypocritical to say of these gentlemen that in their presentation of the financial aspect of the situation which exists today they have the appearance of men who are telling a twice-told tale. It is rather to their credit that they continue to attend hearings and dinners and meetings at which they repeat the statements concerning the laws and regulations respecting the loaning of trust funds by which their actions in the money market are and must be governed. It is unfortunate that the facts which these well-known and responsible financiers have been publishing broadcast for many months should not have been given due consideration rather than that there should have been created public expectation that at the beck and call of Mayor Hylan there was to spring from previously-hidden sources a building fund of $100,000,000. It might as well be stated at the outset that no signs of this widely-heralded fund made their appearance at any stage of the proceedings, although Mayor Hylan asked each financier how much money he was prepared to loan now and was in each instance answered that millions would be available "if" ——

The facts, as so often told by Mr. Stabler and the other financiers and repeated last Tuesday at the Mayor's urgent request, are as follows:

That only about one-quarter of the building loans are made by insurance companies, savings banks and other fiduciary institutions out of their own resources and that the other three-quarters of the money used for construction work comes from so called "private" sources, including individuals and estates, these funds frequently being handled by the financial institutions for convenience.

That the big financial institutions subscribed to enormous amounts of war bonds and that these were not fully paid for until last November and that until then no funds were available for building loans, but that since then they have reentered the market.

That owing to the National and State income taxes "private" funds have been largely withdrawn from offer on building loans, as the income from mortgages has been reduced to so low a figure(often only two per cent.) as to make the loans unattractive in comparison with that obtainable from tax exempt securities or in the "street."

That another factor in the situation is that loans of their own funds by the financial institutions above referred to are untaxed while loans from "private" sources must pay income taxes, thus creating a disparity between them.

That of approximately $40,000,000,000 of mortgage loans outstanding only about $10,000,000,000 come under the head of savings bank and insurance company loans and $30,000,000,000 under the head of "private" loans, and that the loans of the latter classification are rapidly being withdrawn owing to overtaxation of real estate directly and because of the oppressive Federal and State income taxes which, added to direct real estate taxation, reduces the income to about one-third what can be derived from other first-class investments.

That such building loans as will be placed will be figured on not more than 60 per cent. of the present cost of buildings, leaving 40 per cent. to be provided by the builder himself, due to the fear that the prices of materials and wages may come down in two or three years so that buildings put up now will have to meet the competition of more cheaply constructed ones and may fail to bring in returns sufficient to carry the present cost of construction.

That these loans will be made, unless the conditions are exceptional, at 5½ per cent.

That speculative builders, upon whom rests the burden of the construction of the moderate-priced apartment buildings which must be relied upon to supply the present deficiency in housing are not in a position to furnish 40 per cent. of the money needed to construct the number of "walkups" and elevator apartments of middle class which must be built to house the rapidly-increasing population of the city and make up the deficiency caused by suspension of construction during the war period.

That practically the only building going on now is the construction of extravagantly-planned apartments commanding

fancy rentals, office buildings of the most desirable character and one- and two-family houses, the financing of which is arranged by the prospective occupants.

That the only remedy suggested for the shortage of mortgage money is the passage of the bill before Congress exempting the income from mortgages up to $40,000 from income taxation; that this bill if enacted into law would bring about only partial relief because of the limitation of the amount exempt whereas the bulk of mortgage money comes from wealthy individuals and large estates which would still be subject to income tax; and that the passage of the bill in the State Legislature, of similar character, while affording slight relief, would be advisable and should be urged because of the influence which such action by the State would have on the Congress.

In laying these facts before the Mayor the representatives of the financial institutions gave no assurances that the trust funds at their disposal can be loaned under any modification of the general principles upon which they have acted and will continue to act. The only basis for the reported $100,000,000 building fund arose from their repetition of previous statements that these institutions had millions of money to loan under certain conditions set forth above, a fact which has been known to every speculative builder in the city for a long time.

That the financiers did not give him a certified check for $100,000,000 with which to start building immediately was the first interruption to the consummation of the great movement instituted by the Mayor. That it will take from $500,000,000 to $750,000,000 to give this city its normal housing was a fact that was given slight attention when referred to by one of the experts present at the conference.

Mayor Hylan proceeded next to draw from material manufacturers the facts about present prices as compared with prewar prices and did his best to extract a promise from them not to advance prices for a year or eighteen months.

W. K. Hammond, president of the National Brick Manufacturers Association, stated that following the armistice and with the purpose of aiding in the readjustment of the country's business from a war to a peace basis the brick manufacturers had before them a proposition to continue for a period the price of $15 per 1,000 for brick fixed by the Government during the war. It was felt that unless they took this action prices for brick would mount rapidly, as they have. The matter came to the attention of the national Government and Federal agents notified them that they must not so much as consult with each other on the question of prices without incurring liability of prosecution for violation of law. Mr. Hammond stated that at the present time there was little demand for brick because the bricklayers had been on strike since January 1 for $10 per day, although there were 150,000,000 brick available at the price of $25 per 1,000 on the docks. He thought that "if" all other factors were favorable these brick, constituting a month's normal supply, could be sold at the price quoted, but he could not agree to the "stabilization" of the price for the stocks on hand nor the product of the seasons manufacture amounting to many times the number, because of the government prohibition of price fixing. In this connection it is advisable to call attention to the announcement of Attorney-General Palmer made on the day following the Mayor's conference, that trade organizations exchanging trade information respecting prices and stocks will be treated as trusts and will be proceeded against for violation of law as defined in the court decision against the hardwood lumber men.

This was the second check to the Mayor's program, a fundamental of which was the stabilization of the prices of building materials for one year or eighteen months. Stabilizing the prices of manufactured products is not so easy of accomplishment as it looks to some, because a fixed selling price is dependent upon the stabilization of the prices of raw materials which are influenced by wages paid to the producers; and is governed by freight rates which fluctuate according to the dictates of unions of railway employes; and follows closely the costs of manufacture which are varied as wages of mechanics rise or fall; and is influenced by the fluctuating interest rates of money borrowed to put the whole operation through the mill, the principal factor being wages from start to finish. Ninety per cent. of the cost of a finished building ultimately is paid out in wages.

Mr. Hammond gave one instance in his own experience of how wages had advanced the cost of making brick. Probably 400 out of the 500 men in the assembly could have given similar testimony of the bidding up of wages owing to the shortage of labor in certain lines of employment and of the insatiable character of the demands of labor for constantly increasing rates of pay.

In reply to the Mayor's question if the prices of brick could be stabilized for a year or more Mr. Hammond focused the attention of the conference upon one of the most vital questions at issue at the present time. He said that unless the bricklayers strike was settled and the men agreed to continue to work through the season so that there would be a steady demand for brick there would be no incentive for manufacturers to continue to tie up money in the production of brick which could not be sold because the bricklayers would not handle them. The present supply would soon be exhausted and building would again cease.

In the discussion that followed it was brought out with vivid distinctness that while 118,000 men in the Building Trades Council have made agreements with their employers effective to the end of the year, the 20,000 bricklayers in the city are refusing to join the other building trades unions in stabilizing the industry. The refusal of the bricklayers to join the Building Trades Council, or to enter into a separate agreement with their employers except at their own terms of $1.25 an hour, is not only preventing 112,000 other union men from getting steady work, but it is holding up the entire building program so that there can be no remedy for high rents until the demands of the bricklayers are met. Thus the great bulk of the entire population of the city have been since January 1 the victims of their demand for an hourly rate of pay that is greatly in excess of that paid to any other workman in the building trades.

This phase of the situation, known for months to every man engaged either as financier, builder, contractor or workman in the building industry, was the third reason why the Mayor's $100,000,000 program halted before it was fairly started.

The representatives of the bricklayers characteristically asked that they be given the last word in the discussions, that being the position of greatest advantage. The Mayor complied, calling on a representative of the Iron League Erectors Association to give the facts relative to five jobs on which it was said the bricklayers had demanded that the steel frames built under the open-shop plan be torn down and rebuilt by union labor only before the brick shells would be laid.

This question of the open shop is the vital one upon the settlement of which depends whether there shall be built more office building and large apartments or whether New York must get along with the present supply. The Iron League Erectors Association builds practically every steel frame building in Greater New York. It has repeatedly stated that it will maintain the open shop. The bricklayers say that in this attitude it is backed by the United States Steel Corporation, which they declare has warned the erectors that it will refuse to take orders from them for material unless the principle of the open shop is adhered to.

Replying to the Mayor's invitation the representative of the Steel Erectors Association declared that it would not change its policy of the open shop; that the strikes on the five jobs referred to had not cost the contractors a dollar; that the union men had at first quit, while the non-union men had returned to work, but that new men had been secured and that some union men had returned to their jobs. Thus the open shop was the fourth snag encountered.

Then the bricklayers took the floor. One of them abused the building material manufacturers as profiteers because prices had advanced, although the advance in prices had been shown to have been caused almost wholly by increased costs of labor, and proposed as the only solution of the deadlock in

Lockwood Committee's Program for Housing Relief

Measures Which Both Parties in Legislature Are Pledged to Support Include the Exemption of Mortgages from Income Tax

(Special to The Record and Guide.)

Albany, March 18.

PLANS for the relief of the housing situation are rapidly taking definite form in the Legislature. Following the hearing given the Lockwood bill exempting from income tax the income on mortgages up to $40,000, the Lockwood Housing Committee, which has been investigating the house and rent situation for the past year, made public its schedule of bills, which seem to have the support of a majority in both houses of the Legislature.

The program of the Lockwood committee was made public after a conference attended by Senators Lockwood, Brown, Carson, Mullan, Republicans; Dunnigan, Boylan, Twomey, Lynch, Democrats. Majority Leader Walters and Minority Leader Walker informally acted as chairmen of the conference. Others present were Attorney General Newton, Frederick Spiegelberg, chairman of the Rent Legislation Committee of the Municipal Court Justice Board of New York City; Robert C. Cummings of the Legislative Bill Drafting Commission, Elmer G. Sammis, Nathaniel L. Goldstein and Franklyn Silverstein.

It was unanimously decided to support the program of legislation proposed by the Lockwood committee at this conference. Subsequently it was learned that a majority of the members of both houses have indicated its intention of supporting these bills. A hearing of the bills will be given by the Senate and Assembly Cities Committees next Tuesday, March 23.

The program of bills follows:

(1) A bill permitting courts in cities of the first and second class to grant a stay for such period as may be deemed proper where summary dispossess proceedings are brought against a tenant who holds over and to impose as a condition for the stay that the tenant shall pay the rent at the old rate and such additional amount, if any, as the judge may deem fair and reasonable, payment to be made to the landlord or to the clerk of the court. The bill further provides any clause in a lease waiving the provisions of this act shall be deemed against public policy and void; the act to take effect immedaitely and to remain in force until November 1st, 1922.

(2) An act providing that no summary proceedings to dispossess a tenant for nonpayment of rent at an increased rate shall be maintainable unless the petitioner alleges that the rent is no greater than the amount paid during the month prior to the commencement of the proceedings or has not been increased more than 20 per cent. over the rent as it existed one year prior thereto.

(3) An act applicable to all cities, providing that in an action for rent a defense may be set up that the amount demanded is unjust, unreasonable, and the agreement under which it is sought to recover is oppressive. The landlord may prove the reasonable rental value and receive judgment therefor.

(4) An amendment to the State Income Tax Law exempting from taxation income on principal invested in mortgages up to forty thousand dollars; the purpose being to induce Congress to make a similar exemption to the Federal Income Tax Law, so that building loan mortgage money may be made available and new building thereby stimulated.

(5) A bill providing that a landlord seeking to dispossess on the ground that the tenant is objectionable must establish that fact to the satisfaction of the court. Under the present law the landlord need only show that he has acted in good faith in stating that the tenant is objectionable.

(6) A bill providing that all tenants must be given 30 days notice to terminate a monthly tenancy.

(7) A bill repealing Section 232 of the Real Property Law, permitting verbal leases, and providing that unless a definite time is specified for a verbal lease it shall end on October 1st.

(8) A bill providing for a stay by deposit of the amount due with the clerk of the court and payment to the petitioner on demand in summary proceedings brought after default in payment of rent, taxes and assessments.

(9) A bill permitting the court to give affirmative relief if it finds that the defense or counter claim permitted by law in a summary proceeding under Section 2234 of the Code has been established.

Early this week the legislative leaders reached a decision to abandon the plan of limiting profits on real estate in excess of a certain percentage, because of the inability of the Drafting Commission to frame a measure which would not impose hardship upon fair landlords. The proposal was made by several legislators who claimed that such a bill was the only means of curbing rent profiteering in New York City and for a time was accepted in the Assembly as the one antidote for rent gouging. The better judgment of the legislative leaders, however, prevailed upon the proponents of such measures at a conference this week and it was decided to forego the plan.

Advocates of the Dodge bill, which would give the Chairman of the Board of Standards and Appeals power to swear witnesses and compel attendance of witnesses at hearings before that board began an active campaign for the enactment of the measure this week. At the same time an effort was started to push through a companion bill which would give the Board of Appeals authority to vary or modify decisions and regulations of the Tenement House Commissioner where such rulings affect alterations or construction of tenement houses. The prospects for the passage of both measures are promising at this time.

Among the bills affecting realty and of interest in the construction field introduced in the past week are these:

Assemblyman Carroll, authorizing the Board of Estimate and Apportionment to enter into contracts for the construction and operation of a passenger railway in a subway to be built under Fourth avenue, Brooklyn, from the terminus of the existing subway at Fourth avenue and Eighty-sixth street to Ninety-fifth street.

Assemblyman Pette, appropriating $750,000 for the erection of a state armory in Jamaica.

Assemblyman McLaughlin, providing that between January 1 and March 31 of any year no justice of the Municipal Court shall execute any warrant of dispossess against any tenant living in New York City as a monthly tenant, unless it is satisfactorily shown by the landlord that such tenant is occupying living quarters in contravention of the penal statutes or health regulations or for non-payment of rent.

Assemblyman McLaughlin, enacting the "Land Loan Act" and providing for a land loan bureau similar to the federal organization, such bureau to be in charge of a commissioner appointed by the Governor for a term of four years, salary $10,000 a year. The other officers of the bureau shall include a deputy at $5,000; a secretary at $4,000; a chief examiner of title at $5,000 and an assistant examiner at $3,500.

Senator Dunnigan, providing that no action to recover possession of real property shall be maintainable unless the petitioner proves that the rent for such property is no greater than has been theretofore paid by a tenant and has not increased more than 10 per cent. above the rent as it existed one year prior to the time of presenting such a petition.

Assemblyman Cuvillier, imposing a tax on rental incomes of over 10 per cent. profit derived from the rental of real property for dwelling purposes graduated from 40 per cent. on first $1,000 up to 100 per cent. if the amount of income derived in excess of 10 per cent. amounts to $5,001.

How the Real Estate Market Appears to a Realty Expert

Analysis of the Statistics of the First Two Months of This Year Compared With the Similar Period a Year Ago

By CHARLES F. NOYES.

STATISTICS, always dry and usually uninteresting, are of value in considering present real estate market, particularly as they relate to downtown activity.

From January 1, 1919, to February 26, 1919, there were 1,073 transfers on Manhattan Island as against 2,806 transfers for approximately the same period in 1920. Property assessed at $76,420,300 was transferred in the 1919 period as against $234,743,100 for 1920. That the mortgage situation is very favorably developing is indicated by the remarkable increase from 480 mortgages recorded in this same period of 1919 with a total of $8,481,031 involved, as against 1,772 for 1920, with $66,055,022 involved. Banks and insurance companies made 97 loans in the first two months of 1919 aggregating $3,647,050, as against 240 loans made during the same period this year aggregating $17,063,900. Banks and insurance companies, in addition, extended $22,145,474 in mortgage loans during the first two months of 1920 as against $13,287,450 for approximately the same period last year.

These statistics are full of interest, showing as they do that approximately three times as much real property in property value, and two and one-half times as many parcels have changed hands during the first two months of this year over a similar period in 1919, and about eight times as much mortgage money has been furnished to the real estate public, and banks and insurance companies have loaned nearly five times more in the aggregate for the first two months of this year as they did for the same period in 1919.

It seems to be a paradox to say that the greater the activity in the sale and purchase of downtown property for occupancy—and the activity is very great and increasing—the greater will be the relief of the rent-payer in downtown office buildings, but such is the case when one analyzes this buying movement for occupancy and realizes that the majority of sales made of the older store and loft buildings are to firms and corporations who alter the property and occupy exclusively for office purposes. These buyers are largely coming out of our large downtown office buildings. They are corporations, exporters, importers, steamship lines, lawyers, engineers and representatives of every line of business who heretofore have generally rented space in large office buildings at high rates. Hundreds of buildings have been sold to just such buyers, who, at a compartively small expense, alter and modernize the buildings purchased, secure exceptionally attractive space with that individuality that does not exist in the big office structure, and instead of their rent being $3.50 to $5.00 a square foot, they get their space at less than $2.00 per square foot, and in many cases as low as $1.00 per square foot; and the new quarters in many ways are better and more satisfactory than the old.

The reasons why this is possible are plain when analyzed. First bear in mind that for five years there has been comparatively little new construction of office buildings. Our city in the meantime has added 1,000,000 to its population. It is undeniably the metropolis of the world, and any commercial supremacy or commercial prosperity must be reflected first of all in New York City real estate, the value of which depends upon the demand for it and the supply of it. That more office space must be provided for on account of this condition is self-apparent as the United States is now the world's reservoir of capital and raw material. Few realize our commercial activities. Charles M. Schwab recently predicted one of the greatest eras of prosperity in all the history of the United States. Every steel corporation has orders for unfilled tonnage; new corporations organized in 1919 were $12,450,000,000, as against $2,399,740,600 in 1918—an increase of 519 per cent. It is interesting to note that our imports for 1919 were $3,980,000,000 against exports of $7,890,000,000, showing a trade balance in this country's favor of $3,910,000,000.

In considering New York conditions one must consider the fact that our retail trade is going forward by leaps and bounds, that the depleted markets of the world must be restocked, and furthermore that the public has $24,000,000,000 Liberty Bonds that can be used as collateral or for speculation. The fact that 1919 provided the smallest number of failures in the history of the country is also interesting, and there are a dozen other economic and commonsense conditions that lead me to believe that there can be no lessening of the tremendous demand for office space or for downtown real estate during the coming year, and every indication points to the fact that the present demand must continue or be stronger than ever.

I have reviewed these conditions as they are necessary for a complete understanding of the rental problem here in New York City, and they should be considered in connection with a study of downtown real estate. Real estate is the foundation of all wealth. No truer fact was ever uttered.

A world condition has made us the creditor nation of the world for the first time in history, and surely this condition must be reflected no more strongly than in the value of downtown New York City real estate where are located all of the exchanges of the city, our leading banks, financial institutions and large corporations, most of which have now purchased their own business homes. Elias A. Cohen says that such real estate is in the heart of the world, and Cohen is right.

With all these conditions real estate is relatively cheaper today (improvements excluded) than it has been at any time, and this is indicated when one considers the real added value of the buildings and improvements and the certainty that construction costs cannot and will not come down again to old figures.

Few realize that when they consider paying from $75,000 to $100,000 for a five or six story building 25 x 100, that the building on the lot could not be erected today for less than $60,000 to $100,000 as against a building value of $25,000 to $40,000 a few years ago. Few realize that the ground under that building must be worth $25,000 to $60,000, depending upon the location. Very, very few have imagination to realize that the building at $75,000 to $100,000 today when it can be used and is in demand for occupancy is a better purchase at the price now obtainable than it was at a much lower figure a few years ago; and, furthermore, that any increased valuation today is less than the actual increased value of the building, viz.: the bricks, wood, iron, mortar and labor that go into building construction. It's a fact that real estate economically has not yet reached a fair, legitimate level.

Few realize the scope of downtown buying for occupancy movement during the past few years. The tobacco men, the coffee dealers, the drug and importing lines have all created little districts, and in many blocks practically every parcel is owned by tenants occupying.

Steadily but surely downtown New York City real estate is reaching the stage when there will be none left for purchase, and, as in certain districts in London, it soon will be obtainable under leasehold conditions only. It has now reached the stage of being the most valuable of all assets if properly selected.

I predit that within the next two years there will be a big demand for property by combination of tenants, and where heretofore individual firms or corporations have purchased to secure their own quarters, the vogue will now be for two or more firms to join in the purchase of a building which will be owned and operated by them along co-operative lines, but primarily so that all in the combination can secure adequate, permanent office facilities at a moderate rental.

Review of Real Estate Market for the Current Week

Slight Reduction Noticeable in Volume of Sales But Transactions Involving Long Term Leases Figure Prominently

WHILE business continued during the last week on a broad basis, it was inevitable that the uncertainty as to what legislation might be enacted at Albany and what might be the outcome of the conference on the housing crisis called by Mayor Hylan should have a steadying effect on the market. The underlying strength of the real estate situation, however, is well established and in consequence the number of transactions came up to within striking distance of the good average of the last few months, while there were numerous deals in large apartment houses that mark the week as one of considerable importance in sales of this description.

If the Mayor's Committee succeeds in reaching definite conclusions as to a program which will bring about a renewal of building, it can be confidently expected that the spring season will see great activity both in the sales and leasing departments of the realty field. Realty men will be very much interested in the complexion of this committee. When so much depends on the action that may be taken, it is important that realty should be represented by men who will command the respect and confidence of the various elements having to do with the best interests of real estate. In all circles it is anticipated that Mayor Hylan will take into his confidence representative leaders before he makes his selections. While it may be expecting too much to hope for the authorization of a plan that will be as beneficial as the crisis demands, because there are so many conflicting elements to be considered, yet some helpful measures may be devised if the matter is left to the right men.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 118 as against 147 last week and 118 a year ago.

The number of sales south of 59th street was 46 as compared with 67 last week and 29 a year ago.

The number of sales north of 59th street was 72 as compared with 80 last week and 74 a year ago.

From the Bronx 68 sales at private contract were reported as against 72 last week and 61 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 386.

Ten East Side Tenements Sold.

Charles F. Noyes Company has sold to Elias A. Cohen for J. H. Kean the ten five-story tenements, including 83-95 Goerck street, 314-318 Rivington street, covering a total plottage of 175 feet on Goerck street and 69 feet on Rivington street. The property is assessed at $132,000 by the Tax Department, and originally cost about $200,000. Mr. Cohen has resold eight of the ten properties to separate buyers, who will hold for investment purposes. This transactions shows the versatility of Mr. Cohen's transactions. Few operators have ever attempted to deal in properties of such a diversified characted as Elias A. Cohen, who has bought during the past few months large office buidings downtown such as 2 Rector street, William and Cedar streets, the "Morris Building," and seventy-one small parcels on the east and west sides equally distributed. Mr. Cohen has figured the last two days as having handled the entire block front on Eighth avenue, between 51st and 52d streets, and he now purchases this large plottage on the lower East Side.

Latourette Homestead Sold.

Duross Compauy has sold the Latourette homestead and farm at Richmond, Staten Island, comprising one hundred and seven acres, overlooking the county seat of Richmond County and the City of New York. The property lies on a plateau and commands a magnificent view of the surrounding country. The manor house is a large brick building erected in Colonial style of architecture, with outbuildings, including the former slave quarters. About ten years ago Mr. Joseph Personeni purchased the property from the Latourettes, and has now sold it to the H. W. C. Corporation.

Men's Hotel on Eighth Avenue.

Plans have been filed for improving the northeast corner of Eighth avenue and 43d street for a fourteen-story apartment hotel. The project was originally announced last December. The West Forty-eighth Street Realty Company, H. Clayman, president, recently acquired through Herman Arns Company the property, which measures 100x200 feet. The estimated cost of the structure has been placed at $1,500,000. The street plot, measuring 100x100, will be improved, and subsequently the corner plot will be built upon. The entire structure, as planned, will contain 850 rooms and 450 baths. It will be run for men only.

Fifth Avenue Loft Sold.

Joseph Silverson and Irving I. Judis purchased from the Survey Investors, Inc., R. C. Gildersleeve, president, the twenty-story building at the northeast corner of Fifth avenue and 31st street, erected in 1909 by Henry Corn. The property is known as 303 and 305 Fifth avenue and measures 56.9 feet in the avenue and 150 feet in the street. It is reported to return an annual rental of $285,000. F. A. O. Schwartz and Renald Freres & Co. are among the tenants in the structure. The selling company purchased it from Mr. Corn in 1914. Welling & Koelble, Inc., were the brokers.

Sale in West End Avenue.

Thomas J. O'Reilly and Earl & Calhoun sold for the Lombach Realty Company to Max N. Natanson 530 West End avenue, southeast corner of 86th street, a thirteen-story apartment, 80x102, containing twenty-five apartments and renting for about $100,000 a year. The house was erected by Mulliken & Moeller.

U. of P. Alumni Buy Club House.

The former Home Club property at 11 to 17 East 45th street, a nine-story structure, 95x100, will be sold to the New York Alumni of the University of Pennsylvania for a club house. The building is assessed at $700,000, and was erected several years ago by Pliny Fisk, banker, and his associates, among whom were William S. Fanshaw. The building contains a number of apartments considered at that time among the finest in the city. The acquisition of the property is being accomplished by the sale of stock in the Benjamin Franklin Realty Company, organized by the alumni.

Buys Lorington Apartments.

Raymond Marx bought from the Silk Realty Company, Samuel K. Jacobs, president, the Lorington, a twelve-story apartment, 100.5x150, at the north corner of Central Park West and 70th street. A hotel man anticipates remodeling it into an apartment hotel from designs by Robert T. Lyons. The building contains thirty-five suites and was erected about twelve years ago by Peter Banner. It was acquired by the present sellers last December from the Blessington Corporation, Jacob A. Zimmerman, president. The asking price was $1,300,000. O'Connor & Bain, attorneys, represented the purchaser in the present deal and Rose & Parkus the seller.

Salvation Army Hotel Sold.

The Salvation Army has sold for $1,000,000 the Hotel Argonne, a 9½-story building, 120x100, at 145 to 153 West 47th street, to a syndicate of Cubans and South Americans, who are organized as the Hotel America, Inc., and operate a hostelry at 102 East 15th street. The Salvation Army acquired the building in February, 1919, for about $700,000 and spent about $100,000 remodeling and refurnishing it as a home for enlisted soldiers. At the reported selling price the Salvation Army has a profit of $200,000. The building was erected about fifteen years ago by the Potter, Mordecai Syndicate as three apartment hotels and later converted into the Hotel Victoria. John J. Fleming negotiated the deal.

Riverside Corner Sold.

Nathan H. Stone sold to the Manshnell Realty Corporation, jobbers in woollens, the Andrew Jackson apartments, a seven-story structure, 102x173, at the northwest corner of Riverside drive and 149th street. The house, which contains forty-two apartments, was built in 1912 and has a yearly rent roll of about $60,000. The Washington Heights Club occupies the ground floor.

Realty Company the Purchaser.

Byrne & Bowman sold for Stewart Forshay to the No. 112 Madison Avenue Company 949 West End avenue, a twelve-story apartment 75x100. The building was erected about three years ago by Harry Schiff and acquired by Mr. Forshay about a month ago. Stoddard & Mark represented the seller and Fried & Krakower the purchaser, as attorneys.

Biggest Uptown Walkup Sold.

Abraham Zauderer bought from William E. Keyes, through A. H. Levy and Frederick Zittel & Sons, the five-story apartment, 125x100, at 4925 to 4935 Broadway, southwest corner of 207th street. It is the largest building of the walkup type in the northern part of the borough, containing ten stores and has eleven suites on each floor. It has a rent roll of $33,000 a year. The seller erected it about four years ago. Samuel Wacht, Jr., attorney, represented the buyer, and Thompson, Koss & Warren the seller.

Long Island City Sales.

Ten Eyck & Wangeman, Inc., brokers, sold the following properties in Long Island City: twenty-six lots at Mills, Munson and Orchard streets for Ruth V. Halsey to the Tisdale Lumber Company; the two-family brick dwelling at 11 Astoria place for Rev. Spencer J. Ford to Marie Jergensen; the two-family brick dwelling at 287 Jamaica avenue for Ellen Leahey to Cora E. Day; the one-family frame dwelling at 929 Boulevard for D. W. Moran to Sidney Amann; the four-family brick dwelling at 67 Willow street for the Roslyn Saving Bank to Louis Grieco; a similar building at 69 Willow street for the Roslyn Saving Bank to Henry Giorgetti; a similar building at 71 Willow street for the Roslyn Saving Bank to Roberto Ruffini, and a similar building at 73 Willow street for the Roslyn Saving Bank to Robert Daddario and Robert Sartorio; and a commercial building on the southeasterly corner of Elm street and Hopkins avenue for Frederick S. Steinmann to Peter Nowak.

Hoe Estate Sells Corner.

Robert Hoe Estate Company and others sold through Horace S. Ely & Co. the twelve-story loft, 50x95, at 683 Broadway, northwest corner of West 3d street. National Butchers and Drovers' Bank, which renewed lease for ten years last July, occupies space in the corner.

Plan $1,200,000 Exchange.

West Seventy-third Street Associates, Inc., A. L. Mordecai & Son and E. Clifford Potter, will build for the New York Telephone Company, lessee, a six-story telephone exchange, 192x80x102.2, at 121 to 139 West 73d street. McKenzie, Voorhees & Gmelin filed plans yesterday and estimate the cost at $1,200,000. The site is part of a group of twenty-four dwellings, extending from 105 to 151, with a combined plottage of 450x102.2, acquired from the Clark estate in January, 1917, by the present lessors.

The dwellings, three and four stories high, were built by the late Alfred Corning Clark about four decades ago. Six of the houses at 141 to 151 were resold in October, 1917, to L. K. Comstock, Edgar Ellinger and Harry B. Davis, who obtained from another source 153, and have since erected the nine-story Hamilton Hotel, estimated to cost $1,000,000. In April, 1919, Jacob and Herman Axelrod bought 105 to 119 as a site for two nine-story apartments. The exchange will occupy the intervening plottage.

The New Telephone Ringing Signal

You will hear it in your telephone receiver after you have given the number to the operator and while you are waiting for the called telephone to answer. It is a low burr-r-ing sound lasting several seconds, followed by a distinct pause and then a renewal of the burr-r-ing sound.

It starts as soon as the connection is established and keeps up until the telephone you called answers or the operator tells you they do not answer.

This ringing signal is designed to give the calling party definite audible notice that the work of putting up the connection has been performed by the operators concerned.

Complying with the request of the Newspaper Publishers' Association to cooperate in the conservation of newsprint during the present emergency, this advertisement has been reduced from the usual 3-col. 10-in. size to 2-col. 10-in. size.

RECENT LEASES.

J. P. Morgan Leases Mills Building.

J. P. Morgan & Co. leased the Mills Building at 11 and 21 Broad street for twenty-one years, with three renewals of twenty-one years each, a total of eighty-four years. The old ten-story structure which was erected by D. O. Mills in 1882 will be replaced with a modern office building. Mr. Morgan personally negotiated the transaction with Ogden Mills and the property was acquired partly for the purpose of obtaining more room for future expansion and also because of the speculative value of a long term lease.

A corporation will be formed by the Morgan company to take over the lease. The Mills Building is one of the oldest and best known structures in upper Broad street, and it is said to have cost D. O. Mills, for whom it was named, at least $3,000,000.

The lessees take possession on May 1 of this year. About half of the leases in the building expire and the remainder in 1922. The Morgan firm already has about 6,000 square feet and at the expiration of the leases next year will probably obtain much more.

The Mills Building adjoins the home of the Morgan firm at the southeast corner of Wall and Broad streets. The Mills Building will give the Morgan firm a frontage of 261.3 feet in Broad street and 184.22 feet in Wall street. Of these frontages the Mills Building contributes 163.5 in Broad street and 28.11 in Wall street. It also fronts 126.3 feet in Exchange place and has an irregular easterly line on the north of 131.5 feet. While the old Drexel Building, which stood on the site of the Morgan house, was being razed and the present marble structure was being erected Mr. Morgan leased large space in the Mills Building to house the firm's business.

Record Rental on Fifth Ave.

Frank M. Widner Jr., leased for Mrs. Henry M. Alexander and Dr. Charles Remsen to the Mirror, M. L. Morgenthau, president, the six-story building, 37.6x98.9, at 2 and 4 West 40th street, adjoining the southwest corner of Fifth avenue and abutting the present store of the Mirror at 450 Fifth avenue, for forty-two years at an aggregate rental of $1,900,000. The Mirror intends to connect the properties, but will not do so for at least three years, having renewed leases of the apartments above the store for that period.

Big Brooklyn Lease.

One of the most notable transactions in the leasing market of Brooklyn was consummated this week when the Burling Realty Company, as brokers, leased the block front on the west side of Sixth avenue, from Flatbush avenue to St. Marks avenue, and including frontage also on Flatbush avenue and on St. Marks avenue, for a term of years at an aggregate rental of some $100,000 to Alexander G. Wilson.

This property has been in the same ownership for over sixty years. Mr. Wilson, the lessee, is one of the best known druggists in the downtown section, and has been located in the property for some sixteen years. The corner store which Mr. Wilson occupies has been continuously used for the drug business since the buildings were first erected, and is one of the best known drug stores on the Park Slope.

Wm. Raymond Burling, president of the Burling Realty Company, in speaking of the lease, called attention to the tremendous growth and improvements in trade conditions on Flatbush avenue, all the way from Fulton street to the Park, referring particularly to the growing trend of automobile concerns establishing themselves on this busy thoroughfare—notable among which are the Packard Company at Eighth ave-

nue, the Paterson, the Saxon, the Apperson, the Grant Six and many others, as well as the large number of tire and accessory concerns which have come in. Within a few doors of the property leased to Mr. Wilson, the Peoples Trust Co. have erected their splendid Prospect Branch, and the triangular block across the street has recently been taken by the Schulte Co. for a term of years, all of which show the growing importance of this street as one of the great trade arteries of the borough.

$500,000 Midtown Lease.

J. Arthur Fischer leased, through John R. & Oscar L. Foley, 656 and 658 Sixth avenue, northeast corner of 38th street, five-story store building, 47x85, for twenty-one years, with renewals. The owners of the fee are the Countess Grace Montjoye and the estate of Marie M. Barrett, Walter C. Wyckoff, trustee. The aggregate rental is about $500,000.

$750,000 Lease on Eighth Ave.

Broadway-John Street Corporation, Elias A. Cohen, president, have subleased through Henry Shapiro & Co. to Harry Silverman, Joseph Meltzer and Joe Reinhorn the Walton Block, on the west side of Eighth avenue, from 51st to 52d streets, covering plot 200 feet on the avenue and 100 feet on each street, now covered by fourteen separate buildings. The lease is for a term of twenty-one years from May 1, 1920, at an aggregate rental of $750,000. Most of the leases expire May 1. The lessees propose to remodel the property, and Henry Shapiro & Co. have been appointed exclusive renting agents.

Hoffman Brewery Property Leased.

Greenfeld & Saffir have leased for the Cahane Realty Company to a client of the Silverman's Exchange, from the plans, the two-story garage now in the course of construction at 215-221 East 54th street, on plot 100x100, for a period of twenty-one years, at an aggregate rental of $350,000. This plot was formerly the brewery of the Jacob Hoffman Brewing Company, and was sold by the same broker to the present lessor. Joseph, Demov & Feinstein and Milton M. Eisenberg, as attorneys, represented the lessor and lessee respectively.

LEGISLATIVE BILLS AFFECTING REALTY

Measures Introduced at Albany Approved or Disapproved by Real Estate Board of New York

THE Legislation and Taxation Committee of the Real Estate Board of New York has taken action on bills now before the Legislature as follows:

Assembly Int. 708, *Pr.* 762, *Healy.* To amend Chapter three hundred and three of the laws of eighteen hundred and eighty-two, in relation to removal of monthly tenants by summary proceedings.

This bill proposes to amend the Summary Proceedings Act by adding thereto a new section prohibiting the eviction of a monthly tenant for non-payment of rent unless it be alleged and proved that, on or before the first day of May prior to the initiation of the proceedings notice in writing was personally served upon the then tenant of the premises of the intention of the landlord to change the amount of rent and stating in definite terms the amount thereof. This bill would be a distinct disadvantage to all tenants, for it would bring to an immediate crisis all monthly tenancies in New York City and thus render the housing situation more acute than it is now. The proponent of the measure overlooks that a monthly tenancy is terminable at the end of any month, upon due notice. This condition the pending measure does not affect in any respect. The bill does not help solve the housing problem, but would only intensify the difficulties. It is disapproved.

Assembly Int. 945, *Pr.* 1040, *Cuvillier.* To amend the Real Property Law, in relation to leases in New York City.

This measure proposes to amend Section 237 of the Real Property Law to provide that an agreement for the occupation of real property shall create a tenancy for one year at not to exceed the monthly rental paid for the first month's tenancy, beginning on the date when possession commences under such agreement, unless the duration of the occupancy shall be otherwise specified in writing. The effect of the enactment of this bill would be to change the term of a verbal letting for an indefinite period from a tenancy from month to month to one for one year. Its provisions as to the rent payable under such a letting is so indefinite as to impair the validity of the proposition as a whole, in that it prescribes that the tenancy shall be "at a rate not to exceed the monthly rental paid for the first month's tenancy." The proponent probably intended to provide that the rent to be paid for the term should be payable in equalmonthly instalments to be fixed on the date when possession commences under the letting. As expressed in the bill, however, it might be urged that the aggregate of the rent payable under the letting could not exceed "the monthly rental paid for the first month's tenancy." The measure is incomplete in that it contains no provision respecting holding over, notice to quit, etc., the existing provisions of law upon these points not being applicable to the form of tenancy created by this bill. In its present form the bill is disapproved.

Senate Int. 592, *Pr.* 607, *Knight.* (*Same as Assembly Int.* 754, *Pr.* 813, *Brady.*) To amend the Labor Law, in relation to doors in factories.

This bill proposes to repeal the provisions of the Labor Law that permit the installation of double swinging doors and sliding doors leading to or opening upon a means of egress.

This measure would repeal the amendments (secured with much difficulty) to the requirements of the Labor Law that all doors shall swing outwardly. Frequently, and particularly in old buildingss, it is impossible to open doors outwardly without endangering the safety of occupants of such buildings or necessitating structural changes, the cost of which would be sometimes prohibitive. The bill is unnecessary and is disapproved.

Assembly Int. 666, *Pr.* 836, *R. H. Gillett* (*Same as Senate Int.* 789, *Pr.* 837, *Towner*).—To amend the Labor Law, in relation to employment in elevators, and to repeal Sections 176, 178, 179 and 181 of such law. This bill proposes to amend the Labor Law, to require that seats shall be provided for elevator runners within or near the elevators.

Obviously it is reasonable that opportunity should be afforded an elevator operator to take a seat when his traffic permits. This practice prevails in some of the large office buildings in New York City "after hours." But to permit seats to be placed within the elevator or in hallways near elevators during rush hours would not only inconvenience the public, but might readily be a menace to life and limb in case of an accident. It would be particularly dangerous to obstruct the main hall of a large building with chairs or stools during business hours. The bill is disapproved.

Senate Int. 655, *Pr.* 682, *Downing.* To amend the Greater New York Charter, in relation to the office of Chamberlain.

The Real Estate Board has for a number of years advocated the abolishing of the office of Chamberlain, believing the duties of the Chamberlain to be entirely perfunctory. This bill, however, would have the City Chamberlain appointed by the Comptroller, and would make the deposit of city funds entirely under the direction of the Comptroller, and in case of transfer funds without consultation with the Mayor and Corporation Counsel. The bill provides no proper safeguards and in effect merely takes out of the hands of the Mayor the appointment of the City Chamberlain. It is not a good bill and is disapproved.

Assembly Int. 883, *Pr.* 968, *Lee* (*Same as Senate Int.* 847, *Pr.* 910, *Lockwood*).—Concurrent resolution of the Senate and Assembly. Proposing an amendment to Section 10 of Article 8 of the Constitution, in relation to the issue by a county or a city of bonds to provide for a sewerage sytsem.

This bill, like Assembly Int. 757, is an attempt to distribute the cost of sewer improvements in a manner not now contemplated by existing law. It goes, however, very much further and provides for an amendment to the Constitution for the issue of bonds for a new sewer system, placing them on a parity with water and dock bonds. It has been estimated that so far as the cost is concerned an outlay of $50,000,000 for the city of New York alone would be necessary, but the bill places no limit upon the bonds which might be so issued, and which would be outside of the debt limit. It is a very serious question whether in the existing financial condition of the city such a proposal should be given serious consideration. It is obvious, however, that in water bonds and dock bonds the limitation is removed because these are self-sustaining enterprises, but in the case of sewers this could not be so. The bill is disapproved.

Senate Int. 739, *Pr.* 781, *Russell* To amend the Greater New York Charter, in relation to assessments for construction of sewer systems.

This bill would change the entire system of paving for sewers in the city of New York It provides that whenever a sewer in a street shall have been once paid for, any replacement of such sewer shall be assessed upon the boroughs at large, and not upon the local area of assessment. This should have been the policy of the city in the past, but to adopt such a principal now would be unjust to the people who have paid for new sewer systems, although they were assessed for a sewer before. There has recently been an assessment for instance in West 46th street amounting to six hundred thousand dollars for a new sewer to replace an old one. The assessment was made on a local area and it would be unfair if another sewer in another section should have its cost partly charged against the people who have just paid for their own sewer replacement. The bill is disapproved.

Senate Int. 757, *Pr.* 805, *Karle* (*Same as Assembly Int.* 808, *Pr.* 1002, *Halpern*). To amend the Greater New York Charter, in relation to the computation of assessments for local improvements.

This bill reflects unanimous sentiment in Queens in relation to the necessity for assessing cemetery property for sewer improvements. Under the existing law there is no machinery for assessing cemeteries for such improvements. There is no reason why these assessments should not be laid as they are for instance in the case of churches. The bill is approved.

Legislature Reverses Policy for New State Construction

High Building Costs Influence Decision to Hold in Abeyance All But Work Essential to Commonwealth's Welfare

(Special to the Record and Guide)

Albany, March. 18.

CARRYING items aggregating $74,998,663, the appropriation bill for the fiscal year 1920-1921 was introduced in the Legislature this week. To this total of appropriations must be added $41,887,276, representing appropriations carried in other bills, indicating that total appropriations for the next fiscal year will be $116,885,879, as compared with $95,868,000 for the present fiscal year.

Estimated revenue for the next fiscal year is $103,109,484, including the direct state tax of $14,866,984. An estimated cash balance in the state treasury on July 1 of $19,863,553 will bring the total resources for the next year up to $122,973,037.

Appropriations for construction will not be disclosed for some time, because of their segregation under various schedules. They will not be as generous as last year, because of the high cost of materials and labor. With respect to construction Senator Sage and Assemblyman Machold, chairmen of the legislative financial committees, made this joint statement:

"The Legislature this year has reversed its policy of last year in regard to construction. Last year we felt it our duty in view of the industrial situation to do all of the state building which could be justified. This year we feel that owing to the tremendously increased cost of labor and building material that no work should be carried on by the state which is not emergently necessary. This condition is not apparently borne out by the figures, but so much work was started last year which must be continued this year that the appropriations have increased rather than decreased, although all new enterprises have been cut out which could be deferred to another year. It is safe to assume that whatever happens to the labor and material market the amounts necessary for construction in the state will increase for several years to come. With our expenditures running in advance of our estimated current revenue we wish to point out the fact that if the Legislature desires to pass any further bills which call for expenditures not included in this bill it should provide means to pay for the necessary appropriations.

"It is probable that the revenues of the state this year will be higher than they will be for several years to come, unless new means of taxation are devised or the rate of the income and direct tax is increased."

Problems Mayor Hylan's Housing Committee Must Solve

(Continued from page 372)

the building business that the bricklayers "go back to work" at their own terms. The other one of the two chief proponents of the bricklayers' organization declared that his followers would never agree to any terms which the union men of any other trade had anything to do in arranging. This meant that the 112,000 men in the other building trades unions must recognize the aloofness and greater importance and wage value of the 20,000 bricklayers, of whom 4,000 or 5,000 were reported to the conference as having left this community for regions where they are more appreciated. When the attitude of the bricklayers in relation to other union men is considered it its true light it is easier to understand how the report that they had demanded the tearing down of great steel structures and their rebuilding by union labor originated.

Mayor Hylan got into the record another feature of the relations between employers and workmen when he asked John Gill, representative of the bricklayers, if it was true that the union men had slowed down in the number of brick laid per day. Mr. Gill emphatically denied the allegation. He said the only basis for the report was that while young men might lay 1,200 or 1,500 bricks a day, older men could not do so well, but that the average was all that could be expected. It would have been interesting, if it had been possible, to have had reports from manufacturers' records on this question of the efficiency of union labor today compared with that of the period before labor was so thoroughly organized. It is a fact of record that during the war period both union and non-union labor, under the spur of patriotism, high wages and bonuses, succeeded in speeding output to figures that were unknown, except in theory, in pre-war days. It is also in evidence that in England the women who took men's places at manual labor were more efficient than those who had claimed to be stronger and better able to stand the strain of hard work.

The most noticeable fact developed at the conference was the difference in the attitude of employers, as stated by the representative of the Steel Erectors' Association and of the bricklayers, on the question of employment. The Erectors stand for the open shop, giving employment to any man with or without a union label. The prime requisite is that an employe must do a fair day's work and the Erectors pay union wages or better. The bricklayers demand that only union men may work on any job requiring the laying of brick or else they will prevent the completion of the job, however important it may be or however necessary to the welfare of the community or even if they themselves must pay in loss of wages and in higher rents for their own living quarters, unless their demands are complied with.

The Mayor's Committee of Eleven, however strongly constituted and however ably he may direct it, will have some difficulty in reaching a solution of the problems briefly sketched in this review of the conference. These are:

How to effect by legislation or political pull or philanthropy and patriotism what the most expert building financiers have devoted their entire time and attention to during the last year, the securing of enough money to build New York up to the requirements of today;

How to stabilize the prices of building materials for one year or eighteen months when the whole power of the National Government is to be used to convict any organization of manufacturers of violating the anti-trust law if they even confer about stocks or prices.;

How to stabilize union wages for a period long enough to get a building finished before a strike ties up for an indefinite time the capital already invested in it;

How to guarantee, as between advocates of the closed shop and the open shop, the rights of any workman who is willing to give a fair day's work for a fair day's pay.

National Federation of Construction Industries Meeting

Two-Day Convention at Chicago Will Consider Important Questions of Organization and Will Discuss Outstanding Problems of Builders

THE first annual meeting of the National Federation of Construction Industries, which will be held at the Hotel Sherman, Chicago, Ill., on March 24 and 25, will be a unique event in the history of American business. It will be the first meeting of a regularly constituted business organization representing the entire construction industry.

In this industry there are a large number of diverse interests which have fundamental problems in common, for the consideration of which the annual meeting of the National Federation of Construction Industries has been called. In 1919 when the directors of this organization found it desirable to confer with representatives of important associations of the manufacturers of construction materials, it was necessary to invite about two hundred national associations to have delegates present.

Among the important steps in the direction of organization to be considered at the annual meeting is the proposed division of the United States into twelve federation districts, co-terminous with the federal reserve districts, in each of which there will be an executive committee. Under the amended by-laws the board of directors will consist of twenty-five men, one being chosen from each of the twelve federation districts, the remainder being selected without regard to their residence.

It is proposed that an advisory board of the federation shall be created, in which each constituent national association shall have two members at large and one member from each federation district; each regional association, one member at large and one member from each district into which its activities extend; each local association, one member in the district in which it is located. The board of directors may appoint additional members upon the advisory board. By this arrangement every constituent association will have representatives in each district into which its interests extend.

The district executive committee will be composed of the federation vice-president resident in the district, who will serve as chairman, and of the members of the board of directors and advisory board in the district. This committee will have authority to deal with construction problems locally in the name of the National Federation of Construction Industries, to sub-divide the district in such a manner as will enable it to carry on its work most effectively, and to do such other things as shall, in its best judgment, promote the interests of the combined industry in the district.

The program of the first annual meeting, in addition to dealing with the important questions of organization and administration, will consist of careful consideration of a number of matters of outstandnig importance in the industry, as follows: Freight Traffic; Standardization in the Construction Industry; Foreign Trade; Financial Operations and Industrial Relations, Jurisdictional Awards, Housing, Americanization and other subjects of interest will have prominent places on the program.

The speakers on these several subjects have been most carefully selected to secure only national and international authorities. The program is organized with a view to obtaining from the meeting definite creative results.

This meeting will undoubtedly prove to be one of the greatest single factors in bringing the building industry back to its pre-war position.

Labor Problems Not Affecting Plans for New Buildings

F. W. Dodge Company Figures Indicate that Spring and Summer Months Will Bring Greatly Increased Activity to Contractors

LOCAL problems affecting the building labor situation and the general shortage of building materials have apparently been no bar to the preparation of plans and specifications for new structural projects in the Metropolitan District. During the past week architects and engineers in New York State and New Jersey, north of Trenton, have made announcement of a large number of important building and engineering projects for which they are now working on plans, and it is quite probable that the major portion of the total will go ahead during the spring and summer months.

According to the figures of the F. W. Dodge Company for the week of March 6 to 12 inclusive there were plans in progress for 348 new buildings and engineering operations scheduled for construction in this territory, and this work will involve the expenditure of approximately $14,771,900. At the same time contracts were awarded for 152 new projects that will call for a total outlay of $16,833,100. The activity in the offices of architects, engineers and contractors indicates that there is a tremendous volume of building ready to be started in this section of the United States, and if the industry as a whole could be assured of settled labor conditions and an adequate supply of the essential structural materials the spring and summer of 1920 will appear in history as one of the busiest building periods on record.

The list of 348 new projects reported in the various preliminary stages included 75 business and commercial projects, such as stores, office buildings, lofts, commercial garages, etc., $2,766,500; 15 educational buildings, $720,100; 7 hospitals and institutions $1,242,000; 37 factory and industrial operations, $1,638,000; 1 structure for the U. S. Army, $100,000; 26 public works and public utilities, $2,807,300; 3 religious and memorial buildings, $165,000; 170 residential projects, including apartments, flats and tenements and one and two-family dwellings, $4,046,000 and 14 social and recreational projects, $1,287,000.

The list of 152 operations for which contracts were awarded during the week of March 6 to 12 inclusive involved 34 business and commercial projects, $5,780,500; 7 educational buildings of various types, $1,422,000; 2 hospitals and institutions, $18,000; 26 factory and industrial operations, $1,666,900; 2 public buildings $12,500; 12 public works and public utilities, $6,431,200; 64 residential operations, such as apartments and one and two-family dwellings, $1,137,000 and 5 social and recreational projects, $365,000.

Following the trend of the past month or so the largest amount of money in the list of contemplated projects was that involved in the construction of housing accommodations of various descriptions. Among the work actually placed under contract business and commercial projects leads the list in the total amount of money committed for construction of new buildings.

PERSONAL AND TRADE NOTES.

K. B. Thorndike was recently appointed sales engineer in charge of the New York office, 200 Fifth avenue, of the Phoenix Iron Works Co., Meadville, Pa.

Zipkes, Wolff & Kudroff, architects, announce that they have moved their offices from 25 West 42d street to larger quarters at 432 Foruth avenue, northwest corner 29th street.

Structural Waterproofing Co. announces the removal of its offices from 51 East 42d street to the sixth floor of the Grand Central Palace, 480 Lexington avenue, where a permanent exhibition of their materials and methods will be maintained.

Ransome Concrete Machinery Co., Dunellen, N. J., has placed its New York office in charge of Lemuel Smith, Jr., F. G. MacDonald and James H. Fitzgerald. Mr. Smith has formerly been assistant sales manager, Mr. MacDonald has been selling Ransome mixers in the New York territory and Mr. Fitzgerald has been in charge of the company's pneumatic mixer department.

William Goldsmith has resigned his position as construction engineer with the City of New York to become president and general manager of the Riverdale Construction Co. of New York City. While in the employ of the City of New York Mr. Goldsmith was charged with the layout and construction of the city's New Hampton Farms Boys' Reformatory and the Greycourt Women's Farm Colony. He was also superintendent of the Manhattan municipal asphalt plant, in which position he introduced a tractor and trailer scheme of transportation which is said to have saved the city $200,000 in the first year of its operation. It is understood that it was his experiments that made possible the use of New York City sewers for the disposal of snow on the city streets in the recent snow blockade. From 1907 to 1910 Mr. Goldsmith was U. S. district engineer in the Philippine Islands. The company of which he is now directing head is doing housing development work in New York City and vicinity.

Lecture on Building.

Rollin C. Bastress, chief inspector of the Bureau of Buildings, will lecture on "The Inspection of a Building" before the School of Building Construction, in the auditorium of East Side Y. M. C. A., 153 East 86th street, Wednesday evening, March 24, at 8.15 o'clock, and all interested in building construction are invited to be present.

The School of Building Construtcion is unique in that it is largely made up of men" on the job" for one of the big building companies, who have been sent in for instruction in specific lines so that they may be promoted to more responsible positions. There are bricklayers, plasterers, carpenters, clerks, foremen and all intermediate grades of men who hope to be superintendents, foremen, estimators, inspectors or other important links in the chain of "big building" which is expected.

The courses cover architectural drafting, plan reading and estimating, building mathematics, structural engineering, concrete construction, sanitation, heating and ventilation, materials, specifications, alw of contracts, foundations, building code and elevators and refrigeration. One who takes a complete course would consume two years of intensive evening study. Some of the students are highly trained technical men who need specific instruction in addition to theory. As in all Y. M. C. A. schools, the cost is nominal—without profit to the school.

Durability of Green Timber.

That there is prpactically no difference in the relative durability of green timber and seasoned timber when untreated and exposed to the weather and in contact with the ground has been established by recent experiments conducted by the Forest Products Laboratoryy in connection with the manufacture of poles, posts or ties. In the case of ties laid by the laboratory in co-operation with the Northern Pacific Railway, the average life of seasoned ties was only one-tenth of a year longer than that of green ties and measurements on poles made by the laboratory in co-operation with the American Telephone and Telegrahph Company, show that the rate of decay in green poles is a trifle less than in seasoned poles. The fact that green and seasoned timber have the same durability when used in exposed places is due to the fact that both soon reach the same moisture content, and this is the principal factor in determining the rate of decay of a stick of timber.

Wood for interior construction, however, should be thoroughly seasoned; otherwise it is likely not only to shrink to a serious extent, but to decay before it seasons. .

TRADE AND TECHNICAL SOCIETY EVENTS.

National Wholesale Lumber Dealers' Association will hold its annual meeting at Washington, D. C., March 24 and 25.

National Federation of Construction Industries will hold its annual meeting and convention at the Hotel Sherman, Chicago, Ill., March 25 and 26.

New York State Association of Master Plumbers will hold its annual convention at Binghamton, N. Y., March 23 and 24, with headquarters at the Arlington Hotel.

National Wholesale Lumber Dealers' Association will hold its annual convention at the New Willard Hotel, Washington, D. C., March 25 and 26.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

CURRENT BUILDING OPERATIONS

ALTHOUGH weather conditions have materially improved there has been but little change in the local building situation in the Metropolitan district during the past week on account of the continued strike of the bricklayers, that is holding up work upon a number of important projects. Independent building contractors are busy and they have prospects for a greatly increased volume of work in the near future unless the difficulties between the workmen and the employers are speedily settled.

There is a vast amount of new construction pending for which plans and specifications are completed, but architects and owners are unwilling to enter into contracts while the labor situation is beclouded by strikes and disputes. At the present writing there is no indication that these conditions will be changed for some weeks and predictions have been made that the existing difficulties will develop into a long drawn out affair that will adversely affect the entire building year.

Common Brick—The New York wholesale market for Hudson River common brick has passed through an exceedingly quiet week. The last barge remaining on the market has been sold at the current price of $25 a thousand and dealers anticipate a dull period to come that will last until the river is again open to navigation. At the present writing there is no indication of the ice breaking up so that barges from the upper reaches of the river will be able to come through for some weeks yet, but there is no anxiety about a shortage of brick for any possible demand, as there are a number of barges scattered about the Metropolitan district that have only commenced to discharge their cargoes. During the past few weeks some brick has been brought to the city by rail, but this means of transportation is slightly more expensive than the usual method and are care are not available for brick in large volume. Owing to the continued strike of the bricklayers in New York City the demand for common brick has fallen off considerably and dealers do not anticipate a materially increased demand until the strike has been settled and building operations generally resumed. Within the next five or six weeks Hudson River manufacturers will commence to get their plants into condition to resume brickmaking operations, and although it is too early to predict the scale of production for the coming season, it is anticipated that the output will be considerably greater than it has been for the past few years. The only factor troubling the brickmakers at present is the doubt as to an adequate supply of labor to man their plants.

Summary—Transactions i n the North River common brick market for the week ending Friday, March 19, 1920. Condition of market: Demand light, prices firm and unchanged. Quotations: Hudson Rivers (nominal) $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, none; sales, 1. Distribution: Manhattan, 1.

Structural Steel.—Although a considerable amount of new business is being held up pending the outcome of the dispute between the employers and the steel erectors over the matter of an open shop there has been some important bookings recorded, and in general the steel situation is flourishing. According to the statement of the secretary of the Bridge Builders and Structural Society the records for the month of February, 1920, show that 95 per cent. of the entire capacity of the

bridge and structural shops of the country was contracted for. Bookings for local projects announced during the week include 900 tons for a building at Maiden lane and Nassau street, and 5,500 tons for a new building at Broadway and 57th street for a large rubber company. The Standard Oil Company is considering the construction of a new pier at Bayonne, N. J., that will require approximately 600 tons of fabricated material, and the railroads are announcing their scheduled requirements for the coming season. The latter interests are likely to become important factors in the steel market during the coming summer and autumn provided the existing plans for repairs and extensions are carried out. Prices are well maintained and are advancing to some extent. Deliveries are uncertain and in general no promise is made that fabricated material can be delivered in less than four to six months.

Lumber.—The market has not changed to any great extent during the past week. New supplies are scare and retail dealers complain of low stocks that they cannot refill because of transportation difficulties, labor shortage and other influencing factors. The demand for lumber products of every kind and description is very strong and likely to increase rapidly now that the weather has improved, and builders are able to proceed with their operations. From the present viewpoint it is unlikely that the supply of lumber will be equal to the demand during the coming spring and summer, and as a consequence considerable suburban building may have to be postponed until the market is better, supplies and prices easier.

Roofing and Building Papers—Continued activity is manifest in this line and jobbers are able to quickly dispose of all they are in a position to obtain from the manufacturers. The recent price advance has not slowed down buying to any extent and it would seem as though consumers are buying ahead against a further increase in the near future.

Window Glass—The plate and window glass situation is critical, with local jobbers practically cleaned out and a demand that would keep them busy for months to come provided they could obtain this commodity from the manufacturers. Orders are pouring into the factories, but they are not in a position to accept any new business at this time, as they are booked up for many months to come. All glass prices are nomina land entirely subject to the stock on hand at the speciged time of delivery. Building interests are keenly experiencing the glass shortage and are offering almost any price for inferior quality in order to complete their operations on schedule time.

Linseed Oil—This market remains firm and steady at the current basis of $1.84 per gallon for March delivery and a slightly easier price for later deliveries. The flaxseed situation has been reported to be rather critical because of the unsettled labor conditions in South American markets and ports. The demand from local buying sources indicates marked signs of strengthening and with a large building movement next spring the market should be very firm.

Nails—The local nail situation has not changed in any respect. There is still a serious shortage of both cut and wire nails and jobbers are experiencing great difficulty in even partly filling their orders, and consumers generally willing to take whatever they can get. The mills are unable to accept new orders because of the number of unfilled orders now on their books.

Increasing Valuation

When the representative of The New York Edison Company proved to the owners of the Potter Building, a pioneer office building at 36-38 Park Row, that Central Station Service would save them money, he also showed them that electricity would solve their other problems

Closing down the generating plant was only a half solution of the improvement question. Complete electrification of the building equipment was proposed, and the owners, after considering the great annual saving and the increased valuation of the property, decided to install electrical apparatus throughout

The lighting installation will be 2,500 lamps; the power installation, including elevators, 250 horse-power

Why Large Buildings Install
MARBLELOID
"The Ideal Composition Flooring"

Marbleloid is being put into an ever increasing number of important buildings because it is a satisfactory and efficient flooring. Hard, dust-proof, durable, slow to chip or crack, it has the close texture that repels moisture and the pleasing appearance that brightens the office. Easily applied and inexpensive, it pays dividends from the day it is laid.

Where may we send you full information, samples and a list of Marbleloid installations?

Architects and Engineers are specifying and demanding

STEELBILT
Toilet Partitions

in preference to those made of ordinary materials.

STEEL has exclusive advantages It is non-absorbent and therefore sanitary. It does not crack; in fact, is indestructible. It has a neat, clean appearance. Costs less than other substances and is more easily and economically erected. It is the *logical* material.

STEELBILT Toilet Partitions are made in standard sizes, some of which are carried in stock for quick delivery. Partitions and doors are made in units, of sizes to suit any plan layout.

Write Dept. "R" for full particulars and a copy of our architects' specification sheet.

Wants and Offers, For Sale and For Rent—Rate 15c. per line; count six words to the line.

Employers anxious to secure help (clerical or professional), or employees wishing to obtain a position or better a present one will find this department of the Record and Guide the quickest and most direct method of bringing their wants to the attention of the largest number of interested readers, in the real estate or building professions.

No medium reaching real estate interests affords owners, brokers, and executors wishing to dispose of desirable property (in or out of the city), so favorable an opportunity to bring the merits of their propositions to the attention of possible buyers as does the For Sale and For Rent section of the Record and Guide.

PROPOSAL

STATE OF NEW YORK,
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS,
Albany, March 5th, 1920.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 6th, 1920, at which place and hour they will be publicly opened and read, for the construction of Barge Canal Terminals, pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

TERMINAL CONTRACT NO. 19-P.

For paving the terminal piers at Greenpoint and at West 53rd street, New York City.

Contract plans, sheets 1 and 2

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding Exchange, Buffalo, N. Y., and at the office of the State Engineer and Surveyor, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work, according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH,
Superintendent of Public Works.

Hysteria at Albany

To legislate in haste and repent at leisure seems to be the policy agreed upon by the Senate and Assembly at Albany in a frantic effort to remedy housing and renting conditions in the metropolitan district. Upon no other theory can the hasty action of the legislative leaders in adopting their latest program be explained.

Not in many years has there been witnessed at the State Capitol scenes so disgraceful as those which marked the so-called hearing on housing and rental bills before the City Committees last Tuesday. So far as the hearing itself was concerned it afforded no opportunity for judicial consideration of the various phases of these complex problems. The presence of large delegations, headed for the most part by loud-talking spokesmen, evidently had the effect desired by those who engineered the descent in force upon the legislative citadel. The members of the delegations and their belligerent attitude seemed to strike terror into the hearts of many Senators and Assemblymen who hope to run for re-election next November. In such an atmosphere it is not surprising, perhaps, that the legislative leaders have so promptly rushed into conference and agreed to the passage of twelve measures, some of them of the highest importance, within a very few hours.

It is still too soon to gauge with any degree of accuracy the effect of the housing and rental legislation which the leaders in Senate and Assembly propose to place upon the statute books instantly. One ray of hope for level-headed action is to be found in the fact that Governor Smith has not indicated in advance his approval of the program agreed upon. Assuming that these twelve bills are all to be passed by the Legislature without delay, there will remain the possibility of separating the good from the bad through proper consideration before the Governor.

As matters stand, the politicians seem determined to play politics in a public crisis rather than to be guided by the economics of the situation. There are more tenant votes than landlord votes, but the legislators seem to have yielded to a clamor based on the false assumption that there are no fair landlords in the metropolis and that every person who rents dwelling quarters here is a profiteer. The square landlords, of whom there are many, are put by the legislators in the same class with the get-rich-quick shoestring operators who ought to be in jail.

The Real Estate Board of New York has done its best to aid the Legislature in formulating a sane policy to meet the existing situation. Some of its suggestions have been incorporated in the new program, and for this it is probably fitting to give thanks. But there remains the question if the Legislature, in its efforts to handle a crisis with political treatment, is not merely forcing another and greater crisis.

The Vehicular Tunnel and the Food Supply

Spring is here but makes its advent at a time when one of the periodical dock strikes with its attendant evils is bringing about conditions in the food supply of this city similar to those often existing during the Winter season. Boats arriving from Southern ports with the stocks of early vegetables and fruits on which the population of Manhattan relies to tide over the period of scarcity between the use of the dwindling storage kind and the near-home-grown varities from New Jersey and Long Island are unloaded, and the succulent produce is going to waste. In the Winter ice and snow make eating regularly a happy-go-lucky matter. But the longshoreman is always with us doing his worst to interrupt steady traffic in and out of the greatest city in the world.

Ice, snow and the longshoreman can be made less innocuous by building the New York-New Jersey vehicular tunnel, so that neither of these three intermittent, but perennially pernicious elements, can interrupt the continuous flow of fruit, vegetables, milk and other condiments of the table, and coal, into the heart of the Metropolis.

At Albany there is a bill to forward the building of the tunnel. There has also been suggested by one of the legislators, who is anxious to cull favor with school teachers that the building of the tunnel shall be deferred so that the State may have the funds to provide the $20,000,000 necessary if teachers' salaries are to be raised.

It is not treating the question in too light a manner to suggest that there might not be any necessity for increasing the salaries of Manhattan teachers if some measure is not taken to prevent in the future the cutting off of the food supplies of 6,000,000 people at the vagaries of the elements or the whims of the longshoremen and dock handlers. It is of as great importance that the tunnel shall be built so that school children may surely be fed and warmed as it is that school teachers be paid higher salaries.

The vehicular tunnel is of prime importance to Manhattan and means should be provided for its building—which does not imply that the obligation of the State to provide suitable education for its young people should not also be met by making sure that an adequate and satisfied teaching staff is employed.

Daylight Saving and Minority Rule

New York City and State are entitled to credit for having saved daylight saving, the manifold benefits of which are too numerous and too well known to need restatement. The repeal of the national law was effected because a minority of the voters who have always had more influence on legislation at Washington than they were entitled to intimidated the weak-kneed representatives of the agricultural districts and were sufficiently powerful through their organizations to reach and influence those from the cities and large towns. The repeal of the Federal law was accomplished in somewhat the same manner, although not by the same interests, as was the passage of the prohibition law. Both were forced through Congress by fear of what a minority of the people might do and without due regard to the wishes of the majority. It is one of the weaknesses of the form of government under which the

people of the country live that the will of the majority can not always be expressed in time to prevent the minority swaying legislation.

Daylight saving, however, has not been killed, but only reserved for those who are strong enough and of sufficient resources to obtain for themselves what the minority of voters had decreed they should not have. New York City is quite able to take care of itself, and that its ideas about the wholesomeness of giving indoors workers an opportunity in the summer season to get out of doors before sunset are approved by many other cities throughout the country is evidenced by the way they are lining up behind the leadership of the Metropolis. In Boston, Philadelphia, Cleveland and Chicago at least some of the clocks will beat time in harmony with New York's City Hall timepiece. It will not be long before daylight saving, which really should be entitled "life saving," will again be practiced throughout the country in the good old summer time because minority rule cannot be maintained in this republic.

No Opposition at Hearing on Governor's Budget Plan

(Special to the Record and Guide.)

Albany, March 25.

NO opposition was voiced at the hearing on Tuesday on the Gibbs-Lee bills designed to carry out the recommendations of the Governor's Reconstruction Commission for the establishment of an executive budget system and making all state officers except the Governor, Lieutenant Governor and Comptroller appointive, and consolidating state departments and bureaus.

Frederick C. Tanner, former chairman of the Republican State Committee, pointed out that in the past twenty years the number of state departments had increased from thirty-nine to 189, with a corresponding budget increase of $12,000,000 to $117,000,000. He added that while the population had increased only 53 per cent. in this period the tax rate had jumped 634 per cent.

"The great problem here is not Bolshevism," he declared, "but taxation. Bolshevism will take care of itself, but taxation will be with us always."

Mr. Tanner opposed the idea of extending the terms of the Governor and other elective state officers to four years.

Others who favored the bills were Dwight Marvin, of the Troy Chamber of Commerce; William R. Bayes, of the Brooklyn Chamber of Commerce; Addison B. Colving, of Glen Falls; Judge Alphonso T. Clearwater, of Kingston; Miss Nina Bruere, of New York City, and Raymond B. Ingersoll, of the City Club, New York.

Bronx Needs Thousands of Additional Living Apartments

IT will require 9,300 additional living apartments to take care of the normal population increase in The Bronx for 1920.

Such is the consensus of opinion of Hon. Patrick J. Reville, Superintendent of The Bronx Building Bureau, and Hon. Robert J. Moorehead, former Superintendent of The Bronx Building Bureau, in a joint statement on the present housing situation in The Bronx, prepared at the request of The Bronx Board of Trade, with which organization both gentlemen are affiliated.

The statement, which may be well considered as highly authoritative, because of its official aspect, follows:

"The population of The Bronx on January 1, 1920, was approximately 775,000 (estimated).

"The normal yearly population increase is from six to ten per cent. At the miniumum rate, six per cent., the population increase in The Bronx in 1920 will total 46,500. Estimating five persons to the family, it will require 9,300 additional living apartments to accommodate them.

"Since 1915, the plans filed for new tenement and dwelling houses have not kept pace with the increase in population. In 1916, there were planned 359 buildings, for 5,403 families, or 24,313 persons. In 1917, there were 203 buildings planned, for 1,919 familes, or 8,635 persons; in 1918, only 64 bulidings, for 806 families, or 3,627 persons.

"The year 1919 shows a substantial increase over 1917 and 1918, viz: 573 buildings, for 3,917 families, or 17,626 persons.

"The prospects for continued building activity are dubious, as the cost of construction has increased over one hundred and twenty per cent. since the beginning of the war in 1914."

Attached to the statement is the following tabular exposition of the existing housing accommodations in the Bronx:

Occupied January 1, 1920.

Type of Bldg.	No. of Bldgs.	Living Apart's
Tenements	10,546	140,160

This makes a grand total of buildings amounting to 39,436, of which number 10,599 are tenements, and 28,837 are dwellings, with the following:

Jurisdictional Strikes Eliminated by Recent Agreement

ACCORDING to the announcement made from the headquarters of the American Federation of Labor at Washington early this week, there will be no more strikes in the building industry growing out of disputes over division of work. Agreement has been reached, it was stated, that the many unions represented in construction work will abide by the decision of a representative board that is now in session at Washington, which will finally settle all troublesome questions pertaining to jurisdiction. The assignment of work to the various trades making up the building industry will continue in effect indefinitely and in the event that further disputes arise, there will be a resort to arbitration, as in the present instance, rather than to cessation of work.

Union officials and representatives of the American Institute of Architects, meeting with the building trades delegates, said the agreement to be given formal expression by the joint board was one of the most important in the history of union labor. It was emphasized as being especially important just at this time, when building activity in every section of the United States is greater than ever before in the effort to make up the shortage of homes and business structures resulting from war curtailment of construction.

Decide on Twelve Bills to Regulate Housing Situation

Following Hearing on Lockwood Program Legislative Leaders of Senate and Assembly Outline Policy for Legislative Enactment

(Special to the Record and Guide.)

Albany, March 25.

AFTER a conference which lasted many hours, the leaders in the Senate and Assembly agreed last night upon a program of legislation intended to relieve the housing and renting crisis in New York City. The compromise program agreed upon does not apply to any other part of the state, excepting the City of Buffalo.

Adhering to the theory which was used as the basis for regulating rentals in Washington during the war, the legislative leaders have adopted the following as an outline of the policy underlying the proposed new legislation:

"Unjust, unreasonable and oppressive agreements for the payment of rent having been and being now exacted by landlords from tenants under stress of prevailing conditions whereby the freedom of contract has been impaired and congested housing conditions resulting therefrom have seriously affected and endangered the public welfare, health and morals, and a public emergency existing in the judgment of the Legislature by reason thereof, it shall be a defense to an action for rent accruing under an agreement for premises occupied for dwelling purposes in cities that such rent is unjust and unreasonable and that the agreement under which the same is sought to be recovered is oppressive."

Twelve different measures were agreed upon by the legislative leaders and it is their plan to enact these bills into law within a few days. A summary of the twelve bills is here given:

1. Burden of proof that a tenant is objectionable when summary eviction is sought on that ground is shifted to the landlord.

2. The Ottinger law is amended so as to provide that where an agreement between landlord and tenant does not specifically mention the duration of the tenancy this shall continue until October 1 following occupancy.

3. Thirty days' notice instead of twenty days by tenants intending to move is required where there is a monthly tenancy agreement.

4. In holdover cases, after there has been default in the payment of taxes or assessments, a tenant may remain, proviled he deposits the amount of his rent with the Judge or Clerk of the Court through which eviction warrant has been served.

5. Where a precept is returnable the court may determine the amount of rent due and render judgment for that amount.

6. Where a landlord has increased his rent more than 25 per cent. over what it was in the previous year the tenant may set up as a defense to action for payment of rent that it is "unreasonable, unconscionable, unjust and opressive," but the landlord may recover a "reasonable" amount of rent.

7. Section 230 of the real estate law, under which a landlord may recover double penalty from a tenant holding over without his consent, is repealed.

8. A tenant may make application for a stay up to nine months and the Judge in his discretion grant it, provided the tenant deposits the amount of his rent and prove to the satisfaction of the court that he has diligently sought to secure suitable premises for himself and family and has failed through no fault of his own.

9. Practice is prescribed and the provisions of the code in summary proceedings harmonized with the new provisions embodied in the relief bills.

10. The penal law is amended by making it a misdemeanor, punishable by a fine of $1,000 or one year's imprisonment, or both, for a landlord to deny to a tenant the privilege of "natural and normal service," such as heat, water and operation of elevator.

11. The same defense is prescribed in actions for ejectment in the Supreme Court as has been prescribed for summary proceedings in the municipal courts in rent and eviction cases.

12. Mortgages up to $40,000 held by one individual on dwelling houses are exempted from State income tax.

The turbulent hearing on housing and rental bills which took place in the Assembly Chamber on Tuesday made a deep impression on the legislators. The hearing was marked by the greatest disorder. Many reckless statements were made by members of the various delegations from New York City which attended the hearing. There was a great deal more invective than argument, and fistic encounters between tenants and landlords were constantly threatened. From start to finish the hearing resembled the convocation of the Constituent Assembly in Petrograd following the overthrow of the Kerensky regime.

Alexander C. McNulty, representing the New York Real Estate Board, suggested an amendment of the bills so as to make them apply only to dwellings and the committee promptly accepted his suggestion. He pointed out that the Real Estate Board would favor a clear-cut definition of tenancy so as not to interfere with present leases; that taxation of mortgages be eliminated; that monthly tenancy be extended for a year with restrictions against tenant and landlord breaking a lease and that the bills be confined in their application to dwellings only.

The attitude of president La Guardia of the Board of Aldermen, expressed in the statement that he was unqualifiedly partisan in favor of the tenants and came to Albany "not to praise the landlord, but to bury him," was something of a surprise to the legislative committees, in spite of the fact that it was the cause of a burst of applause from the tenant faction at the hearing.

Municipal Court Justice Aaron J. Levy said that the housing situation had been capitalized by radicals in New York City, who raised moneys ostensibly for the purpose of promoting the interests of the tenants but in reality for revolutionary and radical propaganda.

Arthur J. W. Hilly, chairman of the Mayor's Committee on Rent Profiteering, advocated the enactment of the bills, declaring that the time had come when it is imperative to vest municipal court justices with the power to determine the reasonableness of rent increases.

"The time for persuasion is passed," he said. "We now need the firm hand of the law and these bills will fill our need."

Senator Schackno shocked the legislative committees with the declaration that "there is no such thing as an honest landlord in New York City." This remark was one of the contributing causes of the acrimony displayed at the hearing and helped to prevent real consideration of the merits of proposed legislation.

Real Estate Board Outlines Policy on Housing Bills

Recognizing Importance of Providing Relief in Present Crisis It Presents Constructive Program to Legislative Committee

THE attitude of the Real Estate Board of New York on rent legislation now before the Legislature, and the efforts of the board in relief of property owners other than the rent profiteers against whom the legislation is directed, is outlined in the following statement issued by Richard O. Chittick, executive secretary of the board:

The hearing before the Joint Cities Committee of the Senate and Assembly on certain rent legislation bills of the Special Joint Comittee, held at Albany last Tuesday, created quite a little excitement and not a little comment. The public was heard in one form or another, that feeling ran high, and that compliments were exchanged between certain types of landlords and certain types of tenants. Practically nothing, however, has been said as to what the bills themselves contain or of any constructive arguments for or against them.

That, after all, was the purpose of the hearing as announced by the Chairman of the Committee and that was what the Real Estate Board was interested in. At the hearing the Real Estate Board was represented officially by one person and that person was the Board's special counsel, A. C. MacNulty. Mr. MacNulty spoke for the Real Estate Board only, and for no other organization.

It appears from reports since received from Albany that the two vital points made by the Real Estate Board will be conceded, namely, the confining of this emergency legislation to multi-family housing and the exemption, though only partial, of mortgage interest from the Income Tax.

The attitude of the Real Estate Board was outlined precisely at a meeting of its Board of Governors following a number of meetings held by its Legislation and Taxation Committee; and this attitude is clearly defined in resolutions adopted by the Board of Governors and announced in the Assembly Chamber to the Cities Committee at the hearing on Tuesday. At the same time, amendments to the bills were presented to the committee.

The resolutions are as follows:

Whereas, the housing shortage in the City of New York has reached an acute stage and rents have necessarily advanced and the situation can be remedied only by the immediate and extensive construction of new housing, through co-operation of lenders, labor and material men, and not by legislation violative of the rights of contract, and

Whereas, one of the chief obstacles to the production of new housing is the lack of funds for new construction, and this condition is due primarily to the fact that mortgages are taxed as to their income under Federal and State acts, and

Whereas, the Special Joint Committee on Housing has recommended certain bills, to wit: Int. Nos. 1132, 1134 and 1135, in their judgment calculated to check the charging of exorbitant rents by unscrupulous persons, and

Whereas, the Real Estate Board of New York is cognizant of the gravity of the situation and desires to aid in remedying it, and deprecates to the fullest extent the action of those who are taking advantage of the situation to charge exorbitant rents, but is opposed to the principle of rent regulation and the invasion of the rights of contract embodied in the bills proposed by the Special Joint Committee on Housing, and

Whereas, the Legislation and Taxation Committee of the Real Estate Board of New York has given careful consideration to the said bills, and has recommended certain amendments thereto as per the attached schedule.

Resolved, by the Board of Governors of the Real Estate Board of New York that these suggested amendments tend to safeguard the interests of fair-dealing landlords and are approved and that they be submitted to the Joint Committee on Cities for its consideration and action.

Resolved Further, that the Real Estate Board of New York again urges upon the Senate and Assembly the necessity for enacting such legislation as will exempt entirely from the provisions of the State Income Tax, and interest on mortgages secured by improved and unimproved real property.

Resolved further, that the Real Estate Board of New York respectfully and earnestly requests the Legislature of the State of New York to memoralize Congress to exempt entirely the interest on mortgages secured by improved and unimproved real estate from the provisions of the Federal Income Act.

The Real Estate Board, in other words, frankly confessed that it realizes the existence of an emergency and desired to co-operate to the fullest extent with the Legislature, but that it was fearful of the resuls of certain aspects of the proposed legislation. And it offered its amendments in the desire both to help the committee and to "safeguard the interests of fair-dealing landlords." And it made the point that restrictive legislation aimed to catch profiteers will not produce housing.

While brief newspaper summaries have been made of these bills very few persons know even yet of their details, although in the main they embody certain features of some of the eighty-odd bills introduced on this subject at this session. Three of these rent bills are quite important; and the partial exemption of the interest on mortgages from the provisions of the Income Tax Law is included in the Special Joint Committee's program.

The important bills are Assembly Int. 1356, Pr. 1558 (Same as S. 1132, Pr. 1286).

This bill after stating that "Unjust, unreasonable and oppressive agreements for the payment of rent having been and being now exacted by landlords from tenants under stress of prevailing conditions whereby the freedom of contract has been impaired and congested housing conditions resulting therefrom have seriously affected and endangered the public welfare, health and morals, and a public emergency existing in the judgment of the legislature by reason thereof," provides that it may be set up as a defense to an action for rent accruing under an agreement for premises occupied for dwelling purposes in cities, that such rent is unjust and unreasonable and the agreement oppressive and that where it appears that the rent has been increased more than 25% such agreement shall be presumptively unjust, unreasonable and oppressive. The plaintiff is to prove the reasonableness of the rent and may set up a separate action for its recover. The act is to be in force until November 1, 1922.

The Real Estate Board urged upon the Joint Cities Comcittee:

1. That in view of the fact that the measure contains a preamble "which apparently attempts to anticipate an attack upon its constitutionality, while application of its substantative provisions to hotels, apartment hotels and lodging and rooming houses is unnecessary and utterly impossible," asked that it be amended to apply only to premises occupied for dwelling purposes "by more than one family except a room or rooms in a hotel, apartment hotel, lodging or rooming house."
2. That the increase of 25%, while in some cases reasonable, would in many cases deal hardship to fair-dealing property owners, as where such allowance would not meet increased carrying charges; as where, again, rent paid a year ago was under an old lease at a low rental.
3. That to avoid congestion in the courts likely to arise from jury trials and to avoid placing the case of the landlord in the hands of a possibly prejudiced jury of local trades-people and small rent-payers the reasonableness of the rent be left to the decision of the Justice of the Municipal Court.
4. That, in order not to discourage new construction of additional housing or to intensify competition for existing quarters, the bill be amended so as to make it applicable only to new constructions or to old ones substantially reconstructed for multi-family use.
5. That in order to meet the convenience alike of tenants and landlords, the bill should become automatically repealed on September 30, 1922, rather than on November 1st of that year as intended in the bill as introduced.

Quite as important a bill, if not more so, is:

Assembly Int. 1353, *Pr.* 1555 (*Same as S.* 1134, *Pr.* 1288)

Providing that presentation of a petition in summary proceedings to recover possession of real property in first and second class cities shall be an election by the landlord to terminate tenancy, which might otherwise arise by operation of law. There are provisions for a discretionary stay of issuance of warrant, for the granting and continuing a stay and for payment of deposit of rent to the court to be paid to landlord as may be finally adjudicated. Any provisions of a lease whereby the lessee or tenant waives any provision of this act shall be deemed against public policy and void. The act is to continue in force until November 1, 1922.

In relation to this bill, after asking that for reasons stated in support of a like amendment in the proceeding bill, this bill should apply only to multi-family houses, the brief prepared by Mr. MacNulty and presented to the Joint Cities Committee on behalf of the Real Estate Board of New York says in support of the board's request for amendments: "As it stands this bill, if enacted, would impair the obligation of contracts for the sale of real property or ground leases thereon, subject to existing leases and tenancies. It would also militate against the sale of residence property to tenants and others upon a co-operative basis. It would also prevent the demolition or substantial reconstruction of buildings that are unsafe or undesirable, and prevent the personal occupancy of the landlord or his family of his own property. Review of Real Estate Market for the Current Week

Standard Oil Lease on Lower Broadway Outstanding Feature, With Tenants Continuing to Buy Apartments and Office Buildings

THE most notable event of the week was the Standard Oil transaction on lower Broadway for the purpose of the rearrangement of its plottage and its increase in area so that as finally outlined it can be more easily and profitably improved. Just what plans the company has in view have not as yet been announced. But by the sale of the Arcade Building and the lease of the Welles Building at 14-20 Broadway and the probable purchase of the Hudson Building at Nos. 32-34 and the Wendell corner at Beaver street, now occupied by the Produce Exchange Bank, the Standard Oil Company has effected the consolidation of a plottage covering the entire lower part of the block from Exchange Place to Beaver street and between Broadway and New street. Only the Lisbon Building at the northwest corner of Beaver and New and the building at 1-3 Beaver are not included in the area now controlled by the Standard Oil Company. The plot has a Broadway frontage of 447.5 feet and runs along New street for 255.6 while the Beaver street frontage aggregates 84 feet. With or without the two comparatively small areas represented by Nos. 1-3 Beaver street and the Lisbon Building the Standard Oil Company now has the largest and most favorably located property in New York City. If it succeeds in adding these two parcels to the plot it will be in a position to make a most notable addition to the architectural enchantment of the city. The location of the plot opposite the Cunard Building, with an outlook over Bowling Green, adds to the possibility of giving distinction to whatever plans may finally be worked out for the development of the plot.

Otherwise the market of the week was chiefly concerned in the continuance of the movement of tenants to take over for their own occupancy apartment houses and office buildings. The number of these transactions was considerable. But in the general realty market there was reflected a desire to await the outcome of the agitation before the Legislature for the enactment of restrictive measures which might affect rentals before making large commitments. Notwithstanding this feeling there was a wide range of activity and as the underlying conditions are sound the prospects for the season continue to be promising.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 124 as against 118 last week and 102 a year ago.

The number of sales south of 59th street was 37 as compared with 46 last week and 28 a year ago.

The number of sales north of 59th street was 87 as compared with 72 last week and 74 a year ago.

From the Bronx 89 sales at private contract were reported as against 68 last week and 81 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 419.

Stock Goes on 8 Per Cent. Dividend Basis

The Board of Directors of the New York Title and Mortgage Company, through President Harry A. Kahler, announced that the dividend had been increased from 1¾ per cent. to 2 per cent. for the quarter, thus placing the company's stock on an 8 per cent. basis.

The first quarter's business of the year 1920 had been unusually gratifying. Since January 1 about $5,000,000 in guaranteed mortgages had been sold to investors while the general business of the company in Title Insurance and allied matters had shown a substantial growth.

Elbridge Garry Chadwick, for many years prior to the war associated with Brown, Wheelock Company, Inc., as director, has returned from Paris after a stay of two years as head of the Home Communication Bureau of the Red Cross in France, and has again associated himself with Brown, Wheelock Company, Inc.

Charles B. Van Valen, Inc., has arranged for loans aggregating $76,500 covering seventeen private dwellings to be located on East 3rd and East 4th streets between Avenues O and P in Brooklyn.

Ryan & Co. have moved their offices to 142 West 15th street, where they will continue to transact a general real estate business.

Columbus Circle Deal.

Fiske Rubber Tire Company, whose plans for a twenty-four-story building at Broadway, Eighth avenue and Columbus Circle have been approved by the Board of Appeals, has added to the site by acquiring from Frederick Brown the seven-story St. Augustine apartments, 50.5x90, at 960 and 962 Eighth avenue, southeast corner of Fifty-seventh street, and the adjoining five-story dwellings, each 25x100, at 956 and 958 Eighth avenue.

Rector Corner Sold.

Russell L. Engs purchased through Cross & Brown Company the four-story building, 57.10x93.11 irregular, at 1845 and 1847 Broadway. The property originally was an apartment but was altered for business purposes and at various times occupied by George W. Rector, Louis Martin and Bustanoby restauranteurs. It is now leased to the Colt-Stratton Company and the New York Automobile Dealers' Association. The purchaser intends to occupy the premises at the expiration of present leases. Cross & Browne Company will manage the property. The Alurion Realty Corporation is the present owner of record. A lease of the premises for twenty years at an annual rental of $22,000, between George B. Rector and Joseph B. Malley from Abraham and Frank Miller was recorded in January, 1912, and in March, 1914, the Upright Company and Charles M. Mollon negotiated a lease for eighteen years at the same rental.

New Owners for 54th Street Building.

Through Walter C. Wyckoff the nine-story building, 75x100.5, at 118 East Fifty-fourth street has changed ownership; also 115 to 119 East Fifty-third street, 67.8x100.5 and 123 to 129, adjoining 89.4x100.5 both similar structures and abutting the Fifty-fourth street property. The purchasers will form a stock company for the ownership and management of the properties on a co-operative basis. The seller is the No. 118 East Fifty-fourth Street Company, which assembled the property in 1911 and 1912 through Mr. Wyckoff. The annual rental roll is reported to be about $240,000. Among those who have joined in the purchase of the property are W. Kirkpatrick Brice, T. Ferdinand Wilcox, H. M. Merriman and H. S. McKee. Mr. Wyckoff will continue as managing agent of the property, representing the new owners.

Apartment House Project.

An option to purchase the old home of Stanford White at the northwest corner of Lexington avenue and Twenty-first street has been obtained by Charles W. Mix, president of the Frank L. Fisher Company. The option also includes the adjoining four-story house at 119 East Twenty-first street. Herbert Lucas is interested in the syndicate and a twelve-story apartment is in project for the site, similar to those developed by Mr. Lucas on the opposite side of Gramercy Park. The estate of Henry A. C. Taylor owns the properties. The White residence was occupied until recently as the Princeton Club.

Another Broadway Sale.

Cammann, Voorhees & Floyd and Spotts & Starr, Inc., sold for the estate of Newbold Edgar to Frederick Brown, 870 Broadway with an "L" through to 30 East Eighteenth street, comprising two four-story buildings, 25x99.3x34.4x25. The estate held the property for seventy years.

Corner on St. Nicholas Avenue Sold.

The six-story apartment at the northwest corner of St. Nicholas avenue and 125th street was sold by Mrs. Clara Berrick, executrix of the estate of Solon Berrick, to the Amer Realty Company, J. J. Mautner, president. The house is 100x100 and contains thirty-nine apartment and seven stores. It rents for $40,000 a year. The seller was represented by Barnes, Chilvers & Halstead and the buyers by Max Monfried. Spotts & Starr, Inc., were the brokers.

Narrow Skyscraper Sold.

Manice Realty Company, Henry M. Alexander, president, a holding company for the late Henry De Forest Manice, is reported to have sold the northeast corner of Pine and William streets, an eleven-story office building, 15.3x57.5, known as 46 Pine street and 55 William street. The site contains about 969 square feet, less than half a city block, and the building is the tallest in lower Manhattan occupying a ground area of this size. It was erected in 1891 and is one of the first tall business building put up in the section. The asking price was $250,000.

Recent Loans on Real Estate.

The Columbus Circle Arcade Company (Jacob Wertheim) has secured a mortgage of $1,500,000 through Wm. A. White & Sons on the property bounded by Broadway, 57th and 58th streets and Eighth avenue, which was recently leased for a long term of years to Dr. John A. Harriss, Special Deputy Police Commissioner. Under the terms of the lease to Dr. Harriss a modern office building with foundations sufficient for twenty stories is to be completed within three years at a cost running into the millions. The erection of this building, which is the largest office building so far projected north of Times Square section, is another substantial indication of the trend toward Columbus Circle.

It is also reported that Wm. A. White & Sons have recently placed the following other loans: $96,000 at 5½ per cent. for three years on 47-53 Delancey street; $50,000 at 6 per cent. for three years on 71-3 Orange street, Brooklyn; $295,000 at 6 per cent. for five years on Broadway, 131st and 132d streets; $15,000 at 6 per cent. for three years on 113 West 51st street; $130,000 at 6 per cent. for ten years on 61-3 Vandam street and 74-6 Charlton street; $7,000 at 6 per cent. for five years on 248 East 48th street; $350,000 at 6 per cent. for ten years on the Rosenberg Bros. Clothing Factory in Rochester; $12,000 at 5½ per cent. for three years on 830 Ninth avenue; $27,000 at 5½ per cent. for three years on 304 Columbus avenue; $50,000 at 5½ per cent. for three years on 22 East 63d street; $90,000 at 5½ per cent. for five years on 80-82 Pine street and 136 Water street; $9,000 at 5½ per cent. for three years on 54 East 104th street; $12,500 at 5½ per cent. for five years on 34 West 84th street; $36,000 at 5½ per cent. for three years on 306 West 109th street; $90,000 at 6 per cent. for ten years on the Samler Clothing Stores in Norfolk, Va.; $100,000 at 5½ per cent. for five years on 72-74 Pine street; $6,000 at 5½ per cent. for three years on 135 West 121st street; $200,000 at 5½ per cent. for five years on 35 West 35th street.

Warromough Apartments Sold.

Daniel H. Jackson sold to Mabel Revelle 629-631 West 115th street, the Warromough, an eight-story apartment, 50x100, rented at about $28,000. Mr. Jackson took in payment 252 West Forty-seventh street, a six-story tenement, 25x100. Byrne & Bowman were the brokers. Goldsmith & Rosenthal represented Mr. Jackson.

Deal in Central Park West.

Arthur Cutler & Co. sold for William Sperry 383 Central Park West, a seven-story apartment, 50x100, to Mr. Plotkin, who immediately resold the property at a substantial profit to a client of the same brokers. The seller was represented by Babbage & Sanders, attorneys. Herman Turkel represented Mr. Plotkin and the alternate purchaser was represented by Goetz & Jacoby.

Investor Buys in 113th Street.

The eight-story apartment house at 530 West 113th street, held at $200,000, has been sold by the Oothout Realty Company (Edward J. O'Gorman, treasurer), to an investor. It occupies a plot 50 by 114 irregular. Mulliken & Moeller erected the building about ten years ago.

Deal on Morningside Avenue.

Charles Galewski has resold to Ernest A. Johnson the granite apartment houses, two six-story elevator structures at 20 to 23 Morningside avenue East, northeast corner of 116th street, occupying a site of 100 by 100. The property, which faces Morningside Park, was held at $300,000, and returns more than $35,000 annually in rentals. Henry Hart was the broker.

Park Avenue Apartment Resold.

Max Lowenthal and R. A. Low resold to a client of Douglas L. Elliman & Co., Inc., the thirteen-story apartment at 635 Park avenue, the southeast corner of Sixty-sixth street. The sellers acquired the property six months ago from Mrs. Robert B. Minturn, who bought it from the Fullerton-Weaver Realty Company in 1913 before it was completed. It occupies a plot 75.5x80 and is arranged for one apartment of fourteen rooms and four baths to a floor. The annual rental is said to be $100,000. Milton Dammon, attorney, represented the sellers and Stoddard & Mark represented the buyer. Douglas L. Elliman & Co., Inc., have been appointed agents by the new owner.

Tenants Buy Apartment Building.

Tenants bought the twelve-story structure at 530 West End avenue, the southeast corner of Eighty-sixth street, from Max N. Natanson, who signed a contract to buy it a few days ago. The house was built by Mulliken & Moeller and contains twenty-five suits of eight and ten rooms. It occupies a plot 80x102.3 and is said to rent for $100,000. The sale and resale was negotiated by Thomas J. O'Reilly.

Amsterdam Avenue Apartments Sold.

The three six-story apartments at 1985 and 1995 Amsterdam avenue, 40x106 each, have been acquired by Benjamin Winter, president of the Winter Realties Company, from Abraham Hyatt, vice-president of the Lincoln Trust Company, who bought them about four years ago. M. Cohn & Co. and Henry I. Cooper were the brokers in both transactions and will retain the management of the properties. Morris E. Gossert represented the buyer and Middlebrook & Borland the seller.

New Building for Madison Avenue.

Rice and Hill, have sold for Ida E. Bliss and Justine A. Stafford, the property at 301 Madison avenue, a five-story building, on lot 24 by 100 feet, between 41st and 42d streets. The purchaser is a client of Feiner & Mass, attorneys. This proprty has been held at $225,000. Negotiations are pending for a long term lease of the property for business purposes and in the event of a consummation of these negotiations, a substantial structure will be erected on the site. This property, which has been held in the family of the recent owners for over fifty years, is just south of the 25-story Hecksher building and opposite the 42nd Street building and the site of the new twelve-story building to be erected on the northwest corner of Forty-first street and Madison avenue.

Cyrus Townsend Brady's Home Sold.

Fish & Martin have sold for Frederick Brown his property situated at 22 Edgecliff Terrace, Park Hill, Yonkers, which was recently taken in exchange by Mr. Brown for a large apartment house on West 134th street, New York City. This property was formerly the home of Cyrus Townsend Brady, the well-known author. The purchaser is John Ewen of Dobbs Ferry. The property was held at $50,000.

Big Williamsburg Tenement Deal.

The Realty Associates have sold 90-102 Broadway and 379-389 Berry street, Williamsburg, to the Kingsborough Development Co., Inc. There are two six-story brick buildings in this property covering 92 feet on Broadway and 123 feet on Berry street, containing thirteen stores and sixty-eight apartments of 2 to 4 rooms. The buildings were erected by Realty Associates in 1910. The price at which the property was held, $165,000 and the present rental is about $23,000.

Kenwood Apartment Sold.

The seven-story Kenwood apartment, at 236 and 238 West Fifty-fifth street has been bought by John H. Scheier, architect, who will rebuild the structure into a showroom, office and loft building for the automobile trade. Mr. Scheier also bought the adjoining four-story building at 240 West Fifty-fifth street, occupied by the Empire Tire and Rubber Company. The sellers, clients of Wechsler & Kohn, are under agreement to pass title to Mr. Scheier with the building clear of tenants.

Mr. Scheier's acquisitions front 65 feet in West Fifty-fifth street and have a depth of 100 feet. They are diagonally opposite the site of the proposed Commonwealth Hotel, which is planned to occupy the entire block front in the east side of Broadway between Fifty-fifth and Fifty-sixth streets. The deal was negotiated by Moses Goodman.

Henri Court in Trade.

Herman Arms Company sold for the Forty-eighth Street Company Henri Court, a six-story apartment, 50x100, at 312 West Forty-eighth street, which was erected by the sellers eight years ago. In part payment the sellers took 221 and 223 West Thirty-fifth street, two four-story buildings, 42x98.9, which were immediately resold to the L. & G. Realty Company, Inc., on the site of which the buyers plan to erect a twelve-story loft.

West End Avenue Deal.

Daniel H. Jackson bought from Martha F. Wittmower 560-566 West End av, being the northeast corner of 87th st, consisting of a 13-sty fireproof apartment on lot 78x100, arranged for two apartments on each floor, duplex, containing 8 rooms and 4 bathrooms each. The corner is 5-sty, 22x100, which was acquired by Mrs. Wittmower to protect the light of the larger structure, and was recently altered into small suites of one, two and three rooms and bat hapartments. A great deal of money was spent in this particular alteration so that it conformed with this high-class thoroughfare. The larger parcel is one of the most modern and best constructed apartments on West End av. It was erected about four years ago by Sumner Gerard. Both parcels are rented at about $100,000 annually and were held at $850,000. Da Derschuch & Co. were the brokers in the transactions. Nicholas Detjeman represented the sellers and Goldsmith & Rosenthal represented Mr. Jackson.

To Remodel Madison Av. Building.

Mr. James M. Reynolds, president of McReynolds Realty Corporation, has acquired the 9-sty apartment at 80 Madison av. This is a fireproof building containing three elevators and originally built by days' labor as a co-operatively owned apartment house. It is the intention of the new owner to add three additional floors and remodel the building and make it especially adapted for the silk trade.

Mr. Reynolds has also acquired the 4-sty elevator apartment at 49 5th av. This house was built in 1862 and was considred the very best building of its kind of those days. The new owner will remodel the house into smaller suites.

The entire transaction involves over one million dollars. Ames & Company and Cruikshank & Company were the brokers in the transaction.

The New Telephone Ringing Signal

You will hear it in your telephone receiver after you have given the number to the operator and while you are waiting for the called telephone to answer. It is a low burr-r-ing sound lasting several seconds, followed by a distinct pause and then a renewal of the burr-r-ing sound.

It starts as soon as the connection is established and keeps up until someone at the telephone you called answers or the operator tells you they don't answer.

The purpose of this ringing signal is to give the calling party definite audible notice that the work of putting up the connection has been performed by the operators concerned.

RECENT LEASES.

Standard Oil Adds to Holdings.

The Standard Oil Company of New York has acquired from E. E. Smathers Welles Building at 14 to 20 Broadway for a term of ninety-nine years at a net rental of $250,000 a year, indicating a rental for the term of approximately $25,000,000. The lessee will pay the taxes and all other carrying charges. The transaction may eclipse the recently reported lease by J. P. Morgan & Co. of the Mills Building, at 11 Broad street, which was taken for a term of eighty-four years at a figure not announced.

The Welles Building is nine stories in height covering a plot with a Broadway frontage of 89.5 feet, running back 154.2 feet, with an "L" measuring 115.6 feet to 7 Beaver street, where it has a frontage of 51.2 feet. The building entirely surrounds the northeast corner of Broadway and Beaver street, occupied by the home of the New York Produce Exchange Bank, a twelve-story building, on a plot 73.7 by 32.8, and two five-story structures on Beaver street, owned by George F. Lockwood.

Last month the twenty-story office building at 42 Broadway was reported sold to the Standard Oil Company by the Lower Broadway Realty Company. The structure occupies a plot with a frontage of 116.3 feet on Broadway, running through to New street, where the frontage is 115 feet. To the north of this building is the low Standard Arcade Building.

Herbert L. Pratt announced that the Standard Oil Company has sold the Standard Arcade, at 44 to 50 Broadway, and 45 and 47 New street, a four-story building with an arcade through from Broadway to New street. The property has a frontage of 81.9 feet on Broadway and 79.2 feet on New street, with a depth of 175 feet on southerly line. There are sixteen stores on the Broadway and New street levels. The purchaser is Norman S. Riesenfeld. L. J. Phillips & Co. represented the company in the sale of the property. The arcade was built by the Standard Oil Company of New York in 1915. It is expected that the Standard Oil Company will rebuild on the assembled plot.

Since the Standary Oil Company acquired all the Broadway frontage from 26 Broadway to and including the Wendel property, at the northeast corner of Broadway and Beaver st, the frontage between Exchange pl and Beaver st, one of the longest downtown blocks, is held by five owners, namely the Standard Oil Company, the Amerigus Realty Corporation, which owns the Hudson Building, at No. 32; Mr. Riesenfeld, who now owns 44 and 50, and the Lower Broadway Realty Company, which still has title to the skyscraper at No. 42, and the syndicate of tenants which recently bought Exchange Court, at the southeast corner of Exchange pl, from Robert E. Dowling, who acquired it from the Baron Astor estate.

New Theatre for 44th Street.

Vincent Astor has leased, through the H. H. Gibson Realty Company, Inc., two apartments and five dwellings at 246 to 256 West Forty-fourth street to Max Spiegel, vice-president of the Strand Theatre Company, for sixty-three years at a rental in excess of $1,000,000. Mr. Spiegel announces that on the expiration of leases next May he will begin work on a new theatre, to be known as the House of Melody, designed to seat 1,600 persons and devoted principally to staging musical productions. The site fronts 100 feet in West Forty-fourth street and is 125 feet deep. It is opposite the Broadhurst Theatre and adjoins the Little Theatre. This is Mr. Spiegel's second large theatre lease within the last few months. Last fall he leased the Fitzgerald Building, in which is housed the George M. Cohan Theatre. Mr. Spiegel already has possession of the offices and in 1922 will take over the theatre.

Big Fifth Avenue Lease.

The United Cigar Stores Company has subleased the five-story Siebrecht Building at the northeast corner of Fifth avenue and Thirty-eighth street at a figure well above $100,000 a year net. The lessors acquired the property last November from the Hoffman estate at a rental of from $65,000 to $75,000. The building fronts 69.11 on Fifth avenue and is 125 feet deep, with an "L" in Thirty-eighth street measuring 25x100.

PROPOSAL

STATE OF NEW YORK,
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS,
Albany, March 5th, 1920.
NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 6th, 1920, at which place and hour they will be publicly opened and read, for the construction of Barge Canal Terminals, pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

TERMINAL CONTRACT NO. 19-P.

For paving the terminal piers at Greenpoint and at West 53rd street, New York City.

Contract plans, sheets 1 and 2

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding Exchange, Buffalo, N. Y., and at the office of the State Engineer and Surveyor, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work, according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH,
Superintendent of Public Works.

SEALED PROPOSALS will be received by the Board of Education of the Town of Union, Hudson County, N. J., for the purchase of a valuable plot of business property, 200 ft by 200 ft., located in the center of a thriving community of 150,000, the only available large plot of business property in North Hudson, on Wednesday evening, March 31st, 1920, at 9 p. m. For further information consult the Secretary whose office is in the Municipal Building, Palisade Av. and Lewis St., Town of Union, N. J.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

Settlement in Building Strike Goes Over to Next Monday

Committee Representing Mason Builders Now Considering Mayor Hylan's Offer to Act as Adjuster in Wage Dispute

NOTHING further of a definite character has been accomplished in the attempt of Mayor Hylan to act as adjuster in the differences between the mason builders and the bricklayers. Although it was expected that the committee representing the contractors would reply to the mayor's arbitration suggestion Friday morning, it was decided in committee to hold the entire matter in abeyance until next Monday when it is promised a definite statement of the attitude of the builders will be forthcoming.

Efforts by Mayor Hylan to stimulate the construction of additional housing accommodations in this city by settling the dispute between the Bricklayers' union and the Building Trades Employers' Association were halted this week when a committee representing the employers reported to him that their organization had voted down the suggestion that the Mayor act as arbitrator in this dispute. The representatives of the bricklayers were willing to have the Mayor or a committee of three arbitrate their grievances.

The employers have asked the bricklayers if they were willing to join the Building Trades Council which would make them a party to the agreement signed late last December but this they determined not to do, saying they would abide by the decision of the Mayor or a committee. The bricklayers claimed that they were demanding $1.25 per hour and that they thought this was modest pay because of the unsteady character of their work. They further asserted that their incomes averaged about $15 per week, throughout the year.

The committee representing the employers agreed to submit the question of arbitration again to their members and would report again to the Mayor later in the week.

Mayor Hylan is of the opinion that seven or eight men, whom he has not named, but who are understood to be officials of the Building Trades Council, the Bricklayers' Union and the Mason Builders' Association, can give the word to start a building boom in Greater New York that would be the greatest in the history of the city.

The strike of the bricklayers has been in force since January 2 and a vast amount of construction has been held in abeyance on that account. Not only new operations but structures already underway are standing idle waiting for the labor deadlock to be broken and work resumed. The employers have all along been willing to grant the bricklayers $9 per day instead of the $10 demanded. They desired, however, that the bricklayers affiliate with the Building Trades Council which includes practically all other trades identified with the building industry in this city. The Building Trades Council has already negotiated, with the Building Trades Employers' Association, new trade agreements covering all trades with the exception of the bricklayers and the new scales are now in effect.

The bricklayers have steadily refused to join the Building Trades Council because they do not like the manner in which it is governed.

After the conference at City Hall yesterday, Charles Curran, spokesman for the bricklayers, said: "The Mayor very kindly offered to act as arbitrator in the matter and the five unions of Greater New York accepted his offer. The Mason Builders' Association declined the offer on the ground that they did not want a politician. We believe the refusal is due to the fact that the Mayor holds a union card.

"We will acept Corporation Counsel Burr or we will let the Mayor name one of our men. Let the other two men be a citizen and a newspaper man and this will be the Arbitration Committee. Let this committee go to the Compensation Commission and they will discover that disabled bricklayers are allowed two-thirds of their weekly salary which is $15 on the average through the year."

At the present time there is a tremendous volume of proposed new construction in Greater New York that would be released immediately if architects and owners actually knew that the work would proceed after it was once started, but in a large number of instances the interests behind these operations are waiting for a settlement of the labor situation before awarding contracts. It is a serious and costly proposition to have a large building operation held up indefinitely after it has been started no matter what the reason and owners are quite unwilling to take this chance while given no assurance by contractors that work will be allowed to proceed.

Another serious phase of the local labor situation is the dispute between the steel erectors and the members of the Erectors League over the matter of closed shop.

Decide on Twelve Bills to Regulate Housing Situation

(Continued from page 408)

portant than these, the bill, if enacted in its existing form, would operate to deter builders from the construction of new housing and the substantial reconstruction of buildings now unsafe or otherwise undesirable."

Amendments were presented covering all these points. The brief continues:

"Aside from the invasion of the Constitutional rights of property owners which this measure attempts to authorize, the immediate, practical effect of its enactment will be to permit, if it does not induce all hold-over tenants to tenements, office and factory buildings and, in fact, all rented property to refuse to pay rent at any higher rate than they now pay, however small the increase may be, until the reasonableness of the increase has been litigated in the Municipal Court. The inevitable result will be that the courts will be inundated with a flood of such cases which will so congest their calendars that it will be months, if not years, before a majority of such litigations can be heard and disposed of. In the meantime, thousands of tenants will pay no rent for months to come, for, under the bill as it stands, tenants holding over are not required to pay rent or make any deposit in court until the case has been reached in its order and the court has determined the issue in the proceeding, considered the tenant's application for a stay of the dispossess warrant, determined the sum to be deposited in court by the tenant as the condition of the stay and fixed the period of duration of the stay. All

these operations will take time to accomplish.

"If all the Municipal Courts of New York City side-track all other business and devote themselves exclusively to dispossess proceedings, under the proposed act (which is out of the question, of course), it is doubtful if, during the current calendar year, they could dispose of the thousands of such cases that certainly would be filed in the first few weeks after the act takes effect. Without their rents, how can landlords, tied up in this mass of litigation, pay maintenance expenses, taxes, interest on mortgages, etc., during such a period of suspense.

"Certainly, at least, the proposed bill should be amended to require that, upon receiving a notice of the landlord's intention to terminate the tenancy, the tenant, if he intends to contest his evicion should pay to the landlord, from month to month in advance, pending the judicial determination of the proceeding and without prejudice to the landlord's right ultimately to enforce the eviction, an amount equal at least to the rate of the monthly rent paid by the tenant for the last month of his tenancy. If this is not done and long delays occur in such proceedings, due to congestion in the courts, landlords may illegally deprived of rents, aggregating large sums, without which they will be unable to purchase coal, pay taxes and interest on mortgages or defray other necessary expenses of carrying on the property occupied by the hold-over tenant."

For these reasons, it is suggested that the bill be amended to provide that, in case the tenant shall have been served at least thirty days before the date of the termination of his tenancy with a notice, in writing, that the landlord elects to terminate the tenancy at the end of its term, the tenant, if he intends to contest or stay the issuance of a dispossess warrant, shall tender to the landlord from month to month, in advance, pending the judicial determination of any summary proceeding that may be brought to recover possession of the leased or rented premises, a sum of money equal to the rate of the rent paid by him for the last month of his tenancy, which sum way be received by the landlord without prejudice to his right to recover possession of the premises occupied by such tenant by a summary proceeding under this act, provided any excess in such payment or payments, as determined by the final order in the proceeding, shall be refunded by the landlord to the tenant at such time as shall be directed by such final order.

It is also asked that it be automatically repealed on September 30, 1922, instead of November 1st, as now intended.

The third important bill is Assembly Int. 1354, Pr. 1556, (Same as Senate Int. 1135, Pr. 1289), inserting new subdivision 2-a, section 2231, Civil Code, by providing that no summary proceedings shall be maintainable in a city unless petitioner proves that rent of premises is no greater than amount paid by tenant for the month preceding default or has not been increased more than 20 per cent. over rent as it existed one year prior to time petition is presented. The act is to be in effect until November 1, 1922.

Here again it is asked that the bill be amended to apply only to structures "occupied for dwelling purposes by more than one family other than a room or rooms in a hotel, apartment hotel or lodging or rooming houses."

It is suggested that as the bill arbitrarily fixes a rent increase of over 20 per cent. as excessive, whereas the first mentioned bill makes an income of over 25 per cent. presumptively unreasonable, this bill be amended to at least make an allowable rent increase of 25 per cent., and that the petitioner be also allowed to allege and prove "that the occupancy, at a date one year prior to the presentation of the petition, was under a lease for a term of more than one year beginning prior to May 1, 1919, or that a certificate of occupancy for the building containing the premises described in the petition was issued, or that such building was substantially reconstructed for dwelling purposes, subsequent to the date when this act shall take effect."

The entire exemption from the provisions of the income tax of the interest on mortgages secured by improved and unimproved real property was also strongly urged.

Improved Weather Conditions Increase Active Building

Figures Compiled by F. W. Dodge Company Show Intense Planning by Architects and Engineers for Early Spring Construction Revival

IDEAL weather conditions for building have brought an increased volume of new construction to the fore and although the strike of the bricklayers and the difference of opinion between the Iron League Erector's Association over the question of open shop has hindered building progress in Greater New York, reports from the surrounding territory indicate that during the forthcoming months the building industry will be pushed to its full capacity. There is a tremendous volume of proposed construction for which plans are completed and estimates secured and in a number of instances the contracts have already been placed. This work has been held in abeyance on account of inclement weather conditions but as these are greatly improved a building rush should commence very soon. If the projects that are now ready to be commenced were to be started at the same time there would be a building material famine in a very few days, but according to the existing outlook the work will be distributed over a period of weeks that will permit the material and supply market sufficient time to absorb the new business offered.

From figures compiled by the F. W. Dodge Company, showing the newly projected building and engineering construction in New York State and New Jersey, north of Trenton, for the week of March 13 to 19, inclusive, it will be seen that a total of 385 new operations were being planned by architects and engineers. This work will call for an expenditure of $14,519,300. During the same time and in the same territory 212 contracts for construction, involving an outlay of $11,893,500 were awarded.

The list of 385 proposed operations announced during the past week included 101 business and commercial buildings, $4,096,500; 4 educational projects of various types, $275,000; 3 hospitals and institutions, $270,000; 42 factory and industrial projects, $1,466,800; 2 structures for the Army and Navy, $6,000; 4 public buildings, $235,000; 26 public works and public utilities, $1,398,000; 5 religious and memorial buildings, $101,500; 190 residential operations including apartments, flats and tenements and one and two-family dwellings, $6,379,500, and 8 social and recreational projects, $291,000.

Among the 212 operations for which contracts were placed during the week of March 13 to 19, inclusive, were 60 business and commercial projects, $3,352,500; 7 educational buildings such as schools, colleges, libraries, etc., $2,453,000; 3 hospitals and institutions, $470,000; 33 factory and industrial buildings, $1,460,500; 1 operation for the U. S. Army, $32,000; 2 public buildings, $40,000; 8 public works and public utilities, $400,400; 1 religious edifice, $9,500; 89 residential operations of various types, $2,337,000 and 8 social and recreational projects, $1,338,200.

PERSONAL AND TRADE NOTES.

W. Whitehill, architect, announces the removal of his office from 32 Union Square to 12 Elm street.

Frederick Putnam Platt & Brother, architects, announce the removal of their offices from 1123 Broadway to 680 Fifth avenue.

Fairfacts Company, manufacturer of bathroom specialties, now located at 218 West 14th street, have purchased the building at 234 West 14th street and after extensive alterations will occupy the ground floor and basement for their rapidly growing business. The remainder of the building will be leased until further expansion of the business makes additional space desirable.

Charles Money, Inc., general contractors, announce that after the first of May they will remove their offices from 228 West 36th street to 241 West 36th street, which they have recently remodeled to suit the requirements of their expanding business. This is the third move they have made in six years to gain additional room. They will occupy the entire building at 241 West 36th street, with an up-to-date woodworking shop on the lower floor and offices on the two upper floors. This corporation also controls the two buildings adjoining, 243 and 245 West 36th street, which will be remodeled and leased as offices to architects, contractors, etc. Leases have already been made with the Freistedt Underpining Co., Ludwig Eisinger, architect, and Albert Oliver & Son, building materials.

W. R. Hill, manager of builders' hardware sales for the Yale & Towne Manufacturing Company of Stamford, Conn., resigned his position with that company on March 1. Mr. Hill is taking up a new line of work, in charge of sales and advertising for the Isko Company, of Chicago, Ill. Mr. Hill who has been with the Yale organization for twenty-two years, is a member of the Sales Managers Club of New York and the American Society of Sales Executives. In his new field he is undertaking a line of work in which he has long been interested. The Isko Company manufacture electrically driven and automatically controlled refrigerating machines for domestic and commercial use. The machines can be used on any ice box and may be installed either on the ice box itself or in the cellar, or, in fact, in any part of the house. It was only after thorough tests that proved the satisfactory application and operation of the refrigerating machines that Mr. Hill determined to apply his many years of experience in selling and advertising to the development of the Isko Company's machine.

Important Elevator Contract.

The Watson Elevator Company, 407 West 36th street, has secured the contract to furnish the elevators for the new Rudolph Wurlitzer Company building, 116 West 42d street. This building, when completed, will be one of the finest music houses and office buildings in the entire city. It will be sixteen stories in height and will extend all the way from 41st to 42d street.

The lower six floors of the building will be occupied by the Murlitzer Company and will be in the nature of a second Aeolian Hall. It will have the most complete demonstration facilities for musical instruments in the city, and will contain a huge auditorium, in which will be installed the most perfect type of pipe organ produced by the company.

For its elevator service the Wurlitzer Company's section of the building will have two passenger and one freight elevator. The remaining ten stories will be used for office room. It had originally been intended to use the ten floors as lofts, but the insistent demand for office room at the desirable location compelled the constructors to reverse their decision and transform the building entirely into an office structure.

The offices will have their elevator service supplied by five passenger elevators, two of which will be adaptable to the handling of freight. All the elevators will be of the modern high-speed worm gear type.

Another contract of noteworthy prominence which the Watson Elevator Company has won is that for the elevators of the new addition to the Bush Terminal building in 41st street, where the same high-speed type of elevator will be used.

TRADE AND TECHNICAL SOCIETY EVENTS.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Hardware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14 inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convention at Buffalo, N. Y., June 22 to 25 inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary, Argos, Ind.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

Premixing No Benefit in Concrete.

To determine the benefit to strenth due to mixing of cement and water for a long period (15 to 30 minutes), and then adding aggregates to produce a concrete instead of the ordinary method of miving cement, aggregate, and water together for one or two minutes, comparative tests were made last year by the United States Bureau of Standards. The strengths obtained were about the same with the same materials and conditions, indicating that there is no advantage in long premixing of cement and water when the standpoint of strength is considered.

CURRENT BUILDING OPERATIONS

THE building industry generally, in the Metropolitan District, is sitting back and waiting for the outcome of the strike of the bricklayers and the steel erectors before finally maturing their plans for the spring and summer structural program. There is a vast amount of pending work, but it is being withheld until the labor situation is adjusted and definite progress on jobs assured.

During the past week or so there has been a serious shortage of a number of essential building materials developing and from all accounts it is just as well that construction is being delayed because if all scheduled work was under way many contractors would be forced to suspend operations for lack of materials. At the present time there is very little Portland cement obtainable in New York and dealers are unable to renew their supplies because of the shortage of freight cars to transport it from the mills. Sand, also, is exceedingly scarce because of the ice-bound condition of local waters, but there is hope expressed that this condition will be relieved within the next week or ten days at most. Common brick manufacturers anticipate that the Hudson River will again be open to navigation in a few days and this will permit brick tows to come through, which will materially relieve the common brick shortage. Prices are generally firm and advancing in some lines, notably in hollow terra cotta.

Common Brick—The local wholesale market passed through an exceptionally quiet week, as no brick remains to be sold, the last load being disposed of one week ago. There is considerable common brick unloading at dealers' yards about the city and this will be adequate to supply all demand until the river is again open. From all accounts it now looks as though the ice in the Hudson River would be passable to tows within a week or two at the most and dealers are anticipating being able to renew their supplies very soon. The local demand for common brick is light because of the continued strike of the bricklayers, but if this problem should be settled within a few days and jobs now held up were resumed it is likely that some difficulty to supply all operations would result.

Sand—The building sand situation is still a serious hindrance to building progress and although one barge load has come through during the past week it was not suffcient to supply even a relatively small part of the demand. There is a prospect, however, that this shortage will be relieved within the next week, as the ice in local waters is breaking up and producers expect to get sand into New York as soon as navigation is resumed.

Portland Cement—The shortage of freight cars has been responsible for a scarcity of this material in Greater New York that is daily growing more serious. Dealers have very little on hand and although the manufacturers have sufficient for all demands, the problem of getting it to this market owing to lack of cars is a difficult one. One manufacturer stated this week that two hundred cars were needed immediately to fill his orders for the Metropolitan district.

Hollow Tile—There is considerable new business developing in this line, largely because of the fact that brick is so high in price and also because of the fact that so little is now easily available. Hollow tile prices have again been advanced and the new schedule will be found in the material prices table on this page.

In The Housing Crisis

IN the housing crisis, as in every other crisis, the most vital requirement of the hour is plain, old-fashioned common sense—to stabilize the mental balance-wheel and prevent hysteria. In no other way can anything permanently helpful be accomplished.

Never in its long and useful career has The Record and Guide been so vital to every real estate owner, to every builder, to every loaning institution or individual, as it is today because—

In its editorial and news columns and in its Albany dispatches it is keeping a true perspective on this vital situation. It is safe and sane during a great crisis in which many publications and many individuals seem to have completely lost their bearings.

To keep reliably informed on the building outlook and the real estate situation you need the Record and Guide right now more than ever before. If you do not already get this publication regularly, 'phone Bryant 4800 and subscribe. You cannot afford to be without it.

THE RECORD AND GUIDE

119 WEST FORTIETH STREET, NEW YORK

MATERIALS AND SUPPLIES

week there has been a substantial improvement in the movement of shipments from manufacturers and the scarcity in some lines has been relieved if not altogether removed. The market is generally firm, with demand strong and prices well maintained. The lack of labor and of raw material, with an added car shortage, is holding up rigid conduit and armored flexible conductor to some extent. Wire deliveries are better than in many other products but increased manufacturing costs are influencing prices.

Structural Steel—The local steel situation has been quiet during the week, as progress is delayed because of the dispute between the labor unions and the Iron League Erectors' Association. Inquiry has fallen off considerably and some cancellations have been announced. Although the demand for fabricated material is relatively light, there has been an increased buying movement in reinforced concrete bars.

Finished Hardware.—There has been renewed interest manifest in this line during the past few weeks and a large number of dealers anticipate a greatly increased demand just as soon as the building situation improves locally. There is a vast amount of projected construction to be undertaken this spring and both manufacturers and jobbers are looking forward to exceptionally busy times. There is a decided shortage of numerous items in this line but it is hoped that stocks will be filled by the time the demand reaches its maximum intensity. Prices are firm and a number of new schedules have been announced all showing increases over old price lists.

Linseed Oil.—There has been no further change of price announced for this commodity but the demand is firmer than it has been and crushers and dealers look for a steady increase in the requirements of the local building interests.

Roofing and Building Papers.—There has been continued activity in this line during the past week that has made more evident the scarcity of these materials in the hands of local dealers. There is every prospect that the shortage will be seriously felt by speculative building interests who have matured plans for a large amount of small house construction in the near-by suburbs. Prices are firm and unchanged.

Nails.—No change has occurred in this market and the situation is very serious. It is almost impossible to get any kind of an assortment from jobbers and manufacturers are way behind in their deliveries and booked solidly ahead for many months. The shortage applies to both cut and wire nails and unless immediate relief is afforded builders will be greatly handicapped with their spring and summer building programs. Prices are today purely nominal and depend solely upon the available stocks and time of delivery.

Window Glass—Little is to be said about the market for this commodity. The scarcity is intense and jobbers are at a loss to know where they are to get supplies to fill the orders that are piling up ahead. The building interests, while not particularly active, have been strong factors in this market and the demand from these sources is daily getting heavier, but at this writing there is but little prospect of builders getting sufficient glass to complete the structures now under construction, to say nothing of being able to obtain the glass necessary for the vast amount of new building that is scheduled to be started during the coming spring and summer. The factories are loaded for months ahead with orders.

The New Replaces the Old

Familiar buildings are being converted into new uses as the great glacial-like expansion of business progresses up-town. Sherry's is now a bank. The latest change is the Holland House on Fifth Avenue at 30th Street which is being converted into an office building

And with the conversion comes another change, one of building operation, the "close down" of the private generating plant. *Edison Service* has been found more economical and reliable. Also the hydraulic elevators will be changed to the electrically operated type

The installation will aggregate about 3000 lamps and 250 horsepower in motors

Artificial Stone is growing in popularity

Unlike other Building Units, Artificial Stone is a NON-CONDUCTOR of DAMPNESS, COLD and HEAT. It reduces building costs and expedites construction. A wide variety of facing effects produced with crushed granite, marble, brownstone, Indiana limestone, carborundum, etc., makes it a sightly stone for every type of structure and its durability insures the lowest possible maintenance cost.

We court investigation of the most searching kind, and are always pleased to go over the subject in greater detail with anyone interested in building for permanence, beauty and economy.

Architects and Engineers are specifying and demanding

STEELBILT
Toilet Partitions

in preference to those made of ordinary materials.

STEEL has exclusive advantages It is non-absorbent and therefore sanitary. It does not crack; in fact, is indestructible. It has a neat, clean appearance. Costs less than other substances and is more easily and economically erected. It is the *logical* material.

STEELBILT Toilet Partitions are made in standard sizes, some of which are carried in stock for quick delivery. Partitions and doors are made in units, of sizes to suit any plan layout.

Write Dept. "R" for full particulars and a copy of our architects' specification sheet.

Post-Haste Lawmaking

Governor Smith, it now appears, was in just as great a hurry as the legislators themselves to jab through at Albany the series of rental bills which now are the law of the State of New York.

The Record and Guide last week expressed the hope, which was shared by many unemotional citizens, that the Governor would not be swept off his feet as the Legislature had been by the noisy demonstration which took place in the state capitol one week ago last Tuesday. It is almost inconceivable that Governor Smith, or any other governor, should have signed, without giving those interested a formal hearing, eleven measures of such far-reaching importance. Early in the week, however, the Governor, by special messages to the Legislature, made it clear that, in this instance at least, he could play politics with a vital public problem just as readily as could the legislators themselves.

The hasty passage of these important bills by the Senate and Assembly and their approval in equal haste by the Governor furnishes one of the most concrete examples of lawmaking by clamor known in this state in many years. The enactment of ill-conceived, loosely considered legislation used to be an act of folly generally confined to erratic states of the Wild and Wooly West. But even Kansas, in the days of Sockless Jerry Simpson, never put through any half-baked legislation with greater celerity than officials at Albany have just displayed in enacting the new rental laws.

It is a sad commentary on the effectiveness of noise at the state capitol that only two members of the Senate, Mr. Burlingame, of Brooklyn, and Mr. Abeles, of the Bronx, voted against these measures. Senator Burlingame probably was right when he declared that these bills would not remedy the situation. He undoubtedly was right when he expressed the belief that the only reason they were allowed to pass in their present form is because of the near approach of another election day. In view of the week's developments at Albany it sounds a bit conservative and old-fashioned on the part of even one Senator to declare, as Senator Burlingame did, that a solution of the housing problem could not be reached by harrassing landlords or by telling them how much rent they must charge.

So far as relieving the housing shortage is concerned —and that remains the real crux of the situation—the Legislature and Governor Smith have accomplished nothing by the enactment of these new laws. On the contrary, it is to be feared that this latest legislation will retard, instead of helping, the adoption of the broad building program which is the only real solution of the existing troubles.

First Move in Building Revival

When the machinery of construction has been immobile for so long it is not surprising that not much headway is noticeable at the end of the week in which by far the most important happening, from the builders' point of view, is the agreement whereby the bricklayers were to return to work at their old rate of wages pending the final adjustment of questions at issue by Mayor Hylan, who was accepted as arbitrator by the union and the employers. Not as many workmen responded to the whistle as were expected, and this was disappointing and gave occasion for criticism of the bricklayers on the ground that they were not whole-heartedly supporting the movement for a revival of building operations on a scale that would afford relief to those suffering from the housing shortage. Certainly the action of members of the union in quitting their jobs in the Bronx, where they had been getting $10 per day, when the employers, in accordance with the agreement, put them back on the payroll at $8.50 a day, lays them open to criticism.

The signed agreement provides that the ruling of Mayor Hylan is to be retroactive to the time the men went to work, so that the Bronx bricklayers stood no chance of losing anything provided Mayor Hylan's award should be $1.25 per hour. Thus in throwing down their trowels the Bronx bricklayers have simply done what so many of their critics say is usually to be expected—that certain unions and certain labor leaders may be depended on to take advantage of any excuse to stop work whether the public is inconvenienced or not.

But is must be admitted that one reason for the small number reporting for work is that there has been an exodus of bricklayers to other cities going on ever since the shut-down here on January 2 last. Not all of the men who have left the city will return. Many who have families here and will come back eventually probably are satisfied to await developments here and will continue to work where they are until the jobs are completed, by which time the New York situation may be completely cleared up. It is too early yet for the attractions of New York and a $10 a day job to draw workmen to this city from other sections of the country. Reports of the housing shortage, serious elsewhere but acute here, probably have found their way to other labor centers and have a deterrent effect on immigration of workmen in this direction.

The most satisfying thing is that the wheels are actually moving at last, although not so fast as every man and woman in this great city wishes they might. Once started it will be easier to keep them going. Instead of finding occasions for criticisms, it is the duty of every man interested in the building industry as investor, employer or workman, to do his level best to accelerate, not to retard, the movement for the revival of construction work for inaugurating which Mayor Hylan is entitled to credit. What others had been trying for a long time to accomplish he has succeeded in doing.

The settlement of the strike will not fully alleviate

the housing shortage, and the Mayor's original program is only started upon. But at least it must be accorded him that he realized what must be done first before his pretentious $100,000,000 building scheme could be accomplished. Having brought the bricklayers and the employers into temporary agreement, which seemed an almost impossible undertaking, there is at least the presumption that the Mayor will be heartened to tackle the remainder of his somewhat difficult program—the stabilization of the prices of building materials and the establishment of a building fund which will be sufficiently large to have a bearing on the question of whether rents can be prevented from rising to higher levels than now prevail. And in his efforts in these directions he should have all the support that can be given to him.

Real Estate Board Expects Additional Action by Legislature

REFERRING to certain constructive phases of housing legislation, as contrasted with the purely restrictive features of the laws enacted last Thursday, Mr. A. C. MacNulty, Special Counsel for the Real Estate Board of New York, said:

"The efforts of the Real Estate Board to secure amendments to the bills introduced by the Legislative Joint Housing Committee resulted in clarifying the measures and the exemption from their application of business buildings of every description, hotels, lodging and boarding houses. The Board also urged that the bills be so amended as to render them inapplicable in the following cases:

Real property (2) under contract of sale or ground lease, subject to existing leases and tenancies upon the date when this act shall take effect; (b) which has been or shall be sold or may be under contract of sale to tenants and others upon a cooperative basis; (c) which is required for immediate, actual and bonafide occupancy by the landlord or his wife, children or dependents, or for the purpose of demolition or substantial reconstruction, nor to premises for which a certificate of occupancy was issued or which was substantially reconstructed for dwelling purposes subsequent to the date when this act shall take effect.

"It was conceded in behalf of the Joint Housing Committee that practically all of the substantial exceptions proposed were meritorious, but it was urged that the constitutionality of several of the bills was somewhat doubtful and, herefore, it would be inexpedient to incorporate therein exceptions or exemptions one or more of which might be held to be discriminatory and thus made certain the invalidity of any bill containing such unconstitutional provision. When it became evident that the proponents of the Housing Bills were determined against inserting therein the substantial amendments suggested by the Real Estate Board, notwithstanding the consensus of reasponsible legislative opinion that practically all of the proposed changes were necessary to prevent a discouragement of building resumption and a general upset of the real estate market, I suggested on behalf of the Real Estate Board of New York that the situation could be saved by incorporating the Board's recommendations in a supplemental bill to define and limit the application of the housing measures then on the eve of enactment. In support of this suggestion it was urged that the purposes of the proposed amendments could thus be effected without jeopardizing the validity of any of the housing bills; for, if any of the exceptions or exemptions of the supplemental act should be held to be unconstitutional the taint would only affect such supplemental legislation. I was definitely assured that the suggestion that the amendments proposed by the Real Estate Board would be immediately taken up by the Housing Committee, with a view to the incorporation of such of the exceptions and exemptions contained therein into an appropriate supplemental bill to be introduced and enacted at this session of the Legislature."

The following brief analysis of the three most important bills was made by Richard O. Chittick, Executive Secretary of the Real Estate Board of New York:

"The Real Estate Board, having tried to convince the Legislature that what is needed is legislation that will produce housing, focussed its attention temporarily upon softening the blow which it has always maintained a program directed solely against "rent profiteers" would inevitably deal at new construction. The Board secured some helpful amendments. It will try to secure supplemental legislation that will lift the damper that the new legislation will put on the production of housing if nothing further is done. More particularly, now that the "rent profiteering" bills are passed, the Board will urge on the Legislature the absolute necessity of doing something constructive by granting the total exemption of mortgage interest from the Income Tax provisions.

"The rent bills signed by the Governor on April 1st, are not yet available in printed form. However, accurate advice from Albany permits the following analysis of the three most important ones.

"Senate Int. 1132.—(1) In action for rent accruing under an agreement for premises in a city of the first class or in a city in a county adjoining a city of the first class, such premises being occupied for dwelling purposes, except a room or rooms in a hotel, lodging house or rooming house, it may be set up in defense that such rent is unjust and unreasonable and that the agreement under which such rent is sought to be received is oppressive.

"(2) When it appears that such rent represents an increase of more than 25 per cent. over the rent of one year prior to the agreement under which recovery is sought, such increase is presumptively unjust, unreasonable and oppressive. (This does not mean that rents may be increased 25 per cent. or 'only' 25 per cent. The Court may decide that a 25 per cent. increase is too little, or that it is too much.)

"(3) The plaintiff may plead and prove a fair and reasonable rent, recover judgment or institute separate action for recovery.

"(4) Act in effect April 1, 1920, until November 1, 1922.

"Senate Int. 1134. Summary Proceedings. (1) Application as to cities and premises same as in 1132; to recover possession on ground that tenant is holding over and continuing after expiration of term without permission. Relief is in addition to any other permitted and not inconsistent with that here provided.

"(2) Presentation of petition to court, judge or justice having jurisdiction shall be election by landlord to terminate tenancy which might otherwise arise by operation of law.

"(3) Court, judge or justice making order on application of tenant, may in discretion stay issue of warrant of execution for not to exceed twelve months.

"(4) If on hearing of facts set up, it appears that after 'using due diligence and reasonable effort' applicant cannot secure 'suitable premises for himself and his family within the neighborhood' that application is in good faith, etc., court may grant stay.

"(5) Occupant, to secure stay, must deposit in court entire amount of rent due at old rate, or installments, and court may deduct.

"(6) Clerk, judge or justice to pay such deposit to landlord or agent in accordance with term of stay.

"(7) Any provision of lease whereby lessee or tenant waives any provision of this act is void.

"(8) In effect April 1, 1920, to November 1, 1922.

"Senate Int. 1135. In relation to summary proceedings. Adds new section 2-a, to Section 2231 of Civil Code: application to cities and exceptions same as other bill; relates to 'real property' under lease of tenancy for one year or less, or under any lease or tenancy,' commencing after this subdivision takes

Legislature Enacts Eleven Landlord and Tenant Laws

Governor Smith Signs Bills Hastily Passed So Measures Shall Become Effective on April 1—Exemption of Tax on Mortgages Still Pending

(Special to the Record and Guide)

Albany, April 1.

EARLY this morning Governor Alfred E. Smith signed the eleven bills of the special Legislative Housing Committe, which had been rushed through the Legislature as proposed cures for rental problems in New York City, Westchester County, Buffalo and Rochester. The twelfth bill, designed to exempt from income tax the interest on mortgages up to $40,000, is still pending in the Legislature.

A summary of eleven measures which have become law through Governor Smith's approval follows:

1. When a landlord seeks to eject a tenant on the plea that he is objectionable, he must satisfy the court that the tenant actually is.

2. Where the agreement between landlord and tenant does not specify the length of the lease it shall hold until October 1 next.

3. The notice to vacate, now limited to twenty days, is extended to thirty.

4. In case of hold-over, where a landlord has defaulted on payment of taxes or other obligations, the tenant may deposit his rent with the clerk of the court or the presiding judge.

5. A judge called upon to determine whether or not a tenant shall be evicted is empowered to determine the amount of rent due and the money damages.

6. The law granting the landlord a double penalty where a tenant holds over without consent of a lessee or owner is repealed.

7. Pending a dispossess proceeding, a justice of the Municipal Court may grant a maximum stay of six months.

8. A code provision is created harmonizing the dispossess preceedings with the remedial legislation.

9. The same defenses allowed in summary proceedings may be set up in an action of ejectment.

10. Rent increases are limited to 25 per cent. a year.

11. Willful failure on the part of a landlord to provide water, light, heat, power or whatever other services are contracted for in the lease shall constitute a misdemeanor.

At the last minute the Legislative leaders agreed to incorporate the amendments suggested by Alexander C. McNulty, counsel for the New York City Real Estate Board. There amendments may be summarized as follows:

Eliminating the words "exclusively for dwelling purposes" which would have exempted from the application of the bills every building in New York City containing a store on the first floor.

Suspending the application of the bills to buildings to be constructed in the future.

Insuring against impairment of existing leases.

Exempting one-family dwellings from the application of the bills.

Clarifying the use of the term "lease" so as to insure against misconstruction of the term.

Insuring against interference with the movement looking to co-operative ownership of tenement houses which has a tendency of stabilizing rents, as well as tenancies, and encouraging thrift.

The bills as originally drawn would have exempted all buildings with a store on the first floor, of which there are thousands in the tenement house districts where this legislation is hoped to have an ameliorative effect. At the same time they would have been held not to affect persons without leases in whose interest the Lockwood Committee is supposed to have drafted them.

With the hasty disposition of this batch of legislation the advocates of a measure exempting the interest on mortgages up to $40,000 from the State Income Tax busied themselves with the task of interesting the Legislative leaders in such a measure for the effect it would have on new building. Practically every representative of New York City institutions willing to loan money for building purposes has advised the Legislative committees before which this bill has been pending that such an exemption would hasten loans for building purposes. With this as a basis for their campaign the supporters of the exemption bill lost no time in starting the fight for its enactment.

Assemblyman Amos introduced a measure this week which would permit the utilization of 33,000 vacant dwellings in New York City to relieve the housing situation. The bill would have the effect of suspending for the present emergency certain restrictive building rules affecting alterations. The measure seems to have the combined support of all the representatives from the counties comprised in Greater New York.

Senator Kaplan introduced another bill aimed at landlords who discriminate against children.

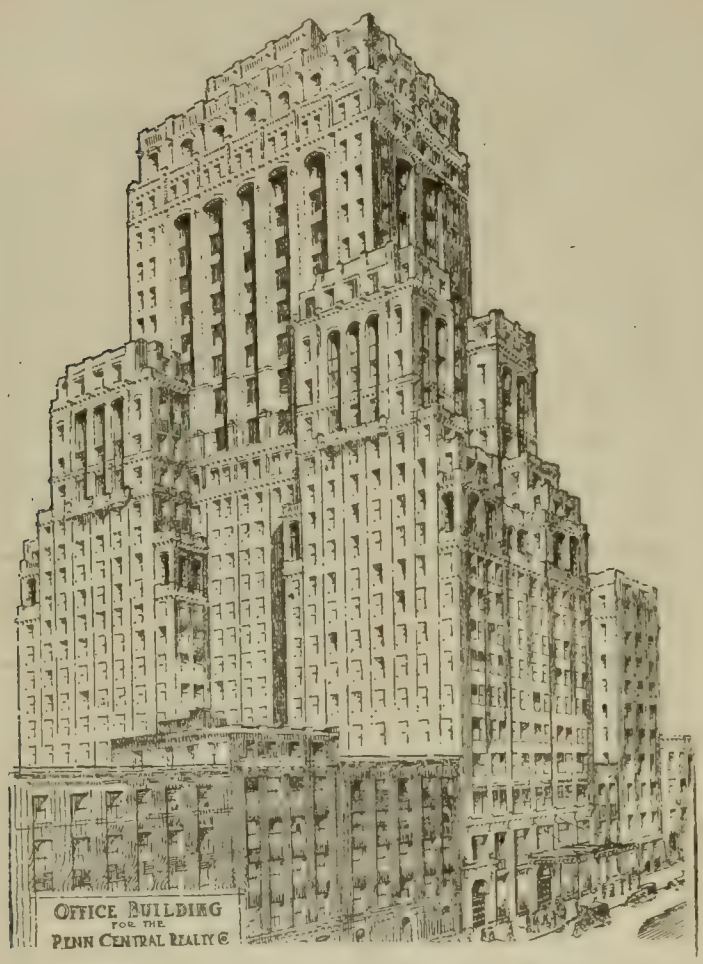
All one and two-family houses constructed by individual owners in New York City between April 1, 1920, and April 1, 1925, would be exempt from taxation under the terms of a bill introduced by Assemblyman Healey.

Any person charging gross rentals at a rate in excess of 50 per cent of gross rental paid in 1917 shall be guilty of criminal profiteering and punishable by a fine of $1,000 and imprisonment for a year, if a bill introduced by Assemblyman Wells passes.

Assemblyman McLaughlin, appropriating $150,000 for the construction of a terminal market in the Bronx to be under the supervision of the New York City Department of Markets. The city is to pay one-half of the expense.

Assemblyman McLoughlin, appropriating $150,000 for the construction of a barge canal terminal in the Bronx.

Senator Walker, authorizing the New York City Board of Estimate to allow claims against the city to cover the necessary cost and expense under any contract for construction of a public work or utility made by the city prior to April 6, 1917, and performed at increased cost during the period of the war.



Assemblyman Donahue, appropriating $250,000 for a site for a new state arsenal in New York City, such site to be selected by the Adjutant General, upon the execution and approval of the contract for the sale of the state arsenal land and buildings at Seventh avenue and Thirty-fifth street. Another bill introduced by Assemblyman Donahue would have the effect of preventing the erection of a new state arsenal in Albany, provision for which was made in legislation enacted in 1911, when the movement to abandon the New York City arsenal was initiated.

Penn-Central Bldg. in Midtown Section to Cost $5,000,000

Twenty-Four Story Structure to Rise on Plot Assembled by Pease & Elliman in 39th Street from Plans by Clinton & Russell

PRELIMINARY plans prepared by Clinton & Russell, architects, 32 Liberty street, for a twenty-four story office, loft and salesroom building to be erected upon a plot containing approximately 20,000 square feet, have recently been approved, and it is anticipated that a general contract for the construction of this project will be awarded within a few weeks. Work will be commenced this spring and it is expected that the structure will be completed and ready for occupancy by May 1, 1921.

This project will be located at 48 to 54 West 39th street and

Clinton & Russell, Architects.

will run through the block to 45 to 55 West 38th street. The building will have a frontage of 108 feet in 39th street and 113 feet in 38th street. The new structure will be known as the Penn Central Building and this unique name has been decided upon because of the fact that it is located equally distant from the Grand Central Terminal and the Pennsylvania Station.

According to Pease & Elliman, brokers who assembled the plot for this undertaking and who are representing the owners in the preliminary arrangements, the building will be of the highest type of construction for tenants, requiring upwards of 100,000 square feet of space and will include a number of special service features. The floors in this building are to be so arranged as to provide private elevator service and separate entrances for tenants using large floor areas. The structure has also been planned so as to give the maximum amount of natural light upon all sides through a series of setbacks, which are required under the provisions of the Zoning Resolution. This operation will involve the expenditure of approximately $5,000,000, including both the value of the land and the cost of constructing the building.

The façades of this building will be of light colored face brick with trimmings of Indiana limestone and terra cotta, and the design is such that the structure will stand out prominently as one of the unusually interesting mercantile buildings in the mid-town district of Manhattan.

A 12 in. fan consumes 6/10 Amp. 125 volts, or 75 watts per hour. Assuming 9 hours a day for 26 days a month, 4 summer months, would mean that the fans would consume 70 K. W. during the summer season which, at 7 cents pre K.W.H. would cost $4.90 per season or $1.25 per month. A 16 in. fan consumes 8/10 Amp. or 33 1/3 per cent. more than the 12 in. fan, or $6.50 per season or $1.65 per month.

PRIZES for rebuilding of whole blocks of unsanitary tenement houses and proposes a competition for best designs to remodel a specified block are offered by the State Reconstruction Commission. Two prizes of $1,000 each, four of $500 each, and two of $250 each will be awarded after June 15 for designs for the block bounded by Rutgers, Madison, Jefferson and Monroe streets. Designs are to be sent to the commission at Room 302, Hall of Records. The judges will be Allan Robinson, Alfred E. Marling, Edgar A. Levy, Frank Mann, tenement house commissioner; Clarence S. Stein, State Senator Charles C. Lockwood, State Senator John J. Dunnigan, Andrew J. Thomas, Burt Fenner, Robert D. Kohn, Lillian Wald and Alexander M. Bing.

The need of greater comfort as well as additional living space is emphasized by the commission, which calls attention to the fact that most tenements were constructed before the present building laws were passed. Of the 982,926 individual apartments in the city 587,851 were built more than nineteen years ago.

Some of the defects of present tenement houses set forth in the announcement of the competition are: "Lack of light and air, insufficient and foul plumbing, lack of privacy, which endangers decency and health; the absence of recreational spaces, dreary and unwholesome environment and lack of proper fire protection."

Unless more rapid progress is made, the commission declares, it will require nearly a century to wipe out the present evils. Governor Smith has given his approval to the prize competition plan.

effect, unless the petitioner alleges in the petition and proves that the rent of the premises described in the petition is no greater than the amount paid by the tenant for the month preceding the default for which the proceeding is brought or has not been increased more than twenty-five per centum over the rent as it existed one year prior to the time of the presentation of the petition. Nothing in the subdivision shall preclude the tenant from interposing any defense that he might have. The subdivision shall be in effect only until the first day of November, nineteen hundred and twenty-two.

"2. Act takes effect immediately (April 1, 1920).

Last year's census showed the greatest shortage in flats, while low-priced tenements and high-priced apartments were comparatively plentiful. Owing to the emigration of the foreign-born, it is said the tenement shortage is less acute at present.

There were 982,920 apartments in the city in 1919, with a percentage of vacancies of 2.18.

Review of Real Estate Market for the Current Week

Sales of United States Express Building, Johnston Building and a West Side Block Greatly Enhance Value of Dealing.

THIS week in the real estate market has been one of extraordinary interest with as great activity in all kinds of improved property as has been the case for many months. Large transactions in various parts of the city predominated. For operators, brokers and investors as well as private sellers the market is a horn of plenty.

Few periods of the real estate market's history has witnessed the sale in one week of such properties as the United States Express Building, the Johnston Building, valuable Wall street property forming the key to a corner improvement, a square block for improvement in the Washington Market neighborhood, a block in Greenwich Village, numerous holdings of divers sizes in the lower West side, many loft buildings, apartment houses and dwellings. Even Brooklyn and the Bronx are responding briskly to the market.

In the lower West side, from the Battery north to Fourteenth street there is a demand for real estate for improvement and for rehabilitation that has not been witnessed there for a generation. The penetration of this part of the city by a new subway route has something to do with it and the tendency of the mercantile, financial and professional sections to expand westward accounts for it also. The circumstances may be said to be correlative. Prices for real property in this part of New York upset all precedents. As one prominent broker, who specializes there, remarked: "Parcels here have no standard value now; all standards are upset, and any property is worth what one can get for it, which is much more than usual." An extensive building movement is predicted for the old and dilapidated neighborhood west of Church street to North river and north to Fourteenth street. The old bogy that Trinity Church Corporation held the lower West side in its clutches and that it frustrated the building of modern structures is no longer heard.

In the East side of the city and south of Fulton street there is a movement of property that is significant, although it is not as extensive or as spectacular as in the lower West side. Many lines of business, however, are moving into this East side section that were strangers to it in the past. One of the most prominent speculators in town is buying and reselling old buildings there extensively. The demand is caused by unusually high rentals in the more central part of downtown as well as by the fact that many firms heretofore tenants have found it advantageous to buy old buildings of medium size and remodel them for their own purposes. Even South street figures in the news of the week, and Pearl street, Water street and Front street are watched for available parcels. Families that have old holdings there are being besieged to sell. The same is true of the Bowery, to a degree.

The paucity of living space has much to do with the demand for dwellings as was demonstrated by numerous tenants of them buying them for continued occupancy. A notable feature of the leasing of dwellings was that of the Hamersley mansion in upper Fifth avenue by an old resident of the Washington Square section of the avenue. This presents the question: It there the inception of a residential exodus from the exclusive lower part of the famous thoroughfare?

In the apartment house dealing of the week numerous good sized corner buildings changed hands, both in Manhattan and in the Bronx. Negotiations for numerous additional transactions of this kind are pending. A few vacant plots were sold that are suitable for improvement with apartment houses.

Several large commercial leases were made during the week, notably one in the Grand Central neighborhood and one in Fifth avenue.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 157 as against 124 last week and 86 a year ago.

The number of sales south of 59th street was 64 as compared with 37 last week and 59 a year ago.

The number of sales north of 59th street was 93 as compared with 87 last week and 59 a year ago.

From the Bronx 101 sales at private contract were reported as against 89 last week and 44 a year ago

Statistical tables, indicating the number of recorded instruments, will be found on page 451.

U. S. Express Building Sold.

Leading the real estate sales of the week in importance of location and size of the transaction was the sale last Tuesday of the 23-story office building which was built a decade ago by the United States Express Company but which has been owned for some time past by the Broadway-John Street Corporation of which Elias A. Cohen is president. The property is numbered 2 Rector street, but it fronts 118 feet in that thoroughfare, 148 feet in Trinity place and it runs back to Greenwich street where it has a frontage of 13.9 feet. The buyer of this building is a newly formed company known as the Two Rector Street Corporation and some important men in the investing and building world comprise it, among them being Louis J. Horowitz, of the Thompson-Starrett Co.; Alfred M. Bedell, president of the Bedell Company; Elias A. Cohen himself and Adolph and Henry Bloch, real estate lawyers, the latter of whom attended to the legal matters pertaining to this transaction. The reported price is $5,000,000.

A mortgage of $3,000,000 on the entire property has been obtained by the new owning company from the Guaranty Trust Company for a term of 15 years, and it will in turn be offered to the general investing public through the National City Company in the form of $100 bonds at six per cent. per annum. It is a somewhat novel arrangement among real estate mortgages. It calls for a sinking fund involving quarterly payments to the trustee totaling $500,000 during the first five years of the term, namely: $50,000 the first year, $100,000 in each of the second and third years and $125,000 in each of the fourth and fifth years. Other sinking fund payments during this period are also provided for which are equivalent annually to one-half of the net income from the rentals of the building, after deduction of the maintenance expenses, taxes, interest and the quarterly sinking fund payments. As an alternative the owning corporation may pay into the sinking fund a total sum of not less than $250,000. Further quarterly payments into the sinking fund will be required during the remaining decade for the purpose of reducing the principal amount of the loan to $1,750,000 by maturity.

The only previous transaction of this character transpired last June when the National City Company bought an issue of $7,000,000 of first mortgages secured by the Realty and Trinity buildings at 111 and 115 Broadway. How popular the process will become remains to be seen. The new owner of the United States Express building announces that it is not now on the market.

Christian Scientists Buy a Corner.

Third Church of Christ, Scientist, of New York City, has purchased, through Pease & Elliman, the property formerly owned by the Cox estate, represented by Horace S. Ely & Co., at the northeast corner of Park avenue and 63d street, where it proposes to erect a substantial church edifice, upon the termination of the present leases which will expire in May, 1921. The property consists of a plot 100x100 feet, and it is understood that the purchase price is in the neighborhood of half a million dollars. Attorneys for the church were Dean, King, Tracy & Smith; attorney for seller was Edwin H. Updike. The proposed church edifice is expected to offer a seating capacity of 1,800 and, located in the most generally accessible section of the city, will be within easy reach of visitors from all parts of Greater New York and from Long Island by means of three surface car lines: The Madison avenue, Lexington avenue and 59th street lines, as well as by the Lexington avenue and Broadway subsystem, the 3d avenue Elevated Railway and the 5th avenue omnibus service. An auditorium of such size in this part of the city will fill a long felt want of the rapidly growing cult and Christian Scientists throughout the field are welcoming the move of Third Church with considerable gratification.

Third Church was formerly located at 125th street, near Madison avenue, where it owned the church edifice previously occupied by the Harlem Presbyterian Church, which it acquired in 1905. Neighborhood conditions, however, in that part of the city of late years have changed so much that the church has finally been compelled to look about for a new location, further down in the east side territory, where it will find greater scope for its usefulness and in anticipation of this step it, in February, 1919, transferred its Reading Room to the Southern Building at 680 Madison avenue, between 61ts and 62d streets.

Johnston Building Changes Hands.

Notable in the list of sales of the week was that of the Johnston building, 30 to 36 Broad street, running through to 28 to 32 New street, and fronting the south block of Exchange place, between the other two thoroughfares. The property fronts 88.1 feet in Broad street, 87.10 feet in New street, with a depth along Exchange place of 149.10 feet and 106.6 feet on the south line. Mandelbaum & Lewine bought the property from Mrs. Emily J. De Forest, it having been in the hands of her family since 1831 when the Broad street end of the plot was purchased, and in 1845 the balance of the plot through to New street was secured. The present Johnston Building was erected by the seller in 1900.

The asking price for this property was $5,000,000. Brown-Wheelock Company, who was the broker in this sale, will be the agents of the building.

Joins Realty Organization.

The announcement is made that Arthur K. Mack, for several years managing editor of the Record and Guide, has become connected with Joseph P. Day at 57 Liberty st and will be in charge of the advertising and publicity department of that organization. Mr. Mack's experience on the Record and Guide and with the New York Herald, of which he was at one time real estate editor, fit him for his new duties, and his wide acquaintance among all those interested in real estate should make him a valuable acquisition for his new employers. Mr. Mack's home is at Great Neck, Long Island.

Big Deal Near Washington Market.

The New York Telephone Co. has bought the entire block bounded by Vesey, Barclay, Washington and West sts for the purpose of reimproving it with a modern building for its own use. The sale marks another step in the structural evolution of the entire lower West Side, as there are about 35 old buildings on this block, some of which were originally dwellings. The plot front 255.8 feet in Vesey st and in Barclay st and 212.5 feet in Washington st and in West st. The properties involved in this purchase are 86 to 108 Vesey st, 90 to 110 Barclay st, 139 to 147 West st and 208 to 222 Washington st.

The sellers were former Judge Nathan Ottinger and Alexander Joske, trustees for the estate of Albert Joske of 98, 102, 104 and 106 Barclay st; 142, 143 and 144 West st and 214 and 216 Washington st; Max Marx of 218 and 220 Washington st. Other sellers on Washington st being John Moeller, Edwin A. Cruikshank and J. P. Boyle estate.

Sellers in Vesey st were Mary Zabriskie estate, Stephen Baker estate, Ronald E. Curtis, Central Union Trust Co., Anna Gillies, Marie C. Post, Edward R. Jones and others and Harriet Duer Potter estate.

Other sellers in West st were Charles W. Ward, estate of Patrick Skelly, Edwin A. S. Brown and Nicholas Toerge.

Gravesend Track to Be Home Sites.

For the purpose of suburban lot development William E. Harmon Co. bought the sixty acres comprising the famous Gravesend race track from the Brooklyn Jockey Club. The purchase price is understood to be $750,000. Situated at Kings Highway, Ocean Parkway and Gravesend av, the track is one of the oldest in Greater New York. It was originally the Prospect Park Fair Grounds, on which trotting races were held for several years. In 1885 it lost some of its ground to make way for the Parkway and the next year the remainder was sold for a few dollars an acre to Phil and Mike Dwyer, Richard Hyde and Louis Behman, of the old theatrical firm of Hyde & Behman; John McCarthy and James Shevlin.

Part of Building Rented from Plans.

Mary B. Fareira sold to Charles Kaye 36 to 40 West 29th st, old buildings on a plot 65x98.9. The buyer will erect on the site a modern loft building, plans for which are completed. He has already rented from plans basement and three floors, containing about 26,000 square feet, to Kaye & Einstein for ten years at an aggregate rental of $350,000.

First National Bank Adds to Holdings.

An interesting real estate development of the week was the disclosure that the First National Bank, which owns and occupies 2 and 4 Wall st, is negotiating to buy 6 Wall st, adjoining and running through to 3 and 5 Pine st. The bank's present property is at the northeast corner of Wall st and Broadway. The American Surety Co. owns the Pine st parcels sought, and 6 Wall st forms part of the letter T of the Schermerhorn Building, at 96 Broadway, while the Pine street property forms the other part. The frontage in Wall st is 22.6 ft and in Pine st 40.2 ft. With 6 Wall st acquired, the First National Bank will have a building frontage in the financial thoroughfare of 113.10 ft. The entire Schermerhorn Building has been owned by the American Surety Co. since last October. It will obtain about $500,000 for the parts it will sell to the First National Bank and retain the Broadway frontage for its own use.

West Side Plot Bought.

A group of investors has bought a plot in West 52d and West 53d sts, between Broadway and 8th av, on which it is said will be erected a large skating rink to cost about $1,000,000. Electus T. Backus is the broker, but he would not disclose the exact street numbers of the parcels involved at this time. The dwellings on the site are old 3-story set-back type and two are used by the negro branch of the Y. M. C. A.

Buyers at Auction Take Profit.

L. & A. Pincus and M. L. Goldstone sold to George Engelhardt 251 to 257 West 45th st, four dwellings, 80x100. This plot was purchased by the sellers at the Henry Astor trust estate auction sale for $202,000.

Commercial Parcel on Broadway Sold.

Estate of Mary A. Downey sold through Cammann, Voorhees & Floyd, 475 Broadway, running through to 48 Mercer st, an 8-sty brownstone mercantile building on a plot 26.5¼x200x26.4¼. The buyer will occupy most of the building.

Blyn Shoe Co. Aids Market Activity.

The I. Blyn Shoe Company purchased from Max Marx for its warehouse use the 5-story buildings at 55 Warren street, extending through to 55 Murray street, fronting 25 feet in each street, and having a depth of 175.6 feet. The purchaser recently acquired for the same purpose 105 and 107 Duane street, running through to 14-16 Thomas street, being 50 feet wide on each street and 200 feet deep. Max Marx recently bought the Murray and Warren street properties from the James H. Hamersley estate. The Brett & Goode Company were the brokers in these sales.

Tenants Buy Building.

Charles F. Noyes Company sold for Herman Leroy Edgar 371 Washington street and 386 and 388 Greenwich street, three substantial 5-story buildings on plot 25 feet in Washington street and 44 feet in Greenwich street, with a depth of 160 feet. The purchasers are William A. Higgins & Co., tenants. The parcel is located between North Moore and Beach streets, and is one of the most substantial buildings in the district.

Elmendorf Apartments Bought.

With a trend toward co-operative ownership several prospective tenants for the 6-story elevator apartment house known as the Elmendorf at 133 and 135 West 11th street have bought it from Mrs. M. C. Van Winkle, of Garrison, N. Y., through M. Morgenthau, Jr., & Co. The Elmendorf covers a plot 50x103.3 feet and was built 25 years ago, the seller having owned it 22 years. There are two apartments each of eight rooms and bath on each of the floors. About one-half of these have leases expiring next October and it is the intention of the purchasers, who are now residents in that section, to occupy several of these apartments, so that in a sense it will be owned co-operatively. The building will be thoroughly renovated and modernized.

Y. W. C. A. Buys on Gramercy Park.

It was announced today that the Young Women's Christian Association had purchased through Wm. A. White & Sons and Loton H. Slawson Co., the property on Gramercy Park at the northwest corner of Lexington avenue and 21st street, with a frontage on 21st street of 58 feet and 131 feet on Lexington avenue. The seller is Henry A. C. Taylor, who has owned the property for many years.

The corner was for a long time the residence of Stanford White, the architect, and later the house became the home of the Princeton Club. In the rear is the building of the Russell Sage Foundation, which covers the balance of the block on Lexington avenue.

It is understood that the association is to use the present buildings, which are connected, for the International Institute for Young Women.

Greenwich Village Is Brisk.

Pepe & Brother sold for Harris & Maurice Mandelbaum the entire block bounded by West 4th and 10th streets and 7th avenue, directly opposite the Greenwich Village Theatre. The property will be altered into studio apartments, and they will be ready for Fall occupancy.

Helen Court Bought.

Shaw & Co. sold for Schwegler Realty Company Helen Court, at 14 Morningside avenue, at the northeast corner of 115th street, facing Morningside Park, a 6-story elevator apartment house, 145.3x118.9x irregular. The property was in the hands of the seller for 17 years.

Lowe Estate Sells West Side Block.

The estate of Nicholas Lowe, one of the large property owners of the lower West side, sold to W. S. Coffin the block of antiquated buildings on the block bounded by Bleecker, MacDougal, West Houston and Sullivan streets, in the Greenwich Village district. Realizing that this part of the city is feeling impulse as a result of the 7th avenue subway operating through it, Mr. Coffin will restore the dilapidated dwellings, which have long been rented as multi-family houses, to their original condition. The size of this block is 200x400 feet. There is a total of 41 buildings ranging in height from two to four stories. Some of the dwellings have a front balcony at each floor and they add an antique and picturesque touch to the neighborhood. The buyer has been and is an enthusiastic believer in the investment advantages of this part of the city.

Yale & Towne Building Bought.

Metropolitan Credit Company bought through Cross & Brown from Frederick Brown the 12-story commercial structure known as the Yale & Town Building, at 9 and 11 East 40th street. The asking price was $900,000. The new owner will occupy the building for its business purposes.

Bryn Mawr Club Buys a Home.

To be substantially altered for clubhouse purposes, the property at 279 Lexington avenue, a 4-story dwelling, has been sold by Miss Elizabeth F. Leigh to the Bryn Mawr Club, which will occupy it. The plot is 32x100 feet.

Sheridan Square Improvement.

Harris and Maurice Mandelbaum sold to James N. Rosenberg the triangular block

bounded by 7th avenue, 4th and 10th streets. The avenue frontage is 110 feet, while the frontage in 4th street is 96 feet and in 10th street 70 feet. This triangle was caused by the acquiring of property for the subway route and there are only two dwellings left on it. All of the land will be improved. It is opposite the Greenwich Village Theatre.

RECENT LEASES.

Notable Fifth Avenue Lease.

The Ocean Accident & Guarantee Corporation leased through Henry Shapiro & Co. from the American Real Estate Company, Walter C. Noyes and Alfred E. Marling, receivers, 50,000 square feet of space in the Merchants Exchange Building at the southwest corner of 5th avenue and 17th street for a term of ten years, and will move their offices now located at 59 John street to its new quarters as soon as alterations are completed.

Bulk of Greenhut Building Leased.

The Big Stores Realty Company, which controls the Greenhut building at 6th avenue and 18th street, has leased all of the property except the ground floor to the Interchurch World Movement for a term of 10 years. The floor area is 485,000 square feet and the rental is 70 cents a square foot a year, which figure is considered very reasonable in the face of the fact that much similar space is bringing as high as $5.50 a square foot a year.

Much of the leased space has been sub-leased at $2 a square foot per annum.

I HAVE BEEN for 12 years the New York representative of a corporation manufacturing a high grade specialty in building material. The company has recently liquidated its affairs and retired from business. Have had full charge of sales as well as the installation of product and have built up a large and favorable acquaintance with the Architects and Contractors in this and surrounding territory. I am looking for the opportunity to represent, in a similar capacity, some manufacturer or dealer in a kindred line, where I can capitalize my experience and acquaintance in this territory to mutual advantage. Will devote my whole time and attention to the business and can supply fully equipped office if desired. WILLIAM E. CASH, room 83, Cotton Exchange Building, New York City.

PROPOSAL

STATE OF NEW YORK,
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS,
Albany, March 5th, 1920.
NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 6th, 1920, at which place and hour they will be publicly opened and read, for the construction of Barge Canal Terminals, pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

TERMINAL CONTRACT NO. 19-P.

For paving the terminal piers at Greenpoint and at West 53rd street, New York City.

Contract plans, sheets 1 and 2

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding Exchange, Buffalo, N. Y., and at the office of the State Engineer and Surveyor, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work, according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

EDWARD S. WALSH,
Superintendent of Public Works.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

Few Bricklayers At Work After Agreement Is Reached

Men Quit Their Jobs in Bronx When Employers Put Them on $8.50 Per Day Pending Ruling by Mayor Hylan as Arbitrator

LAST Tuesday morning many striking bricklayers, who have refused to work on jobs for which contracts were held by members of the Mason Builders' Association, returned to the projects that have been idle since January 1. The return of these mechanics removes the chief obstacle to building progress in Greater New York and although the settlement of the difficulty between the workmen and the employers is not entirely completed, the feeling is general throughout the industry that a final agreement will be reached within a short time and that construction will be unhampered for the remainder of the year by further disputes.

The decision to return to work was reached Monday afternoon after a lengthy conference at City Hall, between representatives of the bricklayers, the Mason Builders' Association and Mayor Hylan. At this meeting it was agreed that the bricklayers return to their jobs at their former scale of wages, which was $8.50 per day, and leave to arbitration their demand for $1.25 per hour or $10 per day. It was further agreed to submit briefs in support of their contentions within forty-eight hours after the resumption of work on the abandoned jobs. As comparatively few of the strikers have up to the present writing returned to work, the questions in dispute have not yet been placed before Mayor Hylan as arbitrator, and it is not certain just when they will be submitted.

The text of the agreement consummated last Monday afternoon follows:

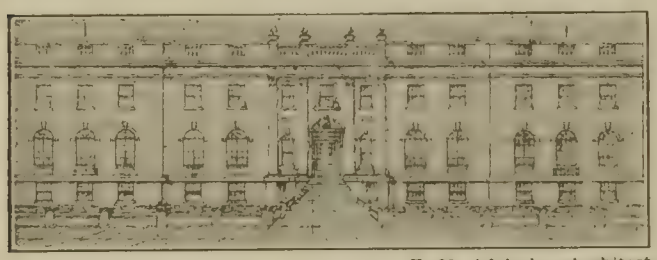
"Agreement between the Bricklayers' Union of Greater New York and Long Island and the Mason Builders' Association. "The Bricklayers' Unions agree to rescind their strike order and return to work immediately under the agreement, which is to continue until all questions now existing and formerly considered by the Joint Arbitration Board are finally and mutually agreed upon. The decision of the umpire on the question of wages to be retroactive from the day the men return to work and shall continue until December 31, 1920.

"After the men have returned to work the Joint Board of Arbitration shall renew their relations and sit to adjust whatever grievances may be presented from either side. The umpire is to be John F. Hylan, Mayor of the City of New York, and his decision is to be final and binding on both parties. Both sides to submit their briefs within forty-eight hours after the men return to work."

In discussing this agreement Mayor Hylan stated that it would be necessary for both sides to make some concessions in order to help the housing situation.

"Not only can house building now go on," he said, "but school house construction, which has been held up, can also proceed.

Members of the Building Trades Employers' Association, which has been vitally interested in the strike of the bricklayers as it has prevented a large number of other trades from completing their parts of the work, have stated that there is plenty of work for all of the strikers immediately. The Building Trades Employers' Association for some time past has been insisting that the bricklayers join in the convention entered into between the council and the employers' association, but this stand appears to have been abrogated. A large number of bricklayers, estimated to be more than 2,000, have left the city since the beginning of the strike, January 1, for work outside, but as many of these have families in New York they are expected to return now that the wage dispute will be settled.



The announcement of the agreement to submit the wage dispute to arbitration has caused some confusion in building projects in the Bronx, which were proceeding despite the strike because employers were paying the rate of $10 per day demanded by the bricklayers. Just as soon as the announcement was made that the strikers were to return on the $8.50 per day basis until the decision of the arbritrator was rendered, these employers reduced the scale in force on their jobs with the statement that they would also abide by the final dcision. Naturally the workmen would not agree to this and in a number of jobs the bricklayers quit immediately.

Reports from various parts of the city indicate that although the bricklayers have come to an agreement with the employers they have not returned to their jobs in the number promised. The best evidence of this fact is that the deliveries of commen brick throughout this city have been exceedingly light and orders for new supplies have been very light. Had the men returned in the number anticipated when the agreement was announced, mason material dealers declare that the relatively small stocks of materials held on the jobs would be used up within a few hours.

Plans Are Approved for New Pride of Judea Orphan Home

Designs by Edward M. Adelsohn Passed by New York State Board of Charities—Construction Soon to Start

THE New York State Board of Charities has approved plans as prepared by Edward M. Adelsohn, architect, for a group of buildings that will soon be erected by the Pride of Judea Orphan Home in Brooklyn. This project will occupy the plot bounded by Dumont and New Lots avenues, Elton and Linwood streets. According to the present plans this operation will include the construction of a three-story and basement administration building, entrance building, with infirmary and six cottages. All construction throughout will be strictly fireproof from plans that have been the result of careful study of the most modern types of institutional architectural practice.

E. M. Adelsohn, Architect.

FACADE OF PRIDE OF JUDEA HOME.

These buildings have been designed in the American Colonial style of architecture, and will have exterior walls of face brick, with trimmings of Indiana limestone and granite. The plot plan provides for the maximum amount of natural light and ventilation in all of these structures and also permits considerable room for future growth and expansion.

Among the principal features that will make this operation of interest to charitable enterprises are a large playground to be equipped with numerous amusement devices, enclosed playground for use in inclement weather, a roof garden, kindergarten, etc. The main floor of the administration building will provide for a dining room, assembly room, school room, kitchen and general offices. The second floor will be used as dormitories and the third floor for nurses, with library, sitting room and other features. In the basement will be located the bakery, laundry, boiler and coal storage rooms, etc.

The administration building will have dimensions of 150x100 feet; the entrance or isolation building will be 60x80 feet, and the six dormitories will be 20x50 feet. The cost is placed at approximately $250,000.

The Pride of Judea Orphan Home, of which Joseph Polonsky is president, has a large membership, included in which are a number of wealthy and influential Jewish people of both Manhattan and Brooklyn who have generously supported this institution for years past and who have subscribed the funds that will make possible an early start on this work. A sufficient sum is already in hand to provide for the immediate construction of the administration building and it is planned to get started on this project as soon as weather conditions permit and contracts are placed. The building committee in charge of this operation includes Joseph Polonsky, ex-officio; Adolph Sternberg, chairman; I. Liebowitz, P. Diamond, J. Schneider, Morris Silverman, S. Weinstein, Henry Klein, L. Heller, Max Harris and H. Fogel.

Great Improvement in Number of Projected Buildings

F. W. Dodge Company Statistics Show Increase in Practically All Phases of Construction in Local Territory

RECENT announcements of new building and engineering construction projects indicate a steady growth in the volume of work being undertaken in New York State and New Jersey, north of Trenton, notwithstanding the increasing scarcity of materials and supplies and the strikes in New York that are holding a vast amount of work in abeyance. During the past few weeks reports of new building operations from the territory just outside of the Metropolitan district but within the boundaries of the district covered by the figures prepared by the F. W. Dodge Company, there has been a noticeable improvement in both the number and value of projected building work, that is indicative of extremely active building times ahead.

The figures as announced show that during the week of March 20 to 26 inclusive there were reports of 342 new projects, valued at $25,336,750, for which plans were being prepared by architects and engineers. A large proportion of the plans for this construction are practically completed and it is anticipated that contracts will be awarded and actual work commenced within a relatively short time. During the same week a total of 197 contracts were awarded for new building and engineering projects that will require an expenditure of approximately $14,688,700.

Among the 342 proposed operations reported during the week of March 20 to 26 there were 83 business and commercial buildings such as stores, offices, lofts, commercial garages, etc., $7,506,500; 7 educational projects, $473,000; 3 hospitals and institutions, $7,500; 38 factory and industrial buildings, $5,607,000; 1 structure for the U. S. Army, $5,000; 1 public building, $1,000; 29 public works and public utilities, $6,186,000; 3 religious and memorial buildings, $135,000; 166 residential operations including apartments, flats and tenements and one and two-family dwellings, $3,987,750, and 11 social and recreational projects, $1,428,000.

Included in the list of 197 projects for which contracts were placed during the week of March 20 to 26 were 29 business and commercial buildings, $919,500; 5 educational projects, $561,000; 4 hospitals and institutions, $151,400; 33 factory and industrial buildings, $2,929,000; 4 public buildings, $286,200; 14 public works and public utilities, $6,634,800; 2 religious and memorial projects, $140,000; 98 residential operations of various types, $1,814,000 and 8 social and recreational projects, $1,252,800.

PERSONAL AND TRADE NOTES.

Lawrence Cement Company announces the removal of its offices from 1 Broadway to the fourth floor of 302 Broadway, about May 1.

James C. Mack Company, general contractor and worker in reinforced concrete, announces the removal of its offices from 31 Liberty street to 103 Park avenue. Telephone, Murray Hill 292.

Rudolph P. Miller, Superintendent of Buildings of New York City, has been nominated for chairman, executive committee, National Fire Protection Association. The nomination will be voted upon at the annual meeting of the association to beheld May 4-6, in Chicago.

Simon Ables, 44 Court street, Brooklyn, prominently identified with large speculative and investment building operations in Brooklyn for many years has entered the general contracting field and will specialize in the construction of reinforced concrete manufacturing buildings and commercial garages. Samuel Teplitz is associated with him in this work.

Maximilian Toch, industrial chemist, has been appointed adjunct professor of industrial chemistry of Cooper Union. Mr. Toch will co-operate in the development of a new four-year day course in industrial chemistry to be started next September by the institution. The course will train men as analysts, research chemists, foremen and superintendents in manufacturing plants.

S. W. Strauss & Co. announce that they have underwritten a first mortgage of 6 per cent. serial bond issue of $5,000,000 on the Drake Hotel now being erected on the Lakeshore Drive, Chicago. The bonds are secured by a first mortgage on the land, building and equipment. The net earnings are estimated at nearly four times the greatest bond interest or more than twice the bond interest and the serial payment of principal in any year added together. The new hotel, which will be the finest in Chicago, will contain 780 guest rooms and will be under the same management as the Blackstone Hotel.

New Factory for Johns-Manville Co.

A general contract has just been awarded by the H. W. Johns-Manville Co., Madison avenue and 41st street, New York, to the John W. Ferguson Co., of Paterson, N. J., for the construction of a new manufacturing plant at Manville, N. J. The new structure will have dimensions of 151 by 641 feet and will have a total floor area of 96,800 square feet. The building will be of brick with steel frame and concrete floors. The roof will be of wood. This plant will be for the manufacture of the company's various asbestos and allied products. Active operations will be commenced within the next two or three weeks.

Well Known Decorator Resumes.

P. Jackson Higgs has again entered the decorating business, with office and studio at 13-15 East 54th street, where he conducts the business of consulting decorative specialist, undertaking the planning of interiors in their entirety and superintending their execution. Mr. Higgs has an interesting collection of rare antiques and a few reproductions of the highest type. In reference to the latter he also specializes in reproducing pieces of early furniture for use where originals are unobtainable.

In past years he has also taken a keen interest in reproducing early silver by the old hand methods and he is carrying on this work, limiting his productions, however, to solid silver tea and coffee services. On exhibition at the present time is part of a beautiful twelve piece service of Queen Anne design which has all the ear-marks of an old set.

Mr. Higgs came to America from England about seventeen years ago. He was formerly vice-president of the A. J. Crawford Company of Fifth avenue, and later was president and manager of The House of Philip Oriel, Inc., consequently his knowledge of the art business is extensive. He retired from the presidency of the latter firm to enter the U. S. Army, enlisting as a private in the aviation, being shortly after transferred to the Bureau of Aircraft Production where he was engaged in organization and experimental work. Later he took over the entire control of one of the largest plants in this country engaged in aircraft work for the British Government.

Following his discharge from the army he patented a phonograph which is said to excel over all previously existing types. It is understood that he sold his patent rights so that he could devote all his energies to his new business.

TRADE AND TECHNICAL SOCIETY EVENTS.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Hardware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14 inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convention at Buffalo, N. Y., June 22 to 25 inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary, Argos, Ind.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

Slag as a Concrete Aggregate.—The results of the investigation made by the Bureau of Standards during the past two years on this subject are summarized as follows: Crushed slag as a coarse aggregate produced concrete of as high or higher strength than gravel. The tests have not been extensive enough to determine the durability of slag, but so for as they have gone, no signs of disintegration have been observed due to sulphide sulphur. Slag sand, because of its lack of fine material, does not produce easily workable concrete when used as fine aggregate. If it must be used, its working qualities can probably be improved by the addition of small amounts of fine sea sand, hydrated lime, or other similar material. In all probability, a larger amount of fine aggregate to replace some of the coarse aggregate would aid workability. Provisions in specifications for slag aggregate calling for a maximum sulphide sulphur content of 1½ per cent. and a minimum weight per cubic foot of 70 pounds have been tentatively recommended by the Bureau of Standards.

CURRENT BUILDING OPERATIONS

TUESDAY morning a large number of bricklayers who had been out on strike against members of the Mason Builders' Association since January 2 returned to the jobs they abandoned and their action decidedly stimulated the local building situation. Throughout the industry confidence is now expressed that before very long practically all of the jobs that were held up on account of the strike will be under way. Although final settlement of the difference between the workmen and the employers will not be possible before both parties submit their sides to Mayor Hylan as arbitrator, the impression is quite general that the worst of the difficulty is past and that from now on construction work will progress without further hindrance. There is a vast amount of new construction for which plans have been completed that has been held up pending a settlement of the labor situation and it is almost certain that a large proportion of this will be released for estimates and contracts awarded at an early date.

Building interests have watched carefully during the progress of the pending legislation at Albany in reference to rent profiteering and the kindred measures that just passed the Legislature. It is conceded that the enactment of the proposed laws will have a vital effect upon certain types of buildings and at the present time a considerable amount of work is held in abeyance.

The building material markets have experienced renewed activity during the past week because of the resumption of construction on jobs that were held up by the strike but as the arrival of new materials and supplies have been better than for the past month or more the market condition is generally favorable. Prices are exceedingly firm and there is no prospect of any recession from the current levels for some time to come.

Common Brick.—Although the past week witnessed the arrival of eight barge loads of common brick from up-river yards there has been practically no current buying activity. The prime reason for this fact is that the consignees of these cargoes have set a price of $30 per thousand on this brick and New York dealers have refused to buy at this figure. The claim is made that the price is altogether out of reason, and as the demand from consumers is relatively light and there is quite some brick stacked in the yards about the city the dealers will undoubtedly wait for the arrival of other barges consigned by manufacturers who are more reasonable in their demands. The $30 price is considered a hold-up, and there is no doubt that the producers will have to make some concession before this brick is disposed of. The Hudson River is now generally free from ice and it is the opinion of dealers that brick arrivals will now come through with considerable regularity. There is a large amount of brick at the plants ready for shipment, and this will supply all demand until brick of the new season's manufacture is obtainable. Producers are preparing their plants for the commencement of the new season. The chief anxiety of the brickmakers at present is the doubt over the labor situation. Last year there was insufficient labor to man the plants efficiently and the outlook for the coming season is not much better.

Summary.—Transactions in the North River common brick market for the week ending Friday, April 2, 1920. Condition of market: Demand light; prices advanced. Quotations: Hudson Rivers, $30 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, 8; sales, none.

Lumber.—Locally the market has been quiet during the past week or so, but the condition has been largely due to the severe winter weather and the building strikes that have held up a vast amount of construction in this city. Prices generally are firm, but in some instances concessions have been made. These, however, were not to any extent that affected the market. Stocks are in better shape than they have been for some months back, both as to quantity and assortment, and dealers are able to supply the requirements of their customers in the majority of lines. There is still a scarcity of flooring and a few other items, but as a rule the supply situation is improved. Both wholesale and retail dealers are now look-

Why Large Buildings Install MARBLELOID "The Ideal Composition Flooring"

Marbleloid is being put into an ever increasing number of important buildings because it is a satisfactory and efficient flooring. Hard, dust-proof, durable, slow to chip or crack, it has the close texture that repels moisture and the pleasing appearance that brightens the office. Easily applied and inexpensive, it pays dividends from the day it is laid.

Where may we send you full information, samples and a list of Marbleloid installations?

MATERIALS AND SUPPLIES

ing forward to the coming weeks, as they anticipate a greatly increased volume of business to come from building sources both from the city and from the near-by suburbs. With the return of the bricklayers to work this week a number of large operations were resumed, and as a whole the building industry is more optimistic than it has been throughout the winter. Lumber prices continue firm and no material advances have been announced within the past week or so. Lumber manufacturers report increased production and the output is now in excess of the current demand, but it will require some time before the supply gets caught up with orders that have been delayed on account of lack of supply.

Roofing and Building Papers.—The demand for these materials is daily growing in intensity and the supply is decreasing to an extent that a real shortage now exists. Along with the greater demand has come a further increase in price which was announced during the past week. The demand at present is entirely out of proportion to the available supply and probably will remain so for some time to come. Current quotations are: Tar paper, 1 ply, 3.45 per roll; 2 ply, $3.35 per roll; 3 ply, $2.85 per roll. Rubber roofing paper, 1 ply, $3.15 per roll, 2 ply, $3.75 per roll; 3 ply, $4.40 per roll. Sheathing paper, 25 lb. roll, $2.30; 30 lb. roll, $2.85; 40 lb. roll, $3.80.

Sand.—The supply situation is somewhat easier than it has been of late, and during the past week a number of barge loads have been brought into the city. The only diffculty at present is the pending strike of the chauffeurs of the sand delivery trucks. A strike notice has been sent out, but at present the men have not left their trucks, and it is hoped that a serious labor difficulty may be averted. Sand prices are firm and are likely to remain at the existing levels, as some time ago the producers announced that the price now in force would remain effective until next June.

Structural Steel.—Production of fabricated material has increased to some extent and consequently deliveries are somewhat easier. Local demand has picked up and contractors are confident that the building industry will from now on materially increase their demand for structural material. The strike of the steel erectors is not yet settled, but contractors are going ahead with their jobs, which are fully manned. There has been quite some new construction released for bids during the past week or so and it is probable that within the next week a large percentage of the fabricated steel required for these operations will be booked. The most important booking of fabricated material for delivery in this distanct announced this week was 5,500 tons for the Fiske Rubber Company building, for which the American Bridge Company has the contract. Structural steel prices remain unchanged.

Electrical Supplies—Increased activity in this line has been manifest during the past week and both manufacturers and dealers are looking forward to a steady improvement in the demand, particularly from the suburban districts where there is a lively interest in small house construction. The general improvement in the local building situation has caused a more optimistic feeling throughout the industry and it now appears as though the coming months would be exceptionally busy for all affiliated with building construction. Supplies are coming through in slightly better time than they have been recently but dealers are unable to accumulate any stock ahead because of piled up orders that require immediate fulfillment. Prices are firm and with a constantly advancing tendency owing to increased production costs.

Linseed Oil.—This market is relatively quiet, but greater activity is anticipated now that building construction has been resumed throughout the metropolitan district. There is a fair demand on contract orders, but new business has been scarce. Prices are firm and unchanged.

Nails.—The American Steel & Wire Company claims to be making approximately 35,000 kegs of wire nails per day and are allotting them to customers on back orders according to the relative importance of the work in which the nails are required. Many jobbers have refused to make quotations and will only ship as prices prevailing at date of delivery.

Architects and Engineers are specifying and demanding
STEELBILT
Toilet Partitions
in preference to those made of ordinary materials.
STEEL has exclusive advantages. It is non-absorbent and therefore sanitary. It does not crack; in fact, is indestructible. It has a neat, clean appearance. Costs less than other substances and is more easily and economically erected. It is the *logical* material.
STEELBILT Toilet Partitions are made in standard sizes, some of which are carried in stock for quick delivery. Partitions and doors are made in units, of sizes to suit any plan layout.

Lowering the Minimum

By exercising great economy the private generating plant in the Commonwealth Bank, 190 Bowery, was run at minimum expense; but—

An engineering study, including estimates on new wiring and necessary alterations in the switch board, showed that the current could be supplied from the mains of The New York Edison Company at a lower cost. Accordingly, the private generating plant was closed down and a contract was signed for *Edison Service*

The installation will include one thousand lamps and fifty horsepower

Nothing Yet Done to Stimulate Building

The Record and Guide gives in this issue the full text of ten of the rental bills which became law through the Governor's signature on April 1. Final action has not yet been taken on one or two companion bills which, under the Constitution, had to be submitted to the Mayor.

A careful study of these new laws will be necessary to a true realization of their import. It will be difficult for laymen, whether landlords or tenants, to get the full significance of these measures. In an effort to throw all possible light on the newly created situation, the Record and Guide asked Chief Justice Levy, of the Municipal Court, for a statement of the policy which the judges will follow in handling rent disputes under the new statutes. Justice Levy has given a very interesting statement, but it must remain for developments in the courts to show just how the new laws will work. Justice Levy points out that the magistrates have been clothed with very great powers, and it should be reassuring to all interested that the judges plan to exercise great care in handling the multitude of cases which are coming before them.

Having rushed these new laws into the statute books, the Legislature at Albany is making plans to adjourn just as soon as possible. It is expected that the present session will end April 24. Thus only two weeks remain in which to dispose at Albany of the most vital problems—problems toward the solution of which the Legislature has done nothing as yet.

Advices from the state capitol indicate that the legislative leaders now realize laws aimed against profiteering will not boom building construction. If the Legislature adjourns without passing measures making it safe for capital to undertake new construction, the housing situation will go from bad to worse. There is, of course, merit in the suggestion that the Tenement House Law restrictions be let down for a year or two in order that existing tenements may be made available until the housing shortage has passed. More important, however, is the suggestion that new buildings be exempted from the provisions of the rental laws just enacted.

The immediate need is the passage of laws to encourage and stimulate building. The Legislature will assume a very grave responsibility if it adjourns without enacting such laws.

Realty Records Breaking Records

Statistics compiled by the Record and Guide from official sources show that the records of real estate conveyances, mortgages, mortgage extensions and building permits have more than doubled in the first quarter of this year compared with the figures for the similar period in 1919. Conveyances in Manhattan rose from 1,929 in the first three months of last year to 4.700 this year, and in the Bronx from 1,488 to 3,263. Similarly the 3,029 mortgages recorded in Manhattan this year compare with 894 last year, and in the Bronx there are 2,253 for 1920 against 695 a year ago. Other realty transactions have increased in like proportion.

Readers of the Record and Guide cannot but have noticed the extraordinary number of the recorded instruments, which have necessitated printing a greatly increased number of pages in the Records Section of this publication in order to fulfill one of the chief missions of the Record and Guide—to present weekly a complete and accurate transcript of every recorded real estate transaction in Manhattan and the Bronx. It has not been without difficulty to do this during the last few months, for reasons above stated and because of conditions due to the printers' strike last fall, which upset the printing business so that a return to normal working conditions was very slow. Now that the Record and Guide is able again to give its readers the official news of the realty world without delay, it should be more useful than ever before to its patrons.

Actual Building Conditions

Figures showing the actual construction work under way in Manhattan Borough at the present time, compiled by Rudolph P. Miller, Superintendent of Construction, give the estimated cost of 190 operations at $46,370,486. These comprise practically the entire building program since January 1. The statement is of great interest because of its bearing on what is being done to meet the housing shortage. The classification of buildings is as follows: Offices, lofts and stores, 44; garages, 38; apartments and tenements, 29; warehouses, 17; factories, 7; dwellings, 8, and hotels 4, with 42 miscellaneous structures.

That the buildings intended for living quarters will not have appreciable effect on the existing conditions is apparent when the facts respecting them are analyzed. Naturally the eight single-family houses are negligible. The four hotels are uptown, of the fashionable and non-housekeeping variety, and will accommodate a very limited number of persons. The total estimated expenditure on this class of buildings is $3,300,000, exclusive of land, which is less than either the Commodore or Pennsylvania hotels cost, without having their capacity.

Fourteen high-class apartment houses, ranging from eight to fourteen stories, on plots of from 50 x 100 feet up to 102 x 150 feet, will cost $8,500,000 if completed within the original estimates. All of these buildings, with one exception at Fifth avenue and Ninth street, are between Fifty-third and Eighty-sixth street, six on the east side of Central Park and seven between the Park and the Hudson. They are being built because apartments in this ultra-fashionable zone command fabulous rentals and justify construction work in the face of high wages, excessive cost of building materials

and operating expenses that are double the pre-war rate. But as factors in minimizing the dearth of living quarters they cannot be said to be noticeably effective.

The only other quarter on Manhattan Island where there is any activity in building is along the Hudson River from Seventy-fifth street north. In this section, mainly on the property sold recently by the Bennett Estate, there are fifteen five- and six-story multiple family houses under construction, at an estimated cost of $2,330,000. These tenements are of the better class, meet all the requirements of the new law, and so far as they go, will afford additional room for the great number of families in moderate circumstances by whom the upper part of Manhattan is peopled. But the whole building program now under way falls far short of the acute necessities of the day. A fair estimate would give accommodations in the apartments and tenements in the two sections just mentioned for one thousand families of five persons each, but there is a crying demand for housing for at least twenty thousand families. The new hotels will provide additional shelter for perhaps another thousand persons.

The Bennett sale gave speculative builders who were fortunate enough to be able to finance themselves wholly or in part exceptionally favorable plots upon which to build. Higher rents in the Park section than can be obtained elsewhere in the city helped the builders who have under construction the expensively planned apartments in this area. But the builders who must be depended on to construct shelter for a hundred thousand people who are clamoring for liveable quarters at reasonable rentals have been left in the lurch. The Legislature thus far has failed to pass the only bill that might have aided them, the measure exempting mortgages from income taxation. Instead it enacted legislation that has a deterrent effect on new building projects. The Mayor's program for a $100,000,000 building fund is progressing slowly. Prices of materials are still soaring. The bricklayers' strike is "settled," but the number of men at work is small.

It is usual in a presidential year to blame inactivity in commercial affairs to politics. There are signs that there will be considerable activity at the polls next November unless the national and state lawmakers take action to relieve a situation that is becoming more serious every day.

Realty Board Will Try to Secure Additional Legislation

[Special to the Record and Guide]

Albany, April 9.

BEFORE adjournment, which has been tentatively fixed for April 24, the New York Real Estate Board will try to persuade the Legislature to enact the following legislation to help the housing situation in New York City.

1. Suspension of the tenement house law restrictions in order to facilitate the improvement of something like 75,000 living quarters or flats.

2. Exemption of the interest on mortgages up to $40,000 from the state income tax.

3. Provision for some sort of subsidy for new buildings such as is offered by the British Government to encourage the construction of homes.

4. Exemption of new buildings from the application of the so-called rent-profiteering legislation recently enacted by the Legislature.

The suspension of restrictive tenement house regulations until November 1, 1922, will have the effect of speeding up the conversion of present uninhabitable living quarters and will provide upwards of 75,000 flats, sponsors for this legislation declare. This bill has already been drawn. It sets forth the fact that an emergency exists, and in view of such a crisis calls for the vestment of the Tenement House Commissioner with power to suspend the tenement house law in so far as it would relate to the alteration of these abandoned houses.

William V. H. Mayer, who drafted the bill, declared this week that under the present tenement house laws it would be impossible to convert these tenements into habitable abodes. He predicted that with suspension of the law it would be possible to put many of them in shape before next winter.

Supporters of the subsidy plan see in the policy adopted by the English Government, which grants new builders a certain amount of money—in reality a bonus—a spur to new building. They believe that the payment of a bonus of some kind by the state or city to new builders would circumvent the possibility of extended litigation which would be bound to occur if a bill exempting property from taxation were enacted. Any attempt to exempt real property from taxation has always met with attacks upon its valdiity.

Buying of realty on the co-operative plan has increased the necessity of exempting some buildings from the new rent laws. It was pointed out this week at a legislative conference at which the leaders were present that in some instances part owners refuse to pay installments, thus throwing out of gear the co-operative plan. With the application of this new legislation the majority of owners who are willing to stand the increase are left without any means of forcing payment from recalcitrant tenants.

Program for Reconstruction of the State Government

[Special to the Record and Guide]

Albany, April 9.

PROSPECTS for the adoption of a reconstruction plan by this Legislature are bright. The Republican leaders have virtually discarded Governor Smith's proposed plan of consolidation of state departments and bureaus, but are engaged on a scheme which will greatly reduce the number of departmental agencies.

The new plan calls for the consolidation of the Highway Department and the Department of Public Works with the State Engineers' Department. Provision also will be made for placing the office of the Secretary of State in the Tax Department and consolidating the State Treasurer's with the State Comptroller's Department. This plan would leave only the Governor, Lieutenant Governor, Comptroller and Attornew General elective officers. The same plan involves the consolidation of the State Hospital Commission, the Fiscal Supervisor, the State Prison Commission and State Superintendent of Prisons and subsidiary bureaus into a commission of mental hygiene which will exercise jurisdicton over all state nstitutions, penal, charitable and insane.

All of these changes in the administration of departmental affairs involve amendments of the state constitution and their adoption is contingent ultimately upon approval by the people at the polls. Bills providing the changes must be enacted by two sessions of the Legislature composed of two different Senates.

Full Text of New Rental Laws Enacted By Legislature

Ten of These Bills as Certified by Secretary of State Hugo Are Here Printed But Two Other Measures Await Mayor Hylan's Action

The Record and Guide presents herewith the full text of ten of the new rental laws enacted by the Legislature and signed by the Governor, taking effect April 1, 1920. These laws as here printed are given in their final form, as certified by Secretary of State Hugo. They apply all over the state excepting as otherwise specified.

CHAP. 130.

AN ACT to amend the real property law, in relation to certain agreements for the occupation of real estate.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section two hundred and thirty-two of chapter fifty-two of the laws of nineteen hundred and nine, entitled "An act relating to real property, constituting chapter fifty of the consolidated laws," as last amended by chapter three hundred and three of the laws of nineteen hundred and eighteen, is hereby amended to read as follows:

Sec. 232. Duration of certain agreements in New York. An agreement for the occupation of real estate in the city of New York, which shall not particularly specify the duration of the occupation, shall be deemed to continue until the first day of October next after the possession commences under agreement.

Sec. 2. This act shall take effect immediately.

CHAP. 131.

AN ACT to amend the penal law, in relation to wilful violation of the terms of a lease.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The penal law is hereby amended by inserting therein, at the end of article one hundred and eighty-two, a new section, to be section two thousand and forty, to read as follows:

Sec. 2040. Wilful violation of the terms of a lease. Any lessor of any building, or part thereof, who is required by the terms, expressed or implied, of any contract or lease to furnish water, heat, light, power, elevator service or telephone service to any occupant of said building, who wilfully or intentionally fails to furnish such water, heat, light, power, elevator service or telephone service at any time when the same are necessary to the proper or customary use of such building, or part thereof, or any lessor who wilfully and intentionally interferes with the quiet enjoyment of the leased premises by such occupant, is guilty of a misdemeanor.

Sec. 2. This act shall take effect immediately.

CHAP. 132.

AN ACT to amend the code of civil procedure, in relation to summary proceedings to recover possession of real property.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section twenty-two hundred and forty-four of the code of civil procedure is hereby amended to read as follows:

Sec. 2244. Answer. At the time when the precept is returnable without waiting as prescribed in an action before a justice of the peace, or in a district court in the city of New York, the person to whom it is directed or his landlord, or any person in possession or claiming possession of premises, or a part thereof, may answer, orally or in writing, denying generally the allegations, or specifically any material alegation of the petition, setting forth a statement of any new matter constituting a legal or equitable defence, or counterclaim. Such defence or counterclaim may be set up and established in like manner as though the claim for rent in such proceeding was the subject of an action. If the court finds that a defence or counterclaim has been established in whole or in part, it shall, upon rendering a final order, determine the amount of rent due to the petitioner or make such other proper disposition as shall determine the rights of the parties, and may give affirmative judgment for the amount found to be due on the counterclaim. If such answer be oral the substance thereof shall be endorsed upon the petition.

Sec. 2. This act shall take effect immediately.

CHAP. 133.

AN ACT to amend the code of civil procedure, in relation to summary proceedings to recover the possession of real property.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section twenty-two hundred and thirty-one of the code of civil procedure is hereby amended by adding thereto a new subdivision, to be subdivision six, to read as follows:

6. A proceeding seeking to recover possession of real property by reason of the termination of the term fixed in the lease pursuant to a provision contained therein giving the landlord the right to terminate the time fixed for occupancy under such agreement, if he deem the tenant objectionable, shall not be maintainable unless the landlord shall by competent evidence establish to the satisfaction of the court that the tenant is objectionable.

Sec. 2. This act shall take effect immediately.

CHAP. 134.

AN ACT to amend the code of civil procedure, in relation to summary proceedings to recover the possession of real property.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivision one of section twenty-two hundred and fifty-four of the code of civil procedure is hereby amended to read as follows:

1. Where the final order establishes that a lessee or tenant holds over, after a default in the payment of rent or of taxes or assessments, he may effect a stay, by depositing the amount of the rent due, or of such taxes or assessments, and interest and penalty, if any thereon due, and the cost of the special proceeding, with the clerk of the court, or where the office of clerk is not provided for, with the judge or justice who shall thereupon, upon demand, pay the amount deposited to the petitioner or his duly authorized agent; or by delivering to the judge or justice, or the clerk of the court, his undertaking to the petitioner, in such sum and with such sureties as the judge or justice approves, to the effect that he will pay the rent, or such taxes and assessment, and interest and penalty and costs, within ten days, at the expiration of which time a warrant may issue, unless he produces to the judge or justice satisfactory evidence of the payment.

Sec. 2. This act shall take effect immediately.

CHAP. 135.

AN ACT to amend the code of civil procedure, in relation to action to recover real property.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Article one of title one of chapter fourteen of the code of civil procedure is hereby amended by adding at the end a new section, to be section fifteen hundred and thirty-one-a, to read as follows:

Sec. 1531-a. When an action under this article is brought against a person or persons in possession under the terms of a lease, express or implied, upon the ground that such person hold over after the expiration of the term of such lease or upon the ground that such person holds over after a default by him in the payment of the rent reserved in such lease or any installment thereof, the answer may set up as a defense or counterclaim any state of facts which pursuant to the provisions of title two of chapter seventeen may be pleaded as a defense or counterclaim to a proceeding instituted under such title. The court may render affirmative judgment on such a counterclaim. An answer pleading such defense may be oral or in writing. If oral, the defendant must, before the time for answering expires, appear before the clerk of the court and state the facts constituting such defense and the latter must indorse the same briefly on the complaint.

Sec. 2. This act shall take effect immediately.

CHAP. 136.

Local—New York, Kings, Queens, Richmond, Westchester, Bronx, Erie and Monroe Counties.

AN ACT in relation to defenses in actions based upon unjust, unreasonable and oppressive agreements for rent of premises occupied for dwelling purposes in cities of the first class or in cities in a county adjoining a city of the first class.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Unjust, unreasonable and oppressive agreements for the payment of rent having been and being now exacted by landlords from tenants under stress of prevailing conditions whereby the freedom of contract has been impaired and congested housing conditions resulting therefrom have seriously affected and endangered the public welfare, health and morals in certain cities of the state, and a public emergency existing in the judgment of the legislature by reason thereof, it shall be a defense to an action for rent accruing under an agreement for premises in a city of the first class or in a city in a county adjoining a city of the first class occupied for dwelling purposes, other than a room or rooms in a hotel, lodging house or rooming house, that such rent is unjust and unreasonable and that the agreement under which the same is sought to be recovered is oppressive.

Sec. 2. Where it appears that the rent has been increased more than twenty-five per centum over the rent as it existed one year prior to the time of the agreement under which the rent is sought to be recovered, such agreement shall be presumably unjust, unreasonable and oppressive.

Sec. 3. Nothing herein contained shall prevent the plaintiff from pleading and proving in such action a fair and reasonable rent for the premises and recovering judgment therefor, or from instituting a separate action for the recovery thereof.

Sec. 4. This action shall take effect immediately and shall be in force until November first, nineteen hundred and twenty-two.

CHAP. 137.

Local—New York, Kings, Queens, Richmond, Westchester, Bronx, Erie and Monroe Counties.

AN ACT in relation to summary proceedings to recover the possession of real property in cities of the first class or in cities in a county adjoining a city of the first class during the existing emergency.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Application. The provisions of this act shall apply only to a summary proceeding in a city of the first class or in a city in a county adjoining a city of the first class to recover the possession of premises occupied for dwelling purposes, other than a room or rooms in

Plans Ready for Building to House Silk and Woolen Trades

George and Edward Blum Design Modern Fireproof Structure to Be Erected at Fourth Avenue and 21st Street for Herring Brothers, Woolen Merchants

ANOTHER important building soon to be started in the mid-town section involves a twelve-story fireproof structure designed for the accommodation of the silk and woolen trades that will occupy the plot on the northwest corner of Fourth avenue and Twenty-first street. This structure will adjoin the building of the two-story savings bank at the corner of Twenty-second street, and on account of its location will enjoy unusual natural light. Full advantage of this has been taken in the planning for the new building. The two large freight elevators and the passenger elevators, with the stairway, have been grouped on the west side of the structure, thereby insuring permanent light on three sides.

Herring Brothers, well known in the woolen trade of this city are the owners of this structure and the decision to build was largely the result of their requirements for addition space to accomodate their increasing business. The corner store, basement and first floor of the new building will be occupied by the owners and the remainder of the structure leased to firms in a similar line of business.

The structure will be built from plans and specifications prepared by George and Edward Blum, architects, and the plans call for a ground floor, 20 feet in height, with mezzanine balcony. This floor will be divided into two large stores, with storage facilities in the basement and sub-basement. Special consideration has been given in planning to shipping facilities. The second story will have a ceiling height of 15½ feet and the remaining ten floors will have heights of 11½ feet. Protection from fire hazard is obtained by means of a 100 per cent. sprinkler system and a stand-pipe system in the halls.

The facades of this structure have been designed in a modified Gothic style and will be constructed of granite, face brick and terra cotta, all matched in color and texture. The first two stories will be composed of three wide bays with the two end motifs reserved for entrances.

a hotel, lodging house, or rooming house, upon the ground that the occupant is holding over and continuing in possession of the premises after the expiration of his term, without permission of the landlord, and shall govern such a proceeding notwithstanding the provisions of any general or special act inconsistent herewith. The relief hereby provided shall be in additon to relief provided by any other act the provisions of which are not inconsistent herewith. This act being emergency legislation, its provisions shall be liberally construed to carry out the intent thereof.

Sec. 2. Effect of petition. The presentation of a petition in such a proceeding to a court, judge or justice having by law jurisdiction thereof shall be an election by the landlord to terminate the tenancy which might otherwise arise by operation of law.

Sec. 3. Discretionary stay. Where the final order in such a proceeding establishes that the occupant is holding over and continuing in possession of the demised premises, after the expiration of his term, without permission of the landlord, the court, judge or justice making such order, on application of the occupant, may, in its or his discretion and subject to the conditions prescribed by this act, stay the issuance of a warrant and also stay any execution to collect the costs of the proceeding, for such period, not more than twelve months, as the court, judge or justice, in its or his discretion, may deem proper.

Sec. 4. Application for and granting of stay. Upon application for a stay, the court, judge or justice shall hear the parties, and if upon such hearing it appears that the premises described in the petition are used for dwelling purposes; that the applicant cannot secure suitable premises for himself and his family within the neghborhood similar to those occupied; that he has used due and reasonable effort to secure such other premises; that his application is made in good faith and that he will abide by and comply with the terms and provisions prescribed by the court, judge or justice; or that by reason of other facts such action will be warranted, the court, judge or justice may grant a stay as provided herein, on condition that the terms upon which such stay is granted be complied with.

Sec. 5. Terms and conditions of granting and continuing stay. Such stay shall be granted and continue effective only upon the condition that the person against whom the final order is made shall make a deposit in court of the entire amount, or such instalments thereof from time to time, as the court, judge or justice may direct, for the occupation of the premises for the period of the stay, at the rate to which he was liable as rent for the month immediately prior to the expiration of his term or tenancy plus such additional amount, if any, as the court, judge or justice may determine to be reasonable; such deposit shall also include all rent unpaid prior to the period of the stay. The amount of such deposit shall be determined by the court, judge or justice at the hearing upon the application for the stay, and such determination shall be final and conclusive in respect to the amount of such deposit, and the amount thereof shall be paid into court, in such manner and in such instalments, if any, as the court, judge or justice may direct. A separate account shall be kept of the amount to the credit of each proceeding, and all such payments shall be deposited in a bank or trust company and shall be subject to the check of the clerk of the court, if there be one, or otherwise of the court, judge or justice.

Sec. 6. Payment to landlord. The clerk of the court, if there be one, and otherwise the judge or justice, shall pay to the landlord or his duly authorized agent the amount of such deposit, in accordance with the terms of the stay, or the further order of the court.

Sec. 7.—Waiver of act. Any provision of a lease whereby a lessee or tenant waives any provision of this act shall be deemed against public policy and void.

Sec. 8. Effect. This act shall take effect immediately, and shall be in force until November first, nineteen hundred and twenty-two.

CHAP. 138.

AN ACT to repeal section two hundred and thirty of the real property law, relating to liability of tenant holding over after receiving notice to quit.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section two hundred and thirty of chapter fifty-two of the laws of nineteen hundred and nine, entitled "An act relating to real property, constituting chapter fifty of the consolidated laws," is hereby repealed.

Sec. 2. This act shall take effect immediately.

CHAP. 139.

Local—New York, Kings, Queens, Richmond, Westchester, Bronx, Erie and Monroe Counties.

AN ACT to amend the code of civil procedure, in relation to summary proceedings to recover the possession of real property in cities of the first class and in cities in a county adjoining a city of the first class.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section twenty-two hundred and thirty-one of the code of civil procedure is hereby amended by inserting therein a new subdivision, to be subdivision two-a, to read as follows:

2-a. No proceeding as prescribed in subdivision two of this section shall be maintainable to recover the possession of real property in a city of the first class or in a city in a county adjoining a city of the first class, occupied for dwelling purposes, other than a room or rooms in a hotel, lodging house, or rooming house, under a lease or tenancy for one year or less or under any lease or tenancy commencing after this subdivision takes effect, unless the petitioner alleges in the petition and proves that the rent of the premises described in the petition is no greater than the amount paid by the tenant for the month preceding the default for which the proceeding is brought or has not been increased more than twenty-five per centum over the rent as it existed one year prior to the time of the presentation of the petition. Nothing in this subdivision shall preclude the tenant from interposing any defense that he might otherwise have. This subdivision shall be in effect only until the first day of November, nineteen hundred and twenty-two.

Sec. 2. This act shall take effect immediately.

Presiding Justice Levy Outlines Court Action on Rents

Declares that New Laws Will Be Enforced With Consideration for Landlords As Well As Tenants, Notwithstanding Popular Clamor Favoring Latter

IN the light of the tense feeling and bitter differences between the landlords and tenants throughout most of the greater city as a result of marked increases of rents for apartment houses, dwellings and tenements, a representative of the Record and Guide this week asked Presiding Justice Aaron J. Levy, of the Municipal Court, for a statement on the subject from the judicial standpoint.

Justice Levy said: "Landlords of apartment houses, tenement houses and any other property affected by disputes between landlord and tenant will get a fair administration of the new laws on the subject. I cannot too strongly emphasize this.

"That there are some flagrant cases of oppression by landlords in this house shortage crisis I concede, but my observation from the bench shows that a large majority of landlords are prone to be reasonable. The landlord's side of the situation, just now, is not an easy one from the investment standpoint, and it must be remembered that the owning and renting of property is not a philanthropic enterprise. I have learned that landlords are having their economic troubles as well as tenants.

"Where a landlord is not disposed to ameliorate a situation, when he is unreasonable, this court has not hesitated to take him in hand and decide the case on its merits. We are seeking to act in every case with a sense of justice and not to be swayed by sympathetic appeals from either side. My observations in court tend to make me believe that the public is not considering the landlord's side of the case; that is where judicial procedure steps in and forgets public clamor, listens to both sides impartially, and settles rent disputes purely on their merits. It all demonstrates that it is a good thing that the judiciary saves disputants from themselves. Clamor and agitation can never rightly settle controversies of this kind.

"My brother justices and myself have discussed this matter and we will handle it purely as a judicial question; that is what the court is constituted for. We are strongly opposed to the 'jacking up' of rents by landlords, and we especially condemn those adventurous tenement house owners who 'jack up' rents in their houses, then obstensibly sell the property by transferring it to a relative, and then have the supposedly new owner 'jack up' each tenant again, and if again transferred to another relative, 'jacked up' again, and, by the same process. It is well to remember that noise without reason behind it is not going to remedy the trouble an iota.

"Tenants must not think that the Municipal Court can blindly utilize the new landlord and tenant law against the landlord; the Court has no such power. It can allow an increase in rents where the circumstances warrant it, inasmuch as the Legislature has put the power of discretion into its hands; and, it is a great faith that the Legislature has reposed in the court and we hope and are trying to vindicate it. This new law, like all other laws that are enacted, seeks to do justice to both sides and to haggle neither.

"The great danger of this law is that it puts into the hands of the Municipal Court a power greater than that possessed by the Supreme Court of the United States, in that it gives it the power to usurp the prerogatives of the property owner and determine the rental power or value of real property. In other words, it sets the court up as a real estate expert, which it is not and cannot be reasonably in law or equity. Therefore a justice of the Municipal Court can do great harm to property rights, without so intending, if he is not careful and judicial. It must not be forgotten that justice is ever blind. There is a strong tendency at this time to appeal to the sympathies of the court from both sides, but primarily, I regret to say, from the tenant's side.

"Whether this new law is constitutional or not is for the Court of Appeals to determine, and I do not care to usurp its functions. It presumably will be threshed out there in due time.

"I am strongly in favor of having certain members of the Municipal Court sit steadily on landlord and tenant cases now, because they then will become specialists to a degree in this particular branch of the Court's work, which is a very vital part of it. It would clarify the situation materially.

"I do not believe in long extensions of time to a tenant whom a landlord does not want, because it is unjust to the landlord; he has inalienable rights regarding his property. I favor limited extensions of time and then, if further time is necessary for a tenant to find a new place of residence, such tenant can come into court and receive any necessary extension of time. I have found that this method is salutary.

"Let me state, too, that I deprecate the organization of tenants' unions to compel landlords to do certain things its members want done. Tenants have no more right to strike against landlords than landlords have against tenants. The court is here for the purpose or adjudicating differences and it will do it in a calmer mood than any union can do it. We are ready to settle this far-reaching question along the lines of legal procedure mixed with the due amount of judgment that the law enables the court to exercise.

"Neither does the court favor Lawyers' District Boards modeled after the military selective draft boards, or any other kind. Instead of such bodies to advise with tenants the court would have representatives of the various charity organizations of the different religious denominations consult with poor tenants who have grievances against landlords, and after full investigation in each case report to the court so that the tribunal could act intelligently in the premises. I believe that such service would be more disinterested, because those organizations go into all the ramifications of the daily lives of the poor and grasp individual conditions.

The Municipal Court judges have adopted the following rules of action under the new laws:

No stay should be granted the tenant—

If the landlord establishes he or the purchaser of a building is about to demolish it and replace with buildings for the essential purpose of housing.

If the landlord proves the building is to be altered or reconstructed for new families living independently of each other.

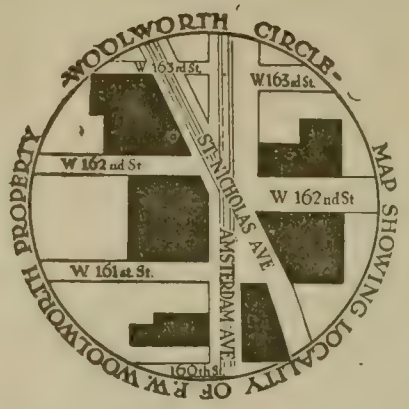
In holdover proceedings when a cancellation clause with a bonus promised to the tenant is contained in the lease, if in such case a tenant receives a low rent because of the bonus.

When the landlord wishes to use a house for himself or the members of his family, particularly if the building is a private house.

When the building is sold to tenants on the co-operative plan.

When the landlord has arranged in good faith for yearly increases under a long-term lease.

When a lease for premises has been given to a new tenant to take effect about the time of expiration of the lease which is the subject of the proceedings.



The justices agreed any "test" case would be discussed by the board before action.

Mayor Hylan announced at a hearing last Thursday on Senate Bills Nos. 1524 and 1551 that he would sign them. These bills provide for the payment to the clerk of the court, who will turn it over to the landlord, of amounts due from tenants where a temporary stay has been granted after the entry of the final order in case of non-payment of rent, interest, taxes and assessments; and extends the period of the stay which the court may grant from twenty to thirty days and makes it apply to all cases of eviction, whether they be lofts or dwelling houses, and provides that the stay be granted upon rendering of the final order in summary proceedings rather than up the issuance of a warrant.

Review of Real Estatc Market for the Current Week

Wide Scope and Variety to Dealing in All Parts of City Reflect Great Public Interest in Real Estate

THERE was marked scope and variety to the dealing in real estate this week. All parts of the city contributed something to the lap of activity. Numerous old dwellings in the lower East and West sides fit for rehabilitation changed hands, as did numerous loft buildings in the same parts of town. Large and small apartment houses in Harlem and the Bronx were numerous in the dealing, while several good-sized apartment buildings in upper Broadway and in its vicinity also were bought. Many private dwellings in Harlem, on Washington Heights, the upper East side and in Brooklyn were absorbed for occupancy. A notable feature was the buying of both dwellings and commercial buildings by tenants of them in many instances. It all demonstrates the growing appreciation of real estate in this city of ever growing values. The most notable transaction of the week was the purchase of the Hickson building on Fifth avenue at Fifty-second street, representing an investment of more than $1,000,000. Throughout the week ordinarily large-sized sales prevailed.

Judging from the great activity in the zone bounded by Canal street, Broadway, Bleecker street and West Broadway, that former popular wholesale district would seem to be undergoing a renascence of values. Just now it is being carefully searched by prospective buyers of medium-sized buildings for their own occupancy, by investors who heretofore have paid rent in the districts farther to the south.

The Seventh avenue subway zone reflects an activity such as only a modern transit route could produce. One good-sized vacant parcel, as well as others that are improved, changed hands there.

Co-operative apartment house buying was a pronounced feature of this week. All indications point to a steady expansion of this kind of investing. Several new groups of buyers were formed, the most notable being the one that took over the Vauxhall apartments.

A salient phase was the purchase by three steamship companies of as many different parcels in the Battery neighborhood to be altered and occupied by them, whereas in the past they have leased office space there. The sale of the building of the Hungarian Relief Society, at Pearl and Moore streets, to one steamship line, would seem to show that property in that part of town is becoming too valuable for philanthropic or kindred purposes.

Mortgage loans on dwellings were the predominating form of loan this week. Manhattan Island has not witnessed as active a dwelling market in many years.

Market activity at this time is remindful of the boom period in Washington Heights and in the Bronx when the first subways began operation, except that there is more buying of improved property and that the situation applies to the whole city. Investors predominate.

Several unusually large leases were negotiated.

There is still a plethora of activity in the old Syrian quarter west of Trinity churchyard to the North River. It is feared that some owners of old buildings there have such high notions of the value of their holdings that they are apt to destroy their market. An owner of an antiquated building on a single lot in Washington street a few days ago refused $75,000 for his property and said he expected to get $100,000. Two years ago he would have been glad to obtain $40,000 for the same holding. However, the excessive zeal on the part of buyers has given property owners in this Battery section high-toned ideas.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 145 as against 157 last week and 130 a year ago.

The number of sales south of 59th street was 67 as compared with 34 last week and 51 a year ago.

The number of sales north of 59th street was 78 as compared with 93 last week and 79 a year ago.

From the Bronx 79 sales at private contract were reported as against 101 last week and 48 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 483.

Sale of Woolworth Estate Property.

Interest in the forthcoming sale of the Washington Heights properties owned by the Estate of the late F. W. Woolworth, is about evenly divided, according to the auctioneer, between the professional element in the real estate market and local merchants, tenants and investors.

The sale is to be held on Thursday, April 22nd, at 12 o'clock, noon, at No. 14 Vesey street, by order of the administrators, Hubert T. Parson, Helena Woolworth McCann and Jesse Woolworth Donahue. Joseph P. Day, auctioneer, will conduct the sale, which will be absolute. Each and every property is to be sold for whatever it may bring.

The Woolworth real estate occupies practically each of the corners, and two blocks front, facing in St. Nicholas and Amsterdam avenues, at the intersection of these two thoroughfares, between 160th and 163d streets. The Jumel store and office building, at the southwest corner of 162d street, and the intersection of St. Nicholas and Amsterdam avenues, together with the balance of the block front to 161st street and additional property abutting, is one of the most important properties to be sold. There is also the block front in the west side of St. Nicholas avenue, from 162d to 163d street, including additional properties adjoining in the side streets; also the two large plots and lots at the Northeast and southeast corner of 162d street and St. Nicholas avenue, at its intersection with Amsterdam avenue; also the plot, improved in part with a 5-story tenement, in the west side of Amsterdam avenue, 50 feet north of 160th street.

Another most interesting offering—one that doubtless will arouse a large amount of competitive bidding—is the four-sided "flatiron" block fronting in 160th and 161st streets, St. Nicholas and Amsterdam avenues, and facing in the square formed by the intersection of these two thoroughfares.

Because of the control by the late F. W. Woolworth, of practically all of the property fronting in the Plaza formed at this point by the intersection of St. Nicholas and Amsterdam avenues, the neighborhood has come to be known as Woolworth Circle.

"Woolworth Circle," however, whether or not the Elevated Railroad lines are extended, is a distinctive Washington Heights locality and now a business centre, due to the fact that Mr. Woolworth erected the Jumel store and office building soon after he became identified with the neighborhood. In addition there is the fact that "Woolworth Circle" is located only one block east of Broadway and just east of Roger Morris Park, the Jumel mansion, Coogan's Bluff, and the Speedway.

The area lying between Broadway and Coogan's Bluff narrows down to a few short blocks, so that practically all of the vehicular and pedestrian traffic east of Broadway centres in "Woolworth Circle," at the intersection of St. Nicholas and Amsterdam avenues, where, unless all signs fail, a business section of no mean proportions may be expected to develop. This outlook is due, in largest measure, to the higher rentals demanded for Broadway stores and the common belief that many of the tenants in Broadway will be obliged to seek cheaper quarters, or to "buy for occupancy," in the immediate neighborhood.

Big Seventh Ave. Improvement.

Marking a new high record for Seventh avenue values north of Times Square, the properties comprising the northeast corner of the avenue and 48th street have been sold through William A. White & Sons to the Robertson-Cole Co. for improvement with a 12sty building to house its office, plant and equipment as well as offices and stores. The reported price for this site is $160 a square foot. There will be stores in the ground floor of the new building, ten floors of offices and a floor containing 3 projection theatres and equipment for electrical display signs on the roof.

The properties embraced in the sale are: the immediate corner 721 Seventh avenue, a 4-sty brick building on a lot 20.2x50; 723 Seventh avenue, a 5-sty brick, on a lot 30x50; and 169 West 48th street, a 3-sty brownstone dwelling, on a lot 16.8x50.2, all old structures.

In order to secure the fee of these properties it was necessary to buy out a sublease of the C. & L. Lunch, Inc., on the L shaped piece at 723 Seventh avenue and 169 West 48th street, and the 18 year original lease from the owners of 723 Seventh avenue to the United Cigar Stores Co.; also to purchase an option of the latter company to buy this property from the owner, Clara W. Bibbero of San Francisco, Cal. (which negotiation was carried on by wire); also to purchase the fee to the property at 169 West 48th street from the owner, Mrs. Carol B. Ransom. The corner property, at 721 Seventh avenue, entailed the buying out of a sublease of 5 years and 6 months from Mr. Corcoran and a 21 year original lease from Robert M. Kern, and also the purchase of the property itself from the original owner, George H. Earle, Jr., president of the Real Estate Trust Co. of Philadelphia.

Tenants Buy the Vauxhall.

A corporation formed from among the tenants of the 10-sty apartment house known as the Vauxhall, on a plot 106x150x99.11, at 780 Riverside Drive, northeast corner of 155th street, is arranging to acquire the property. The company is capitalized at $150,000. G. D. Price, J. S. Rankel and C. C. Pettijohn occupy apartments in the building. The Vauxhall is assessed at $600,000 and yields $90,000 a year rentals. It was built 3½ years ago and contains 74 apartments of from 4 to 7 rooms each.

Bon Air Apartments Sold.

Byrne & Bowman resold for Thomas J. Bannon and Philip J. Curry to William Burns the northwest corner of Broadway and 142d street, a 6-sty apartment house, known as the Bon Air, on a plot 49.11x100.

Meinhard Estate Sells Corner.

Manheimer Bros., Inc. sold for the estates of Henry and Isaac Meinhard, 21 and 23 Waverly place, at the northeast corner of Greene street, a 6-sty loft building, on a plot 48.8x132.11.

penter, has been sold through Pease & Elliman to a group of prospective tenants. The land was purchased from the estate of the late Grant B. Schley and was formerly occupied by five dwellings just north of the Astor Home. The building will be completed by September 1. Among the tenants will be Cornelius N. Bliss, Jr., Dwight W. Morrow and Charles D. Norton.

Scandinavian Line Buys Corner.

Scandinavian-American Line, in order to make sure of a permanent location has bought from Mary Knief the southwest corner of Whitehall and Bridge streets, a 5-sty building, on a lot 27x66.8x24. The buyer will supplant the present old building with a modern 6-sty structure equipped for its special use.

Another Maritime Purchase.

Hungarian Relief Society which has long owned and occupied a 5-sty building at 20 Pearl street, southeast corner of Moore street, on a lot 29x56.11 has sold it to a steamship company that will remodel it for its own purposes.

Another Steamship Line Purchase.

Norman S. Riesenfeld sold to the French-American Steamship Co., 11 and 13 Stone st, two 4-sty buildings, on a plot 44x83xirregular. The company will occupy part of the premises and lease the rest.

Sale in New Subway Zone.

George A. Hedden and others sold through William A. White & Sons to the Empire Mortgage Co. the northeast corner of Seventh avenue and Christopher street, an irregular vacant plot fronting 30 feet in Seventh avenue and 32 feet in Christopher street.

Tenants Buy Loft Building.

Isabella C. May, of Washington, D. C., sold through the Brown, Wheelock Co. to Sol Friedman & Co., the tenants, the southwest corner of West Third and Mercer streets, a 6-sty and sub-basement building, on a plot 80x100 with an L 20x25. The new owners have occupied the property for 23 years.

Bryant's Home For a Club House.

Long the city home of William Cullen Bryant, poet and editor, the 4-sty and basement brownstone dwelling, 25x45x103.3 at 24 West 16th street, between Fifth and Sixth avenues, has been sold by the Mildon Realty Co. to the Union Benefica Espanola and will be altered into a club house. The property adjoins on the east St. Francis Xavier College.

Big West Side Deal.

Estate of Joseph Guinet of Paris, France, sold to a speculator 424 to 438 West 33d street, a 12-sty loft building, on a plot 131.3x99, midway between Ninth and Tenth avenues. The building was built 8 years ago by John Larkin and was sold in a trade with Mr. Guinet whose estate now sells it.

Franklin Savings Enlarges.

For the purpose of enlarging its banking space, the Franklin Savings Bank at the southeast corner of Eighth avenue and 42d street has bought from the Sturges Estate 654 Eighth avenue, adjoining an old 5-sty brownstone flat, on a lot 24.4x55. The bank building forms an L around the purchase. The assessed valuation of 654 Eighth avenue last year was $69,000.

Another Schulte Cigar Corner.

Schulte Cigar Stores Co. leased through Henry Shapiro & Co. to the Silmel Leasing & Operating Co. the northwest corner of Sixth avenue and 46th street, composed of 815 Sixth avenue and 103 West 46th street. The property will be extensively altered into stores and lofts, the Schulte Co. occupying the corner store. The same tenants recently leased the Garden Restaurant property at Seventh avenue and 50th street, from the Schulte Cigar Stores Co. for a term of 42 years. Henry Shapiro & Co. have been appointed renting agents of both properties.

Bronx Factory Bought.

Winter & Co., piano manufacturers, sold their 5-sty factory, on a plot 115x190x100, at the northeast corner of Southern Boulevard and 137th street, to the Cutler-Hammer Co. of Milwaukee, Wis., manufacturers of electrical goods. The Cutler-Hammond Co. also bought 739 to 745 East 137th street, adjoining the foregoing corner, containing four 2-sty frame buildings, on a plot 50x100.

New Site For a Hospital.

The Bronx Maternity Hospital, which formerly conducted a free clinic on Bathgate avenue, has purchased the property at 1,072 Grand Boulevard and Concourse and plans to alter and equip the building for its use. It will be ready for occupancy about June 1. Since the hospital was organized several years ago more than 600 cases have been treated free of cost to the poor who could not afford to pay hospital charges. In the new building it is planned to have about 35 beds. The policy will continue as heretofore, a few beds being reserved, however, for those who are able to pay.

Packard Buys Brooklyn Block Front.

William P. Rae Co. sold for several clients to the Packard Motor Car Co. the vacant block front on the east side of Bedford avenue, between Malbone and Sullivan streets. The plot fronts 200 feet on the avenue, 500 feet in Malbone street and 100 feet in Sullivan street. Bedford avenue being a heavily used cross-town thoroughfare, the Packard Company will erect on the site a 3-sty concrete building to be occupied by it as a show and sales room.

The sellers of this block front were the Realty Associates, Mrs. Van Mater Stilwell, known in the literary world as Laura Jean Libby; Abraham Belowsky, and John H. Eckhoff.

Dwelling Loans Predominate.

That the financial interests are endeavoring to aid in a settlement of the housing problem is shown by a list of mortgages placed recently by Charles B. Van Valen, Inc. This firm has placed ten dwelling loans aggregating $300,000 among which are: $36,000 on the 4-sty and basement dwelling 36 East 72d street; $25,000 on the 5-sty dwelling 47 East 88th street; $75,000 on a residence at North Hempstead, L. I.; $46,000 on the 4-sty and basement dwelling 29 West 81st street; $42,000 on the 5-sty apartment house 296 Haven avenue; $25,000 on the 5-sty dwelling 47 East 88th street; and $32,000 on three dwellings near Avenue O and East 4th street, Brooklyn.

Employers anxious to secure help (clerical or professional), or employees wishing to obtain a position or better a present one will find this department of the Record and Guide the quickest and most direct method of bringing their wants to the attention of the largest number of interested readers, in the real estate or building professions.

No medium reaching real estate interests affords owners, brokers, and executors wishing to dispose of desirable property (in or out of the city), so favorable an opportunity to bring the merits of their propositions to the attention of possible buyers as does the For Sale and For Rent section of the Record and Guide.

Statement of the Ownership, Management, Circulation, etc., required by the Act of Congress of August 24, 1912, of Real Estate Record & Builders' Guide, published weekly at New York, N. Y., for April 1, 1920.

State of New York, County of New York, ss.:

Before me, a Notary Public in and for the State and county aforesaid, personally appeared Frank E. Perley, who, having been duly sworn according to law, deposes and says that he is the President of the Record & Guide Company, publishers of the Real Estate Record & Builders' Guide, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in Section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business manager are:

Publisher—Record & Guide Company, 119 West 40th Street, New York, N. Y.

Editor—Frank E. Perley, 119 West 40th Street, New York, N. Y.

Managing Editor—Frank E. Perley, 119 West 40th Street, New York, N. Y.

Business Manager—Frank E. Perley, 119 West 40th Street, New York, N. Y.

2. That the owners are: (Give names and addresses of individual owners, or, if a corporation, give its name and the names and addresses of stockholders owning or holding 1 per cent. or more of the total amount of stock.)

The F. W. Dodge Company, 119 West 40th Street, New York, N. Y.

Estate of F. W. Dodge, 119 West 40th Street, New York, N. Y.

F. T. Miller, 116 West 40th Street, New York, N. Y.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent. or more of total amount of bonds, mortgages, or other securities are: (If there are none, so state.) None.

4. That the two paragraphs next above, giving the names of the owners, stockholders and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

FRANK E. PERLEY,
President of Record & Guide Company, Publishers of Real Estate Record & Builders' Guide.

Sworn to and subscribed before me this 17th day of March, 1920.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

BUILDING SECTION

Large Project to Reduce Brooklyn's Housing Shortage

Kraslow Building Company Plans Construction of 3,000 Concrete Dwellings According to Ingersoll Patents to Sell at $5,500 Each

PLANS have been matured whereby the acute housing shortage in Brooklyn and Long Island will be considerably decreased. For some time the construction of new residential accommodations has been far below the increase in population, and the prime reason for this condition has been the constantly advancing construction costs that have prevented speculative and investment builders from going ahead with their plans.

The addition of at least three thousand one-family dwellings to the list of available habitations in Brooklyn and Long Island has been assured by the consummation of negotiations between Charles H. Ingersoll, prominent watch manufacturer, and Walter Kraslow, president of the Kraslow Building Company, 188 Montague street, Brooklyn. It is planned to construct these houses of pre-cast concrete, according to patents controlled by Mr. Ingersoll.

By building according to this method the shells, walls and roofs can be entirely completed in one day, and this will not only considerably decrease the time necessary to complete the dwellings, but will also reduce the cost approximately forty per cent. The Kraslow Building Company has closed contracts with Mr. Ingersoll for the construction of three thousand fireproof, one-family dwellings that will be erected in various parts of Brooklyn and Long Island.

For many years past Mr. Kraslow has been prominently identified with the residential development of the Borough of Brooklyn. He had built a large number of one- and two-family dwellings and has also constructed multi-family dwellings in the borough. He has carefully studied the housing problem of the city from every angle and his judgment is that one of the quickest and best means of solving the problem as it exists at present is by the construction of a large number of single dwellings according to the system designed by Thomas A. Edison and controlled by Mr. Ingersoll.

The houses, scheduled for an early start, will be modern in every respect. They will be constructed along the lines now followed in the best engineering practice for reinforced concrete structures of any type, thoroughly fire and vermin proof and equipped with every labor-saving device now commonly found in dwellings of this moderate size and cost. It is planned to commence the construction of at least thirty houses of this type immediately, and it is said that according to the schedule now arranged this number will be completed in four weeks.

Charles H. Ingersoll, who owns the patent rights to the forms used in manufacturing these houses, for the dwellings are actually manufactured, aims to make the Ingersoll Monolithic house as popular as the watches now bearing his name.

Quantity construction will reduce the cost of these dwellings to a remarkable degree and the Kraslow Building Company plans the erection of at least five hundred residences of this type during the coming eight months. The practicability of the method has already been tested and proved sound and economical. At Phillipsburg, N. J., where the large plant of the Ingersoll-Rand Company is located, thirty-six houses of this type have been built and are now occupied by employees of the company.

Contrary to a popular impression, the monolithic concrete houses are as dry as any structure built of timber, brick or any other combination of materials. Furthermore, they are warmer in winter and cooler in summer than dwellings constructed of other materials.

Plans filed with the Brooklyn Bureau of Buildings call for one-family dwellings, containing six good-sized rooms, with baths. Enclosed porches will be provided for each house. These dwellings are to be of the detached type and all will be erected on lots 25 x 100 feet. The laundrys will be equipped with a modern electric washing machine, and the heating plants and plumbing installations will be of the best possible to obtain.

Under ordinary methods of construction dwellings of this type and size would cost approximately $8,000 each at the lowest estimate, but because of the large contracts for materials entered into by the Kraslow Building Company, sufficient to build about 3,000 houses such as planned, the cost of production has been reduced so that they will be placed on the market for $5,500 each, including the cost of the land. This will make them the lowest priced private dwelling obtainable under present market conditions, and as their cost of operation, including interest, taxes and low mointenance costs, will not be in excess of $30 per month, the houses will be well within the limits of families of moderate means.

The location of the first series of houses to be erected under the Ingersoll patents will be in Brooklyn, within walking distance of the Brighton line and in the five-cent zone.

Mayor Decides Bricklayers Shall Be Paid $1.25 Per Hour

Settlement of Wage Dispute Opens Way for Immediate Commencement of Building Operations, But Relatively Few Workmen Respond

ALTHOUGH the differences between the bricklayers and the members of the Mason Builders' Association have been settled, the response of the building industry in this city has been slight, and from all accounts there is little more activity today than there was during the period of the strike. This is largely attributed to the fact that while the strike was in progress a large number of bricklayers left the city for employment outside and up to the present time have not returned. Those bricklayers who are available are all at work, but the number now employed on building operations in Greater New York is relatively small when compared with what would ordinarily be working at this time of the year had conditions been favorable since January 1.

Mayor Hylan, who was appointed arbitrator by the agreement of the employers and employes in the bricklayers' strike, has fixed the new wage scale for the workmen at $1.25 an hour. Hitherto the bricklayers have been getting $1.12½ per hour. They struck for $1.50 an hour, but this figure was considered entirely too high when compared with other trades affiliated with the building industry.

The decision of the Mayor that was made public early this week is as follows:

"The memo presented by both the Bricklayers' Union and the Mason Builders' Association is a very plain and able representation of their case on the question of arbitration of the wage dispute submitted to me by both parties to adjust, each party agreeing to abide by my decision.

"The request of the bricklayers is for an increase of wages to $1.50 per hour for a working day of eight hours. The Mason Builders' Association offered the bricklayers $1.12½ per hour for a working day of eight hours.

"Taking all facts presented into consideration, my decision is that the bricklayers shall receive $1.25 per hour for a working day of eight hours for the balance of the calendar year of 1920.

"I am sure the people of the city will appreciate the concessions made by both the bricklayers and the mason builders in the settlement of this trouble, and in behalf of the people of the city, and as Mayor, thank both sides for the spirit of co-operation displayed in the readjustment of the wage question. Homes and schoolhouses can now be constructed for the people of the city."

Commissioner Mann Appointed by Mayor

MAYOR HYLAN announced this week that he had selected Frank Mann, Tenement House Commissioner, to act as chairman of the Mayor's Committee on the Erection of Dwellings. This committee will map out the $100,000,000 building program to relieve the shortage of apartments in this city.

The other members of the committee will be representatives of the Building Trades Council, bricklayers' unions, building material dealers, banking interests, real estate, money lenders, title companies and civic organizations. The Mayor proposes that each of the foregoing interests shall appoint their own representative in order that the committee may reflect the proper sentiment of every element in it.

Reports of Proposed Construction Increase in Number

Figures by F. W. Dodge Company Indicate Generally Improved Outlook for Building Trades in Metropolitan District

EXTREMELY busy times ahead for the building trades are indicated by the recent reports of new building and engineering projects now being planned, the majority of which will undoubtedly be released for estimates within the next few weeks. Statistics prepared by the F. W. Dodge Company, covering the territory including all of New York State and New Jersey, north of Trenton, show that during the week of March 27 to April 2, inclusive, a total of 481 new structural operations were being planned. This work will represent an outlay of approximately $20,559,900. During the same period and in the same district contracts for 214 new building projects, representing an expenditure of $9,467,000 were awarded.

One of the most gratifying facts in connection with these figures is the large number of housing projects included in the list of proposed construction. There were plans announced for 262 new residential operations of various types and this work will require an outlay of more than $7,000,000, or approximately one-third of the total of the proposed construction for the week.

Included among the 481 projects for which plans were being prepared during the week of March 27 to April 2, inclusive, were 114 business and commercial buildings, $5,075,500; 16 educational projects such as schools, colleges, libraries, etc., $1,827,800; 3 hospitals and institutions, $50,000; 42 factory and industrial projects, $1,709,500; 2 public buildings, $85,000; 28 public works and public utilities, $3,007,600; 4 religious and memorial projects of various types, $176,000; 262 residential operations including apartments, flats and tenements and one and two-family dwellings, $7,586,500, and 10 social and recreational buildings, $1,042,000.

The list of 214 operations for which contracts were awarded during the week included 50 business and commercial structures, $2,300,000; 5 educational projects, $810,700; 1 hospital, $25,000; 26 factory and industrial operations, $1,422,500; 1 structure for the U. S. Navy, $100,000; 1 public building, $242,000; 14 public works and public improvements, $1,804,800; 3 religious and memorial projects, $46,000; 111 residential operations such as apartments and private dwellings, $2,531,000, and 2 social and recreational buildings, $185,000.

Although in the work placed under contract during the past week the largest single commitment was for residential construction, the amount diverted to building of this character is relatively low and should be nearly three times its value if this part of the United States is to get caught up with its housing shorage. There is a continued increase noticeable in the number and value of commercial construction undertaken and there is also a growing activity in public works.

PERSONAL AND TRADE NOTES.

Ralph Mornington Weinrichter, F. A. S. L. A., lansdcape architect, of Rochester, N. Y., announces the establishment of a New York office at 10 East 43d street.

J. A. Lindstrand, for the past five years architect for the Bureau of Valuation, Interstate Commerce Commission, announces that he has severed his connection with the United States Government and has opened offices for the general practice of his profession at 800 North Clark street, Chicago, Ill.

New Manager of Sales Appointed.

E. A. Oldershaw is now in charge of the waterproofing department of the Mitchell-Rand Mfg. Co., New York, as manager of sales. Mr. Oldershaw has been engaged in the structural paint and waterproofing business for over fifteen years, and brings a seasoned knowledge and experience to this office. He is well known in all branches of the trade. With W. E. G. Mitchell, vice-president of the Mitchell-Rand Company, and William Zaisser he organized the Universal Compound Co. in 1902. This company engaged in the sale of damp-proof paints and compounds which were manufactured by the Mitchell-Rand Mfg. Co., placing them on the market under the Universal label and acting as a contractor in this feature of building construction. These products included Universal Damp-Proof Compound, Universal Waterproof Plastic, etc. The Universal Compound Company has discontinued operations, and the Mitchell-Rand compand is now manufacturing these products under own M-R trademark. Many former employes of the Universal Compound Co. are now on the staff of the Mitchell-Rand organization. By this acquisition, architects, builders and owners in the future will deal direct with the producer, rather than through an individual contracting concern. Mr. Oldshaw will give his entire attention to this branch of the business. Among the prominent structures upon which these compounds have been used may be mentioned the Metropolitan Museum of Art, Printing Crafts Building, 69th Regiment Armory, Belmont residence, and the Vanderbilt residence.

TWO LARGE ORGANIZATIONS MERGE.

Important Combination of Two Large Engineering and Construction Companies.

Of general interest is the combination recently announced of the organizations of Westinghouse, Church, Kerr & Co., Inc., engineers and constructors, New York, and Dwight P. Robinson & Co., Inc., constructing and consulting engineers, of New York. The new company will be called Dwight P. Robinson and Company, Inc., and will occupy executive offices at 61 Broadway and engineering and designing offices in the Grand Central Palace, 125 East 46th street.

Dwight P. Robinson, president of the new company, was for many years president of the Stone & Webster Engineering Corporation, and formed his own company in 1918. He has had an unusually valuable experience in the design and construction of industrial plants, large central power stations and hydro-electric plants, and his company, the principals of which left Stone & Webster with him, has specialized in work of this nature. At the time of the merger the Robinson Company had large power plants under construction for the Duquesne Light Co. at Pittsburgh, the Penn Public Service Co. at Johnstown, Pa., and others.

Westinghouse, Church, Kerr & Co., Inc., established thirty-six years ago, has specialized in the design and construction of industrial plants of all kinds, railroad shops and terminals, and industrial power plants. As the activities of the two companies were largely supplemental, each making its own specialized contribution to the new company, it is believed that the new organization will become one of the largest and most successful in the construction and engineering business in the United States.

W. C. K. has designed and built new plants and extensions for many large industrial companies, among which have been the following: Aetna Explosives Company, American Cyanamid Co., Armour Fertilizer Works, Wright-Martin Aircraft Corp., Cluett, Peabody & Co., American Brass Co., General Chemical Co., American Rolling Mill Co., Winchester Repeating Arms Co., Chicago Pneumatic Tool Co., Westinghouse Lamp Co., Westinghouse Elec. & Mfg. Co., Hydraulic Pressed Steel Company.

TRADE AND TECHNICAL SOCIETY EVENTS.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Hardware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14 inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convention at Buffalo, N. Y., June 22 to 25 inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary, Argos, Ind.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

Prominent railroad work done by this company includes the following: The Cos Cob power plant for the New Haven; The shops at Glenwood, Pa., and Cumberland, Md., for the B. & O.; The W. Burlington shops of the C. B. & Q.; Eighteen millions of work on the Pennsylvania Station, N. Y.; All electrical and mechanical work on the South Station, Boston, and the St. Louis Union Station. The Communipaw engine terminal of the Jersey Central.

During the war the company constructed Camps Hill and Stewart at Newport News, Va., the Government Nitrate Plant No. 2 at Muscle Shoals, Ala., the power plant for the Navy at Newport, extensions to the Rock Island Arsenal, and other important work.

CURRENT BUILDING OPERATIONS

IMBUED with new spirit because the strike of the bricklayers has been settled and a large number of projects, idle since January 1, have again become active, the building trades in Greater New York are looking forward to a season of unusual progress. The adjustment of the dispute between the bricklayers and the Mason Builders' Association has given to the industry an entirely changed mental viewpoint and where but a week ago there were many expressions of a pessimistic character the predictions are now practically all optimistic in tone and the activity of the past week indicates that the long anticipated building movement has actually obtained its start.

Building interests in the Metropolitan district have now only the problem of adequate materials to solve. This latter situation, although somewhat better than it has been, is still serious and the existing structural program is likely to be curtailed to some extent unless immediate remedy for the material shortage is found. The common brick situation has been relieved by the arrival of a number of barges that have been ice-bound for some months and as the river is now fully open to navigation there will be no further difficulty on this score. The Portland cement scarcity remains acute and the car shortage is solely responsible. The manufacturers have a fair reserve at the mills but they have been unable to supply the demand from this city on account of lack of cars. Lumber is coming into this market in better volume and retailers have larger and better assorted stocks on hand but the demand for this commodity is steadily growing and dealers anticipate even larger requirements for construction during the weeks to come.

During the past week or two there has been a large increase in the number of new projects reported by architects and engineers that will undoubtedly mature within a short time. These operations involve structures of almost every type and description and are only disappointed because of the relatively small amount of housing included in the total. Contracts awarded recently have dropped off to some extent but this is chiefly attributed to the strikes that have created a doubtful attitude on the part of architects and owners who have charge of projected work. Now that this difficulty is eliminated it is almost positive that the coming weeks will witness a vast amount of new work placed under contract in the Metropolitan district.

Common Brick—Notwithstanding the return of the bricklayers to their jobs there has been but little new business in the wholesale market for Hudson River common brick. The chief item of interest this week has been the disposal of the brick that arrived one week ago at the old price of $25 a thousand. When this brick first arrived their manufacturers had placed a price of $30 a thousand upon them but none of the dealers would accept this figure and early this week the price broke and sales were made at the old level. There is no question but if the brickmakers had held to their intention to obtain $30 a thousand for their brick these barges would have remained unsold for quite some time. The existing level is adequate according to the best informed and anything above this figure at this time would be verging on profiteering. Hudson River producers are now at work on their plans for the season's production and while none of the yards have actually commenced to manufacture brick, a continuation of fair weather conditions will hasten the time when active operations are started. The only doubt in the minds of manufacturers at present is where the labor to man the yards is to come from. For the past two seasons there has been a steady decline in the number of men available for brickmaking and at this writing the outlook from the labor viewpoint is not of the best.

Summary—Transactions in the North River common brick market for the week ending Friday, April 9, 1920. Condition of market: Demand improved; prices firm and unchanged. Quotations: Hudson Rivers, $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, 14; sales, 22. Distribution, all in Greater New York.

Sand—As a result of the improvement in the weather and the breaking up of the ice in the local waters this market has been greatly relieved. The shortage in

MATERIALS AND SUPPLIES

sand that existed a short time ago is now past and barges are arriving and discharging regularly. The building material dealers now are well supplied with this material and are filling all orders promptly. The price is unchanged and according to the statement of the producers the present price will be effective until June 30.

Portland Cement—The scarcity of this commodity has not been relieved during the week and dealers of this city are now practically cleaned out. Manufacturers have sufficient cement on hand at their mills to supply all demands but they are unable to ship on account of the acute shortage of freight cars. The demand from building sources is not particularly heavy but it is likely to increase now at any time. The manufacturers have recently announced an icrease of 30 cents a barrel but up to the present writing the dealers have not made any change in the price charged for delivery on the job.

Roofing and Building Papers—The scarcity of these commodities is daily growing more serious and dealers have recently been forced to turn away a large amount of profitable business because they have no stocks on hand. It is reported that some of the prominent manufacturers of these materials have practically determined to accept no further new business for an indefinite period and jobbers are unable to place orders even without promise of delivery date. This shortage is bound to have an adverse affect upon the suburban building program which up to the present gave indications of being one of the most active phases of the local building situation.

Structural Steel—Although there has been an increase in the tonnage bookings for fabricated material noticeable during the past week, but little of the new commitments were for local building projects. The continued strike of the steel erectors has prevented the release of contracts for structural steel for large projects in this city and no change in this situation is thought immediate.

Hollow Tile—The majority of the manufacturers have sufficient orders on their books to keep their plants operating to capacity for the next three or four months and as it now appears as though the local building program would get started within a short time owing to the return to work of the striking bricklayers, it is possible that numerous delays through waiting for hollow tile will result. Prices are firm at the new high levels established one week ago but the increased cost has not stopped buying activity.

Window Glass—The market as regards both plate and window glass is very serious and there seems to be no prospect of a change for the better for some time to come. Prices are purely nominal and are entirely subject to the market conditions existing at time of delivery. Reports are heard that the majority of the large glass factories are preparing to extend their period of activity three weeks into the summer in order to increase their output and decrease the volume of unshipped business on their books. At that there is no prospect that the manufacturers will be in a position to make sufficient glass to fill all back orders and in addition to satisfy the new requirements that are daily becoming heavier. The building industry is likely to demand greater quantities of glass during the coming season than ever before and manufacturing consumers are also making increased demands upon the producers.

Nails—No change of consequence has occurred in this line and local jobbers are practically cleaned out of the small stocks they have been holding in reserve. The situation at the mills is somewhat improved and production is slightly in excess of the rate established during the winter months but the shortage of freight cars is holding up deliveries where new supplies are available for shipment. Prices are steadily advancing in the face of diminishing supplies and are all based upon the condition of the market at the time of delivery.

Linseed Oil—The market is somewhat dull but prospects for the coming months are better. Prices are holding firmly and are likely to be steady throughout the spring. Both producers and jobbers anticipate a better movement of stocks just as soon as the building program gets fully underway.

Sovietism Won't Go Here

The week now ending has witnessed the most brazen attempt yet made to Russianize the United States. Railroad workers in many important centers evidently did not learn the lesson of the Seattle fiasco, of the Boston police strike or of the soft-coal strike. These three efforts on the part of misguided workers to set aside orderly government took place so recently it is surprising their deserved failure was so soon forgotten by the fomenters of and the participants in this week's disturbances.

The authorities in Washington, through Attorney-General Palmer, have made it perfectly clear that they regard this outlaw strike as an incipient attempt to overthrow the government of the United States and to substitute the Soviet system which has so completely demoralized Russia.

Attorney-General Palmer undoubtedly spoke by the book when he described the week's developments as "the latest and largest manifestation of the working out of the program of the International Communist Party with the purpose of capturing industry and government, establishing a dictatorship in this country and transporting here the chaos of Russia."

It is highly significant that in this crisis the duly constituted leaders of organized labor promptly repudiated the strike and clearly have been making every effort to get the strikers back to work. Labor leaders like Samuel Gompers and others who have acted with him in this critical situation have demonstrated a keenness of perception not possessed by the Red agitators and the short-sighted strikers who have sought to starve millions of city dwellers in a desperate attempt to substitute alien forms for the tried and true system of government under which the United States has grown and prospered.

The people of New York City, because there are more of them, have been the greatest victims of the week's disturbances, but the deplorable results of the outlaw strike have been brought home to millions of people all over the country. In times of industrial strikes it has been quite the custom to count the cost in dollars, but no such standard can be applied to this latest outbreak of the I. W. W. and kindred Reds. The question of dollars sinks into insignificance at a time when the very foundations of the government are threatened by lawless elements.

In the Communist handbill which was distributed among the strikers early in the week it was declared that "in this struggle there are only two sides—the workers' side and that of the capitalists." Nothing could more clearly demonstrate the befuddled minds of those responsible for this outrageous strike. This quotation shows convincingly that they were giving no thought to that side of the people most vitally affected, namely, the great mass of men and women who are neither capitalists nor railroad workers and who constitute probably ninety to ninety-five per cent. of the entire population of the nation. These are the real victims of the outlaw strike—industrious, law-abiding citizens who always uphold the government and who rightly look to that government for protection against such outrages as have been attempted by the outlaw strikers.

The Communist followers, encouraged by the annoyances and inconveniences to which millions of citizens were subjected in the first days of this strike, appealed to the workers of all countries to follow "the glorious example of the Russian Soviet Republic." They must be discovering by this time, however, that what they regarded as "glorious" in Russia is regarded in a totally different light by the freedom-loving, law-abiding men and women who constitute the overwhelming proportion of the citizenry of the United States.

Last Chance for Legislature to Act

Having had time to consider the effect of the landlord and tenant legislation which they rushed through the mill under the misconception that it was a cure-all for the housing shortage, the legislative leaders now

TO OUR READERS

The Real Estate Record and Builders Guide has had to meet three substantial advances in printing costs within the last eighteen months. During the same period the cost of paper has more than doubled, and other expenses of producing this publication have increased in proportion. Furthermore, there has been so much activity in real estate that the records of transactions in Manhattan and the Bronx have doubled, thus doubling the cost of producing the Records Section even had there been no increase at all in printing and paper bills. For these reasons an increase in the subscription price has become imperative.

Beginning May 1, 1920, the price of the Real Estate Record and Builders Guide, including the Records Section giving the real estate records for Manhattan and the Bronx, will be $12.00 a year, and single issues twenty-five cents each.

Only through such an adjustment will it be possible for us to continue to serve the real estate and building interests of New York City as we have been serving them for fifty-two years and to furnish in complete and accurate form the Manhattan and Bronx real estate records which are so essential to our patrons.

The news and editorial section of the Record and Guide—the Metropolitan Edition—will be continued to subscribers at the rate of $5.00 per year. This edition, besides giving the latest news and reviews of the week's developments in the real estate and building fields, with editorial comment, carries unrecorded realty sales, leases, etc., the building materials markets and other important and timely real estate and building news.

are apparently coming to recognize the necessity of passing some of the constructive measures realty men have been urging on their attention during the whole session.

It is apparent to everyone who gives the matter any consideration that the laws which were framed and enacted in response to the clamor of tenants against constantly rising rents provide no relief to builders nor induce investment of capital in buildings. And it is not less true that only by encouraging building can there be any positive and permanent relief from the shortage which is forcing rents up to higher and higher levels. If there is no more building for the next two or three years than there has been in the last two or three, rents will reach heights that will make present figures look infinitesimal, even with the new laws restricting the annual increase to twenty-five per cent. It will take only four years to double them, if building is not resumed on a large scale.

These facts must have seeped slowly into the comprehension of legislators who sometimes ignore facts that stare them in the face because they are so intent on listening to the outcries of the turbulent and not always well-informed voters. This is indicated by the Albany correspondent of the Record and Guide, who reports that the legislative leaders have finally become impressed with the importance of aiding building as well as extending assistance to those who feel they are paying more for their living quarters than circumstances justify. So they have promised to set in motion the legislative machinery for the enactment of the bill exempting from income tax the returns on realty mortgages up to $40,000; lessening the restrictions of the tenement house law during the present crisis, and exempting new buildings and reconstructed buildings from certain taxation for a stated period.

The legislation session will end next Saturday, April 24, so that there is little time to spare if these measures, which will be of some help, are to be placed on the statute books. Everyone interested in realty should use all means at his disposal to bring pressure to bear upon individual members of the Legislature, so that in the final hours of the session these bills shall not be thrown in the discard.

Digest of March Building Operations Throughout the Country

ALTHOUGH there has been much talk of construction being held up on account of high prices, high wages and shortage of material, the total amount of contracts awarded during March in the territory east of the Missouri and north of the Ohio rivers, according to statistics compiled by the F. D. Dodge Company, showed a great increase over the figures for January and February, and was, in fact, greater than the figure for any month in 1919. The total amount for March was $327,897,000, as against $235,848,000 for January, and $216,663,000 for February.

These figures give $780,408,000 as the total for the first quarter of 1920. Normally the first three months of the year account for about 20 per cent. of the year's total of work started. In the first quarter of 1919 contracts awarded amounted to $275,555,000. Of the total for the first three months of the year, $267,193,000, or 34 per cent., was for industrial buildings; $150,651,000, or 19 per cent. was for residential buildings; and $146,973,000, or 19 per cent., for public works and utilities. This shows that the work which has been held up is in the residential group, that is the smaller building operations. Normally, this group accounts for about 30 per cent. of the total, and at the present time, in view of existing needs, it should be about 40 per cent. of the total.

Although contracts have been awarded to the amount of $780,000,000, there is still a vast amount of work being held up for more favorable conditions. In the first quarter of 1920, contemplated and projected work of all kinds was reported by the F. W. Dodge Company to the amount of $1,700,000,000. Of the contemplated work, public works and utilities amount to $363,802,000 or 21 per cent. of the total; industrial buildings amount to $355,073,000, or 21 per cent. of the total; and residential buildings amount to $343,173,000, or 20 per cent. of the total.

Building contracts awarded in March in the New England States amounted to $42,584,000, a figure greater than the combined totals of January and February.

The total amount of contracts awarded for the first quarter of 1920 was $82,260,000, compared with $22,220,000 for the same period in 1919. The total for the first quarter included the following items: $29,772,000, or 36 per cent., for industrial buildings; $19,059,000, or 23 per cent., for residential buildings; and $15,200,000, or 18 per cent., for business buildings.

Contemplated projects reported in the first quarter of the year amounted to $193,804,000, including $46,291,000 for industrial buildings, $38,317,000 for residential buildings, and $32,071,000 for business buildings.

In New York State and Northern New Jersey contract awards in March amounted to $66,623,000, compared with $79,570,000 in January, and $36,375,000 in February. The temporary slump in February doubtless reflected the unfavorable conditions of the weather and in the labor and material markets.

The total of contracts awarded for the first quarter amounted to $182,568,000, as against $50,208,000 for the first quarter of 1919. In the figures for the first three months of 1920 were included $62,308,000, or 34 per cent., for industrial buildings, $39,513,000, or 22 per cent., for public works and utilities, $33,286,000 or 18 per cent. for business buildings, and $25,174,000, or 14 per cent., for residential buildings. The low figure for the residential group is a matter of serious concern, as it is probable that the housing shortage is more acute in this territory than anywhere else.

Contemplated projects amounting to $303,270,000 were reported in the first three months, the total including $77,264,000 for public works and utilities, $74,153,000 for residential buildings, $62,075,000 for business buildings, and $56,142,000 for industrial buildings.

March building activity in eastern Pennsylvania, Southern New Jersey, Maryland, Delaware, the District of Columbia, and Virginia, as measured in contract awards, amounted to $50,036,000, compared with $26,190,000 in January, and $31,854,000 in February.

These figures combined give as the total for the first quarter of this year $108,080,000 as against $47,624,000 for the first quarter of 1919. The total for the first quarter included $42,929,000, or 40 per cent., for industrial buildings, and $30,326,000, or 28 per cent., for residential buildings.

Contemplated work reported in the first quarter amounted to $296,721,000, including $69,040,000 for public works and utilities, $66,943,000 for residential buildings, and $57,169,000 for industrial buildings.

Building contracts let during March in western Pennsylvania, West Virginia and Ohio amounted to $67,888,000, as compared with $43,556,000 in January, and $42,520,000 in February. The total for the three months was $163,965,000, or more than three times the figure for the first quarter of 1919,

Legislators Promise Enactment of Exemption Bill

Other Measures Providing for Exclusion of New and Reconstructed Buildings from Operation of Laws Recently Passed Also Have Good Chance

(Special to the Record and Guide.)

Albany, April 15.

AFTER an arduous struggle representatives of the Real Estate Board have finally succeeded in forcing home the necessity of enactment of the bill under which the interest on realty mortgages not exceeding $40,000 will be exempt from state income tax. The legislative leaders this week gave their promise that this bill, which was in the Rules Committee of the Assembly, would be reported out and advanced. This action would seem to forecast the enactment of the bill before the adjournment of the Legislature.

At the same time the prospects of passage of several other housing bills, some of which were outlined in the last issue of The Record and Guide, brightened. The advocates of these bills, who have been constantly engaged in efforts to persuade the Legislature that the enactment of the so-called rent profiteering legislation would be without fundamental benefit conferred with the legislative leaders several days this week thrashing out the problem. They were sanguine that laws exempting new buildings and reconstructed buildings from the operation of these drastic laws would be enacted. They believed they could extend this exemption to property purchased on the co-operative plan.

The bill which would empower the tenement House Commissioner to suspend the restrictive regulations that now hinder the alteration of many tenement houses also has a good chance of enactment. Tenement House Commissioner Mann, John P. Leo, chairman of the Board of Appeals, Borough President MacDougall, of Queens, Walter J. Salmon and Alexander C. McNulty and Edward P. Doyle of the Real Estate Board have given their support to this measure, which they deem a vital necessity in the solution of the housing situation in New York City, and this view has been taken by a large number of the New York City representation in both houses. In spite of the opposition of several reform organizations it now looks as if this bill would go through before the Legislature adjourns.

The renting situation, which was about to clarify this week, was further muddled by the demands of an element in New York City which seems bent upon broadening the so-called "rent profiteering" laws to include office buildings, lofts and houses converted for manufacturing purposes. Senator Abeles produced a series of bills which would accomplish this, but immediately a vigorous oppositions to them sprung up, indicated by their reference to committee in spite of strong pleas for their immediate advancement. Opponents of this legislation declare that it would be very injurious to real estate in New York City and would come as the last step in completely muddling the housing and rent situation in Greater New York.

Legislation carrying out the recommendations of the Governor's message on housing was introduced this week. This bill provides for the amendment of the General City and Labor Laws and authorizes the creation of city housing boards and a state advisory housing board in the State Department of Labor, both to study and report on means of lowering rents of dwellings and to solve the problems of construction and housing. An appropriation of $5,000 is made by the bill.

Protesting against the teachers' salary schedule bill now pending the State Conference of Mayors has presented its opposition to the measure in the form of a report which shows the inability of up-state cities, as well as New York City, to withstand the additional financial strain this bill would impose. This report pointed out that New York City is at present within $50,000,000 of its constituitonal taxing power and that the mandatory fixing of teachers' salaries with the increases proposed by this bill will have the effect of further complicating the financial difficulties of the Metropolis.

Full Text of Two Additional Landlord and Tenant Laws

THE Record and Guide prints herewith the full text of the two additional laws as passed by the Legislature, taking effect immediately, which required the signature of Mayor Hylan. The Mayor has signed the bills and they have been approved by Governor Smith. These measures complete the legislation recently enacted at Albany to meet conditions in the housing situation:

AN ACT to amend chapter two hundred and three of the laws of eighteen hundred and eighty-two, re-entitled "An act in relation to summary proceedings to remove monthly tenants in the cities of New York and Brooklyn for holding over," by chapter three hundred and fifty-seven of the laws of eighteen hundred and eighty-nine, in relation to notices to tenants.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section one of chapter three hundred and three of the laws of eighteen hundred and eighty-two, re-entitled by chapter three hundred and fifty-seven of the laws of eighteen hundred and eighty-nine, "An act in relation to summary proceedings to remove monthly tenants in the cities of New York and Brooklyn for holding over," and last amended by chapter six hundred and forty-nine of the laws of nineteen hundred and nineteen, is hereby amended to read as follows.

Section 1. No monthly tenant, or tenant from month to month, shall hereafter be removed from any lands or buildings in the city of New York on the grounds of holding over his term unless at least thirty days before the expiration of the term the landlord or his agent serve upon the tenant in the same manner in which a precept in summary proceedings is now allowed to be served by law, a notice in writing to the effect that the landlord elects to terminate the tenancy, and that unless the tenant removes from said premises on the day on which his term expires the landlord will commence summary proceedings under the statute to remove such tenant therefrom.

Section 2. This act shall take effect immediately.

AN ACT to amend the New York City municipal court code, in relation to proceedings for eviction of tenants.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivision three of section six of chapter two hundred and seventy-nine of the laws of nineteen hundred and fifteen, entitled "An act in relation to the municipal court of the city of New York, and repealing certain statutes affecting such court, its justices and officers," as amended by chapter six hundred and fifty of the laws of nineteen hundred and nineteen, is hereby amended to read as follows:

3. To issue or vacate a requisition to replevy, a warrant of attachment, a warrant to seize a chattel and an order of arrest; to grant or vacate a stay of execution or of other proceedings, including a warrant in summary proceedings to recover possession of real property, provided that in summary proceedings no stay shall be granted for more than five days except that in addition to the foregoing, upon the rendering of a final order in summary proceedings, a stay of the execution of the warrant may be granted for not more than thirty days, if the tenant shall make a deposit in court of the amount of the rent for the period of the stay at the rate fixed by the landlord for the month immediately prior to the rendering of the final order, which deposit shall be paid to the landlord or his agent by the clerk of the court; to render judgment in an action, or to make a final order in a summary proceeding, upon confession or upon the consent of both parties.

Section 2. This act shall take effect immediately.

Tenants Invest $25,000,000 in Cooperative Apartments

Movement Assures Investors Lower Rents, Safety of Tenancy and Good Neighbors and Is Spreading Over the Whole City

DURING the past year and notably during the last month, there has been a marked increase in the co-operative ownership of apartment houses and investment by tenants in this class of real estate is steadily progressing. The movement is the strongest in the high class apartment neighborhood bordering on Park avenue and it is well intrenched in the Gramercy Park section and is making rapid strides in Greenwich Village. Riverside Drive tenants have caught the fever and some good sized apartment houses there have gone under co-operative ownership. The movement is not so extensive in the Upper West Side as it might be.

The cause of the spread of co-operative apartment ownership may be found in the steady rate of rental increase, by the wide speculation in apartment house properties, in the lack of speculative building and in the fact that co-operative ownership insures permanency of chosen residential location and desirable kind of apartment house neighbors. Let no one think that he no longer pays rent because he is a co-operative owner. There is no truth nor logic in the slogan that "there is no more rent to pay." The tenant pays rent indirectly, but he gets a return on the money he invests which in effect makes his rental less and he is sure that he will not be asked to move if he does not want to pay more rent. There is no worry about short or long leases.

If there is a mortgage on a co-operative apartment house it may not be a paying investment at the beginning, but the plan, which usually works out, is that the mortgage will be reduced and the property made to yield an income as well as carry the tenants and maintain itself. The tenant gets a return on his investment, too, through saving

Co-operative apartment house owning has been and is popular with the well-to-do and the rich, especially among the latter class in recent years when private dwellings have appealed to them less and less as a result of the servant problem as well as the economy and convenience of apartment living.

The action of some landlords who own medium priced apartments has also encouraged the co-operative plan of apartment ownership. One landlord in West End avenue, recently increased a tenant's rent from $1,400 to $4,000 a year. When the tenant objected the landlord threatened to put him out on short natice; but, judicial procedure prevailed and prevented such action.

Co-operative ownership began in the middle eighties and continued in haphazard fashion up to the year 1908 when it seemed to languish. The extensive overproduction of apartment houses in that year and the few years immediately preceding made rents comparatively cheap and the tenant had it all his own way, landlords oftentimes holding out inducements to tenants to occupy their houses by offering them one or two months' rent free. Until 1920 there were probably twenty-five co-operative apartment houses in operation. Now they are increasing so fast that a census taker must work overtime to keep track of them. As one real estate man put it: "Some landlords profiteered so rashly at the expense of the tenant that the tenant decided to do a little profiteering in his own behalf with the result that buying by tenants is spreading throughout the town."

Because of high rents and of the belief, which seems reasonable, that big rentals in New York will continue for many years hence co-operative apartment houses are considered to be a sound and logical proposition.

It is figured that rentals of a co-operative apartment house should pay all operating expenses, taxes and interest on mortgage and insurance. Stock in a co-operative plan practically entitles the holder to a ninety-nine year lease on his apartment. If there should be a deficit in operating expenses or a call made to reduce mortgage an assessment of stock is made amounting to four per cent. This is considered the safest and the most conservative plan.

All tenants are not necessarily co-operative owners, but forty to fifty per cent. of them are; in some cases all are owners. In the superior neighborhoods, such as the Park avenue district, apartments of ten or more rooms are selling at from $40,000 to $50,000 an apartment and the very fine and large ones go as high as $150,000 an apartment. This gives the reader a comprehensive idea of the scope of the movement. The highest priced ones are in Park and in Fifth avenue. The average price for co-operative apartments except for the very large and costly ones is at the rate of about $4,500 a room. The basis of figuring the selling price of an apartment on the East side is at the rate of five to seven times present rental value.

Probably the most notable of apartment houses that were based or supposed to be based on the co-operative plan in the middle eighties were the De Navarro apartments in West Fifty-eight street, near Sixth avenue. They were not a pronounced success as such because they were maintained more as a joint partnership than as a co-operative enterprise. The plan was not as binding nor as permanent as the co-operative plan now in operation.

Most notable among the new co-operative apartment houses just now is the sixteen story one under way at 290 Park avenue, and covering the entire block from Park to Madison avenue, East 48th and East 49th street. Its total cost is $4,500,000. There are fifty stockholders all of whom are prominent men and there is no mortgage of any kind.

Of equal prominence is the co-operative apartment house at 300 Park avenue, to cover most of the square block bounded by Park and Madison avenues, 49th and 50th streets and to be sixteen stories in height. There are only twelve stockholders, all of them prominent. The cost of the building will be between $4,000,000 and $5,000,000 and the cost of the land about $2,000,000 additional. The mortgage will be between $2,500,000 and $3,000,000. This building together with 290, on the block to the south, is on leasehold land of the New York Central and Hudson River Railroad Company.

Following are the most recent investments in co-operative apartment houses in the city, representing an assessed value in round numbers, including the foregoing ones, more than $25,000,000.

The apartment house at 80 Madison avenue, at 121 Madison avenue, at 126 West Fifty-ninth street and at 247 Fifth avenue are about the oldest co-operative apartment houses in the city, and the one at 142 East Eighteenth street is between thirty and forty years old and is reputed to be the original one of the kind.

Decisions of the Magistrates Under the New Rent Laws

Generally the Twenty-five Per Cent. Increase Over Rates in April, 1919, Is Allowed, But Many Cases Are Thrown Out

DAILY since the enactment by the Legislature of the twelve laws affecting the relations of landlords and tenants, which went into effect April 1, the municipal courts have been almost overwhelmed with cases involving increased rentals. Predictions that the magistrates would have time for little else if the bills became laws have proved accurate. In all the courts handling these cases hundreds of disputants have been heard each day, and only the promptness and dispatch with which the magistrates acted saved the calendar from portentious proportions.

Generally speaking, the courts followed the practice outlined in the Record and Guide last week by Presiding Magistrate Levy, and the rules adopted by the magistrates for their own guidance.

It was noticeable, as was expected, that at first considerable confusion existed as to the exact provisions of the new laws, and many landlords made out papers according to the old laws, which resulted in the cases being thrown out of court. With the publication in the Record and Guide last Saturday for the first time in any newspaper of the full text of ten of the new laws, ths confusion became less pronounced. After it was found that the magistrates continued to follow the same general practice of allowing only twenty-five per cent. raises in rentals over those in effect in April last year the number of cases in the courts began gradually to decrease. In the Fourth District Court there were ten cases, as compared with 100 a week ago, and in the Second District Court there were ten, as compared with 400 last Monday. In both courts Assistant Corporation Counsel James D. O'Sullivan drew up individual leases for cold water flat tenants, who had never before had leases. The Mayor's Committee, which had 1,200 cases before it on Monday, had 400 cases yesterday. There were only 108 cases before Justice Leary in the Sixth District Court compared to five times that number a week ago.

There was one setback to the tenants when Justice Robitzek, in the Second District of the Bronx, who has been one of the first in making drastic application of the new laws, refused to concur in the ruling of Justice Davies that a tenant who has been paying exorbitant rent since April 1, 1919, can recover from the landlord. Justice Daves ruled that the landlord could be made to return to the tenant all above the 25 per cent. increase which the law fixes as the presumptive fair increase. Five tenants of the Klarfield Realty Company, living at 2327 Walton avenue, the Bronx, asked for such a refund, but Justice Robitzek declared he wanted a jury to pass on the question, and adjourned the case to next Tuesday.

In a majority of the cases in all courts where settlements are made, it is on the basis of a 25 per cent. increase over last April. The law requires that the landlord prove his right to more and the tenant his right to less than this amount, and most of both classes are showing themselves willing to compromise on this basis rather than go into a trial of facts

Some of the adjustments made in Justice Robitzek's court arranged to run till October 1 of next year. About 80 per cent of the cases called were settled by agreement. Justice Robitzek does not hold that the rent laws are retroactive, so when eighty-two tenants of four buildings at 2411 and 2415 Prospect avenue and 2353 and 2357 Crotona avenue appealed against their landlord on the ground that their rent is more than 25 per cent higher than a year ago he refused to order a cut. He allowed the landlord rentals at last month's rate, but stipulated that there should be no increase till October, 1921.

In five cases before Justice Hoffman, where the landlords attempted to comply with the new laws, the court permitted the tenants to institute counter-claims against the landlords, alleging he exaction of unreasonable rents. The cases were adjourned in order to give the tenants time to prepare for trial. Mr. Sullivan moved that the cases be dismissed on the ground of defects in the notices. The motion was granted.

Magistrate Harris denied a motion to dismiss the complaint against Mark W. Brenen, owner of apartment houses at 52-56 Manhattan avenue, who is charged by Health Commissioner R. S. Copeland with coercing his tenants. Tenants testified that Brenen promised not to make them move if they signed papers saying they would make no further complaints to the Health Department or to the Mayor's Committee on Rent Profiteering.

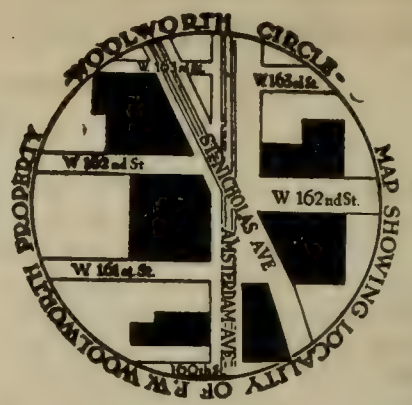
Justice Prince disposed of about 150 cases in one day, settling most of them on compromises, with a 25 per cent. increase as the limit. In many cases he held that even 25 per cent. was unreasonable. In one case he cut the increase, which was 25 per cent., to half that amount, and told the landlord that he would have to produce books showing that he had been losing money before any further raise would be allowed.

Justice John R. Davies in the Seventh District Court followed the same rules as to increases. In one case Morris Zeldon, agent for a house at 107 West 125th street, had demanded an increase of from $35 to $40 a month "to meet increased taxes." The tenants testified they had an agreement that he would raise no more than was necessary to do this, and produced statistics to show that 50 cents a month would cover this item. Now they are to pay $35.50 instead of the $40 asked.

When Thomas Leonard, 221 East 111th street, argued that the increased wages of employes justified his raising ten tenants from $35 to $60 a month, the justice permitted him to charge $43.50.

The Mayor's Committee on Rent Profiteering called attention to the fact that the laws apply to the $5,000 apartment as well as to the $15 a month tenement.

"The landlords of the high class apartments seem to be taking the position that the laws do not apply to them, but only to the poorer classes of flats and to the tenements," said Chairman A. W. J. Hilly. "They seem to think that the size of their rents raises them above the law. Of course, that has nothing to do with it. The law applies to all alike."



An attack on the constitutionality of the law fixing 25 per cent. increase as a presumptive standard of fairness was made before County Judge McMahon in Brooklyn. The judge threw out the case brought by the Cortlandt Building Corporation to dispossess the families of two tenants at 842 Classon avenue, the reason for his ruling being that the papers did not state whether or not the increase which the tenants had refused to pay was more or less than 25 per cent. Counsel for the landlord took an exception and indicated that he would appeal the case.

Arthur J. W. Hilly, Chairman of the Mayor's Committee on Rent Profiteering, said that landlords were attempting to coerce tenants in the high-class apartment houses to pay excessive increases, feeling that the new laws do not apply to them. The tenants are willing to pay moderate increases, but the landlords are renting the apartments at the high rentals to other applicants.

The condition predicted by Mr. Hilly is that on October 1 many thousands of tenants signing these leases will be unable to move into the apartments and take possession because the courts will grant stays of as long as a year to the tenants already in possession so that they may find suitable homes.

One of the results predicted by Chairman Hilly will be that there will be enough litigation inaugurated by the disappointed tenants against the landlords unable to give them possession of the apartments for which they signed leases to keep the landlords busy for several years.

Review of Real Estate Market for the Current Week

Leasing of Fifth Avenue Block Front, at Fiftieth Street, by Saks, Marks New Northern Outpost of Retail Trade

MUCH transpired in the real estate market this week of interest to the investor, operator, owner and broker. Containing surprise as well as interest was the announcement that the large store of Saks & Company, on the west side of Broadway, from Thirty-third to Thirty-fourth street, had been leased for a long term beginning two years hence and that the Saks business would be removed then to a new building to be erected on the east side of Fifth avenue, from Forty-ninth to Fiftieth street. This is the block occupied in part by the Buckingham Hotel and the home of the Democratic Club. Inasmuch as all of the block has been obtained on leasehold by Saks & Company except the headquarters of the Democratic Club it looks as if that organization held the key to an interesting situation. Whether great inducements will have to be made to acquire this parcel remains to be seen.

A decade ago it was predicted that large retail establishments such as Saks would never go so far north in Fifth avenue as Saint Patrick's Cathedral; and, yet, Saks has done that very thing, which shows that blocks of churches, museums and armories are not the deadlines of business they are supposed to be, at least in this city which is always upsetting traditions as regards neighborhood values and conditions. Saks has established a new northern outpost for large retail trade, going a mile further north in the avenue than Lord & Taylor dared to go a few years ago and one-half mile further than Stern Brothers deemed it feasible to go when they located in Forty-second street less than a decade ago. It would not be surprising if the Cornelius Vanderbilt mansion at the Plaza and Fifty-eighth street made way for a modern retail mercantile building unless a zoning ordinance prohibits such an improvement. It is a distinctive site.

The week's activities show that tenants are buying apartment houses in the Bronx as well as in Manhattan on the co-operative plan, or as some brokers prefer to call it, group buying. It was also made evident that a co-operative movement is setting in among tenants in office buildings, a seven story loft building in Harlem as well as several downtown being bought by occupants. When office rentals jump from $2,500 a year to $4,000 a year, as they did in one case, it seems reasonable for merchants and professional men to make sure of their locations and rental sums by co-operative buying

Many dwellings changed hands during the week, notably in the East seventy and eighty streets, about a half dozen being sold in one block alone. There was active dealing, too, in commercial buildings of medium size on the part of the city south of Fourteenth street. Apartment house buying claimed its full share of attention, the Bronx as well as Manhattan contributing a good quota.

Of keen interest was the leasing of the Beaux Arts building, at Sixth avenue and Fortieth street by the owner for a term of forty-two years. It would seem as if Sixth avenue between Herald Square and Forty-second street is taking on new form, as Seventh avenue from Pennsylvania Station to Times Square is also doing. The news columns will show other leases of moment.

Altogether it was a week that augurs well for a continued active market. That there are hundreds, if not thousands, of prospective investors in dwellings, apartment houses and business buildings who will come to the surface this season is apparent on the face of things.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 138, as again 145 last week and 98 a year ago.

The number of sales south of 59th street was 57, as compared with 67 last week and 32 a year ago.

The number of sales north of 59th street was 81, as compared with 78 last week and 66 a year ago.

From the Bronx 69 sales at private contract were reported, as against 79 last week and 66 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 515.

Large Uptown Sales.

Marking the crest of big real estate transactions uptown in Manhattan this year, the Hendrik Hudson Annex on Broadway, and the Arena Building at 39 and 41 West 33d street were sold by Frederick Brown, who has figured in many large sales for some time past, to Max H. Natanson. It was a case of one large operator selling to another one. The approximate consideration was $4,500,000.

Erected about twelve years ago, the Hendrik Hudson is an 8-story fireproof apartment house occupying the entire block front on Riverside drive from 110th to 111th street, with a depth of 120 feet on 110th street and a depth of 135 feet on 111th street. It contains apartments of from six to nine rooms each and shows a gross annual rental of $150,000.

Occupying the northwest corner of Broadway and 110th street, the Hendrik Hudson Annex is a 12-story fireproof apartment house, on a plot 92x175, and comprises suites of from six to nine rooms each. There are stores in the Broadway front. The gross annual rental is the same as that of the Hendrik Hudson itself.

Famous in years past as the site of a place for banquets and for good eating, the Arena Building has been an active factor in the real estate market in recent years. It extends from 39 and 41 West 31st street through to 38 and 40 West 32d street, is 16 stories in height, on a plot 50x197.8x41.4, and contains lofts and offices. A majority of the leases thereto expire in February, 1921. The Arena yields an annual rental of $160,000.

Mr. Brown bought the properties last year from the receivers of the American Real Estate Co., and they were considered among the choice investments that the company possessed before it became involved.

An Ancient Holding Sold.

Anselm Frankenthaler sold to James Moss 6 and 8 Ferry street, two 4-story business buildings, on a plot 43x60. The property adjoins the southeast corner of Gold and Ferry streets, which is owned by Mr. Moss, and gives him a plottage of 48x107. The estate of John Gardner has been in possession of the property since 1790, and the heirs live abroad.

Yale University Sells Parcel.

Pease & Elliman sold for Yale University, which was represented by Cammann, Voorhees & Floyd, to Mrs. A. L. Morton, for occupancy, the 4-story and basement brownstone dwelling, 150 East 37th street, on a lot 20x98.9.

In Co-operative Hands.

Occupying the block front, 100x180, on the east side of Broadway, from 169th to 170th street, Woodrow Court, a 6-story elevator apartment house, has been bought by 15 of the tenants.

Harris & Maurice Mandelbaum & Fisher & Irving I. Lewine resold Rhinecliff Court, an 11-story elevator apartment house, at the south corner of Riverside drive and 156th street. The purchasers are the tenants of the building, who will take title under a co-operative plan.

Tenants Buy a Loft Building.

A number of the tenants in the 7-story loft building, on a plot 50x100, at 157 and 159 East 128th street, bought it from E. Sharum. The buyers are Herman L. Paul, Herman Gunther and others.

Scudder Schools Buys a Home.

The Scudder School, Inc., of West 72d street, Dr. Myron T. Scudder, president, purchased from Mrs. Walter Geer the three dwellings at 244, 246 and 248 West 72d street and the two dwellings in the rear of 251 and 253 West 71st street. The entire property has a frontage of 60 feet in 72d street and 33.4 in 71st street, and is 204 feet deep.

The 72d street double house at 244 and 246 has been leased to the school for the last three years, otgether with, for the last year, the adjoining house at 248.

The Scudder school will eventually erect a 12-story fireproof building for its sole occupancy, which will have accommodations for upward of 200 boarding students and 200 additional day students.

Fine Dwellings Sold.

Brown-Wheelock Co. sold for Stuart Duncan 3 East 75th street, a 6-story brownstone dwelling, on a plot 50x102.2. It is one of the spacious dwellings of the neighborhood and adjoins the Harkness residence at the north corner of Fifth avenue and 75th street. It was built 15 years ago.

Miss Helen O. Bryce, daughter of the late General Lloyd S. Bryce, bought the dwelling at 3 East 80th street, on a lot 39.9x77.2, from the estate of Robert G. Remsen, who has owned the property for 25 years. The house adjoins the Fifth avenue dwelling of the late Frank W. Woolworth.

Richard Croker, Jr., Buys.

Richard Croker, Jr., bought the dwelling at 113 East 40th street, a 5-story brick dwelling, on a lot 18.9x98.9, the former home of Clyde Fitch, purchased about two years ago by Countess Du Buat. Mr. Croker owns 110 to 114 and 113 to 117 in the same street. Mrs. Anna D. McCullough owns 115. It is understood Mr. Croker plans the development of his property.

Numerous Sales in East 72d St.

M. Just sold for the Wood-Just Realty Co. the vacant plot, 50x150, on the south side of Vermilyea avenue, 150 feet east of 204th street, to the Inwood Hebrew Congregation, who will erect a temple upon the plot next fall.

Estate Sells Broome St. Corner.

Giesenheimer estate sold to Charles Wynne and Louis H. Low 509 to 513 Broome street, at the southeast corner of Thompson street, a 6-story loft building, on a plot 124.11¼x20.6x100x irregular, overlooking Watt square. It is the first sale of the property in 20 years.

Old New York Holding Sold.

The estate of Maria T. Major sold to P. Cannizzarro & Co., tenants, 438 Broome st, adjoining the northeast corner of Broadway, a 5-sty loft building, 29.2x117.2x28.6x113.6. This site had upon it originally the residence of the late Charles A. Bristed, who inherited it from his grandfather, John Jacob Astor. Mr. Bristed sold it in 1850 to the late Alexander Major, who lived there many years.

Hotel in Sixth Av. Sold.

The estate of Henry M. Baker sold 384 and 386 6th av, adjoining the Masonic Temple, at the northeast corner of West 23d st, a 6-sty brick hotel, known as the Medallion, on a plot 37x95.

Vacant Tract in Bay Ridge Sold.

The Edwards-Cain Building Co. purchased a tract of 35 lots on the south side of 81st st, between Narrows av and Colonial rd, in the Bay Ridge section, for immediate improvement with 1 and 2-family houses. The property is part of the Van Brunt estate.

Brooklyn Block Front Sold.

Realty Associates sold to Asher Dunn the vacant block front on the west side of New Utrecht avenue, between 52d and 53d streets. This plot, containing twelve lots, has a frontage of 238 feet on New Utrecht avenue, 75 feet in 52d street and 144 feet in 53d street. The purchaser will erect immediately a 2-story brick building on the 53d street corner, which has been leased by a bank, and on the balance of the block he will build eight 3-story brick buildings with stores on the ground floor and two apartments above.

This block is the last remaining vacant parcel of our property on the west side of New Utrecht avenue between 47th and 55th streets. It is situated between the 50th street and 55th street elevated stations of the West End line of the Fourth avenue subway. The value of business property on this avenue has lately been greatly enhanced by the erection of 200 or more high class one and two-family houses that have been built on the adjacent side streets.

Timothy S. Williams Sells Home.

Dr. Manning C. Field bought from Col. Timothy S. Williams, who was long president of the Brooklyn Rapid Transit Co., his fine city home at 98 Remsen street, southwest corner of Henry street, Brooklyn. It is a 3-story and basement brick and brownstone, on a lot 25x125, with an L 50 feet in depth on Henry street. Dr. Field will occupy the house in the fall after alterations are completed.

Col. Williams acquired the house in 1914 from the late Martin Joost. He now lives most of the year at Huntington, L. I.

Woolworth Sale Next Thursday.

When Francis Winfield Woolworth died, in the early morning of April 8, 1919, aged 67 years, at his country home, Glen Cove, L. I., he left an estate valued at approximately $30,000,000 to $40,000,000, including the real estate on Washington Heights, in and adjacent to "Woolworth Heights," that now is to be sold, by absolute administrators' auction sale, by Joseph P. Day, auctioneer, on Thursday, April 22, at 12 o'clock noon, in the Real Estate Exchange, 14 Vesey street.

"Woolworth Circle" is a courtesy title bestowed upon the location of the Woolworth real estate holdings because of his control of practically all the frontages in the plaza formed there by the intersection of St. Nicholas and Amsterdam avenues, between 160th and 163d streets, where, at the southwest corner of 162d street, the late Mr. Woolworth erected the Jumel Building, one of the several business properties to be sold. A large amount of property contiguous to the Jumel Building, including the balance of the block front to 161st street, facing in St. Nicholas and Amsterdam avenues, also is to be offered.

In addition there is the entire block front in St. Nicholas avenue, from 162d to 163d

street, together with additional properties adjoining in the side streets, including several dwellings.

Also, in the west side of Amsterdam avenue, 50 feet north of 160th street, a store tenement and vacant lot; also the two large plots of vacant lots located, respectively ,at the southeast and northeast corner of 162d street, facing in St. Nicholas avenue, at its intersection with Amsterdam avenue.

The most interesting parcel, at least from the point of view of the speculator, is the "flat-iron" block bounded by 160th and 161st streets, Amsterdam and St. Nicholas avenues, and facing directly in the "Circle with a Future." This block has been divided into a number of parcels, and it will be sold separately, then as a whole. The highest bidder will get it.

Whether regarded from the point of view of the speculator, the investor, the builder, the merchant-owner or the tenant, the Woolworth sale promises to be the most interesting event in the real estate market next week.

Underlying reasons for this are the close proximity of the property to Broadway, the establishment of the "Circle" as a local business center, the demand for business quarters that is bound to result from the recent sharp increases in Broadway store rentals, the narrowness of the Heights in this section between Broadway and Edgecombe avenue and the steady increase in St. Nicholas and Amsterdam avenue traffic, which centres at the intersection of these two prominent thoroughfares.

The properties to be sold are more than 50 per cent. improved with business structures, flat houses, with and without stores; dwellings suitable for occupancy or alteration, and buildings altered for business and residential occupation. The remaining vacant lots are finely located and suitable for immediate improvement. The character of the neighborhood has been standardized by the erection of business and residential structures such as the Jumel Building and the Roger Morris apartment house, at Edgecomb avenue and 160th street, opposite to the historic Jumel Mansion and Roger Morris Park, which 14-story building is the tallest apartment house on Washington Heights.

RECENT LEASES.

Saks & Co. to Be on Fifth Avenue.

The famous Buckingham Hotel, erected in 1876 by the late George Kemp; the Belgravia Apartment and other structures forming the block front on the east side of Fifth avenue, from 49th to 50th street, with the exception of the Democratic Club, have passed under a ground lease covering more than a century and involving rent aggregating about $37,000,000.

Saks & Co., now at Broadway and 33d street, are the lessees; and the Fifth avenue plot, which is now covered by the old Buckingham Hotel and the Belgravia and two other apartment houses, will be reimproved with a large retail store building. There is an approximate ground area of 36,000 square feet. The only property untouched on this block is the home of the Democratic Club, which occupies a plot 42x100, adjoining the Buckingham. It is possible that Saks & Co. may obtain this site as a logical part of its long leasehold. Improvements will not be begun for two years yet.

The Saks Building, at Broadway and 33d street, was recently leased over the heads of Saks & Co. by the owner, Herbert DuPuy, to the United Cigar Stores Co.

Russian Embassy Makes Lease.

Pease & Elliman leased for S. Wachs a large amount of space in 404 Fourth avenue, at the northwest corner of 28th street, to the Russian Embassy, now at 949 Broadway.

Notable Midtown Lease.

For the purpose of reimproving with an 8-story office building, John H. Scheier, architect, leased from Leon and Maurice Alland 228 to 232 West 52d street, a plot 55x118x60, 104 feet west of Broadway and adjoining the rear of the Hotel Albany, on Broadway, from 51st to 52d street. The lease, with renewals, runs for 84 years, at a total land rental of $1,600,000. Three 4-story dwellings are now on the site. The new building will cost about $400,000. J. B. English was the broker.

Beaux Arts Under a Long Lease.

Long famous as a building for artists' studios and for a famous restaurant, the Beaux Arts Building, at the southeast corner of 40th street and Sixth avenue, was this week leased by Abraham A. Anderson, the owner, to L. K. Schwartz & Co. The term is for 42 years at an aggregate rental of appproximately $3,500,000. Twelve stories in height, the building has a frontage of 60 feet in the avenue and 100 feet in the street. Overlooking Bryant Park, it has a certain amount of advertising value. Four stories will be added to the building, and it is likely that all of it will be converted into office space of various kinds.

Madison Av. Corner Leased.

The Madison Avenue-Fifty-ninth Street Corporation leased from the National Drug Stores Corporation through Douglas L. Elliman & Co. the Emmett Arcade, at the southwest corner of Madison avenue and 59th street.

The plot, which is 100x145, is improved with a 4-story store and office building. The National Drug Stores Corporation has leased back from the Madison Avenue-Fifty-ninth Street Corporation the corner store of the property. Both leases were for a long term of years. The aggregate rental value is estimated at about $1,750,000 for the term.

This property was leased by the National Drug Stores Corporation from the estate of the late John D. Crimmins, in October, 1919, for the purpose of controlling this important subway and transfer center location for one of the stores of its chain. The lessee contemplates a substantial improvement of the property by the addition of at least two stories and other alterations.

DUROSS CO. leased for George E. and William J. Hoe the property 833 and 835 Greenwich st to Maslow & Toperosky; for Thomas McCarthy the property 131 to 135 Barrow st to Michael Hirschhorn and Louis Fink; and for Samuel Gordon the two stores and the first and second lofts at 207 West 27th st to Tudemeyer & Katz.

HARMARK HOLDING CORPORATION leased to M. Paganini, of the Pirouette Tea Rooms, for a term of ten years, the store and basement in 64 West 46th st.

J. EDGAR LEAYCRAFT & CO. leased corner store and basement in 277 West Broadway to Arthur S. Cone; also for Bing & Bing to the Sitroux Importing Co. space in 1123 Broadway, and the building 206 East 14th st to Dayan & Sutton; store in 220 East 14th st to Morris Adjmi; store at 2500 8th av to Jacob M. Chabot.

CHARLES F. NOYES CO. leased for Edwin H. Peck the building 30 Old slip to George V. Gross & Co., and has leased to Colombian Commerical Corporation of Canada, Ltd., a floor in 54 Dey st.

A. D. ROCKWELL, JR., leased for Benjamin J. Scholermann and Clara M. Scholermann, of Greenwich, Conn., to Busch, Krugman & Ziring for a period of 21 years the entire building 2243 3d av, northeast corner of 122d st, formerly known as Manhattan Hotel.

REAL ESTATE NOTES.

Fisher P. Weaver Is Retiring.

Announcement is made that Fisher P. Weaver, for over twelve years actively associated with the Charles F. Noyes Co., is retiring from business at a relatively early date. He has made no definite plans for the future, but will spend at least a year in travel.

Lieut. Col. Marcel Sibley Keene went to the Noyes Co. on April 15 to fill the vacancy. He will be elected a director to take Mr. Weaver's place in the several corporations with which Charles F. Noyes is largely identified. Mr. Weaver will remain until his successor is well started on his new work. Col. Keene comes to the Noyes Co. after 13 years of active service with the United States Regular Army, most of which time has been devoted to executive work. Among other assignments Col. Keene organized the defenses of the Panama Canal at the entrance from the Pacific Coast, and more recently mustered in and out of the Regular Army the National Guard forces of the country. He also served as one of Major General Leonard Wood's representatives at Charleston and Governor's Island.

The news of Mr. Weaver's retirement was a big disappointment to all of his business associates. It is understood that after a year or more retirement from participation in any business Mr. Weaver may possibly make an arrangement with Mr. Noyes to establish a Western branch of the company.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

Elevator Operators Striking For Increased Wages

Office Buildings, Apartments and Department Stores Affected by Walk-Out Involving Thousands of Operators in Manhattan

APPROXIMATELY eighteen thousand elevator operators in office buildings, department stores, apartment houses and industrial establishments left their posts at 9 o'clock Friday morning in a strike to force increases in wages and changes in working conditions. Hospitals and city departments have not as yet been affected. The large hotels are not likely to suffer during the early days of the strike because of the fact that the elevator operators in them belong to a separate organization.

The strike was set for Friday morning at a meeting held Thursday night of the Elevator Starters' and Operators' Union, at Arlington Hall, 19 St. Marks Place. More than 4,000 operators attended and so jammed the hall that an overflow meeting in the annex was necessary.

Although James E. Roach, local organizer of the American Federation of Labor, attempted to persuade the men and women assembled to postpone the strike for another twenty-four hours in order to give him an opportunity for further discussion with the Building Managers' and Owners' Association, he declared that should the union decide to strike at once the strike would have the official sanction of the American Federation of Labor. He read a letter from Samuel Gompers, president of the Federation, indorsing the strike. The letter was wildly cheered by the unionists.

Thomas J. McGill, president of the union, presided at the Thursday evening meeting and supported Mr. Roach in his attempt to have the strike postponed. The strike sentiment, however, was so great that both leaders were overruled. The vote to strike was unanimous.

Following is the proposed weekly wage scale demanded by the men and the present scale:

OFFICE BUILDINGS.

	Asked	Now
Starter	$38.60	$28.35
Assistant starter	35.00	25.30
Hallmen operators	35.60	25.30
Elevator operators	33.60	25.30

LOFT BUILDINGS, APARTMENT HOUSES, ETC.

Starter	$33.00	$25.00
Assistant starter	30.00	25.00
Operators	28.00	22.25

In addition to the new wage scale, the men demand the eight-hour day and time and a half for overtime.

At the conclusion of the meeting McGill announced that the number of those expected to go out on strike will be between 25,000 and 30,000.

"Our membership is about 18,000," said McGill. "We expect to make the walk-out general and complete by pulling out every elevator operator and starter in New York City and Brooklyn."

The demands of the men were submitted to the building owners and managers on April 5 with the request that a reply be sent to the union as soon as possible. Some individual owners agreed to meet with the union and arbitrate the differences. The Building Managers' and Owners' Association, however, in a statement made public Thursday, refused to meet the wage demands of the union and proposed a scale of its own.

William J. Clancy, chairman of the ways and means committee of the union, announced that all owners and managers of buildings desring to settle with the union will be requested to appear at the union's headquarters, 136 Third avenue, to meet a regularly appointed strike committee and sign a contract. No other form or method of settlement will be acceptable, said Clancy. This was interpreted as meaning that the union will not consent to deal with the Managers and Owners' Association in a body.

Several thousand men and women employed in the Battery Park Building, 24 State street, and the Maritime Building, 8 and 10 Bridge street, were inconvenienced Thursday night when twelve operators and two starters left their posts at the rush hour. Both buildings are eleven-story structures. Hundreds were compelled to walk down the stairs after ringing the elevator bells in vain.

William Moir, superintendent of both buildings, pressed into service men from the engine rooms and porters, and normal service was resumed after an hour's interruption.

It became known Thursday evening that the managers of many office buildings, in anticipation of the strike, have trained electricians, mechanicians and porters employed in the buildings to take the places of the strikers. Many of the former will probably be impressed into service in buildings throughout the city this morning.

Along the Waterfront

were two buildings, numbers 33 and 75 Washington Street.

The cellars of these buildings had from 3 to 5 feet of water in them all year around, and were worthless to the owners.

We waterproofed them.

One is now a restaurant and the other a store.

Digest of March Building Activity

(Continued from page 502)

which was $40,567,000.

Of the first quarter of 1920 total, $56,394,000, or 38 per cent., was for industrial buildings, $33,160,000, or 22 per cent. for public works and utilities; and $28,733,000, or 19 per cent., for residential buildings.

Contemplated work was reported in the first quarter to the amount of $180,514,000. This figure included $53,768,000 for industrial buildings, $47,781,000 for residential buildings, and $26,762,000 for business buildings.

Building contracts in the Central West (comprising Illinois, Indiana, Iowa, Wisconsin, Michigan, and portions of Missouri, Nebraska, and Kansas) in March amounted to $89,727,000. There has been a steady increase in this district since the beginning of the year, January having shown a total of $61,423,000, and February, $78,082,000. The total for the quarter was $229,233,000, about double the amount for the same period last year, which was $110,164,000.

The quarterly total contained the following important items: $72,545,000, or 32 per cent., of the whole, for industrial buildings; $49,018,000, or 21 per cent., for public works and utilities; $44,611,000, or 19 per cent., for business buildings; and $40,352,000, or 18 per cent., for residential buildings.

Contemplated work reported in the first quarter amounted to $681,032,000, including $155,002,000 for public works and utilities, $138,241,000 for social and recreational projects (the hundred million dollar Chicago lake front parkway project is included in this group), $137,622,000 for industrial plants, and $107,937,000 for residential buildings.

March building contracts in Minnesota and North and South Dakota amounted to $11,038,000, as compared with $7,246,000 for January and $6,017,000 for February. The combined total for the three months was $24,302,000, or more than five times the figure for the first quarter of 1919, which was $4,772,000.

Included in the total figure for the first quarter were the following items: $7,008,000, or 29 per cent., for residential buildings; $4,714,000, or 19 per cent., for educational buildings; and $4,064,000, or 18 per cent., for public works and utilities.

Contemplated work to the amount of $44,244,000 was reported in the three months, including $12,021,000 for public works and utilities, $8,964,000 for business buildings. and $8,042,000 for residential buildings.

Quotations on Office Space in Many Cities

Building managers in most cities have been busy in recent months deciding what is the right rental basis, and in some cases schedules have been changed several times. It is generally conceded that buildings are entitled to 6 per cent. net earning, after a deduction of 2 per cent. of cost of improvements for depreciation. Reports received from various cities indicate that the following is the asking price per square foot for desirable office space:

New York	$3.00 to $5.00
Philadelphia	3.00 to 3.50
Boston	3.00 to 4.00
Chicago	2.50 to 3.50
Cleveland	2.50 to 3.50
Cincinnati	2.00 to 3.00
Buffalo	2.00 to 3.00
Toledo	1.25 to 1.75
Dayton	1.00 to 1.50
Peroria	1.25 to 1.75
St. Louis	1.75 to 2.75
Atlanta	1.25 to 2.50
New Orleans	1.40 to 1.75
Louisville	1.50 to 2.00
Omaha	1.50 to 2.50
Spokane	1.30 to 2.00
Seattle	1.75 to 2.50
Portland	1.50 to 1.75
Los Angeles	1.50 to 2.00

Local Architects and Engineers Develop Many New Plans

Building Industry Making Preparations for Summer Activity Despite Strikes That Prevent Immediate Progress

A GROWING shortage of building materials not only in Greater New York, but throughout the Metropolitan district is at present the most important factor in delaying the long predicted spring building boom. Hundreds of projects, representing practically every type of structural operation have been planned by architects and engineers and in many instances estimates have been taken and contracts awarded. The actual start of construction, however, has been postponed because of the grave scarcity of materials. High prices are now a secondary consideration.

According to figures prepared by the F. W. Dodge Company showing the number and value of the new projects reported each week in the district, including all of New York State and New Jersey, north of Trenton, 474 operations being planned by architects and engineers were announced during the week of April 3 to 9 inclusive. This work will involve the expenditure of aproximately $18,662,600. During the same week contracts for 240 building and engineering projects were awarded that will require a further outlay of $12,459,300.

Included in the list of 474 projected building and engineering operations announced during the week of April 3 to 9 were 108 business buildings such as stores, lofts, offices, commercial garages, etc., $3,787,500; 23 educational projects, schools libraries, etc., $1,612,000; 4 hospitals and institutions, $1,085,000; 34 factory and industrial projects, $2,075,000; 1 structure for the U. S. Navy, $5,000; 2 public buildings, $22,000; 28 public works and public utilities, $1,108,200; 6 religious and memorial buildings, $608,200; 245 residential buildings including apartments, flats and tenements and one and two-family dwellings, $5,254,700, and 23 social and recreational projects, $3,105,200.

The 240 projects placed under contract last week were sub-grouped as follows: 49 business and commercial buildings, $1,071,500; 5 educational projects, $929,200; 2 hospitals and institutions, $70,000, 20 factory and industrial buildings, $1,920,000; 1 military project, $10,400; 1 public building, $15,000; 25 public works and public utilities, $4,662,500; 3 religious and memorial buildings, $158,000; 128 residential projects of various types, $3,086,700 and 6 social and recreational operations, $536,000.

The week was noteworthy for the increase in the number and value of the housing accommodations being planned for construction in this territory. There is a decided improvement in activity of this character that indicates an early solution of the housing problem provided the work actually goes ahead. The need for new dwellings is still acute, notwithstanding the progress made during the past twelve months and any operations that will provide additonal living space will assist in relieving the existing shortage. There is also considerable new activity in industrial and commercial construction that is an indication of generally prosperous times.

PERSONAL AND TRADE NOTES.

Charles M. Spindler, architect, has moved his offices from 215 Montague street to 26 Court street, Brooklyn.

Brook & Sackheim, architects, recently moved their offices from 215 Montague street to 26 Court street, Brooklyn.

Irving Brooks, architect, has moved from 215 Montague street to larger quarters at 26 Court street, Brooklyn.

Fireproof Products Company, Inc., announces that it has taken over the business of the Triumph Column Co., of New Rochelle, N. Y.

Bart Tourison, architect, formerly of Philadelphia, has moved to New York City and has established offices in the Hudson Terminal Building, 50 Church street.

Lubroth & Lubroth, architects, announce the dissolution of the partnership heretofore existing, and in future Jacob Lubroth will practice his profession in the old offices at 44 Court street, Brooklyn.

Edward Corning Company, builders, announce that after May 1 their offices will be located at 145 East 45th street, where a building has been purchased and extensively altered to meet the requirements of the business.

Laurence A. Ball, formerly conducting business as an individual, announces the formation of a co-partnership with Howard H. Snyder for general practice as consulting engineers under the firm name of Ball & Snyder, with offices at 19 East 24th street.

Holmes & Winslow, architects, who have made a specialty of the design of bank buildings, recently purchased the three-story brick and stone residence at 134 East 44th street, and, after extensive alterations, will occupy the premises for their offices. The firm is now located at 110 West 40th street.

H. Eltinge Breed, consulting highway engineer, 507 Fifth avenue, has been placed in charge of the courses in highway engineering at the School of Applied Science, New York University. Mr. Breed served for several years on road and canal construction in New York State, was chief engineer of the Coleman DuPont road in Delaware, and more recently was first deputy highway commissioner of New York State.

T. L. Smith Company, manufacturer of construction equipment, Chicago, Ill., announces that another step in the expansion of its business to meet the increasing demand for its products has been completed with the establishment of a New York branch office and warehouse service station. The local office will be in charge of E. R. Marker, former Sales Manager of the company, and will supply all the territory east of Cleveland. Mr. Marker has taken over this New York office and is already established on the ground floor of the Hudson Terminal Building, 50 Church street, where a large showroom makes possible a comprehensive display of the equipment manufactured by the T. L. Smith Company. Shipments of all sizes of concrete mixers, pavers, pumps, as well as all repair parts, will be made direct from the Eastern warehouse, located at 112 Lilly street, Newark, N. J.

Architect in Large Realty Deals.

A tall business building will replace a group of old fashioned private houses in West 52d st. near Broadway, as a result of a transaction recently closed by John H. Scheier, the architect, who has been prominently identified with a number of important transactions in this section within recent weeks. Mr. Scheier has leased from Leon and Maurice Alland the three four-story dwellings at 228, 230 and 232 West 52d street, 104 feet west of Broadway, forming a plot with a frontage of 55 feet, a depth of 118 feet, and a rear line of 60 feet, adjoining the old Hotel Albany property, which occupies the entire block front on the west side of Broadway, from 51st to 52d streets. The lease is for a term of 84 years and will involve a rental of approximately $1,600,000. Mr. Scheier will erect on the site a modern eight-story store and office building at a cost which will probably reach $400,000, so that the deal in its entirety will eventually represent an investment of about $2,000,000. The broker in the deal was J. B. English. Mr. Scheier recently leased the two six-story elevator buildings at 243 to 249 West 47th street for a term of 30 years and renewals at a rental approximating $2,000,000 and is now completely renovating these properties into modern business structures. Last week he bought the business building at 240 West 55th street and the seven-story Kenwood apartment house at 236-238 West 55th street, which is to be reconstructed into an office building for the special use of the automobile trade.

TRADE AND TECHNICAL SOCIETY EVENTS.

American Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Hardware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14 inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convention at Buffalo, N. Y., June 22 to 25 inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary, Argos, Ind.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

CURRENT BUILDING OPERATIONS

BUILDING activity in the metropolitan district was considerably retarded this week by the serious strike affecting practically every railroad line entering the city, and which caused a general slowing down of business. For some time past there has been a growing scarcity of esstional building materials that was greatly increased by the railroad strike, and as a consequence building opeations, already under way, have been held up pending the arrival of materials, and new projects could not be started because of the doubtful situation.

Although many bricklayers have returned to work in accordance with their recent agreement increasing their wages, the building industry has not been able to speed up according to anticipations by virtue of the fact that a large number of bricklayers obtained out-of-town jobs during the strike and up to the present time have not returned. There is work available for a vast number of bricklayers in this city and its environs; considerably more than can be handled by the men now available, and this work will be held in abeyance until the labor situation improves.

Planning continues to be a feature of the local situation, and both architects and engineers are exceptionally busy on plans for important structural operations for which funds are already secured. The only factors remaining to retard progress on these jobs involves the lack of building materials and the scarcity of bricklayers. Other trades are generally satisfied as regards the men available and contractors are looking forward to busy times.

The local building situation was further affected this week by the strike of the mason material drivers and helpers, who have demanded recognition of their union. This the dealers have refused to do, and at the present writing a large number of yards are closed, with the men locked out and but five material yards open for business, and that practically negligible.

Common Brick.—Although there would be a possibility of greatly improved activity in the wholesale market for Hudson River common brick were the dealers not hampered by the strike of the brick handlers, who have refused to deliver brick to drivers not wearing a union button, the past week has been rather a quiet period, and but a small volume of business was recorded. The unloaders, in addition to striking in sympathy with the striking drivers and helpers of the mason material dealers, are also demanding an increase of 25 cents a thousand. A prominent manufacturer and dealer stated this week that the wages now being paid for unloading common brick were exceptionally high when all things are considered. Under ordinary circumstances an unloading crew of six men are able to discharge approximately one hundred thousand brick in seven or eight hours, for which they now divide $80. This is a good wage and considerably better than the rate of pay in many other lines, not excepting the professions. The dealers are inclined to stand fast and not make any concession that would increase the price of brick to the consumers. The demand for common brick is on the increase and the supply is adequate for all requirements. Arrivals this week have been light because it is less expensive for dealers to keep their boats at their up-river docks than to pay demurrage charges in this city and at the same time take the risk of having their barges set adrift or sunk as has been done in past strikes. Hudson River manufacturers are now making active preparations for starting the season's production, but it is altogether too early to predict to what extent the yards will be operated this year. The rate of production will depend not so much upon the demand for common brick as upon the number of men that will be available to turn out the product. Last season labor was a very scarce commodity, and the outlook for this year is not particularly bright at this writing.

Summary.—Transactions in the North River common brick market for the week ending Friday, April 16, 1920. Condition of market: Demand fair; prices unchanged. Quotations: Hudson Rivers, $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, 28; sales, 24. Distribution: Manhattan, 8;

Why Large Buildings Install

MARBLELOID

"The Ideal Composition Flooring"

Marbleloid is being put into an ever increasing number of important buildings because it is a satisfactory and efficient flooring. Hard, dust-proof, durable, slow to chip or crack, it has the close texture that repels moisture and the pleasing appearance that brightens the office. Easily applied and inexpensive, it pays dividends from the day it is laid.

Where may we send you full information, samples and a list of Marbleloid installations?

MATERIALS AND SUPPLIES

Brooklyn, 14; Bronx, 1; New Jersey, 5; Astoria, 1.

Portland Cement.—The most important feature of the week concerning this commodity has been the increase announced by the manufacturers that has resulted in advancing dealers' quotations for job deliveries 40 cents a barrel, making the current job price $3.80. There is a grave scarcity of cement in the local market that has been increased this week by the strike of the railroad switchmen.

Hollow Tile.—Owing to the constantly increasing demand for this material throughout the metropolitan district and the difficulty the manufacturers are experiencing in keeping abreast of the building requirements, all prices have been withdrawn by producers, and for the time being local dealers are only in a position to quote prices for specific jobs. Lately there has been a decided increase in the use of hollow tile because of the shortage of common brick, but the brick situation is easier now and it is anticipated that before long manufacturers will again resume regular quotations.

Wood Lath.—This material is exceedingly scarce and many of the dealers are entirely out of stock and depending upon what they are able to pick up in small lots. The freight embargo on the New Haven Railroad is largely responsible for the shortage and it is not likely that relief will be afforded for some time to come. Prices are firm at $20 a thousand delivered on the job, and no recession from this level is possible in these times.

Sand.—The supply is easier than it has been and there are a number of barges now discharging at various docks in this city, but jobs that are badly in need are being held up because of the strike of the drivers that is preventing deliveries. Producers have announced an increase in the price of building sand to $2.50 per cubic yard. This price will be effective until June 30.

Structural Steel.—The railroad strike has practically demoralized the steel industry and a number of the manufacturers have been forced to shut down their plants because they are unable to obtain fuel and raw materials and also ship finished products. Locally the situation is not so acute. There has been slightly increased activity among structural steel contractors during the past week or so and a number of important tonnage contracts have been announced. There is a vast amount of new construction planned and in the early stages of construction that will require fabricated material in large amounts, and as a general thing the contractors are confident that shapes will be available for every requirement, but that it might take some time for delivery.

Window Glass.—The market is chaotic and jobbers are practically cleaned out. During the past week there has been considerable glass set in this city, some of the striking glaziers having returned to work, but still there are a number of important building operations whose final completion is being held up because window glass is not available. The glass factories are working to their full capacity and in all probability will remain in blast some weeks longer this year than is usual in the hope of filling some of the orders that are piled up. There is no doubt but that both plant and window glass will remain one of the building materials most difficult to obtain for some months to come, and naturally prices will remain at their current exceedingly high levels.

Lumber—Railroad freight embargoes have materially affected the lumber market, and both wholesale and retail branches of the industry are now complaining of a shortage that almost amounts to a famine in some of the more popular lines. Production is not up to expectations because labor at mill points is difficult to obtain and there can be no material improvement in the available supply until the output is increased. Prices are still maintaining the upward trend that has marked the past year or more and no change seems possible under the existing conditions.

Cast Iron Pipe—Both manufacturers and dealers in cast iron pipe are more optomistic than they have been for some months past. Orders are more plentiful than they were one year ago and the prospects for a steady increase in buying activity are bright. Prices have not changed since the recent advance.

Threat of a "Rent Revolution"

A certain class of tenants is now receiving the solicitous attention of various newspapers and publicists in the hope that these tenants will not start a rent revolution next Saturday, May 1. This solicitation would be amusing if it did not concern such a serious matter. But the threat of wholesale disturbances by tenants on May Day is only the natural result of the disgraceful demonstration which ran the Legislature off its feet at Albany a few weeks ago, causing the lawmakers to throw discretion to the winds and to enact with amazing haste the series of new rental laws which are crowding the municipal courts and the ultimate results of which no one can foretell.

After all, is it surprising that thousands of tenants, encouraged by the quick results of their ill-tempered demonstration at Albany, should so readily and zealously fall in with the idea of precipitating rent riots by wholesale on May 1? Is it not the logical outcome of the Legislature's hasty action in passing without due consideration a lot of laws aimed at landlords? What happened at Albany seemed bound to furnish new inspiration and new zeal to agitated tenants who could regard it as but a short jump from defiance of lawmakers to defiance of law itself.

With the approach of May 1, warnings that they must indulge in no wholesale rent riots are being served on tenants by some of their erstwhile supporters. Even the city officials seem to have become uneasy over the prospects of trouble May 1. They seemed less concerned over helping to start the fire than they now are over trying to keep it within control.

There is a good deal of reason, unfortunately, for the concern which city officials and others now show over the possibilities of trouble with tenants on May 1. The talk of a "rent revolution" on that day has become widespread and evidently has enlisted the sympathy of many misguided tenants. The Mayor's Committee on Rent Profiteering has uncovered a plan under which tenants intend to pay their rent up to the first of May and then unite in taking forcible possession of their apartments collectively or individually. Some 25,000 tenants, according to the committee's information, threaten to participate in this undertaking.

"Success in any present movement," the Times observes in a current editorial, "is the last thing which the Red leaders look for. They are not wild-eyed visionaries, but keenly practical men. What they are after is publicity for their ideas and an increase in the number of those who are capable of taking them up. Whatever suffering and loss may come to their followers is a mere incident. In a way they welcome it. The man who has been defeated is sore in his pride; the man whose family has suffered harbors the more readily any project for revenge. The basis of such a scheme, of course, is a belief that most mortals are fools. Strikers who have suffered bear the same relationship to revolutionary propaganda as 'sucker lists' bear to all other gold-brick operations."

Obviously, it is the first duty of the authorities to see to it that if the suggested "rent revolution" is attempted the disturbance is promptly squelched. The Record and Guide regrets that this task will prove the more difficult because of the tame manner in which officials, both city and state, have submitted in recent months to the domineering methods of various leaders in the fight against rent profiteering. If they have a difficult time in preserving order and compelling obedience to law on May Day, they will have themselves largely to blame for that condition.

Too Much Politics at Albany

It is expected that the regular session of the Legislature of 1920 will end today, revealing the Democratic Governor and the Republican Senate and Assembly deadlocked over political matters. If this proves to be the case, the Governor is likely to exercise his prerogative and reconvene the Legislature in special session a little later on.

Not much of real importance to the public has been accomplished at Albany since January 1. Governor

TO OUR READERS

The Real Estate Record and Builders Guide has had to meet three substantial advances in printing costs within the last eighteen months. During the same period the cost of paper has more than doubled, and other expenses of producing this publication have increased in proportion. Furthermore, there has been so much activity in real estate that the records of transactions in Manhattan and the Bronx have doubled, thus doubling the cost of producing the Records Section even had there been no increase at all in printing and paper bills. For these reasons an increase in the subscription price has become imperative.

Beginning May 1, 1920, the price of the Real Estate Record and Builders Guide, including the Records Section giving the real estate records for Manhattan and the Bronx, will be $12.00 a year, and single issues twenty-five cents each.

Only through such an adjustment will it be possible for us to continue to serve the real estate and building interests of New York City as we have been serving them for fifty-two years and to furnish in complete and accurate form the Manhattan and Bronx real estate records which are so essential to our patrons.

The news and editorial section of the Record and Guide—the Metropolitan Edition—will be continued to subscribers at the rate of $5.00 per year. This edition, besides giving the latest news and reviews of the week's developments in the real estate and building fields, with editorial comment, carries unrecorded realty sales, leases, etc., the building materials markets and other important and timely real estate and building news.

Smith is keenly interested in what he calls his welfare bills, but those measures, even if defeated in the final hours of the session, hardly would justify him in calling a special session. There might be ample justification for such a course on the Governor's part, however, if the excellent program for the reconstruction of the state government is allowed to go by the board. Of far greater importance is the immediate need for adequate legislation to stimulate building. Only through the enactment of laws that will encourage construction can there be any real relief in the housing shortage which exists throughout the state.

The ideas of the Governor and the ideas of the Legislature as to reorganizing the state government differ only in those details which involve politics. If the people of the state are refused for the present the great advantages of the proposed reorganization they will realize that the political managers on both sides are merely playing for advantage in dealing with a great public problem.

As to legislation to encourage buildings, that is a subject in which legitimately there can be no politics. It is an economic question, pure and simple. Thousands and thousands of homes must in some way be provided, and if ever there was a proposition on which the politicians of all parties should be able to agree in framing a program it is the need for homes for the people.

As this issue of the Record and Guide goes to press there still remain a few hours before the time set for the final adjournment of the Legislature. There is not much hope of the passage of any adequate housing laws before adjournment. But if the legislators do go home without having accomplished anything practical toward the solution of this pressing problem, then Governor Smith will have the strongest public sentiment back of him in calling a special session of the Legislature for the enactment of laws that will enable builders to build and thousands now homeless to have places in which to live.

Good Prices Realized at Disposal Sale of Woolworth Property

JOSEPH P. DAY sold the Washington Heights holdings of the F. W. Woolworth estate yesterday at auction in the Vesey Street Exchange for $739,650. A noticeable feature of the sale was the number of women who bought valuable parcels.

Auctioneer and sellers both expressed much satisfaction with the result. The largest price for a single parcel was $203,500 for the two-story James Building on the southwest corner of Amsterdam avenue and 162d street, paid by Mr. Salomon, who occupies half of it. The flatiron on the avenue at 160th-161st streets and St. Nicholas avenue went to Rosina Vollhart at $105,000. Of four three-story brownstone dwellings, No. 519 West 162d street, went to Catherine Triningham and Anna McCellan, $13,300, No. 521 to John Thompson, $16,350; No. 523 to Morris Gruberg, $13,700; No. 525 to Clareberg Realty Co., $15,000. William J. Diamond bought the block front on the west side of St. Nicholas avenue, 162d to 163d streets, also three abutting lots, a total of 13, to $110,750.

One of the prominent buyers of vacant properties was Philip Goldberg, who paid $36,500 for four lots at the northeast corner of Amsterdam avenue and One Hundred and Sixty-second street, and $35,000 for five lots at the southeast corner of St. Nicholas avenue and One Hundred and Sixty-second street. Three lots adjoining on St. Nicholas avenue were purchased by the Dorsma Garage Company at $25,000 for improvement with a garage. Frank B. Schimpf, a neigborhood baker, paid $21,000 for the fifty-foot plot adjoining No. 2030 Amsterdam avenue, a five-story tenement for which Charles M. Anthon paid $35,000, and the baker also bought the building he occupies at No. 2038 Amsterdam avenue for $40,000.

The three dwellings at Nos. 453 to 457 West One Hundred and Sixty-second street were sold at $9,500 each to John King.

The nothwest corner of Amsterdam avenue and One Hundred and Sixty-first street, known as No. 2038 Amsterdam avenue, a three-story tenement with a two-story brick building in the rear was bought by H. Thielhelms for $30,250. The adjoining five-story tenement with store was acquired by F. D. Frank, tenant, for $40,000, and the abutting fifty-foot plot went to the Esther Realty Company (Max Cohn) for $12,100.

"It was a great sale," commented Joseph P. Day, who officiating as auctioneer, closed the entire proceeding within two hours, "and one which indicated in no uncertain manner the strenuous demand for improved property. As it was the first public auction since the passage of the new laws regulating rents, its splendid results should be an encouragement to the investor and builder."

Hubert T. Parson, president of the Woolworth Company, said that the estate was very well satisfied with the results.

The improved properties were about equally divided between speculators and tenants, while the vacant lots passed to buyers who doubtless will undertake operations in the near future as the lots are all advantageously located for immediate use.

Rules Landlords Must Prove Tenants Are Undesirable

JUSTICE GUY in the Appellate Division of the Supreme Court ruled that a landlord must prove that a tenant is undesirable before a landlord can evict him on the strength of the familiar clause of a lease permitting him to do so "if he deems the tenant an undesirable one."

Reversing the ruling of the Seventh Municipal District Court, which did not permit Samuel A. Woolman, a tenant of an apartment house owned by the Gorham Construction Company, to produce testimony that he was in no way "undesirable," Justice Guy said:

"We think the rule is clearly this in construing the effect of leases containing an undesirability clause similar to the clause contained in the lease herein: the landlord in making out his prima facie case must allege and prove that he deemed the tenant undesirable.

"The tenant is entitled to introduce competent proof to show that in so alleging and in bringing the proceeding the landlord has not acted in good faith, and upon the introduction of such proof an issue of fact is presented to the jury, which, if decided in favor of the tenant, requires a final order for the tenant.

"In determining this issue proof as to whether the landlord had reasonable ground for deeming the tenant undesirable is relevant and material."

The United States Bureau of Standards, after 150 days of testing, has decided that the 1:2:4 concrete mixture used in the construction of water storage tanks is sufficiently waterproof for the purpose. Although the head was 35 feet and there was a small loss of water due to penetration, the exteriors of the tank remained dust dry.

The United States Forest Service reports that in Florida is the largest stand of yellow pine anywhere in the Southern States, the amount being estimated at 50,000,000,000 feet.

Final Action of Legislature on Realty Bills in Doubt

Two Measures That Will Afford Some Relief Advanced to More Favorable Positions on Calendar and May Be Passed

(Special to the Record and Guide)

Albany, April 22.

CLOSING days of the Legislature have been marked by the customary rush and confusion with advocates and opponents of legislation affecting the realty and housing situation jockeying for advantage up to the final minute of adjournment.

The bill exempting the interest on mortgages up to $40,000 from the operation of the state income tax was advanced to the point of final passage late this week, indicating that it would go through as legislative leaders had promised last week, unless a last minute flareback developed.

The Burlingame bill exempting new buildings and reconstructed buildings from the application of the so-called rent profiteering laws was also pushed up on the calendar to a point of advantage. The sponsors for this measure were very confident it will go through.

The Abeles bill which would broaden the scope of the rent profiteering laws so as to include office buildings, lofts and parts of buildings used for mercantile and manufacturing purposes, were believed to be dead on Wednesday. Efforts to advance the measures on that day were fruitless.

A hearing given these measures on Tuesday brought to Albany a large delegation from New York City representing the Merchants' Rent Association. Headed by Senator Abeles, who introduced the bills, they advocated their enactment, claiming that in them only could relief be found. The opposition to the measures, led by Robert E. Dowling, John L. Parish, Alexander McNulty and Edward P. Doyle, representing the real estate owners in New York City, was vigorous and it was believed they had impressed the legislators with the necessiay of killing this legislation, unless they wanted to work a downright injustice.

Mr. Dowling very effectively portrayed to the committee the conditions that exist in the office and loft situation in New York City by outlining the series of increases in maintenance costs that have developed in the past few years. He pointed out that the wages of all employes, from cleaners to superintendents, and the cost of every item of service from elevator to telephone, has jumped, all of which contributed to enlarge the expense of maintaining office buildings.

He cited a specific instance of the injustice the 25 per cent. increase bill would work in the case of an office building which a few years ago rented for $200,000, with the lessee paying taxes and maintenance costs. The district where such office building is located has lost its attraction by reason of the uptown movement and the rent has dwindled to $38,000, with the owner paying taxes and maintenance costs. The application of the increase bill to a building of this character would deprive the owner from obtaining anything more than upkeep return.

John L. Parish, secretary of the Advisory Council of Real Estate Interests, declared that the Abeles bills violated the spirit of the Constitution, if not the letter, and were a direct assault upon the thing the Constitution aims to accomplish.

"The Legislature knows that these bills feed the appetite for lawless communism and tend to weaken the defenses of our existing social and industrial structure," said Mr. Parish. "The Legislature knows that however ideal a state of perfect communism might be, that halfway communism which consists in taking from one and giving to another can only end in disaster to all.

"It knows that the reason for the high rentals is an inadequate building supply. The conditions of supply and demand are similar to those in relation to housings, and the remedy is the same; a big drive in building operations of all kinds.

"This will come when the income from mortgages is released from taxation under the income tax to a moderate extent, as provided in the Lockwood-McWhinney bills in this Legislature and in the Calder-McLaughlin bills in the Congress at Washington.

"A big drive in building construction is the one and only way to meet the housing stringency—housing of the people and housing of all their varied industries. The Legislature can clear the way for, and make possible such a drive in building operations by lifting by a little, as provided in the McWhinney bill, the income tax burden under which the building industry now lies prostrate."

The fate of the Jenks bills, which would permit the public service commission to regulate local traction companies on a cost basis, to which strong opposition developed within the last ten days, appeared dubious in the closing days of the session. The same tactics employed for several sessions to kill legislative relief for the trolley lines, charges of graft and bulky lobby funds, were utilized this year. Mayor Hylan, of New York, inspired much of the opposition.

Threats to call an extraordinary session of the Legislature to force the enactment of his reconstruction program led to prompt legislative action upon the Governor's reconstruction program. The Governor served notice that he would not accept the compromise measures introduced by Senator Sage, but would insist upon the enactment of an executive budget, the consolidation of state departments, bureaus and commissions, which now number approximately 187, into 19 departments. The Sage bills are not so broad in operation. They were outlined recently in the Record and Guide. The contest over reconstruction has simmered down into a question of politics, whether the democratic or republican scheme will be adopted. The Legislature insists upon the Sage plan and the Governor upon the enactment of the measures framed by his Reconstruction Commission.

Due to the persistent efforts of taxpayer and other civic organizations, and as a result of the investigation made by Grover A. Whalen, Commissioner of the Department of Plant and Structures, the Astoria ferry is again to be put into operation. A resolution has been adopted by the Commissioners of the Sinking Fund of the City which provides "that the ferry service to Astoria, borough of Queens, should be restored by municipal operation." The matter was referred to Comptroller Craig and to Commissioner Whalen to work out a detailed plan for the purchase of the boats, ferry houses, etc. In his report, Mr. Whalen states that not only can the ferry be made self-sustaining, but that it will yield the city a net profit of $50,000 or more yearly; besides rendering an additional profit to the city in greatly increased realty values in Yorkville and Astoria.

Magistrates Protect Landlords From Tenant Soviets

Hundreds of Rent Cases in Courts Generally Decided on Twenty-Five Per Cent. Increase Basis, But "Profiteering Tenants" Fare Badly

THE Municipal Courts continued to handle hundreds of landlord and tenant cases daily during the last week. In the great majority of these increases of only 25 per cent. were allowed by the magistrates. Naturally there were instances where landlords of the "leaster" and "profiteer" classes received severe reprimands from the court.

One was fined $25 for telling Justice Davies in the Seventh District Court, Manhattan, that he was "unfair," another was made to pay $100 costs for bringing twenty tenants, including a number of women with children in arms, into court and then discontinuing action against them for non-payment of exorbitant increases in rent.

"We are simply educating the profiteers," said Justice Davies, "and they need it very much. As soon as they learn that the law holds 25 per cent. to be the limit as regards increases for the last twelve months, they will stop some of this overcharging. Some of them may lose money in cases where they made a poor investment by leasing from some other fellow who told them they could boost rents and make good money. That is their lookout. They knew what they intended doing had they been able to get away with it."

Regarding the organization of tenants at No. 740 Riverside Drive, where the landlord, William Landesman, demanded increases ranging from 60 to 92 per cent., Justice Davies said the tenants at that and two other houses controlled by Landesman should "sit tight." In offering Landesman 25 per cent. increases, he asserted, the tenants had done their legal duty. He advised that they wait for the landlord to bring action.

Justice Davies cited that section of the new laws which amends the Penal Law in relation to violation of the terms of a lease, which makes it a misdemeanor for a landlord to fail to furnish such service as the lease calls for, or "wilfully and intentionally to interfere with the quiet enjoyment of the leased premises."

Louis Steinberg, landlord at No. 1044 Bryant Avenue, the Bronx, stated in his petition to Justice Robitzek that he had not raised his tenants more than 25 per cent. Investigation by the court showed the raise had been as high as 60 per cent. When Justice Robitzek threatened to send the papers to the District Attorney's office on account of this, Steinberg announced he would discontinue proceedings. The Justice said all sworn statements regarding rent increases would be thoroughly investigated hereafter.

Harry Silverstein had to pay a $5 cost fee in the case of each of twenty tenants, whom he haled into court only to announce a discontinuance of proceedings against them.

In Justice Prince's court a rent strike came to a sudden and painful end. Twenty-four persons, members of the Harlem Tenants' League, produced a lease which expires May 15 and which carefully specified the obligations of the landlord, including a promise to "sack and fire the fresh janitor." They claimed the lease was not being lived up to and refused to pay their last month's rent.

"This landlord has not raised your rent nor tried to," the justice pointed out. "He seems to have kept the lease pretty well and you have waited until the last minute before accusing him. What do you want?"

"We want to get better terms when we renew the lease," said one of the strikers.

"Well, this court is not going to recognize any political party, or back up any Socialist rent strike," declared the justice. "You have come in here as tenants—and you have a poor case. Pay that rent by Monday or I'll issue eviction papers."

Trouble is predicted when the time for serving the warrants come.

Profiteering tenants took their turn in feeling the weight of the hand of justice when in more than 200 cases Justice Peter Shiel in the 2d District Municipal Court, in the Bronx, refused to grant reductions in rent, ordered prompt eviction, and undertook, he said, to break up a tenants' soviet. In some cases he even ordered tenants to pay more than the rental at which landlords were willing to compromise.

A feature of the week's proceedings was the assessment by Justice Robitzek of costs against landlords and tenants whose cases would not hold water under the new legislation. Three hundred dollars in assessments of $5 each was collected as a reminder that the court's time was too valuable to be taken up by improper cases.

A precedent which may weigh heavily upon landlords was established by Justice Leary in the Sixth District Municipal Court, East Thirty-eighth Street, when he ruled that when present profits are fair there can be no rent increase, not even the 25 per cent. which the law tentatively allows.

Joseph Gitsky, a landlord, was trying to evict twenty-two tenants from his house at 168 East Thirty-eighth Street because they refused to pay their April rents. He had raised them from $34 to $44. He was represented by G. Franck and the tenants by James O'Sullivan, of the Mayor's Committee.

Gitsky produced his account books. It was shown that he was making 10 per cent. to 12 per cent. on the old rate of rents. Justice Leary therefore ordered that he could not increase the price at all and refused eviction papers. If he had won the increase he would have made above 25 per cent.

Arthur J. W. Hilly, chairman of the Mayor's Committee on Rent Profiteering, discounted the "revolutionary" efforts on the part of Brownsville tenants to bring about a rent soviet on May 1. He added, however, that there may be some interesting developments in connection with the concerted agitation among tenants for a May Day demonstration in that section. Plain clothes men are working on the case, he said.

"I have been informed," said Mr. Hilly, "that all the tenants have been urged to pay all the rent increases asked of them and to make no protest or appeal to the Mayor's Committee or to the courts. It is then planned to have them all go on a rent strike, during which they will continue to occupy their houses without paying. The houses, according to what the agitators are telling the tenants, will be owned by them either collectively or individually.

"The police forces of the City Government will be used to maintain law and order. Any attempt to start the Red revolution on May 1 will be vigorously suppressed. The movement among the 25,000 tenants of Brownsville is the work of the same radical agitators who last October tried to start the same kind of trouble in the Bronx."

Leo Gitlin, organizer of the proposed strike of 25,000 Brownsville tenants on May 1, denied yesterday that there was any revolutionary or illegal intent, as has been charged, and said a committee would call on the Mayor to assure him of this.

Morris Feinstone, secretary of the United Hebrew Trades, denied that the trades had any connection with the Brownsville strikers.

The Legislature was denounced as insincere in its passage of the anti-rent profiteering bills by Ira J. Ettinger of the Board of Counsel of the Real Estate Owners' Protective Association, representing many landlords, at a meeting in the Hotel Majestic.

"With widespread profiteering, we see the Legislature has picked out one business—real estate—to express with these new laws, which will react as a boomerang on the men who voted them," Ettinger declared. "The Legislature was totally misled in passing those bills, as to the true housing situation in the city."

Chamber of Commerce Acts For Protection of Public

Begins Enrollment of Volunteers, Under the Leadership of President Alfred E. Marling, for Maintaining Order and Uninterrupted Transportation When Strikes Occur

ALFRED E. MARLING, president of tht Chamber of Commerce of New York State, called a meeting of that powerful and influential organization on Thursday last for the launching of a movement to counteract strikes through the registration of persons in all parts of the country willing to aid in keeping open the usual channels of communication and of transportation, food, fuel and passengers.

H. H. Outerbridge presented the following resolutions, which were adopted:

WHEREAS, Civilization is now menaced by false and distorted economic and political ideas, and the public welfare demands that the men and women of the Nation, who hold to high ideals of personal and political conduct, who believe in sound economic principles and in constitutional Government, shall now undertake more resolutely to fulfill their civic duties; and

WHEREAS, An irresponsible minority of the population of the United States has been organized with the purpose of making unreasonable demands, interrupting the normal channels of communication and of public service, pursuing a course of action inconsistent with our form of Government, thus imperilling the structure of government and the structure of society as a whole; and

WHEREAS, the spirit of good government, the demand for law and order, regard for individual rights and the maintenance inviolate of our Institutions still obtains in the minds and hearts of a great majority of our people in the various communities of the states of the Union, although unorganized for expression and manifestation; and

WHEREAS, the Executive Committee of the Chamber of Commerce of the State of New York has already acted to draw together and register those who are prepared to give their time to the preservation of social and economic order; therefore be it

RESOLVED, That the President of the Chamber of Commerce be and he is hereby authorized and requested to appoint a special Committee of Ten on PUBLIC WELFARE, whose duties shall be to draw up a plan of organization and co-operation whereby the public may, by volunteer service, aid in maintaining the usual channels of communication and of transportation of passengers, food and fuel; in the uninterrupted use of public utilities and in assisting the duly consituted authorities in preserving law and order, and be it further

RESOLVED, That said Committee, in the performance of the duties imposed on it shall have power to add to its numbers, to associate with itself other citizens who are not members of the Chamber and to co-operate with other organizations working to the same end.

President Marling was empowered to appoint the Committee of Ten. The executive committee of the Chamber has already started the registration of persons who are willing to volunteer their services when serious situations arise in the transportation of the country and its food.

Resolutions were also passed favoring the location of the National Budget Bureau in the Treasury Department.

Review of Real Estate Market for the Current Week

Throughout the City There Was Great Variety to the Market and a Strong Undertone to Real Estate Values

THROUGHOUT the city, this week, the real estate market pulsated with a variety of dealing. Sales of property took place in some streets whose names have not appeared in the real estate news columns for many years. The northern and southern ends of Manhattan were conspicuous for the volume of selling, while the Fifth avenue neighborhood, Greenwich Village, and the lower East and West sides abounded with substantial transactions. Numerous apartment houses passed into cooperative ownership with prospects of more doing so next week. Several commercial buildings were bought by the occupants, who thereby find a panacea for steadily advancing rentals and uncertainty of location. Firms whose old leases are expiring do not welcome a renewal on a long term at prices that are to them prohibitive. They prefer purchase of the particular property instead; and, this circumstance has much to do with the sale of numerous medium-sized old buildings downtown. Several tenants in the Fifth avenue neighborhood also bought buildings.

The news reports show that the cooperative apartment house buying movement has invaded Brooklyn and those parts of the New Jersey suburban area that contain apartment houses. Apartment rentals by individual owners have been markedly increased in these areas.

Leading the movement of the week was the leasing, for an aggregate term of 63 years, of the site of the old buildings 43 to 47 Broad street to a company that will reimprove the plot with a modern office building. In the light of the fact that J. P. Morgan & Company recently leased the Mills building, in Broad street, for a long term, it would seem that the neighborhood would thrive with a demand for much additional office space within the next two years, when many of the present leases in the Mills building expire and when hundreds of tenants must find new quarters in the same neighborhood. There are very few individual parcels of real estate left in the financial part of Broad street. The improvement contemplated is the most notable since the Seaboard National Bank began the erection of its new home at Broad and Beaver streets.

The sale of the old building at the southwest corner of Trinity place and Rector street—on the rim of the Syrian colony—calls attention to the fact that numerous Syrian merchants there are real estate investors in the section, the buyer of the Trinity place corner being the latest recruit.

Another noticeable feature just now is that savings banks and insurance companies are selling numerous holdings that they took in foreclosure and, on a rising market, are obtaining better prices than they had deemed possible. Speculators and investors both are buying dwellings from these institutions.

The selling of a good sprinkling of apartment houses in the old Dyckman tract recalls the fact that, a decade ago or less, operators and investors as a rule despaired of that section of Manhattan ever becoming an integral part of the city's housing area. It all proves that nothing real on this Island can long escape improvement.

Distinguishing this week, too, was the sale of numerous corner apartment houses on Washington Heights and in Harlem. Many good dwellings in the upper East and West sides changed hands. Some fine dwellings near Fifth avenue also were bought. One of the stately colonial houses on Washington Square North was bought for remodeling into studio apartments, thus marking the disintegration of an aristocratic block.

New Elliman Offices.

THE opening, this week, of the new headquarters of Douglas L. Elliman & Co., at 15 and 17 East Forty-ninth street, marked an auspicious event in the real estate market because it meant the tripling of a real estate firm's office space from business necessity within a few years. Mr. Elliman is one of the young men of the New York real estate market who has done things in it and his activities have been and are varied. The business of real estate today is so highly specialized and the requirements so increasingly exacting that where formerly a superficial knowledge of the values of property in this city was sufficient an intimate and profound knowledge is now so essential as to make the real estate business in its broader and deeper aspects a profession. And Mr. Elliman is a leader in the profesion. During a career on his own account of nine years Mr. Elliman has moved his place of business three times because of lack of space.

The new offices of Douglas L. Elliman & Co. cover three floors, each 33.4x100.5, in a new 10-story building which the firm owns. Future requirements are provided for in the extra floors. Distinguished for its safe and conservative course, this firm has participated in much of the substantial dealing in this city since its inception. Its most recent activities were embodied in the arranging of the two largest co-operative apartment houses in New York, namely, 290 Park avenue and 300 Park avenue, each of which typifies an investment of $4,500,000.

Notable among the Fifth avenue transactions of the firm was the assembling of the plot for the new building of Arnold, Constable & Co., at Fifth avenue and Fortieth street. Throughout the Fifth avenue neighborhood negotiations by this firm for principals in big deals abound. Seventy-five per cent. of the large sales and leases in the exclusive Park avenue section have pased through its hands. Consequently it was essential that its headquarters be established within easy reach of both the Park avenue and Fifth avenue section.

Among the large recent sales of the firm may be mentioned: for Mrs. H. F. Dimock to the Guaranty Trust Co. the northwest corner of Madison av and 60th st; for the Hahnemann Hospital to a syndicate a Park av block front, between 66th and 67th sts; for the same hospital it bought its new site on Fifth av, between 105th and 106th sts; the Verona apartment house at Madison av and 64th st; large apartment houses at 405 Park av, 635 Park av and 929 Park av, each involving $1,000,000 or more.

Some of the large leases negotiated by the firm were: the Emmett Arcade, at Madison av and 59th st, to the National Drug Stores Corporation; the block front known as 300 Park av; and numerous others.

In country properties, the sale of the O. G. Smith estate at Oyster Bay to John N. Willys, valued at over one million dollars.

Sale of 1025 Fifth avenue to Mr. Frederick W. Vanderbilt for his home; sale of 8 East 65th street, the former home of the late James J. Hill ,to Edward H. Litchfield; sale of large plot running through from 65th to 66th streets, between Park and Lexington avenues to Chas. H. Sabin, as site for new residence; lease of store corner 43d street and Fifth avenue to the National City Co.

PRIVATE REALTY SALES.

The total number of sales reported but not recorded in Manhattan this week was 160, as again 138 last week and 109 a year ago.

The number of sales south of 59th street was 62, as compared with 57 last week and 26 a year ago.

The number of sales north of 59th street was 98, as compared with 81 last week and 83 a year ago.

From the Bronx 49 sales at private contract were reported, as against 69 last week and 30 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 547.

Syrian Buys In Syrian Section.

Broadway-John Street Corporation, Elias A. Cohen, president, sold through Pease & Elliman to Michael D. Kaydouh, 50 Trinity pl, at the southwest corner of Rector st, an old 3-sty brick building, on a plot 46.3½x83.11. The other corners of these streets are occupied respectively by Trinity churchyard, the rear of the Empire building and the United States Express building. This is the one of four corners susceptible to modern improvement and forms an edge of the Syrian quarter.

Co-operative Buying.

Twelve tenants and others bought the two 6-sty brick apartment houses, each on a plot 50x102.2, at 316 and 318 West 84th st, from the Minaret Building Co. The houses contain 24 8-room suites and the present rental is about $35,000. This is the second time the property has changed hands in the last two months. The tenants, who will run the houses on the co-operative plan, were represented by J. E. Kean of New Rochelle, N. Y., and A. L. Bennett, a broker, who is one of the tenants.

RECENT LEASES.

Big Ground Lease in Broad St.

To mark a notable reimprovement of a Broad st site now covered with old four story brick buildings, the plot 43 to 47 Broad st, east side, has been leased by the Alliance Realty Co. to the Combustion Engineering Corporation, of 11 Broadway, for a term of 21 years with two renewals, making an aggregate term of 63 years. On the plot an 8-story fireproof office building is to be built, work upon which will be begun May 1, when all leases to tenants in the old buildings now on the site expire. The property fronts 62.8 ft in Broad st and has an average depth of 135 ft. The Alliance Realty Co. bought this property, last June, from Frederick B. Jennings and the estate of John G. McCullough.

Pease & Ellimann negotiated the lease. The old buildings have long been tenanted by curb brokers.

Artists Lease Unique Quarters.

For the purpose of securing superior light and isolation that insures privacy a group of artists have leased ,from the plans, apartments of unusual arrangement to be built on the south half of the roof of the Hotel Majestic on Central Park West.

This aerial artists' quarter will consist of a series of fireproof studios, some to be used only for working purposes and others for homes. The studios will overlook Central Park. The first one to be built will be occupied by Prince Paul Troubetskoy ,the sculptor, who is now in California, but who will arrive here in July.

Others who have signed leases are Ray Rohn and Frank Godwin, Philadelphia artists, who are moving to New York. Dean Cornwell, the illustrator, is moving in from Leonia. Martin Justis will have his New York studio there. Brinkerhoff, Webster and Briggs will have studio room there, but will live elsewhere.

The movement of the artistic colony from downtown to the upper west side in the last few years has been steady. Sixty-seventh st, between Columbus av and Central Park West, is filled with co-operative studio apartments, and among those living on that street are Flagg, Cootes, Hare, Ripley, and at least fifty others.

Big Loft Lease in Fifth Av.

ROY SCHERICK leased in the new Textile Building, now being erected by him on a Fifth av block front from 30th to 31st sts, large space on the 10th floor to Louis Hammer &Co., now at 334 Fourth av; also, in the same building, to Goodman & Theise a large corner space on the 12th floor. These leases cover a long term and aggregate about $300,000. Other tenants going into this building are Rudolph Schreiber, Mallinson Silks, Taylor Friedsam & Co., and the Union Exchange Bank, all for long terms.

REAL ESTATE NOTES.

FREDERICK NEHRING, of the real estate firm of Nehring Bros., has been elected a member of the Real Estate Board of New York.

JOHN CONSTABLE MOORE was the broker in the recent sale of 438 Broome st, for the Major estate.

DENWOOD REALTY Co., Ben Benonson, president, has taken title to 139 Fifth av, a 6-sty building, 32.6x147 irregular, which was sold recently by Countess d'Ardigne.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

BUILDING SECTION

New Downtown Office Building to Cost About $3,000,000

Twelve-Story Structure for Curb Holding Co., from Plans by Frank S. Parker, Will Occupy Washington Street Block Front

WORKMEN are now demolishing the row of old four-story brick building occupying the block front in the east side of Washington street from Carlisle to Albany streets, that will be utilized as the site for a modern twelve-story office building. The new project will have a frontage of 135 feet in Greenwich street and will be approximately 117 feet in depth. The Curb Holding Company, Inc., Lyman D. Crear, president, 44 Court street, Brooklyn, is the owner, and the building will be constructed according to

Frank S. Parker, Architect.
NEW DOWNTOWN OFFICE BUILDING.

plans and specifications prepared by Frank S. Parker, architect and engineer, 44 Court street, Brooklyn. The combined cost of the building and the land represents an investment of about $3,000,000.

This structure will be fireproof throughout and has been especially designed for the accommodation of tenants desiring office space in the downtown financial and shipping centers. The facades have been designed in a simple and dignified style, without excess ornamentation, and will be constructed of limestone, granite, face brick and terra cotta. The base will be of granite and Indiana limestone will be used to the height of the third story. Above this face brick, harmonizing in color will be employed up to the level of the ninth floor. Above this height, including the cornice, architectural terra cotta will be used.

Mechanically the new building will be equal to the best in this section of the city and in point of convenience and special service features, the tenants will have many advantages. Six high-speed electric elevators will be installed.

According to the present plans no general contract for this structure will be awarded. The owners will place separate contracts for the various branches as the job progresses. The structural steel will be furnished and erected by the Weatherly Steel Co., 51 East 42d street and the excavating will be done by the Marcus Contracting Co., 309 Broadway. The owners are now taking estimates for other sub-contracts.

Negotiations are now underway for the lease of a number of floors to well known business firms and it is anticipated that the entire structure will be leased long before its completion which is now scheduled for May 1, 1921.

Final plans have been prepared by George and Edward Blum, architects, for a new six-story, semi-fireproof office building, with stores on the ground floor, that will be erected at 321 to 323 Broadway, near Worth street. The structure will occupy a plot having a frontage of 50 feet 6 inches on Broadway, with a depth of 105 feet 5 inches. The owners and builders are Crystal & Crystal, 47 West street. This project is located in the heart of the white goods district and will replace the structure formerly occupied by Dodd's Restaurant. Some months ago plans were prepared for extensive alterations to be made to these premises, changing the building into a modern loft but a disastrous fire occurring during the blizzard that tied up the city and hampered the arrival of fire apparatus made a change in the plans.

The basement of the proposed new building will be particularly adapted for receiving and shipping dry goods. A sidewalk lift will be installed and the large basement will be lighted by vault lights. The first two floors will be divided into two large stores and the third, fourth and fifth floors, with ceiling heights of 11 feet 6 inches, will be subdivided as offices, showrooms and lofts. The top floor has exceptional headroom and in addition receives direct light on three sides which will make it especially desirable to some firm requiring the best possible natural illumination.

The façade of this building has been designed along severely plain lines, with a large amount of the space devoted to windows in order to obtain the best possible lighting. The windows on all floors extend from the floor to the ceiling and practically gives the effect of an entire glass front. The limited amount of masonry that will be visible in the construction of the front of this building will be of imported Travetine stone; the lack of embellishment emphasizing the natural beauty of the material employed. The base course will be of polished pink granite. The entrance has been designed in the Gothic style and the materials employed will be similar to that used in the front. The main entrance corridor will receive a similar architectural treatment, where the Travetine stone will reach to the ceiling height. This ceiling will be vaulted in mediaeval style. The floors will be of marble mosaic.

The decrease in the production of building materials in 1918, compared with 1917, averaged from 15 per cent. in lumber to 69 per cent. in brick.

Strikes Delay Building Material Deliveries In City

Brick Handlers and Drivers of Trucks Demand Higher Pay and Improved Working Conditions But Dealers Stand Pat

ALTHOUGH the recent settlement of the bricklayers' strike released for a start a number of building operations that have been pending for some months, actual progress on these jobs has been prevented to a large extent during the past week or so by the lack of building materials that resulted from the strike of the brick handlers and the drivers working for the building material dealers. The brick manufacturers are standing fast in their decision that no further increase in wages will be paid for unloading brick barges, and although they are experiencing some difficulty in discharging their boats, a fair supply of brick is available for all building requirements. The manufacturers state that the brick handlers are now getting an adequate wage for the type of work and that the unloaders are obtaining pay that is at the present rate considerably higher than that commonly paid for unskilled labor. Any increase above the scale of eighty cents a thousand which is now being paid would mean an additional cost to the consumers of common brick, and this the manufacturers are trying to prevent.

During the past week but little building material has been delivered throughout the city on account of the strike of the drivers. A few of the yards that have been run under the open-shop plan are delivering what they can, but the demands being made upon them have literally swamped their facilities.

The strike of the drivers for increased pay has lasted now for two weeks, but a number of the dealers are of the opinion that within the next few days the situation will be cleared up and that practically all of the men will have returned. In future, however, the dealers will not recognize a union and the men will have to work in an open shop.

One of the features of the strike of the drivers was the sympathetic strike called by the drivers of sand trucks. These men walked out without the sanction of the Building Trades Council, with which they are affiliated, and as a result the latter organization expelled the union. The result of this action will probably be that in future the sand producers will also insist upon the open shop for their drivers, just as the material dealers have done.

The strike of the elevator operators is slowly being settled. In all sections of the city elevator service in buildings is practically normal, and but little inconvenience is reported. In a large number of instances building managers have put women to work on the cars and the results are most satisfactory. In cases where strikers have asked to be reinstated in their jobs they have been taken back and some increases in pay have been allowed. There has been no change of attitude on the part of the Building Managers and Owners Association, however, and there will be none.

In an announcement made this week the Building Managers' Association states:

"Whenever statements from the union have been published saying that the elevator operators in certain large buildings have returned to work, having been granted all union demands, we have checked up each case with the managers of such buildings and have always found the statements untruthful, except in two cases, both of which were not represented in our association. We have reports from our members from all parts of the city stating that their elevator operators are returning daily in increasing numbers, and in each instance they have returned upon the owner's terms and without any recognition of the union whatsoever."

Increase in Proposed Building and Engineering Work

Figures Compiled by F. W. Dodge Company Indicate Vast Improvement in Volume of New Construction During Past Two Weeks

DESPITE the serious situation brought about by the recent railroad strike and the upset building labor conditions, the week of April 10 to 16, inclusive, was a notable period for the building trades. During the week reports of contracts awarded and new building and engineering projects in various stages of planning, in total, exceeded all previous weeks of the curent year and it is quite evident that just as soon as the building material and labor situations are adjusted the industry will pass into an era of unusual activity.

According to announcement by the F. W. Dodge Company a total of 455 new building and engineering operations were reported by architects in New York State and New Jersey, north of Trenton during the week of April 10-16. This work represents an expenditure of approximately $32,208,800, which is the highest total reported this year for any one week. In connection with this exceedingly high total the fact of paramount importance is that more than $20,000,000 of the entire outlay will be delivered to residential construction of various types. During the same week 245 contracts for new building and engineering projects were awarded that will call for an outlay of $28,137,700. In the work placed under contract the same improvement in the volume of residential construction is noticeable and provided the present growth in the amount of building of this type is maintained throughout the balance of this year it will not be long before the housing problem will be a thing of the past.

Among the 455 operations reported by architects and engineers as in the various early stages of planning were 94 business and commercial buildings including stores, offices, lofts, commercial garages, etc., $4,980,400; 5 educational projects, $761,500; 38 factory and industrial buildings, $2,069,000; 1 building for the U. S. Army, $10,000; 4 public buildings, $137,000; 26 public works and public utilites, $1,477,900; 7 relgous and memoral projects, $737,500; 266 resdential operations including apartments, flats and tenements and one and two-family dwellings, $21,208,500, and 14 social and recreational buildings $827,000.

The list of 245 building projects for which contracts were awarded during the week of April 10 to 16 inclusive comprised 52 business projects of various types, $3,274,500; 7 educational buildings, $1,799,000; 3 hospitals and institutions, $147,900; 22 factory and industrial projects, $2,371,000; 1 structure for the U. S. Navy, $57,500; 3 public buildings, $73,600; 20 public works and public utilities, $3,457,400; 130 residential operations such as multi-family dwellings and one and two family houses, $16,731,500, and 7 social and recreational projects, $225,300.

PERSONAL AND TRADE NOTES.

Max Hirsch, architect, announces the removal of his office from 215 Montague street to 26 Cort street, Brooklyn.

H. P. Knowles, architect, announces the removal of his offices from the Vanderbilt Concourse Building, 52 Vanderbilt av., to 21 West 49th st.

Ralph G. Macy, recently resigned as chief engineer of the Walter Kidde Co., to join the engineering staff of the Engineering & Appraisal Co., New York City.

Bannister & Schell, architects, for a number of years located at 67 Wall st., Manhattan, announce that they have moved their offices to 246 Fulton st., Brooklyn.

C. P. H. Gilbert, architect, who for a number of years has maintained offices in the Townsend Building, 1123 Broadway, announces that after May 1 his offices will be located in the Metropolitan Tower, 1 Madison avenue.

Frank S. Parker, architect and engineer, for some time past identified with large structural interests in Manhattan and Brooklyn, announces that he has established offices for the independent practice of his profession in the Temple Bar Building, 44 Court street, Brooklyn.

William J. Yennie & Co., Inc., 45 East 42d street, announces that they recently closed contracts for alteration work at 521 West 36th street for J. B. Marke's Co., from plans by William J. Russell; and also a large alteration at 5 West 50th street.

"Own Your Home" Banquet.

Final plans have been matured for the second annual "Own Your Home" banquet, to be held in the Hotel Commodore on April 30, at 7:00 P. M., in connection with the second exposition, which will be opened to the public on the following day. This exposition will continue throughout the week. A comprehensive program, embracing every industry concerned in the national building movement is being arranged by John H. Blod, chairman of the banquet committee. Governor Alfred E. Smith, Thomas A. Edison and other men of prominence have been invited, and many of the presidents of all the leading industries and associations engaged in the building movement have already accepted. The following are included in the membership of the dinner committee: Thomas A. McWhinney, Hon. Calvin D. Van Name, Hon. Frank Mann, Tenement House Commissioner; Hon. Edward Reigelman, President of the Borough of Brooklyn; Dr. Royal S. Copeland, Walter Stabler and John H. Kirby.

In the recent competition conducted by the landscape committee of the "Own Your Home" Exposition, the layout submitted by Jacob John Spoon was awarded the first prize. Second prize was awarded to Paul Allen de Tamble, of Cornell University School of Agriculture, and the third prize was awarded to Alberta Johnson, also a student at Cornell University.

New Building for F. F. French Co.

When the sixteen-story office building to be erected at the northwest corner of Madison avenue and 41st street is completed space will be leased only to tenants who take one or more floors, it was made known recently in connection with the announcement that S. W. Straus & Co. have underwritten an amortized first mortgage serial 6 per cent. bond issue of $850,000 on the structure. Construction work will begin at once. The borrowing corporation is 300 Madison Avenue, Inc.

The new building, which will occupy a plot 49 ft. 6 in. on Madison avenue and 74 ft. in 41st street, is in the very center of the uptown finincial district. The building will be designed and erected by the Fred F. French Co., 299 Madison avenue, architects, engineers and builders. The property was purchased and the loan made through the firm of Lawrence, Blake and Jewell, who were represented by Edward P. Blake. The owners believe that the new building will make a particular appeal to tenants because of the fact that there will be light on all four sides of the structure, and also because of the excellent location of the building.

The Fred F. French Co. will make this building their new home, occupying several floors. The ground floor, basement and second floor probably will be leased to a bank or trust company. The owners value the property at $2,000,000. Mr. French estimates that the gross annual income from the property will be approximately $300,000. It is expected the structure will be ready for occupancy next fall.

TRADE AND TECHNICAL SOCIETY EVENTS.

Ameircan Society of Mechanical Engineers.—Monthly meeting the second Tuesday of each month. Calvin W. Rice, secretary, 29 West 39th street.

American Hardware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14 inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convention at Buffalo, N. Y., June 22 to 25 inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary, Argos, Ind.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Cenl tral Palace from May 1 to 8, inclusive. Tentative plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

New Handbook Issued.

The Board of Standards and Appeals, John P. Leo, chairman, has issued a useful handbook, entitled "Rules." It contains not only rules of procedure, but the building zone regulations, resolutions relating to the Building Code, factory building resolutions, the building zone resolution and the rules adopted by the board concerning fire alarms, sprinklers, fire-escapes, elevators, fuel oil, etc., and in addition the forms used for applications and appeals. This source of information will be welcomed by many real estate men and builders; it can be purchased from the secretary of the board, James A. McMahon, Municipal Building.

CURRENT BUILDING OPERATIONS

BUILDING activity in New York City increased materially during the past week, and although the labor situation is not completely adjusted as yet, conditions are somewhat improved and as a whole the industry is more hopeful than it has been for some weeks past. A number of jobs representing large outlays of capital were placed under contract during the past few days and several important structural projects were sent out for estimates. Architects and engineers are exceedingly busy on plans for buildings that are scheduled for a start within a short time provided the building material supply situation makes progress possible.

Reports from the suburban districts indicate that builders have commenced their season's operations, and according to all accounts there will be a vast amount of new work undertaken this year. Small house construction naturally predominates, as the demand for housing accommodations in towns adjacent to the metropolis has maintained its intensity throughout the winter. There are many more home seekers than there are buildings for sale, and notwithstanding the plans of building interests for a season of active operations that will provide homes for a large number of families, the supply will fall short of the actual requirements.

The building material situation in and around New York City is a serious problem to prospective builders. Reports from Long Island indicate a famine of Portland cement and city dealers are unable to come to the assistance of out-of-town dealers, because of the shortage that exists here. Common brick is plentiful at present and new supplies are coming through regularly. Lath is scarce, as is hollow tile, roofing and building papers and glass. Building material prices are generally firm, but there has been some advance noticeable in those lines where a shortage exists.

Common Brick.—Despite the apparent lack of activity in the building industry throughout the city the New York wholesale market for Hudson River common brick experienced a fairly busy week. Twenty-three cargoes of brick arrived from up-river points and an equal number were disposed of on consignment to various docks about this city and New Jersey. The wholesale price is firm at $25 a thousand and dealers are not anticipating any change from this level for some time at least. The demand for brick is slowly gaining impetus and dealers are of the opinion that the remaineder of the year will see fairly active times in the brick market. The condition would be much better at present were it not for the strike of the brick handlers that is preventing the discharge of brick already bought. Dealers are not inclined to make any concessions to the unloaders in regard to increased wages, feeling that these men are now getting all that they possible can expect, and are holding out firmly against any action that would increase the price of brick. Yards along the Hudson are getting into shape for the season's operations, but up to the present time no actual brickmaking has been attempted owing to the inclement weather. Brick manufacturers are confronted with a serious labor shortage this year, and unless workmen are available in greater number than they were last year production during the 1920 season is likely to be curtailed.

Summary.—Transactions in the North River common brick market for the week ending Friday, April 23, 1920. Condition of market: Demand improved; prices firm and unchanged. Quotations: Hudson Rivers, $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, 23; sales, 23. Distribution: Manhattan, 5; Brooklyn, 15; New Jersey points, 5. Barges unsold, 5.

Face Brick.—The demand for this material is considerably in excess of the supply and local dealers have been hard pushed to complete their orders. There is an actual scarcity of face brick in this market and no great improvement in the supply is looked for, as the manufacturers are not in a position to maintain anything like a normal output because of the shortage of labor. Naturally the prices have been forced up and further advances

MATERIALS AND SUPPLIES

are to be expected. The demand for face brick for operations in the metropolitan district has been quite heavy, notwithstanding the fact that building operations have not progressed up to expectations, but if the volume of construction had been much greater the dealers in this commodity would have been exceedingly worried about the supply.

Hollow Tile.—The market continues its activity and prices are steadily advancing. Leading manufacturers are now only quoting on specific operations and then are not promising immediate deliveries. The majority of the near-by plants making this material are sold ahead for four to five months and inquiries are coming in in greater number thai it is possible to handle with efficiency.

Lumber.—Both wholesale and retail departments of this business have been very active during the past few weeks, and with construction now actually getting under way in good volume the prospects are considered excellent. Locally there is a sufficient amount of business either in hand or in sight to keep all of the yards about this part of the country busy to capacity throughout the summer months, and retailers are preparing for a steady demand from both building interests and manufacturing consumers. Lumber prices continue firm in all lines, with the same upward trend that has marked the past year or more. At the present time there are no factors in sight that would seem to indicate easier conditions or reduced prices for the remainder of the current year. Lumber producers are far behind in their orders owing to the difficulty of getting and holding labor, and the recent railroad strike has hampered shipments to a great extent. This latter condition is now improving, however, and the supply will undoubtedly increase.

Roofing and Building Papers.—There is a growing shortage in these lines and a number of manufacturers are reported to have withdrawn altogether from the market in an effort to catch up with their orders, which are considerably behind. Prices are firm at the new levels established a few weeks ago and the trade would not be greatly surprised if further advances were announced in the near future.

Structural Steel.—Since the settlement of the railroad strike the steel situation has improved to some extent, but the supply is nowhere near normal, and orders are piling up in the mills. Fabricated steel for building construction is growing in demand, but deliveries are exceedingly slow and in many instances promises of delivery are not being made under six months. Locally the demand is growing as building interests are more inclined to get their proposed operations actually started. There is a very fair volume of new construction now actually in progress and there is infinitely more in prospect that would be released immediately if supplies were available within a reasonable length of time. Prices are holding firmly and no important change is looked for at this writing.

Window Glass.—This market is in a serious condition and there is no prospect of things getting better for some time to come. Jobbers are of the opinion that the glass scarcity will maintain throughout the entire building season and may also be reflected in the business for next year. The present rate of demand is far in excess of the ability of manufacturers and jobbers to supply and every available bit of glass is eagerly snapped up by buyers, no matter what price is quoted. There are a number of important building operations being held from final completion on account of a lack of glass and the outlook is not bright for the projects that are now being started unless some change for the better should occur within the next month or so.

Nails.—There has been no improvement in the supply of either cut or wire nails during the past week or so and jobbers' stocks are practically depleted. The difficulty has now lasted some months and there seems to be no prospect of better conditions, as the manufacturers are literally swamped with orders that will demand their entire output for months to come. Prices are exceedingly firm.

Artificial Stone is growing in popularity

▼

Unlike other Building Units, Artificial Stone is a NON-CONDUCTOR of DAMPNESS, COLD and HEAT. It reduces building costs and expedites construction. A wide variety of facing effects produced with crushed granite, marble, brownstone, Indiana limestone, carborundum, etc., makes it a sightly stone for every type of structure and its durability insures the lowest possible maintenance cost.

We court investigation of the most searching kind, and are always pleased to go over the subject in greater detail with anyone interested in building for permanence, beauty and economy.

"McLaury for Tile"

We want to impress strongly upon the architect, the owner, the contractor, and the builder that we have an extremely large and varied stock of tile on hand for immediate delivery.

It is by maintaining, at all times, an efficient force of workmen, and by getting our material on hand ahead of schedule that we are enabled while still making a fair profit for ourselves, to quote such reasonable prices for our product.

Facts About the Rental Situation

There has been much misrepresentation of basic conditions in the heated discussions of the rent question. Such a storm of undeserved vituperation has been raised against all landlords that the Record and Guide presents elsewhere in this issue a dispassionate and comprehensive statement of the reasons for rental increases, together with a digest of the recently enacted legislation, giving both landlords and tenants accurate information as to the effect of this legislation from the standpoint of each.

This is the first authoritative and comprehensive presentation of the facts bearing on the conditions which are culminating today in threats of widespread rent riots. It gives proper consideration to the various and often conflicting elements which enter into the question of the fixing of rental values—a phase of the matter about which there has been too little general information.

The facts established as to the percentage of advance in prices of everything on which costs of building and of building management are based should receive more attention than has hitherto been accorded them, although the higher prices of every other element entering into the cost of living has been given due weight in establishing new scales upon which values rest.

The entanglements, inconveniences and prolonged litigation which may result from the new rent legislation should cause tenants to withhold their unqualified approval of the new laws until they have been given the acid test of court procedure. The law does not fix a twenty-five per cent. increase as the limit rents may be raised. It may be legally established that much higher rents are justifiable and can be collected by due process of law. Landlords and realty owners will find in this statement of the legal aspect of the situation much information which will be of importance to them in protecting their interests.

We commend to our readers a careful perusual of the statement, which should prove of real value in bringing about more stable conditions in the rental field through a more thorough appreciation of the facts at issue. These facts should be given the widest publicity.

The authorities may be depended on to deal with "Soviets" which attempt to set up a standard of their own with respect to ownership or tenancy of buildings. Our officials are alive to the necessity of safeguarding the principal assets of the municipality. May Day will have the Red, White and Blue, not the "red" alone, as its color scheme.

This Port Thrives Despite Neglect

Unwilling as Congress is to make any adequate provision for expanding the port of New York, the latest available figures show that this great port insists on going ahead despite all obstacles.

A valuable lesson could be learned by members of Congress from the South and West if they would take the trouble to study the figures which Collector Byron R. Newton recently made public showing the volume of business at the port of New York during March. In that one month a total of $22,281,878.58 was collected on goods, mostly luxuries, which were brought into the United States at this port. This was the largest amount of customs collection ever recorded here. It exceeded by nearly $300,000 the previous high record for one month, which was established ten years ago, long before anyone dreamed that world trade would be completely shattered by a stupendous War of Nations.

It is interesting to note Collector Newton's statement that at the port of New York more money is collected in customs duties than in any other two ports of the world, not excepting London and Southampton.

The New York delegation in Congress could utilize their efforts to good advantage by bringing these facts to the attention of their fellow members from the South and West. The neglect of the port of New York by Congress long has been a national scandal. The record-breaking figures for March, as made public by Collector Newton, are so impressive that this would seem like a psychological time for New York's representatives at Washington to redouble their efforts in behalf of proper consideration for the expanding needs of this great port.

A Do-Nothing Legislature

Disappointment is expressed on all sides over the shortcomings of the Legislature of 1920, which ended its regular session early last Sunday morning, after having dumped on Governor Smith's desk about one thousand additional bills passed during the closing hours of the session.

Accustomed as are the people of New York City to receive scant consideration from the state lawmakers, it must be conceded that they fared even more poorly than usual at the hands of the 1920 solons. The property-owners of the metropolis and the business and professional men who constitute the substantial elements of the population, were denied even a small measure of relief from tax and other onerous burdens. In fact, they find themselves confronted with much greater tax burdens than ever before with practically no compensating advantages. The expenses of the state government for the new fiscal year will be the largest on record, the property-owners of the metropolis even being made victims of such injustice as the payment by them of millions of dollars towards increased salaries of school teachers in other parts of the state. Mayor Hylan made a proper and vigorous protest against this outrage, but his pleas were ignored.

Aside from passing in haste a dozen half-baked laws aimed at rent profiteering, the Legislature took no action on various problems vitally affecting property-owners in New York City. Nothing was done to alle-

viate the housing shortage. Every measure calculated to stimulate building and to attract money into the building field was sandbagged either in the Senate or the Assembly. Even the bill which would have made possible the temporary use of thousands of tenement house properties for living quarters during the housing shortage went by the board. No Legislature, through its indifference to the welfare of the metropolis, ever furnished stronger argument in favor of separating New York City from the rest of the state.

After defeating Governor Smith's plan of reconstruction of the state government, which had the indorsement of many prominent citizens regardless of politics, the Legislature finally adopted its own plan of reconstruction, which will be submitted to the people in 1922 if approved by the Legislature of 1921. The differences between Governor Smith and the Legislature on this subject were purely political. The Governor's plan, it is generally agreed, was more sweeping in its effects than the one adopted. Presumably this means that while one plan would save the taxpayers a very large amount of money each year, the other plan would save them some. It will be difficult, however, to convince the average citizen that a plan of reconstruction endorsed by so many reputable men as stood back of the Governor's plan should not have been adopted.

Legislature Adjourns Leaving Vital Problems Unsolved

(Special to the Record and Guide)

Albany, April 29.

LACKING just five votes, the bill exempting mortgage interest from the state income tax failed of passage a few hours before the Legislature adjourned. Supporters of the measure, led by Assemblyman McWhinney, made a strong fight for the passage of the bill in the Assembly after it had been reported out, but in spite of this the necessary votes could not be raised.

Calls of "result" after the first vote was taken precluded the possibility of rallying several members who were out of the Assembly at the time the vote was taken, and thus the last chance of this session was lost. Assemblyman Judson, chairman of the Assembly Committee on Taxation, was vigorous in his opposition to the bill, and many of the upstate members, who had been advised that it was drawn in the interest of certain title guaranty and trust companies by the opposition, and believed this false story, lined up behind Judson.

Alexander McNulty and Edward P. Boyle, representing the New York City Real Estate Board, were active until the minute the Legislature adjourned. They are largely responsible for having the bill reported out and moved for final passage. Their efforts, however, were met with the organized opposition in the Legislature to any legislation which involvod the interests of the property owners.

The other bills designed to permit the alteration of tenement houses into habitable dwellings by temporary suspension of the restrictive provisions of the tenement house law were also lost.

The same sentiment which forced the enactment of the so-called rent profiteering laws without regard for the rights of the property owners, persisted to the very close of the Legislature and to this sentiment can be attributed the failure of legislation drawn for the purpose of stimulating construction and providing more dwellings.

Some of the legislation in which real estate owners were vitally concerned and which was defeated included the municipal ownership of public utilities.

Other legislation favored generally by real estate owners by reason of the fact that its aim was the reduction of administrative expenses, which failed, includes the Governor's reconstruction program, providing an executive budget and the reduction of the number of state departments, and home rule or cities.

In the final rush of legislation the following bills, which either directly or indirectly affect the owners of real estate, were passed and sent to the Governor:

Senator Dodge, authorizing the chairman or the acting chairman of the Board of Standards and Appeals to administer oaths and compel the attendance of witnesses.

Senator Sutherland, affecting awards for damages to lands and buildings arising from the grading of streets. Under this bill the word "lessee" is defined to include only such persons whose leases do not expire in three years instead of ten years from the date of completion and acceptance of the improvement by the city. The act is not applicable to any claims for grade change damages now pending before assessors.

Senator Karle, amending the New York City charter by providing that in computing assessments on property benefited by local improvements all property within the area of benefit, although otherwise exempted by law, shall be included in such computation.

Senator Dowling, appropriating $2,500,000 for the improvement of the Harlem Ship Canal in order to aid the Federal government scheme of enlarging this channel.

Senator Miller, appropriating $250,000 for the purchase of a new site for the New York City arsenal, selection of such site to be made by the adjutant general upon the execution of the sale of the old arsenal located at Seventh avenue and Thirty-fifth street.

Senator Walker, authorizing the New York City Board of Estimate to allow claims against the city to cover the necessary cost and expense incurred under any contract for construction of a public work or utility made by the city prior to April 6, 1917, and performed at increased cost during the period of the war.

Senator Swift, permitting the incorporation of five or more persons as a co-operative corporation or association to take title to real estate with the same rights and privileges as a private person.

Senator Russell, amending the real property law by providing that no person not in actual possession or a holder of record title for at least thirty days shall demand or receive increased rental. This bill, which is designed to prevent profiteering in leases and curb what is called "short turnovers" in renting and leasing property, does not apply to bona file lessees of real property.

Assemblyman McDonald, providing that no tax lien shall be sold at public auction unless notice of sale has been served upon the owner of such property by registered mail at least three months before the date of such sale.

Assemblyman Simpson, effecting changes in the New York City budget relative to publication of estimates and preparation of schedules.

Among the constitutional amendments which were passed for the first time were the Sage reconstruction bills providing for the consolidation of state departments. This reconstruction program was passed after the Legislature had defeated the plan of the Governor's Reconstruction Commission.

An amendment designed to give counties a larger measure of authority over their own affairs, introduced by Stnator Law, was also approved. This measure is known as the county home rule amendment.

Governor Smith last Wednesday signed the bill pertaining to the Victory Hall Association, which was introduced by Miss Margaret L. Smith, member of the Assembly from Manhattan. The measure enables the association to condemn property upon which to construct a hall and public forum in commemoration of the soldiers and sailors of the World War.

May Day Rent Strikes Called Off by Tenant Soviets

City Authorities Take Action to Prevent Any Trouble, But New Laws Cause Chaotic Situation

PRECAUTIONS taken by the municipal authorities make it unlikely that there will be any serious or widespread disturbance today in the Bronx or Brownsville. It is estimated by City Marshals that 25,000 to 30,000 families will be enacted within a week, but that the May Day rent strike will become of large proportions is not believed by Arthur J. W. Hilly, of the Mayor's Committee on Rent Profiteering.

Leo K. Mayer, counsel to the committee, said that tenants were still being enrolled in a rent strike organization, and that about $20,000 had been collected. Mr. Hilly said he was prepared to go before the Bronx County Grand Jury and give them all the information in his possession. Assistant District Attorney C. R. McLaughlin said the police in the Bronx would be ready to cope with any disturbance, but the he did not believe there would be any trouble.

Mr. Appelbaum of the Mayor's Committee went to Brownsville and was told that the leaders had called off the strike in that district and the Mayor's Committee immediately began to ask questions as to what is to be done with the $20,000 defense fund which is reported to have been raised.

The chaotic situation caused by the new rent legislation was revealed yesterday by Charles Morris, President of the Moving Van Owners' Association. He denied van owners were profiteering and said the new rent laws have brought the moving van business practically to a standstill, while small owners were being forced to the wall.

"In anticipation of the usual spring business the moving van owners built up their organizations and increased their staffs," he said. "Now they find that they have work for not more than one-half of their men. Until this week the work that the moving van owners did was absolutely nil."

Threat of a strike of moving van employes overshadowed the proposed rent strike. Approximately 3,600 employes of members of the Van Owners' Association of New York have submitted demands for an increase of $5 in their weekly wage. They ask that the increase go into effect by Monday, when most of the May moving is scheduled to take place. The men are now paid $28 to $32 a week.. According to men who are in close touch with the housing situation, most of the troubles which have gathered around May 1 will be transferred to October 1, and the crisis next fall will be intensified beyond anything New York has ever known.

People do not dare move, for no one can tell with certainty where he will land, once he puts his furniture into a van. Another factor which will prevent the usual moving activity now is that several circumstances will combine to spread this year's spring moving over several days.

It will not be until the courts begin to grind out the thousands of eviction cases which will come before them next week that a real movement will get under way.

The impossibility of assurance that a tenant who starts to move will get the place that has been promised him is the chief factor in checking moving, according to A. J. W. Hilly, chairman of the Mayor's Committee on Rent Profiteering. A vicious circle has been created by the housing shortage, he points out, and there is no way in sight to break it.

Because of fear that promised apartments cannot be delivered to the new tenants those same tenants refuse to leave their own, and so they in turn make it impossible for incoming tenants to move. The courts are taking a large share in the responsibility for this situation, for since the new rent laws went into effect on April 1 they have been granting stays for more than a month in 99 per cent. of the cases, and the attempts to oust tenants on May 1 by court action have thus been blocked.

Both in downtown business offices and in loft buildings there will be considerable activity. It is estimated that about 500 brokers alone have planned to move, because of the need of increased quarters or of the action of owners of office building in putting up rents in certain localities. A large number of loft tenants, also, are planning to move in the hope of decreasing rentals. Wall Street has a holiday today to permit readjustments without financial loss.

The highest record for tenants' complaints, so far as Magistrate Corrigan is concerned, was hung up yesterday when twenty-one tenants in a house at No. 36 East 118th street, owned by Mrs. Helen Fuld, sixty, of No. 28 West 128th street, appeared against her.

Mrs. Fuld is owner of much property in that section of the city and when Magistrate Corrigan heard the complaints he declared that already he had received twenty-nine complaints from other tenants against her. This is a record in Harlem, Corrigan said.

Mrs. Fuld's tenants charged that she cut off the water supply three weeks ago because they refused to pay a rent increase of $6. This was denied by Leonard Fuld, her son and lawyer. Mrs. Fuld was previously fined $100 for failing to provide sufficient heat for tenants, and $50 for failure to provide sufficient water.

Realty Board's Golf Tournament

THE spring golf tournament of the Real Estate Board of New York will be held Wednesday, May 19, 1920, at the Cherry Valley Club, Garden City, Long Island. The following competitions are on the program:

Prize known as the President's cup, presented by former President, Mr. Laurence McGuire, for the lowest net score for 18 holes, all classes competing. Must be won twice.

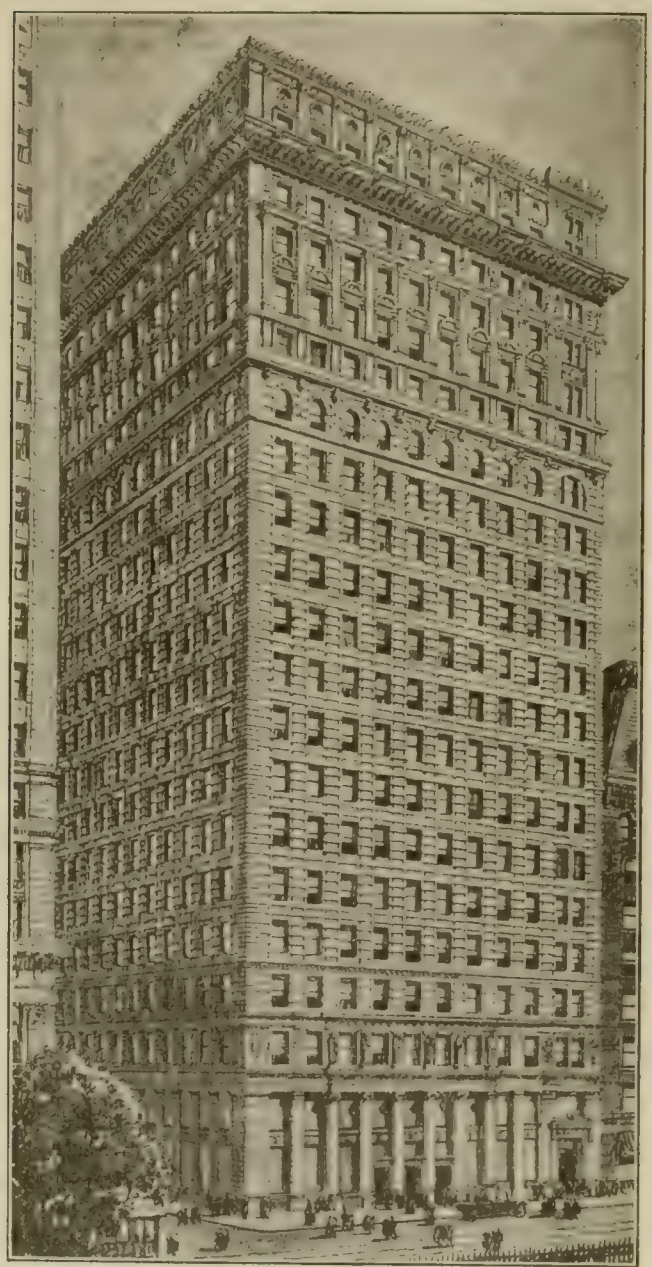
Prize presented by the President, Mr. Stephen H. Tyng, for the lowest net score for 36 holes, all classes competing.

Class A—Handicap 0 to 10. A special prize presented by the Golf Committee for the best 36 holes net. Must be won twice.

Class B—Handicap 11 to 20. A special prize presented by Mr. Harold C. Richard for the best 36 holes net. Must be won twice.

Class C—Handicap 21 to 30. Edward D. MacMannus Memorial Cup for the best 36 holes net. Must be won twice. Presented by Mrs. Edward D. MacMannus.

There will be a "Guests' Special" prize both morning and afternoon. Only one prize will be awarded to any one person. The charge, including greens fee and luncheon, will be $6.50. Luncheon will be served from 11.30 A. M. to 2.30 P. M. It is requested that entries be made promptly. Please state your last year's handicap, and any other information which you believe might be of assistance in correctly determining the handicap which you should receive. Play will start at 9 A. M. Players have the privilege of bringing one or more guests.



Golf Committee: John H. Hallock, chairman; John M. Stoddard, Edwin E. Zittel, Frederick D. Kalley, F. S. Bancroft, William L. De Bost, Leo M. Klein.

Big Addition to One of New York's First Skyscrapers

Twenty-Story American Surety Building Will Extend Over Site of Schermerhorn Building on Lower Broadway

THE American Surety Building at 100 Broadway, one of the first skyscrapers to be erected in New York City, is soon to be expanded, according to an announcement just made and a general contract for the work involved has been awarded to the Cauldwell-Wingate Co., builders. About this building has clustered the tremendous development of the past twenty-five years and in the construction of the original building many entirely new structural methods were used for the first time.

When this twenty-one story structure was completed in 1895 it was the tallest building in the city; it was one of the first skyscrapers built on a steel framework and the first building construction work involving the use of caissons.

Cauldwell-Wingate Co., Builders. Herman Lee Meader, Architect.
AMERICAN SURETY BUILDING ON BROADWAY.
The present building is to be expanded by the demolition of the Schermerhorn Building, which surrounds it and the erection on the site of an addition in the same style and height as the Surety Building.

When the original building was designed by Bruce Price a number of entirely new problems had to be solved and the striking success achieved in their solution is responsible for many of their principles and methods being widely adopted in subsequent skyscrapers. The use of the classic styles of architecture in modern office buildings may be traced to the American Surety structure. Some of the problems which are not taken for granted presented real difficulty at that time. The openings in the building had to be square and large and with the least possible depth, the solid wall space had to be reduced to a minimum and an effective facade had to be designed for a huge cube pierced by many windows. The architect worked on the idea that a big building must always be impressive by its mass and that therefore the main need was for a nice balance in the proportions of the decorations.

The principle of the design is the column, which has since become popular with architects of tall buildings. There is a base, a shaft and a capital, each including a group of stories, the three parts being clearly defined. The shaft is naturally the tallest and least ornamented part of the column. Though the design is predominantly horizontal in its elements, there is no effect of breaking up and piling up the parts on top of the other as is so frequent in many later efforts in similar structures. The first and second stories are embraced in a single order, Ionic, and are treated as a podium to the floors above. The third and fourth stories, with their string courses, form the division of the base. The shaft rises from the top of the fourth to the fifteenth, including ten stories, where it meets a band, above which there is liberal use of ornament. The perpendicular treatment of the four stories between the cornice at the sixteenth and the principal cornice at the nineteenth, with its cyma, crown, modillions, dentils and egg and dart mouldings, gives balance and completion to the design and form an appropriate capital enrichment.

The addition will involve considerable reconstruction. The south and east walls must be removed in the expanding process. In order to balance the new facade the three-story base of the building, involving the columns, entrance and statuary, will have to be shifted to center them. An important part of the Broadway facade will also necessitate the removal of two carved draped figures at the fourteenth and fifteenth floors.

An interesting structural situation will be encountered as the work approaches the upper floors. In the original building, in order to attain the refined lines of the classic design, the walls recede. When the addition is erected it will therefore have to be wider at the top than at the bottom. This will affect the steel framework and the flooring. The flooring and the partitions of the existing building are to be renewed entirely, their service having been twenty-five years.

This downtown new development completes an interesting relation between the two buildings. When the Surety Building was first constructed the cornices and decorations extended about five feet far over its neighbor. In order to avoid litigation, the American Surety Company took a 99-year lease on the Schermerhorn Building, paying five per cent. a year of the appraised valuation of $1,500,000, or $75,000, and also the taxes and carrying charges. When the Astor real estate buildings were sold some months ago the American Surety Company bought the seven-story building for the original valuation of the land at $1,500,000.

As a result of the enlargement of the Surety Building the rental space will be increased from 4,316 to 12,000 square feet for seven floors above the ground and to 11,000 from the eighth to the top. The Liberty National Bank has leased the banking rooms for a long term, giving it what is said to be the largest banking space of any in the city.

Herman Lee Meader, of New York, is the architect in charge of the improvement, and Ernest Graham, of Chicago, is consulting architect.

Why Rentals Are Higher and What Increases Are Just

Comprehensive Analysis Showing Essential Causes of Existing Situation, What the New Legislation Has Effected and What Course of Action Should Be Followed

THE following factors are the essential causes of higher rents:

1. *The under-production of housing facilities,* due at first to the diversion of productive activities to war work, and subsequently to the high cost of building materials, labor and funds;
2. *The rapid increase in the population* of New York, resulting not only from the normal increase, but also from people moving into large cities as the result of conditions due to the war.
3. *The decreased purchasing power of the dollar,* due to vast currency inflation, not only in the supply of money but also of its substitutes (Government bonds, bank credits, etc.).

How much increase over pre-war rents is justifiable?

How far can the situation be relieved?

What are the basic economic factors?

What are the really wise steps to be taken?

As the sole permanent remedy for high rents is more buildings, how can they be secured?

So serious a situation calls for clear understanding of fundamentals.

What Is the Final Cure for High Rents?

The population of New York increases normally at the rate of about 150,000 a year. Its requirements annually for increased housing facilities are therefore great. Yet, each year many dwellings are torn down to make room for loft and office buildings.

There is only one permanent cure for high rents—more building. If rents are too high, building is stimulated. If rents are too low, building activities slacken or cease.

The rent profiteer is not only selfish but stupid, and he defeats his own ends. No one can disapprove his practices more than the farsighted landlord, but—

Bad laws are useless or worse. If capital is intimidated and diverted from new construction the situation becomes even more serious. If new laws are unconstitutional, they will be set aside by the courts sooner or later. If they are economically unsound and discourage investors, money for building purposes disappears—it goes into more favorable opportunities.

The only final cure for high rents is MORE HOUSES.

Much of the Rent in Better Class Apartment Houses Is for Luxuries, Not for Housing.

The rent problem is wholly different in the better class elevator apartments and in ordinary flats.

The tenants of the former do not pay principally for shelter or housing accommodations as such. Probably one-half of what they pay nominally as rent is expended for selected location, exclusiveness, *and for a high quality of equipment and service—involving large current expenditures for wages and materials.*

The high class apartment house has been developed in New York in point of convenience and luxury far beyond that of other cities in America or Europe. It contains the last word in modern equipment—in the character of the heating, plumbing, ventilating, electric and elevator installations, which are expensive not only in the original installation but also in the maintenance.

Exclusive character and luxurious service are obtained by furnishing at considerable and growing expense:

Hall service,
Door service,
Telephone service (interior or outgoing),
Porters,
Laundry service.
Elevator service.

A single apartment often contains from three to five bathrooms. In many the temperature is controlled automatically by thermostatic devices.

Special attention is paid to the design and distribution of closet space and closets are specially fitted and illuminated.

In many of these houses separate passenger and service elevators are operated 24 hours in the day.

The decoration of these houses is costly.

Wood-burning fireplaces and other special features are frequently installed.

Why Is Your Rent Higher?
An Analysis of the Present Cost of Operating and Maintaining Existing High Class Apartment Houses.

Let us first consider:

Operating and Maintenance Expenses, Taxes.

The wages, repairs, redecorations, liveries and supplies for maintaining such service and accommodations as were formerly supplied, and as are still desired by a large majority of tenants of high class apartment houses, have, in the aggregate, more than doubled in cost in the last five years.

Wages.

Not only have wages increased 100 per cent., but in operating apartment houses the recently enacted "Day of Rest" law has necessitated the employment of more help.

Unionizing of apartment house help is being strongly agitated, with a demand for a further increase of wages of 50 per cent. over the present wage scale and an 8-hour day. These demands, which may be reasonable, nevertheless would force another increase of at least 100 per cent. over the present wage cost, and would entail an increase of 200 per cent. over pre-war wage cost.

Coal.

The price of coal has (to date) increased 125 per cent. The recent 27 per cent. increase in coal operators' wages will still further increase the cost of this commodity.

Taxes.

The real estate tax rate has been increased from .0178 in 1914 to .0248 in 1920, or 40 per cent. It will probably go to .03 next year, or certainly the year after, an increase of 70 per cent. In view of already enacted and pending teachers' salary increase legislation, and other salary increases which must be granted in the near future to policemen, firemen, street cleaners, etc., this increase in taxes can not be avoided. It may take the form of increased assessments instead of increase in rate, but the resulting increase in cost of taxes will necessarily follow.

Operating and maintenance expenses, taxes, etc., consumed approximately 50 per cent. of the pre-war gross rental. The problem is one of simple arithmetic. To meet this 100 per cent. or more increase in operating and maintenance expenses alone, rentals in high class apartment houses must be increased at least 50 per cent.

Interest Charges.

First mortgage interest rates before the war were 4½ to 5 per cent. Today they run from 5½ to 6 per cent., an increase of not less than 20 per cent.

First mortgage interest charges formerly consumed approximately one-fourth of the gross income. Since interest charges have increased 20 per cent the additional rent that must be charged to cover this extra expense is a sum equal to 5 per cent. of the pre-war rent.

Business Risk.

Contrary to popular impression, real estate is highly speculative. The gains of one year are often lost the next.

Everyone is familiar for example with the old dry goods section adjoining Twenty-third street between Fifth and Sixth avenues. In a brief period the large retail stores deserted this quarter. Other tenants followed suit. After the large department stores, B. Altman & Co., Lord & Taylor, Sterns, McCreerys, and many more, moved uptown, whole buildings stood idle for years.

Similar conditions obtained periodically on the lower East Side, in the Bronx, in certain sections of Brooklyn, and even in the better residential sections of Manhattan.

The development of a new section usually causes a rapid decline

in others. Losses in real estate values due to this cause have run into millions.

If in building and real estate enterprises the builder and investor is forced to bear the losses of lean years without the right to recoup his losses in better times, *it means the retirement of capital into other lines of business.* The result will be cessation of building and higher rents than ever.

Depreciation of Owner's Income.

Rents have risen much less and much more slowly than the prices of food, clothing, and of practically all other commodities. The public has not realized this fact.

According to recent official figures issued by the United States Labor Bureau the average increase in the price of food in the war period was 102 per cent. All articles of clothing have increased 125 to 150 per cent. in cost. Dun's (R. G.) Index Number of prices shows an increase on April 1, 1920, of 113.6% over the Index Number of August, 1914.

Men engaged in apartment house building and operation as a permanent vocation, *as investors and developers rather than as speculators,* must take into consideration what the business, over a long term, will produce for their livelihood and support, and to maintain the integrity of their capital investments.

The dollar has lost in purchasing power, hence it takes more dollars from a given business to make that business equally attractive as a means of support.

The business man will invest his time, effort and capital only in an undertaking in which prices are permitted to meet increased costs.

Since the dollar's purchasing power has been cut in half, an addition to pre-war gross rentals amounting to 25 per cent. is required to offset the loss in value in the 25 per cent. of the gross rents, which the owner of the property formerly employed in defraying second mortgage interest charges, if any, in providing for depreciation and amortization and in providing a return on his investment.

Summary.

In the analysis above, the reasons necessitating increase in rents appeared as follows:

For operating and maintenance.....50% increase in rents.
For 1st mortgage interest charges..... 5% increase in rents.
For 2d mortgage interest charges, amortization, depreciation and owner's income..25% increase in rents.

Total.....80%

The above total increase over pre-war rents, amounting to 80 per cent. in the rentals of *all* of the apartments in an apartment houses of the better class, is required or the owner will receive a lower actual return than in pre-war times.

This calculation ignores altogether the fact that some neighborhoods have improved greatly since 1914-1915. Owing to new subway lines, increasing population, etc., values have risen and rents would have increased in any event regardless of the extraordinary conditions directly traceable to the war.

Finally, there is a factor of vital importance. This factor has two phases. Leases in high class apartment houses are never made for less than one year; many are for five years or even more. *The average lease is not less than three years.* In the inexpensive flats, rents have been raised in smaller percentages and raised *frequently,* but the rents in high class apartment houses must be adjusted at longer intervals, and hence in greater percentages when the time for the readjustment arrives. *All owners of high class apartments have been operating during the last two years under conditions of diminishing return.* Bound by long term contracts, they were obliged to accept entirely inadequate payment based on conditions which had altered fundamentally.

The second phase is that *an owner making a lease at the present time for a new term of three to five years is selling for future delivery a commodity whose cost is not only absolutely undeterminable but at the present time highly speculative.* The previous discussion and figures show how much the cost of operation and maintenance has risen in the past five years. Very simple considerations of justice and equity require, in the absence of a guaranteed fixed return, that the seller of this commodity, for future delivery, be allowed to obtain a price which will reasonably provide for further increase in the cost of same.

Rents in New Buildings.

The Rents that Must Be Obtained in New Buildings Are Much Higher Than the Increased Rents That Are Generally Being Asked in Existing High Class Apartment Houses.

Rents that are asked, obtained, and that are necessary in the handful of *new buildings* that are being erected, run from 150 per cent to 175 per cent. above pre-war rents.

The cost of building has risen 125 per cent. above pre-war cost. The increases are in all factors: Materials, carrying charges and labor.

Materials.

A few characteristic examples of the increase in the price of materials are in the following:

Material	1914	1920
Common brick	$6.70 M	$30.50 M
Portland cement (less bags)	1.05 bbl.	2.80 bbl.
Brown sand (Cowbay)	.90 cu yd.	1.90 cu. yd.
Structural steel (erected)	55.00 ton	160.00 ton
Electric elevator (13-story building)	3,100.00	9,500.00
Rough lumber 2"x4" spruce	26.00 M ft.	75.00 M ft.
Underflooring 1"x"6 North Carolina	18.75 M ft.	68.00 M ft.
Clear plain oak strip flooring	60 M ft	297.50 M ft.
Cone grain yellow pine strip flooring	42.50 M ft.	197.50 M ft.

Carrying Charges.

Formerly a high class apartment house was begun and completed in from eight months to a year, at all events between October 1st and the following September 30th. Today the construction drags over eighteen months, sometimes longer.

If the operating date cannot be definitely fixed the renting is disorganized. The longer period of construction further increases the interest to be paid on mortgages and capital investment, as well as the amount of real estate taxes while the property is unproductive.

Labor.

The cost of labor has doubled.

A few examples of the changes in Union wages will suffice:

	1914	1920
Bricklayers	$.600	$10.00
Carpenters	4.80	9.00
Electricians	4.80	9.00
Painters	4.00	9.00
Plasterers	5.50	9.50
Plumbers	5.50	9.00
Steamfitters	5.50	9.00

In connection with the foregoing tables it must be borne in mind that it is almost universally necessary at the present time to pay premiums to secure the men's services.

* * *

Today no builder can estimate in advance the cost of an apartment house. Among the factors he cannot calculate are:

1. Cost of materials.
2. Delays in delivery—even for short distances.
3. Incessant strikes due to internal quarrels, and constant demands for increased wages.
4. Lack of efficiency among workmen.
5. Cost of money.

The Deterrent Effect on New Building.

The statutes are fatal to new building.

Even the rare builder who was bold enough to go ahead under the present high cost of construction will be discouraged by the recent action of the Legislature in its effort to redress an admitted, but comparatively minor evil. Laws which disregard simple economic laws and all previously accepted ideas of contract and property rights are too hazardous for private enterprise to cope with.

The planning and construction of apartment houses, varying in cost from $150,000 to $5,000,000 involve many intricate questions requiring for their solution special technical training and long experience—both in building construction and real estate values.

To estimate the rental values of apartments requires consideration of numerous factors of such importance that mistaken

judgments are certain to result if rents are determined by arbiters lacking technical knowledge. Ill-founded decisions will be followed by appeals resulting in long and expensive litigation, costly and distasteful to landlord and tenant alike, *but absolutely deterrent to the investment builder.*

But the most serious effect of the recent legislation is that *the passing of such laws is fair warning that further unsound legislation may be enacted next year to govern new buildings. The prospective builder thus faces a prohibitive risk.* The rents in new buildings may be definitely limited or the builder may be required to lease the apartments in buildings which he desires to sell on a co-operative basis; in fact, the recent statutes are claimed by many, even now, to effect new as well as old buildings.

In any event, by attempting to convert what has always previously been regarded as private property into an alleged public utility, the Legislature has destroyed all the ancient landmarks of the builder and investor in real estate.

The Effect of Inflation.

Analysis by Well Known Authorities of the World's Increase of Money and Credits.

"THE INFLATION OF CURRENCY AND OF BANK CREDIT HAS MORE THAN ANYTHING BEEN RESPONSIBLE FOR THE 250 PER CENT. RISE IN PRICES IN THE LAST SIX YEARS."—FRANK A. VANDERLIP, FORMER PRESIDENT OF NATIONAL CITY BANK OF NEW YORK. IN ADDRESS TO CITY CLUB OF CHICAGO, APRIL 2, 1920.

* * *

"Thus in a short 4½ years period world paper money has increased $36,000,000,000, *world evidence of national indebtedness* $180,000,000,000, *and world bank deposits* $50,000,000,000 * * *.

"If the world's historians and financiers and economists and statisticians are right in their general belief that an advance in prices usually accompanies or closely follows inflation in currency and especially in paper currency, can we be surprised at the world-wide advance in prices which we have witnessed during the past four years in which world currency and bank deposist trebled and national debts quintrupled?" O. P. Austin, Statistician, National City Bank of New York, April, 1919.

* * *

"By far the most important cause of increased prices is the enormous addition to the circulating medium, money and its substitutes, during the last four years * * *.

"If prices are to be lower the causes operating to boost prices must be attacked. The amount of money and checks in circulation must be appreciably reduced and the quantities of necessary goods must be increased in amount * * *.

"The financing of the war has made two dollars grow where but one dollar grew before. As long as the people have twice as many dollars with which to buy a smaller number of commodities, prices are bound to remain high.

"It will take a long time to deflate the world's inflated currencies or to inflate the world's deflated supply of goods. The profiteer is being blamed on all hands for the increase in prices. Undoubtedly profiteering of a most reprehensible sort has existed and does exist today, but the profiteer is a result of ever increasing prices rather than the cause thereof. His influence in boosting prices is negligible. If all the profiteers in the world could be apprehended and thrown into jail or lined up and shot, it would have no appreciable influence upon prices * * *.

"It will be impossible for the governments of the world to pay off their debts very rapidly. On the contrary, there is every reason to apprehend that credits must be issued to foreign governments, foreign manufacturers and foreign business men, in order to rehabilitate the broken and shattered industries of Europe. This being the case, we may expect that larger volumes of checks and credit instruments will be thrown into circulation, thus boosting prices still higher * * *.

"In the meantime, the United States Government should, in my judgment, join with the other leading governments of the world in the creation of an international commission to study ways and means of setting up a true and relatively constant standard of value to displace the present monetary units, *which are merely units of weight and consequently variable in value of purchasing power.*

"The most important constructive work that can be done in any field is the establishment of a stable standard of value, so that all the people, rich and poor, employer and employe, bondholder and stockholder, may be spared for all time the agonies of changing price levels." Royal Meeker, U. S. Commissioner of Labor Statistics, Labor Review, April, 1920.

* * *

"The effect of inflation is to render us unconscious of the losses that war has caused by marking up the value of property we have left, for the human mind is so indurated by precedent that we feel a pleasurable satisfaction in learning that something that may have cost us one dollar four or five years ago is worth two dollars today, *forgetting entirely that the purchasing power of the dollar has meantime been halved."* Theo. H. Price, Commerce & Finance, August 6, 1919.

The Law Does Not Limit Rent Increases to 25 Per Cent.

Notwithstanding widespread opinion to the contrary *the new rent legislation does not limit to 25% the increase in rent that may be charged over the previous year.* As a result of the general misunderstanding many owners have received letters from tenants offering to renew leases at a 25% increase and stating that they will not pay more.

One of the new statutes provides that no summary dispossess proceedings for non-payment of rent may be maintained where the rent "has been increased more than 25% over the rent as it existed one year prior to the time of the presentation of the petition," but the application of the statute is limited to an apartment "under a lease or tenancy for one year or less or under any lease or tenancy commencing after this subdivision takes effect." *The provision is obviously of no value to a tenant holding over in an apartment which he previously occupied under lease for more than one year.*

The only other reference in any of the new statutes to the much discussed 25% limitation of rent increase, is contained in the following provisions:

"Where it appears that the rent has been increased more than 25% over the rent as it existed one year prior to the time of the agreement under which the rent is sought to be recovered, such agreement shall be *presumptively* unjust, unreasonable and oppressive.

"Nothing herein contained shall prevent the plaintiff from pleading and proving in such action a fair and reasonable rent for the premises and recovering judgment therefor, or from instituting a separate action for the recovery thereof."

Admitting for the sake of argument the constitutionality of this statute, it is obvious from the text that the presumption may be overcome by evidence. *It may be shown by the facts in a particular case that an increase of 100% is not unjust; or, on the other hand, it may appear that a lower increase than 25% is excessive.*

The courts will, of couse, realize that a reasonable increase over the previous rent in the case of a tenant in possession for 3 or 5 years is naturally and properly much greater than in the case of a tenant whose lease commenced in 1919.

Other Provisions of the New Statutes.

Under the statutes referred to (again admitting their constitutionality for the sake of argument), a tenant may refuse to pay the rent demanded and may defend the suit of the landlord to collect it on the ground that the rent is unjust, unreasonable and oppressive. If summary dispossess proceedings are brought the decision will be left to a Municipal Court Judge. The landlord may, however, bring an action of ejectment in the Supreme Court of the State, and may also bring an action in the same court to recover for the value of the use of his premises, as well as an action for damages for breach of covenant. In such event the tenant will be under the burden of defending a troublesome and costly law suit.

Even if the landlord should bring dispossess proceedings, the tenant's position is uncertain.

The court is permitted to allow a tenant to remain after his lease expires, only for a limited period and only where the tenant proves that he cannot find another suitable home. Meanwhile, if he objects to the new rental, the tenant pays the rent demanded

under the old lease, together with such additional rental as the court deems reasonable.

In other words, if a tenant finds it impossible to move and gains the sympathy of the local judge, he may be able to remain undisturbed for a period of from one to twelve months. The rent he has to pay is absolutely uncertain until fixed by the court; nor can the tenant be at all sure that *any* stay will be granted. *Furthermore, while the stay continues the landlord may, and probably will, bring an additional action in the Supreme Court for the value of the use of the premises, or for damages for breach of covenant.*

The Practical Side of the New Laws.

1. One example of what is going to result:

Tenant A refuses to vacate his apartment on October 1st. Tenant B, who has leased it from that date is forced to remain where he is. Tenant C, who has planned to occupy B's apartment is in turn held up. A chain is thus formed which may continue to—X.

Tenants will relish no more than landlords the complete uncertainty and confusion that will develop on October 1st and swamp the courts.

* * *

2. Unfortunately, there is no certain test of what is or what is not a reasonable rent. To test reasonableness by estimating the return on the owner's equity will hardly do. This may be illustrated by a few examples.

Case No. 1. A builder erects house A costing $600,000 in 1914. He builds an identical house (B) in 1919 which costs $1,400,000. If the test is "return on investment" the owner of house B should receive far higher rentals than the owner of house A, although the houses are identical and the rentals would naturally be approximately equal.

Case No. 2. A builds two houses side by side, identical in every detail, each costing $500,000. He retains one and sells one to B for $600,000. Under the theory of fair return at a percentage set by law B is entitled to charge a higher rent than A. Yet again the houses are identical and any differentiation in rents allowed would be unjust, unequal and absurd.

Case No. 3. Assume two identical house A and B. Each cost $1,000,000 and produces a gross income of $150,000 a year. Assume all maintenance and operating charges for each house excepting mortgage interest to total $80,000.

Now assume house A mortgaged for $600,000 at 5%. The net return of the property is $40,000 or 10% on the investment, $400,000.

Assume house B to be mortgager for $700,000 at 5%. The net return is $35,000 on an investment of $300,000, which is considerably more than 10%.

Base the rentals on any so-called "reasonable return" on the landlord's equity (allowing the judge to fix any percentage whatever). The result will be that the rents of these two houses to produce that return will have to be different, though the houses are identical.

* * *

3. To limit rent increases to a percentage over the previous year's rental, *irrespective of the duration of the existing tenancy,* would also quite obviously be inequitable.

For example, compare the cases of three men, one having a five year lease, one a three year lease, and the third a one year lease, in the same apartment house, all terminating on October 1st. Tenant A leased his apartment for five years on October 1st, 1915, paying $3,000 a year; in 1917 tenant B leased an identical apartment, paying $3,600 a year for three years; in 1919 tenant C took a lease for a third identical apartment, agreeing to pay $4,800 a year.

If the percentage of increase permitted is limited to a fixed percentage on the prior rental, tenant A may be continued at any entirely inadequate rent, far below the cost of carrying his proportion of the building. If the increase is limited to 25% irrespective of when the tenancy commenced, A's new rent will be $3,750, B's new rent will be $4,500, and C's new rent will be $6,000—three vastly different figures for the same apartment, all fixed irrespective of present conditions.

Manifestly, a law limiting to, or suggesting an increase of, 25% over *last year's* rental would produce inequality and injustice.

In spite of the popular impression to the contrary, the statutes do not prescribe 25% as the maximum increase.

The Tenant's Position.

On October 1st next the position of a tenant who has either agreed with his landlord upon a renewal of his lease or has vacated peaceably will be infinitely more comfortable than that of a tenant who refuses to renew and who tries to remain in possession. The latter will be compelled to undergo the stress of court proceedings, the result of which will be necessarily uncertain, and which will cause him no small expense.

Although a tenant may feel that the rent demanded from him is too high it does not by any means follow that the courts will concur. If he receives a stay in dispossess proceedings allowing him to continue in possession for a time, in any event no more than one year, he will thereafter have to obtain other housing accommodations at a time when they may be even more difficult to secure than at present.

Lastly, even if he receives a stay and pays the rent fixed under the stay, he may become the defendant in a separate action brought in the Supreme Court of the State to recover the value of the use of the premises, or the damage which the landlord has sustained. In that event the issue and the amount of the tenant's liabilitiy will not be known for several years, possibly until the U. S. Supreme Court has passed upon the questions involved.

Realty Division Fund for Jewish War Sufferers

MR. ELISHA SNIFFIN has assumed the chairmanship of the Real Estate Division for the Greater New York Fund for Jewish War Sufferers. Headquarters for the Real Estate Division have been opened at the Real Estate Board of New York at 217 Broadway, and Mr. Perry Blake has been appointed secretary of the committee. Mr. Sniffin has issued the following appeal to members of his industry:

"Again the Real Estate Board of New York Allied Real Estate Interests appeal to you in the name of charity. An appeal for immediate relief to those unfortunate people of the Jewish race in Europe, who have not only lost all they possessed by reason of this terrible war, but the suffering and privation they are going through cannot be told in words.

"With untold thousands of them homeless, without food, clothing or medicine, it devolves upon us to come to their assistance.

"If we fail them, their one and only hope is gone. To furnish them the necessities of life is the object of this campaign, and no nobler motive than to aid in the preservation of life and the elimination of sorrow and suffering can inspire any man.

"As chairman of our committee, I ask you to join in this real charitable cause, and help our Jewish brethren who have so nobly answered every appeal for aid during and since this war, regardless of creed."

Associated with Mr. Elisha Sniffin are the following chairmen: Albert B. Ashforth, Edward Ashforth, N. A. Berwin, Louis V. Bright, Frederick Brown, Michael Burns, John H. Burton, W. Childs, Elias A. Cohen, Moses Crystal, Clarke G. Dailey, William A. Dalton, J. Clarence Davies, Joseph P. Day, W. H. Dolson, Robert E. Dowling, Michael Dreicer, Charles G. Edwards, Lawrence B. Elliman, Robert E. Review of Real Estate Market for the Current Week

Numerous Large Transactions Marked the Week's Activities and the Volume of Medium Sized Ones Was Widely Distributed

MARKED by numerous important sales and many minor ones, the real estate market this week sustained the solidarity that has characterized it all the year. With summer approaching cessation of activity does not appear imminent; rather it seems likely that the momentum gained will continue until autumn. All signs point to an exceptionally active summer in real estate because these are exceptionally good real estate times and the premium put upon all kinds of property now shows a strong propelling force that warm weather will not abate to any marked degree. The operator and investor may go to the mountains and the seashore, but he will have his mind and an eye on the activities of the New York market nevertheless. He cannot ignore the opportunities to take the substantial profits that this year affords.

Distinctive among this week's sales was that of the office building 30 and 32 Pine street, the former Stokes house at the southwest corner of Madison avenue and Thirty-seventh street, several parcels in upper and lower Sixth avenue, several costly private dwellings near Fifth avenue, a big Madison avenue corner in Harlem, several buildings in the old wholesale district downtown, an impressive one in Washington street running through to Greenwich street, a block front in Gold street, a plot parcel in Maiden lane, several theatres, a block front in the Bronx, at least two block fronts and a large office building in Brooklyn and a tract of sixty lots near the ocean in Queens for improvement with homes. The intermediate dealing was extensive, old dwellings, tenement houses and small business buildings comprising the vast total. There was, too, some co-operative buying of apartment houses and many commercial tenants bought their places of business. In a market that is usually as dry as the reading of Coke to the average person, there was much human interest, and this bespeaks activity in itself. No part of the city remained immune from the hand of transfer.

There was strong investment interest shown during the week as well as speculative activity. This was indicated by the large number of persons who bought dwellings for occupancy and by the number of business men who bought commercial buildings for their own business purposes. The way old buildings are being discovered for particular purposes is a strong feature now. Especially was this shown in the purchase of a building in Thomas street running through to Worth street, in the heart of the old wholesale area. It is not so many years ago that merchants left that part of the city for Fourth avenue and intersecting streets. The old section has not been rebuilt, it is not more modern than it was a decade ago, and yet it is in strong demand. The movement of property in the section of the city east of Nassau street and south of Ann street to the river continues steadily.

Much interest is manifested in the purchase of the old Stokes home in the residentially restricted Murray Hill zone by a merchant who contemplates its use for his business. It recalls the long legal fight waged by the elder J. Pierpont Morgan to restrain the entrance of business into the section some years ago. The question now presents itself whether trade can ultimately be kept out of this section of the city. Business has so completely surrounded the so-called Morgan home area that home owners there may not longer deem it worth while to make resistance to its encroachments. Commerce on this island is a dauntless strategist and usually gains its ends, and it would not surprise us if the Morgan neighborhood went the same way eventually as the Vanderbilt neighborhood on Fifth avenue and its vicinity has gone. Some day St. Patrick's Cathedral on Fifth avenue will be as completely surrounded by commercial structures as Old Trinity downtown is now. The attempt, two years ago, to prevent the improvement of the west block front of Madison avenue, from Thirty-fifth to Thirty-sixth street with a commercial building is still in the courts. The latest sale of the Stokes house shows the persistence of business.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 147, as against 160 last week and 107 a year ago.

The number of sales south of 59th street was 59, as compared with 62 last week and 33 a year ago.

The number of sales north of 59th street was 88, as compared with 98 last week and 74 a year ago.

From the Bronx 52 sales at private contract were reported, as against 49 last week and 43 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 584.

An Interesting Deal.

Charles F. Noyes Co. resold for Harry Aronson to John A. Eckert the entire block front on the east side of Gold street including 90 John street and 23 Platt street. The property has a frontage of 123 feet in Gold street and 20 and 21 feet respectively in John and Platt streets, a total frontage of nearly 165 feet. Mr. Eckert will improve the site with a 4 or 6-story office building from plans of J. Sarsfield Kennedy, architect, and several floors will be occupied by John A. Eckert & Co. In this connection it is interesting to know that Mr. Eckert was the pioneer insurance man to locate in John street. With J. G. Hilliard he erected the 16-story building at John and Dutch streets. This building the Noyes Co. recently leased in a sensational $8,000,000 transaction to the Travelers Insurance Co. Charles F. Noyes Co. will continue to act as agent for the new property just acquired. Mr. Eckert's total investment in his new undertaking will be approximately $200,000.

Bankers Buy in Pine St.

Goldman, Sachs & Co., bankers, bought through the Brown-Wheelock Co. from Harris & Maurice Mandelbaum and Fisher, Irving & Hiram Lewine, the twelve-story fireproof banking office building at 30-32 Pine street, on a plot 57.9x71.2. The property was bought by the Mandelbaum syndicate last October from the Kean Van Cortlandt Realty Co., and then sold to the Guaranty Trust Co. In December it was repurchased by the Mandelbaums, at which time the Guaranty Trust Co. retained by lease until May 1, 1922, the ground floor and basement banking space and seven upper floors, which they take possession of on May 1, 1920. The new owners are at 60 Wall street, and they intend to occupy most of the building on May 1, 1922. An interesting feature of the purchase by the banking firm is the fact that the founder of the firm, Marcus Goldman, rented his first offices in 1869 in a building then standing on this site. This is the fourth sale of the property by the Brown, Wheelock Co. since October of last year.

Notable Fifth Av. Sale.

Joseph F. Cullman, wholesale tobacconist, sold to a syndicate 1037 and 1038 Fifth avenue, southeast corner of 85th street, a six-story apartment house known as "The Fifth Avenue," on a plot 52.2x100, and the three-story garage adjoining the apartment in 85th street, on a lot 25x102.2 and the adjoining vacant plot, 50x100, on Fifth avenue. The new owners intend to improve with a twelve-story apartment house to be conducted on a co-operative plan. The property has a frontage of 102.2 feet on Fifth avenue and 125 feet in the street.

Dillingham Buys Theatre.

Charles B. Dillingham bought the Globe Theatre at 1555 Broadway and 205 to 215 West 46th st. Mr. Dillingham had the theatre for years under a lease from the Dillingham Theatre Co., in which Howard Gould held the controlling interest. The purchase price is said to have been $1,250,000, consisting of a mortgage for $750,000 and a cash payment of $500,000.

Activity in West 84th St.

The Lebertan Corporation purchased from Carl H. Richardson, trustee in bankruptcy of Frederick P. Foster, 268 West 84th street, a 6-story fireproof elevator apartment house, on a lot 26.4x102.2, and 270 West 84th street, a 5-story dwelling, on a lot 23.8x102.2, now occupied by the West Side Club, and 272 West 84th street, a 3-story and basement brick dwelling, on a lot 16.8x62.2. All leases expire in October, at which time the new owners intend to carry out extensive alterations.

G. W. Perkins Sells a Parcel.

Brown, Wheelock Co. sold for George W. Perkins a 5-story brick dwelling, on a lot 25x100, at 7 6Park avenue, to John E. Berwind.

Sells a Liberty Street Corner.

The Lebertan Corporation bought from the Havemeyer Real Estate Co. 106-108 Liberty, at the southwest corner of Trinity place, running through to Cedar street, 29.9x115x19, a 5-story brownstone store and loft building, which the buyers intend to alter into a modern office building. The purchaser paid all cash.

A Purchase in Broadway.

Spotts & Starr, Inc., sold for Emily L. Ward and others in conjunction with Cammann, Voorhees & Floyd to J. Rosenblatt 866 Broadway, a 4-story brick building with stores, on a lot 25x82.5. The property has been owned by the Wards for more than 75 years.

Corner to Be Remodeled.

John Freiman and Walter M. Smith sold for the Kahn estate to the American Sea Grass Co. 310 to 314 Avenue A and 503 East 19th street, southeast corner, a group of tenement houses and warehouses, which will be reconstructed into a factory.

Loew Adds to Theatre Chain.

Marcus Loew, theatrical magnate, has added to his chain of motion picture and vaudeville houses six theatres, five of which are in the Bronx and one on Washington Heights. Mr. Loew purchased from David V. Picker the

Frederick Brown resold to D. Niemeyer 1936 Broadway, at the southwest corner of 65th street, a 5-story brick and stone apartment house with store, on a lot 26.2x100.

Carrolton Apartments Sold.

Harry Aronson bought from the Bultman Estate the northeast corner of Madison avenue and 76th street, a 10-story apartment house, known as the Carrolton, on a plot 45 feet in the street and 102.2 feet in the avenue; also, bought 37 East 76th street, adjoining, a 4-story and basement brownstone dwelling, on a lot 12.6x102.2.

Grosvenor Atterbury Buys.

Douglas L. Elliman & Co., Inc., sold for the 141 East Fifty-third Street Corporation the 3-story dwelling at that address, on plot 17.10x100.5, to Grosvenor Atterbury, architect, who recently purchased the adjoining residence at 139 East 53d street. The properties will probably be joined, thoroughly remodeled and used by Mr. Atterbury for his offices.

One Judge Sells Another's Home.

Judge Samuel Greenbaum of the Appellate Division of the Supreme Court sold through L. J. Phillips & Co. to Ennis & Sinnott the 4-story dwelling at 706 St. Nicholas avenue, on a lot 19.6x110. It is at present occupied by Surrogate John P. Cohalan.

Co-operative Apartment Buyers.

The Gramercy Park Club, a co-operative organization, sold through E. K. VanWinkle apartments in 36 Gramercy Park East to John H. Barr, Charles M. Steele and Rev. Arthur Judson Brown.

More Co-operative Buying.

A group of tenants bought the Braender, a 10-story apartment house, on a plot 100.11x117, at the south corner of Central Park West and West 102d street.

Investor Buys Front St. Corner.

Wm. A. White & Sons sold for Calevas Bros. 37 and 39 Front street, the southeast corner of Coenties slip, two 4-story buildings, on a plot 45.5x30.2, to the Mercer Rubber Co. of New York for occupancy.

Comstock Estate a Seller.

Daniel B. Freedman bought from the Estate of E. A. Comstock 256 West 55th street, a 6-story elevator loft building, on a lot 25x100, which is located in the centre of the automobile district.

Sixth Av. Corner Sold.

J. L. Buttenwieser sold to Jacob L. Schumann, tenant, 54 and 56 Sixth avenue, at the southeast corner of Washington place, a 5-story apartment house with store, on a plot 38.6x79.4.

Perkins Estate Sells to Publishers.

Estate of Eliza W. Perkins sold to Hinds, Hayden & Eldridge 3 West 16th street, a 3-story and basement brick dwelling, on a plot 33.4x92, adjoining the northwest corner of Fifth avenue. On the site the new owners will erect a 7-story loft building for their own use.

Vigilant Club Buys.

W. D. Morgan sold for Daniel F. Mahony to the Vigilant Club 762 St. Nicholas avenue, a 4-story and basement brownstone dwelling, on a lot 20x125, at the intersection of St. Nicholas place. The club for 5 years past has been at 1 West 121st street.

Notable Sale in Maiden Lane.

Horace S. Ely & Co., in conjunction with the Charles F. Noyes Co., sold for Richmond Levering & Co. 91 to 97 Maiden lane and 4 to 8 Gold street, surrounding the southeastern corner of the two streets. The Maiden lane buildings are all old four-story brick and the Gold street parcels are 4½ and five-story brick, respectively. There is a frontage in Maiden lane of 72.7 feet and in Gold street of 63.4 feet, while the total area of the plot is nearly 12,000 square feet. Located just east of the new site for the Federal Reserve Bank and nearly opposite the 24-story 80 Maiden lane building, the property is considered one of the finest in the neighborhood for improvement. The present buildings will be demolished on or about May 1 and the site will be immediately improved with an office building to be occupied in part by the purchasers. A portion of this property was originally accumulated through the Charles F. Noyes Co. for Sigsbee Graham and the Noyes Co. then resold the property for Mr. Graham to Richmond Levering. It was only on account of Mr. Levering's sudden death that his company abandoned their plans to improve the site.

Clarence H. Mackay Buys Again.

Clarence H. Mackay, who last August bought the $400,000 residence at 3 East 95th street from the estate of Mrs. Amory F. Carhart, has purchased through the Brown, Wheelock Co. the 5-story and basement brownstone dwelling of Stuart Duncan at 3 East 75th street, adjoining the Harkness residence, at the northeast corner of Fifth avenue.

The latest purchase is on a plot 50x102.2, and was built 15 years ago by Mr. Duncan on land acquired from the estate of James B. Ford, owner of the adjoining vacant plot in Fifth avenue. Temple Beth-El adjoins this plottage at the southeast corner of Fifth avenue and 75th street.

A Good Madison Av. Sale.

Horace S. Ely & Co. sold for clients 1543 to 1551 Madison avenue, five 3½-story and basement brick dwellings with stores, each on a lot 16.8x45, adjoining the southeast corner of East 105th street.

Stokes House Again Sold.

J. A. Migel, Inc., silk manufacturers, bought from Ellen M. O'Kane 230 Madison avenue, at the southwest corner of East 37th street, a 4-story and basement dwelling, on a lot 27.8x95, which was for a generation the home of the Stokes' family. It is on the north end of the opposite side of the block where the J. P. Morgan residence is situated.

Mr. Morgan at one time led the fight against trade invading this, the Murray Hill residential zone. It remains to be seen what the new owner of the Stokes' property will do with it as it is understood he will convert it to business uses. This sale marks the third since last December when Frederick Brown sold it.

Concourse Block Bought.

Frederick Brown bought from a client of Frederick Fox and Co., a plot of 16 lots, occupying the block front on the east side of Grand Boulevard and Concourse, between 161st and 162d streets, facing the Heine Monument.

Garfield Building in Brooklyn Sold.

Willard S. Burrows Co. in conjunction with Howard C. Pyle and Co. sold for the Metropolitan Associates of New York to Childs Co. the Garfield Building, a 7-story office building, at the northwest corner of Court and Remsen streets facing Borough Hall Plaza. The ground floor of the building is at present occupied by a restaurant of the Childs Co., the Evening Telegram and Nedick's Orange Drink Co. The new owner contemplates extensive alterations to the building, to cost in the neighborhood of $150,000. After the alterations are completed it will occupy the entire rear arcade of the building, as a self-service restaurant, in addition to the corner store of the property, which it now occupies. The Willard S. Burrows Co. will have the management of the property.

Brooklyn Block Front Sold.

Comprising 14,000 square feet, a plot on the west side of Flatbush avenue extension, between Chapel street and Cathedral place has been sold by the Burling Realty Co. for a client. It is on the block to the south of the one owned and occupied by the Sperry Gyroscope Co.

Co-operative Buying in Brooklyn.

Brooklyn's finest residential street is now a factor in the co-operative apartment house movement. Involving a transaction of $225,000, the 5-sty high class elevator apartment house at 275 Clinton av, northeast corner of DeKalb av, on a plot 110x138, has been bought by a group of the tenants. The building contains 29 apartments.

RECENT LEASES.

New Home for "Healy's."

As a site for a new 10-sty hotel, Thomas Healy, who has been long prominent as a restaurateur, leased from Eugene Higgins the vacant plot 36.3x125x38.7 at the northwest corner of Broadway and West 94th st, together with the adjoining plot, 100x201.5 in West 94th st extending through to West 95th st and including the adjoining vacant lot, 25.2½x100 at the southeast corner of West End av and West 95th st.

This plottage adjoins and abuts the old Astor Market property, which Mr. Healy bought four years ago for $900,000, and gives him one of the largest Broadway real estate investments in the city.

The lease will run for a term of 200 years and will involve a rental of approximately $6,000,000. The immediate corner of Broadway and 94th st will be soon improved with a 4-sty business building to cost about $100,000, for which contracts have been let. Negotiations are pending for the lease of the store and basement in the new building for a 15-year term to a Broadway retailer.

On the balance of the property Mr. Healy plans eventually to erect a 16-sty hotel to cost about $3,000,000 and to contain 600 rooms.

Columbus Av. Corner Leased.

L. J. Phillips & Co. leased for Louis J. Reckford, Samuel J. Reckford and Daisy Strauss to the C. & L. Lunch Co., Inc., A. Chintz and S. Levine, the southwest corner of 73d street and Columbus avenue, a 5-story building, on a lot 25 feet on the street and 102.2 feet on Columbus avenue. The lease is for a term of 21 years and involves a rental to be paid of about $200,000. The lunch company will make extensive alterations in the property and expects to occupy one of the stores in connection with its chain of restaurants.

21-Year Lease in Sixth Av.

Robert Taggart leased to the Silver Lunch Co. for a term of twenty-one years at a total rental approximating $1,000,000, the seven 4 and 5-story business buildings covering a plot of about 15,000 square feet at 799 to 803 Sixth avenue, 103 to 107 West 45th street and 102 and 104 West 46th street with a frontage in Sixth avenue of 75.11 and a depth of 100 feet with an "L" to 45th street fronting 61 feet and a frontage in 46th street of 40 feet. The new tenants plan substantial improvements to the premises as soon as possession can be obtained at the expiration of the existing leases.

Long West Side Lease.

Bleiman & Co. leased for a term of forty-two years the three 5-story buildings at 38 West 39th street and 35 and 37 West 38th street for Eben E. Olcott and others to the Treeko Realty Co. The site will be improved with new 5-story loft buildings. The aggregate rentals, with the cost of the improvement, will amount to about $800,000.

Big Lease Near Fifth Av.

Pease & Elliman leased for the 8 West 40th Street Co., of which G. Plyer is president, to "Tappe," for a term of years, the 7-story building, 12 West 40th street. "Tappe" is now located at 4 West 40th street, which property has recently been taken over by the Mirror Candy Co. The Tappe Company will use the entire building at 12 West 40th, beginning June 1.

Long Lease of Glover Building.

The 7-story Glover Building, northeast corner of Fifth avenue and 28th street, 25x125, has been leased by Abraham I. Kaplan from the 251 Fifth Avenue Co. for twenty-one years from May 1 with the privilege of two similar renewals. The rental for the first three years

will be $22,500, taxes, etc., annually, and it will graduate to $37,000 a year.

Butler Bros. Lease in Hoboken.

H. L. Moxley & Co. in conjunction with John J. Berry & Bro., of Newark, leased for the Jewel Tea Co., of Chicago, Ill., 126,000 square feet in building "E," Hoboken Terminal, Hoboken, N. J., for a term of years to Butler Bros., Inc., at an aggregate rental of approximately $500,000.

BUILDING SECTION

Wage Advance in Building Trades Stabilizes Situation

Construction Activity Assured Throughout Season by Agreement Between Employers' Association and Trades Council

ADMITTING the justice of the request of the Building Trades Council for a review of living costs and other matters upon which the scale is based, a wage concession for workmen in the building trades has been announced that, while seemingly excessive in some respects, will undoubtedly result in stabilizing the building labor situation as no other action could have done.

According to an announcement recently made, the Building Trades Employers' Association has granted an increase in wages amounting to $1 per day, effective May 1, for every mechanic and helper in all of the various trades affiliated with the building industry. This increase applies to all mechanics with the exception of the bricklayers. This union was not a party to the wage agreement consummated late last year, but recently obtained an increase to $10 per day on award by Mayor Hylan, acting as arbitrator in the dispute between the bricklayers' union and the Mason Builders' Association. This dispute had tied up practically all important building construction work in Greater New York and Long Island for the first three months of 1920.

After the announcement of the arbitrator's award to the bricklayers it seemed as if building activity might proceed unhampered by further strikes, disputes or other difficulties. But the plasterers' union felt that the wage increase obtained by the bricklayers made the differential between the two trades altogether too great to be fair and equitable, and through the Building Trades Council, its governing body, the union requested an increase to $10 per day. This the employers could not consider, but they did agree to review the situation and make whatever wage concession was possible in order to reduce this differential. When the proposition was put up to the Wage Committee of the Building Trades Employers' Association it was decided that a concession or increase in wages to the plasterers would be manifestly unfair to the other trades, and in order to keep harmony between the workmen in other trades and the employers, the committee determined to review the conditions as they applied to all branches represented in the agreement of December, 1919.

In making the request for a wage increase the Building Trades Council was fully in order, as the agreement of last year provided in one of its sections for a review of living conditions as compared with the wage scales at the expiration of the first six months of 1920. This section also tentatively provided for an increase in wages should it be found that living costs had advanced, and further provided that the employers could call for a similar review, and a decrease from the scale then in effect, if the cost of living had materially decreased.

Realizing that living costs have steadily increased since the agreement went into effect on January 1, and also taking into consideration the fact that the award of Mayor Hylan to the bricklayers had created a differential in wages higher than ever before known in the local history of the building industry, the Building Trades Employers' Association was quite willing to enter into negotiations with the Wage Scale Committee of the Building Trades Council with a view of decreasing the differential of $2 per day between the bricklayers and the majority of other trades and also at the same time to make a concession that would offset the constantly increased living costs.

After the economic situation was thoroughly gone over in conference between the representatives of both employers and workmen, the former decided to advance wages $1 per day for mechanics and helpers in all trades affiliated with the Building Trades Council.

According to the volume of building now under construction in Greater New York and Long Island, the territory included in the sphere of influence of the employers' association and the council, approximately 115,000 workmen are affected by this increase in wages. The weekly payroll of the industry will be advanced to the extent of about $700,000.

In discussing the wage advance, Roswell D. Tompkins, secretary of the Building Trades Council, explained that the advance was granted in accordance with a promise made last year by the Building Trades Employers' Association, at the end of the lockout, and that future increases in the cost of living would be met by further increased pay. Mr. Tompkins further stated that the advance was partly made as a mark of appreciation for the manner in which the workmen have lived up to the agreement for 1920 since the first of this year and as a step to discourage the development of a radical sentiment in the various branches affiliated with the building industry.

Mr. Tompkins added that in all probability a similar increase will be granted next year unless the living costs are reduced to a great extent. He said:

"The purpose of the increase is to prevent strikes and Bolshevik movements in the building trades and to aid the general building boom that is now starting in this city. The employers will confer again in August concerning still further wage increases to become effective January 1, 1921, if living costs continue to advance as they have during the early part of the current year.

"The wage increases granted to start May 1 include not only all mechanics, but helpers as well. At the present time there is an unprecedented demand for skilled mechanics in all lines. There is a scarcity of mechanics, but we are going to furnish all the men that are required for the building movement that is now getting its start. We will see to it that the employers get all the skilled men they need to complete their contracts."

Under the new wage scale that goes into effect May 1, the daily pay for the more important trades will be as follows: Blacksmiths, boilermakers, carpenters and framers, cement and concrete masons, decorators and gilders, derrick men and riggers, electrical workers, engineers (stationary), glaziers, machinists of all description, marble cutters, painter-decorators, plumbers and gas fitters, riggers on machinery, steamfitters, structural iron workers, tile setters, varnishers and wood and metal lathers, $9 per day.

The old scale gave building material teamsters from $29 to $35 a week, automobile chauffeurs on building material trucking, $31 to $35; drivers' helpers, $27; hoisting engineers, $46.75 a week or $9 a day for broken time; plaster modellers from $42.25 to $130; checkers, $90 a week, and squad bosses and designers, $100. These wages will be readjusted to conform to the new scale that has been agreed upon by the Building Trades Council.

After the negotiations resulting in this wage increase the representative of the Building Trades Council assured the Executive Committee of the Building Trades Employers' Association that the council would earnestly endeavor to correct the evils complained of by the employers and would make a determined effort to have the daily output of the men increased.

In discussing the $1 per day increase this week with a representative of the Record and Guide, Ronald Taylor, president of the Building Trades Employers' Association, said:

"We have tried to be fair with our employes, realizing that living costs have advanced. The members of this association have sanctioned the increase in the wage scales to both mechanics and helpers to offset this to some extent. We hope that our action will result in less radicalism among the workmen and a whole-souled attempt to increase production. There is a vast amount of newly projected construction that would no doubt be realeased immediately if architects and owners could be assured of sufficient men and materials to maintain progress after the work is started.

"During the first part of this year when construction was all but stopped by the strike of the bricklayers in this city a large number of building mechanics entered other employment, or left town, seeking work at their own trades. It is to be hoped that the increase now agreed upon will result in the return of the majority of these men and that throughout the balance of the year the building industry in the metropolitan district will be able to accomplish the work in hand with the maximum of efficiency."

Throughout the industry the feeling is growing that the wage increase is a good thing and that the results will prove the action of the association to be the most important factor in making possible a tremendous building boom in this city and its neighboring territory.

The Brooklyn Chamber of Commerce is making renewed efforts to persuade Congress to authorize the construction of a 1,000-foot dry dock for the Brooklyn Navy Yard. Dry docks of this size are available in Boston, Philadelphia and Norfolk.

Many New Projects Planned Despite Material Shortage

Figures Prepared by F. W. Dodge Company Show Gratifying Improvement in Number of Housing Operations Soon to Be Started

A LIGHT falling off in the totals is noticeable when the building figures for the week of April 17 to 23 inclusive are compared with those of the previous week, but the decrease is not great enough to affect the high average that has been maintained for a month or more. The largest decrease is shown in the projected work and simply means that architects and engineers have been so busy on plans started a few weeks ago that they have not had the time to commence the preparation of plans for entirely new operations. The total of contracts awarded shows a steady progress in actual construction notwithstanding the grave shortage of building materials felt along the Eastern seaboard.

According to the figures prepared by the F. W. Dodge Company showing the plans in preparation and the contracts awarded during the week of April 17 to 23 inclusive, for the territory involving all of New York State and New Jersey, north of Trenton, the building industry is steadily gaining in volume of active construction and its future growth is only limited by the amount of labor and material available.

The figures of the week show that 403 plans for new building and engineering projects were in course of preparation and this work will require an outlay of approximately $12,930,700. During the same time contracts were awarded for 241 operations that will call for an expenditure of $22,601,100.

The 403 projects being planned by architects and engineers were grouped as follows: 89 business buildings such as offices, lofts, stores, commercial garages, etc., $2,799,800; 16 educational projects, $1,112,500; 5 hospitals and institutions, $192,500; 38 factory and industrial buildings, $3,084,500; 1 building for the U. S. Navy, $25,000; 5 public buildings, $30,000; 26 public works and public utilities, $932,900; 9 religious and memorial buildings, $589,000; 203 residential projects including apartments, flats and tenements and one and two-family dwellings, $3,639,500, and 10 social and recreational projects, $525,000.

For the past three or four weeks there has been a steady improvement in the number and value of residential projects being planned and the completion of these operations will accomplish much in relieving the housing shortage.

The list of 241 projects for which contracts were awarded during the week of April 17 to 23 inclusive was made up of the following groups: 63 business buildings of various types, $3,894,800; 5 educational projects, $1,455,000; 7 hospitals and institutions, $1,106,500; 18 factory and industrial buildings, $1,212,000; 2 buildings for the army and navy, $20,000; 2 public buildings, $246,000; 26 public works and public utilities, $11,325,300; 112 residential operations of various types, $3,033,000, and 6 social and recreational operations, $308,500.

F. R. McMillan, for the past two years research engineer, Emergency Fleet Corporation, U. S. Shipping Board, has accepted a position in the New York office of the Turner Construction Co. Mr. McMillan was formerly an assistant professor in structural engineering, University of Minnesota. He was called to the shipping board at the time of the formation of the concrete ship section to develop apparatus and methods for the determination of stresess in ships under the action of the waves at sea.

"Own Your Own Home" Exposition.

To every person interested in the building or owning of a dwelling place the "Own Your Home" exposition, which opens at the Grand Central Palace on May 1, to continue during the week, offers an unusual opportunity. To the lumberman it will be of the greatest importance because of the drive being made by lumber associations to show what can be done in the way of home building, using the natural woods of the country. One entire section in the exhibition hall, consisting of 2,300 square feet, has been assigned for the lumber exhibit and several attractive features for this exhibit have been secured. One of the exhibits will be a model bungalow built of Southern yellow pine; another will be an attractive home, built of North Carolina pine. These are furnished by the Southern Pine Association and the North Carolina Pine Association, respectively. The Georgia and Florida Sawmill Association is expected to send a good exhibit, and the West Coast Lumberman's Association already has arranged to furnish a model dwelling built of Douglas fir, but this will be exhibited in a special landscape section apart from the lumber division. The West Coast Association, however, will co-operate with the other organizations in financing and arranging the general lumber exhibit.

Aside from these sectional associations, several organizations in the metropolitan district are co-operating to make the lumber division one of the outstanding features of the show. Those include the New York Lumber Trade Association, New Jersey Lumbermen's Association, West Chester County Lumber & Building Material Dealers' Association, the Long Island Dealers' Association and the Connecticut Retail Lumber Dealers' Association.

TRADE AND TECHNICAL SOCIETY EVENTS.

American Hareware Manufacturers' Association will hold its annual convention at Atlantic City, N. J., May 11 to 14, inclusive, with headquarters at the Marlborough-Blenheim. F. D. Mitchell, secretary, 233 Broadway, New York City.

National Retail Hardware Association will hold its annual convnetion at Buffalo, N. Y., June 22 to 25, inclusive. Headquarters will be located at the Hotel Lafayette. Herbert B. Sheets, secretary.

American Association of Engineers will hold its sixth annual convention at St. Louis, Mo., May 10-11. Secretary, C. E. Drayer, 63 East Adams street, Chicago, Ill. Programs for the various sessions of this convention are now being prepared and a number of interesting papers will be presented.

Second Annual "Own Your Home" Exposition will be held in the Grand Central Palace from May 1 to 8, inclusive. The final plans for this event indicate that it will be considerably larger and more fully representative of all phases of coming building and management than was the tremendously successful exhibition of September, 1919.

Contract for High Class Apartment.

Fred F. French Company, architects, engineers and builders, 299 Madison avenue, recently closed a contract for preparation of plans and the construction of an eleven-story fireproof apartment house to be located at the northwest corner of Madison avenue and 66th street for the Pentalpha Realty Corporation, Joseph C. Hoagland, president, owner. The operation represents a total investment of $1,000,000.

The property which runs 60'5" on Madison avenue, with a frontage of 80' in 66th street has been held by the Pentalpha Realty Corporation for a number of years. The plans, which are being drawn by the Fred F. French Company, provide for a six-room and two bath, and a seven-room and three bath apartment on each floor. All of the rooms are large, the living room measuring 15'x26'. Specifications are of the highest character.

CURRENT BUILDING OPERATIONS

WERE it not for the serious shortage of building materials that is now hampering progress on a large number of important building operations in the Metropolitan district, the building industry would be in a position to look forward to a season of unusual activity but according to a number of men prominently identified with the manufacture and sale of building materials and supplies the outlook is not promising. The lack of labor at producing points and the intolerable railroad freight situation are the factors largely responsible for the scarcity of essential commodities.

Locally the labor situation is improving and the recent announcement of a general increase of $1 per day in the wages of all trades identified with building, with the exception of the bricklayers, is expected to have a beneficient effect upon the progress of the industry. Employers are of the opinion that their workmen will be far more satisfied and will turn out more work and also that men who have left this city for other places where wages are higher, will be influenced to return and thus swell the ranks of labor available for building in New York City.

Dealers in building materials and suplies, while receiving numerous inquiries for structural materials, are actually in a position to fill but a small percentage of their orders because supplies are not available. The Portland cement situation is serious and no improvement can come until the railroad freight congestion is relieved and transportation again returns to normal. Common brick is available but the strike of the union handlers is limiting the supply that is being sent out of dealers' yards. Plastering materials are scarce and the same condition applies to hollow brick, terra cotta (structural), lath and other materials, without which no building can be accomplished. Prices are very firm and in some instances advancing.

Common Brick—Business in the North River wholesale market for common brick was somewhat lighter this week than it was the week previous largely on account of the strike of the union brick handlers that has slowed down the discharge of cargoes now on barges at various docks about the city. These laborers are on strike for an increase of 20 cents a thousand and as the men have been making from $12 to $20 per day at the old rate of 80 cents a thousand for unloading, it is felt that any further increase in wages would be excessive. Unloading is not entirely tied up by the strike as some boats are being discharged at dealers' docks by non-union workmen and an effort is being made to obtain more labor of this class rather than make concessions to the union men. North River common brick prices are firm at $25 per thousand and no change from this level is anticipated at the present writing. Common brick manufacturers who have plants on the Hudson River are getting started with their season's production. A few plants have already commenced to mould brick and the majority of the others, particularly the open yards, will start production just as soon as the yards dry out to an extent that will make work possible. The prime difficulty now confronting the common brick producers is labor question. A shortage of labor to operate the plants is feared and what labor is available is already demanding wage increases that will materially advance the cost of production. From the present outlook the output of the 1920 season is not likely to be greatly in excess of the production of last year which was something under 500,000,000 brick. This will undoubtedly be sufficient for all building demands, however, as there is still considerable brick available that was made one year ago.

Summary—Transactions in the North River common brick market for the week ending Friday, April 30, 1920. Condition of market: Demand fair; prices firm and unchanged. Quotations: Hudson Rivers, $25 a thousand in cargo lots, to dealers, alongside dock. Number of cargoes arrived, 29; sales, 18. Distribution: Manhattan, 7; Brooklyn, 6; Bronx, 1; New Jersey points, 4. Remaining unsold, 16.

Why Large Buildings Install

MARBLELOID

"The Ideal Composition Flooring"

Marbleloid is being put into an ever increasing number of important buildings because it is a satisfactory and efficient flooring. Hard, dust-proof, durable, slow to chip or crack, it has the close texture that repels moisture and the pleasing appearance that brightens the office. Easily applied and inexpensive, it pays dividends from the day it is laid.

Where may we send you full information, samples and a list of Marbleloid installations?

MATERIALS AND SUPPLIES

duction and it is likely that some time will be required to settle the differences between the two factions. The producers claim that the workmen walked out in violation of agreements existing and that notwithstanding the fact that the employers have offered what they think is a reasonable wage advance, the men have refused to return. Up to the present time the situation at production points has not affected the local stone market but the railroad congestion has caused some difficulty to the trade in the Metropolitan district.

Roofing and Building Papers—The demand for these materials has dropped off to some extent because of the serious railroad freight situation that has prevented the arrival of new supplies and also because of the fact that construction is limited by a general shortage of men and material throughout the Metropolitan district. During the early weeks of this spring the demand for these items was exceptionally heavy but it is likely that this buying movement was stimulated by the steadily advancing prices. Prices are now more steady than they have been and it is thought that the present levels will be maintained for some time.

Structural Steel—Locally the market for fabricated material is unchanged. Bookings are light because of the remaining doubt as to deliveries but as the transportation situation is steadily improving greater buying activity is looked for within the next week or so. The steel for a number of important building operations is now held up by the freight congestion and construction is being seriously delayed. Architects who have projects ready for bids are withholding them until the material situation generally is clarified.

Electrical Supplies—The local market is somewhat easier than it has been by reason of the improved railroad transportation situation. Freight traffic, while still far from normal is considerably better than it was a few weeks ago and a large amount of material has been moved within the past few days. The shortage has been relieved considerably and the trade generally is of the opinion that from now on conditions will steadily improve. Demand is increasing and a large volume of new business will undoubtedly be booked during the next month or so as a vast amount of new construction has been undertaken within the past few weeks. Prices are advancing in some lines because of increased manufacturing costs.

Cast Iron Pipe—Prices for this material were again advanced $4 a ton on April 20 making the increase since January 1, $14 a ton. Producers claim that the preceding raises have not slowed down buying to any extent and they do not anticipate that the advance recently announced will affect the activity of the market. As a matter of fact the advance cannot have much of an effect upon the market as the majority of the producers are booked full for three or four months in advance. Existing quotations for cast iron pipe are as follows: 6 in. and heavier, $76.30; 4 in., $79.30, with $2 additional for Class A and gas pipe.

Linseed Oil—There has recently been a rumor that the price of this commodity is likely to be reduced to some extent during the next week or so and in this event a large increase in buying activity is anticipated. Demand is still light, mainly because of the uncertainty of large buyers regarding deliveries. At the present writing prices remain as reported one week ago.

A new building brick that has recently been introduced in the housing work now going on in London, England, is nearly five times as large as an ordinary brick, but in comparison is much less heavy and as easily handled. The lighter weight results from the hollowing out of the brick to provide air layers. By the shaping of the ends the existence of joints running all the way through a wall is avoided. The brick is, as a rule, made of one part of cement and four parts sand by simple hand machinery. Three men can make enough bricks in a day to build 400 to 500 square feet of wall. A further economy is effected by the manner of laying the walls, inasmuch as the ends and bottoms of the bricks need only to be dipped in a thin lime mortar mixed with a small amount of cement. If laid in the usual way the air channels in the bricks would become filled.

Standing the Test

The economy of Central Station Service caused the "close down" of the private generating plant in the Hotel Essex, Madison Avenue and 56th Street

Estimates submitted by the representatives of The New York Edison Company showed a saving of several thousand dollars a year. These figures were examined by the owner's engineers and stood the test. The ultimate signing of a contract became only a matter of time

The economy and reliability of *Edison Service* will stand both the test of an expert's examination and the test of time

Let Us Tell You Something

Nobody can tell the rating of a boiler by looking at it. And nobody knows whether the rating placed upon it by the manufacturer is adequate or not until the boiler gets into actual operation. By that time it is usually too late to make a change.

RICHARDSON & BOYNTON CO.'S boilers are honestly rated. Besides that, they are famous as economical heaters. In the buildings that you are concerned with, it is important that you make no mistake on the rating of your heating system.

Write us for heating manuals which show you how to avoid mistakes in installing an adequate heating plant.

Annual Number for 1919 of Record and Guide Quarterly Now Ready for Delivery

THE Annual Number of the **RECORD & GUIDE QUARTERLY** contains in this, the final issue of the year, all the data contained in the preceding three **plus** those of the fourth period, making in one compact volume, a complete transcription of all Conveyances, Miscellaneous Conveyances, such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination, Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraials, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically, so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the **RECORD & GUIDE QUARTERLY** time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

Real Investing

IN the long run, it is more profitable to have steady and just interest earnings, with no variation of principal, than to get for a time a higher rate and have the principal depreciate.

Buying anything in the hope that it will go up is speculating and not investing.

The Guaranteed Mortgage on the other hand is a pure and sure investment.

EDITORIAL

An Indefensible Scheme

Latest advices from Washington are to the effect that the leaders in Congress will probably put over for the present the enactment of legislation providing bonuses for the men who served in the World War. This means, however, merely a short delay, because a great majority in each branch of Congress favors some kind of bonus and will provide for it before long.

New York realty leaders should lose no time in making a most emphatic fight against the plan to raise part of the money for bonus payments through a tax of one-half of one per cent on all real estate sales. For many years in Albany and in Washington it has been the habit of the lawmakers, whenever large additional sums have been desired for various purposes, to put some new kind of tax on New York. The proposal in Washington to raise a considerable part of the bonus money by an additional tax on real estate sales is merely another attempt by legislators from other states to saddle a new burden on the metropolis.

It was brought out in a dispatch from Washington the other day that New York State contributed approximately 23 per cent of the grand total for the entire country in the first installment of income and profits taxes collected by the Federal government for the current year. It is probable that New York's total will be considerably higher than 23 per cent in the final reckoning, for the reason that taxpayers here quite generally followed the rule of making these payments in quarterly installments, whereas smaller taxpayers in other parts of the country have in many instances paid the entire tax at one time.

The Washington figures show that New York has just paid $214,644,234.41 in income and profits taxes for the first quarter. The collections from the entire country amounted to $908,829,172.13. The Metropolitan district alone paid $173,271,815.88 of New York State's total, approximately 80 per cent. The nation's internal revenue receipts from all sources for the fiscal year ending June 30, 1919, amounted to $3,850,150,078.56, and New York contributed 24 per cent of this grand total. The total income and profits taxes in the entire country for that same period amounted to $2,600,762,734.84, and of this total New York contributed $712,425,702.94, approximately 27 per cent of the total.

The Record and Guide calls special attention to these figures at this time for the reason that they show conclusively how the Washington mind works when it comes to devising methods of taxation through which the metropolis can be hit hardest. This latest proposal of a new tax on real estate sales is merely another illustration of the policy of "soaking" New York for the benefit of the rest of the country. It is a suggestion absolutely unfair, it is a proposal to add insult to injury, and the Record and Guide sincerely trusts that the Real Estate Board, the Merchants Association, the New York State Chamber of Commerce and every other public-spirited organization having at heart the best interests of the metropolis will unite in a protest to Washington so earnest and impressive as to compel the Congressional leaders to drop this outrageous plan.

Up to the Unions

The Chamber of Commerce of the State of New York, the Merchants Association, the Brooklyn Chamber of Commerce, the New York Board of Trade and Transportation, the Chamber of Commerce of the Borough of Queens, the Bronx Board of Trade, and numerous other organizations of business men, have united for the purpose of preventing in the future the tying up of the collection and delivery of goods in this city by the action of union workmen on strike or of the refusal of union truck drivers, in sympathy with the strikers, to haul merchandise from railroad and steamship terminals. Partial paraylsis of the entire commerce of New York resulted recently because the truckmen refused to handle goods that came in on trains handled by strike breakers or foodstuffs, coal, lumber and other commodities rushed to the relief of the inhabitants of the city by other non-union routes. That such interference with the business of the city, and such disregard of the health and lives of millions of people, including the families of the strikers and of the truckmen, could longer be tolerated it was unreasonable for union men to expect. There is a bigger union than any enrolled under the American Federation of Labor. It includes in its membership every citizen of this country. The organizations which came together this week at the call of Mr. Alfred E. Marling, President of the New York State Chamber of Commerce, are the representatives of this one big union and the resolutions which they adopted voice the feeling of the great majority of the people in respect to certain actions of unions which have imperilled the lives and property of rich and poor alike.

The assembled business men declared that "the facilities and agencies for the hauling and transportation of merchandise are so essential to the commercial life of the city that they must not in any way be misused to aid strikes or promote the cause of unionism or non-unionism in other lines of activity, but must at all times serve the commercial needs of the city without discrimination or unnecessary interruption."

They also agreed to employ only such truckmen, teamsters and trucking contractors as will in letter and spirit render impartial service for the benefit of the public and provided for a committee to make arrangements for independent trucking facilities and for the enforcement of the laws for the protection of citizens.

Radicalism in the unions has brought about conditions which have forced business men and the great mass of citizens to bring to an issue the question whether unionism is to be a dominantly baneful factor in the every-day affairs of all the men, women and children in the country or if it shall continue, as it was originally meant to be,

helpful to labor and to labor's dependents without being harmful to other interests.

In the words of the resolutions adopted by the busniess organizations this week: "We feel compelled to take this action for the protection of the supreme rights of the public, without regard to the merits of unionism or non-unionism, the open shop or the closed shop, upon which questions we are not now expressing any opinion."

It will not do for Union leaders to ignore this pronouncement. It fairly states the issue which unionism must meet. On its decision to abide by the rule of the majority, to which can safely be left the interests of all of us, or to demand that minorities, however well organized, may jeopardize at will our health, happiness, comfort and lives depends the question of whether unionism will much longer be tolerated by a nation heretofore ready and willing to afford it opportunities for aiding in the establishment of labor on a basis where it shall have more of the world's good things, its money, its physical comforts, its leisure and its pleasures.

The Comparatively Small Increase in Housing Cost

Without wishing to add warmth to the already hot blood of enraged tenants, let us call attention to the figures of the Federal Department of Labor on the increase of living costs in the last five years. These show that on the average housing in this city has advanced least of all—only 23 per cent., while clothing has gone up 219 per cent. and food 91 per cent. It is likely that a comparison made this month would show a further advance in rents, but possibly not enough to bring them even with the advance of 50 per cent. in fuel and light.

The Record and Guide, which has been digging into the housing, and particularly the apartment question, has no consolation for renters. It says that the rents which must be charged in the handful of new buildings now being put up will be from 150 to 175 per cent. above the prices before are war.

It is not only that the wages in the building trades have doubled and that material has risen from 100 to 500 per cent. The cost of borrowing money, the higher expenses of operation and the growing tax rate all add to the burden, which no investor is going to assume unless he expects to get a return on his risk.

The tenant may be vexed because his rent is raised, but the prospective landlord is scared away by the goblins of labor, material, operation, taxes and legislation. And the last of these is not the least fearsome. Of the measures recently adopted in Albany The Record and Guide says that "the passing of such laws is fair warning that further unsound legislation may be enacted next year to govern new buildings. The prospective builder thus faces a prohibitive risk."

That has always been one of the dangers of such laws; and yet we find them enacted just at the time when it is important to encourage building. Is capital likely to build on an uncertain expectancy of 6 per cent. net return when it can buy Government bonds yielding that formerly attractive figure?

May Day Rent Strike Was of Small Proportions

THERE was no widespread rent strike on May Day as predicted by agitators engaged in raising funds to fight landlords. Instead of their being thousands of tenants in revolt there was trouble in only twenty-eight houses, according to Leo Kenneth Mayer, Counsel for the Mayor's Committee on Rent Profiteering. In these houses were 328 families, in the Bronx and Brownsville districts where the agitation was greatest.

Mr. Mayer made it clear that tenants on strike need expect no sympathy or support, as the committee, the courts and the new rent laws provide ample means for the redress of any grievances tenants may have to submit.

The figures on the number of rent strikers in Brownsville and East New York were obtained by Mr. Mayer, who with his assistant, Julius Appelbaum, made a tour of the district. Among the signs displayed on the houses of strikers were: "Do not pay any increase in rent." "If you are in trouble with your landlord come to the Workingmen's Consumers' League, 388 Stone Avenue," and "We will quiet the landlords."

The Tenants' Protective League, which numbers, according to its leaders, between 38,000 and 40,000 members, abandoned the parade originally planned by the organization and confined itself to holding a series of mass meetings.

Harry Block, secretary of the Workingmen's Consumers' League, declared the 5,000 members of his organization were satisfied with the new anti-profiteering laws designed to curb avaricious landlords, and entertain no idea of a strike.

The total number of evictions in Greater New York will be between 1,500 and 2,000, judging by the number in Brownsville and East New York,

The number of tenants who moved on May 1 was estimated at 25,000, the number in Brooklyn alone being estimated at 10,000 by officials of moving van companies. It was said by several companies that the bulk of the tenants were moving out of town. The van owners look for the real moving congestion on October 1, when most leases expire.

As a result of the acute apartment rental situation throughout the city the suburban and urban housing movements are more closely interrelated than ever before. New York real estate brokers characterize the demand for living space within the city as "crowding" and concede it to have reached a "serious status." So intense is the pressure that many brokers assert that hundreds of homeseekers can now radiate to the suburban areas adjacent to New York and not be missed, whereas a few years ago steady apartment house construction meeting a steady urban demand would have stemmed the heavy suburban trend.

From all sources of information the trend to suburban Long Island is greater than it is to any other suburban territory at this time. But subaqueous tunnels and bridges have practically joined Long Island to Manhattan. The shortage of housing space in New York City has resulted in the doubling of property values on Long Island. From Brooklyn especially there is a strong movement into Nassau and Suffolk counties. The Long Island Railroad never before has done such a heavy monthly commutation business in March and April as it has this year, the number of commuters in those months surpassing the number that usually prevail in July and August; and, they are permanent commuters who have by dint of hard work found homes on the Island that they could not obtain in the city. It is as hard now to find a home in the suburbs as it is in town because urban drift is swelling suburban demand.

On the other hand the great rental areas of housing space of all kinds in New York City are holding on to what they have so far as they are able to do so. One broker in Yorkville said that the movement away from his part of the city was negligible while the influx of persons looking for apartments and houses is terrific. The situation throughout the city is serious because demand does not diminish and every time an apartment is rented there is one less for the swarm of prospective tenants.

REAL ESTATE SECTION

Oppose Federal Tax on Real Estate to Pay Soldier's Bonus

Representative Realty Men Object to Bonus Plan as Undesirable in Its Conception and as Inimical to Business

TAXATION of real estate sales has been proposed in Congress as one of the methods by which $2,000,000,000 or more may be raised to pay the soldiers' bonus. The Committee on Ways and Means of the House of Representatives has had before it a bill which, among other taxes, included the item of a one per cent. tax on realty sales of $10,000 or over. This bill met with so much opposition in committee that Representative Fordney, chairman of the committee, has framed another bill reducing the tax to one half of one per cent. on all sales.

The effect of such legislation on the real estate business may be judged by the interviews with leading real estate men which follow:

ALFRED E. MARLING, of Horace S. Ely & Co. and president of the New York Chamber of Commerce: Representative Fordney's bill typifies uneconomical legislation. With billions for the government to pay aside from this proposed measure, he practically asks the country to go on a grand bust in order to give to each soldier what individually is a small bonus but which in the aggregate is a huge draft on the public pocketbook. If this bill goes into effect, what will be the next piece of special legislation? My sentiments about a bonus to the soldier are embodied in the resolution against it passed by the Chamber of Commerce last week; it is wrong in spirit and the government has more than enough to pay as things are now.

Real estate is already punished sufficiently with various taxes. When the state income tax was first suggested the public was given to understand that if it passed the tax upon real estate mortgages would be abolished. Was it? No, one tax is piled upon another tax. We all would like to see some keen thinking and stiff action about taxation. The fellows who threw the tea overboard in Boston Harbor had nothing on us. There is a lot of taxation going on that the public does not sanction. All of this excessive taxation is a punishment of thrift. The proposed law is invidious legislation of the worst kind. It is time to retrench now that the war is over. No private business could stand the riotous expenditure the government is indulging in.

GEORGE R. READ: A small general consumption tax would be the logical, practical and fair thing to enact if we must have more taxation. Real estate seems to be "the goat" when additional taxes are sought. Just now, in this state, there is a tax of one-half of one per cent. on mortgages; one-tenth of one per cent. on equities in sales; one-twentieth of one per cent. on mortgage extentions; a slight tax, but large enough, on bonds or company mortgages; and a general real estate tax equal to two and one-half per cent. of the value of the particular parcel of real estate taxed. The Federal government thinks it ought to pile on the agony, eh?

Many of the boys who returned from the war do not care to see this legislation pass; and, I have talked with many of them. They feel that it imputes a mercenary motive to them. It would be different if it were a pension to care for them in age or sickness. The truth of the matter is that the bonus is small individually and typifies to the vast majority of those who would receive it a lump sum to go out and enjoy themselves with. But the grand total of this proposed taxation is stupendous and it is inequitable in its process of collection. I hope to see it defeated as unwise in purpose and because if enacted it will be a wedge for further ridiculous legislation.

WILLIAM H. WHEELOCK, President of the Brown, Wheelock Co.: The proposed bill, from the standpoint of business, is a fine damper on an active market. After being laid low for many years it is about time that real estate was ignored as a further source of taxation, especially Federal taxation. If this thing keeps on the government will eventually want a special income tax placed permanently upon real estate. Experience shows that there appears to be no limit. From the viewpoint of wisdom I cannot see the utility of giving the soldiers a few dollars each, which in the majority of cases will, without doubt, be spent quickly. In the aggregate the sum is enormous and the way of getting it is inimical to the public welfare.

Mayor Hylan Appoints Committee on Housing Problem

MAYOR HYLAN has appointed a committee of representative men and women as members of the Mayor's Housing Conference Committee of which Tenement House Commissioner Frank Mann is chairman, to devise ways to encourage investment of capital in building homes.

The committee follows:

Joseph P. Day's Twenty-fifth Anniversary Celebrated

At Complimentary Dinner Given Him by Staff He Is Presented With Solid Silver Service and Bronze Bust of Himself

ON Saturday evening, May 1, the staff of the Joseph P. Day Organization extended to Mr. Day a complimentary banquet at Delmonico's to commemorate the twenty-fifth anniversary of the founding of his organization. James R. Murphy, manager of the Day Organization, presided and acted as toastmaster.

Mr. Day was presented with a solid silver service and a bronz bust, executed by Mr. J. Massey Rhind. There were fifty-seven members of his organization present.

Mr. Murphy gave a resume of the Day Organization from the time of its formation, twenty-five years ago. Mr. Murphy said in part:

"Despite the act that our worthy 'General,' Joseph P. Day, entered the real estate field in December, 1894, I contend that it was only in a preliminary way. The firm was known as Day & Osborne, who were respectfully President and Vice President of the 'Mutual Admiration Society,' members in good standing of the 'I am going to do it, keep your eye on me Club.'

"This firm quickly disolved. I am in a position to know because I was among those present. The real inside reason was lack of business. If I remember correctly the total earnings during the months of January, February, March and April, 1895, did not exceed $25.

"The present organization of Joseph P. Day was established May 1, 1895. The only business in the office was the agency of a house on First Avenue between Fifteenth and Sixteenth Street. I collected the rents and served dispossess notices and became most proficient in dodging those that came my way. The total rents aggregated about $100 per month.

"These stirring events occurred while Mr. Day occupied a small 10x12 office at 98 Fifth Avenue. In July the office was moved to 936 Eighth Avenue, where half the store occupied by a barber shop was taken. In September of the same year a move was made to 932 Eighth Avenue, where the present uptown office is now located.

"A clerk was hired in addition to the office boy in 1896, and bit by bit the business grew. The first big insurance business that I remember was that of Hugh J. Grant at Oradell, N. J. Shortly after came the B. J. Norton Contracting Company's large insurance policy. In 1903 the office at No. 258 Broadway was opened and I believe the auctioneer's license was taken out in that year.

"In 1906 the downtown office was moved to No. 31 Nassau Street on the seventh floor. Four years later the entire fifth floor was taken and maintained until last December when Mr. Day moved to his new building at 67 Liberty Street.

"The untiring watchful efforts of our honored 'General,' over this seemingly short period of twenty-five years has been crowned with success. He has earned the love, respect, loyalty and admiration of his entire organization, to say nothing of his reputation as a national figure."

Mr. Joseph P. Day replied: "One cannot help feeling proud of the Joseph P. Day Organization. For the loyalty which the staff has shown to me during the past quarter of a century I want to thank you all from the bottom of my heart.

"I believe a requisite of true salesmanship means loyalty, and that means loyalty to the man over you, loyalty to your house and loyalty to yourself. Years ago I broke down in health, temporarily, due to over work. Some nights I did not go to bed before two o'clock in the morning, sitting in my library with pad and reading lamp getting what you boys call 'hunches.' A fellow can do that only a little time. It was then I found out who were really the loyal members of the staff at that time.

JOSEPH P. DAY.

"The price of success is eternal vigilance. This has been my watchword for many years. It is only in this way that a business can be built up and maintained on a successful plan. In looking around me I feel that in the city of New York there cannot be found a crowd of men more loyal and viligent as those here tonight."

Mr. H. S. Sayers, who attends to the legal phases of Mr. Day's business said the motto, "The price of success is eternal vigilance," is unquestionably the most important factor in the success of the Day Organization and no one had better exemplified it than the chief. Viligence implies activity but viligence is not enough by itself. A cat is viligent but never accomplishes anything worth while. Some people think that if they just run around and show great excitement that they are accomplishing things. This is not always so. First pick out a definite and useful occupation, then go to it."

William Willett, who is in charge of the out-of-town auction department, analyzed the secret of Mr. Day's success: "One has said it has been his courage; another declared that it is his confidence, and others have asserted that it is his knowledge, or his patience, or his temperance, or his kindness, and finally his charity has received credit. But I declare to you that it takes the seven primary graces of heart and mind to make one Joseph P. Day."

Mr. Douglas Eskell said: "There are very few opportunities to declare the great affection and very real admiration men may feel for one among themselves. It really takes an occasion like this to emphasize the fact that there is sentiment in business and in the end it is this sentiment that makes business really worth while."

Review of Real Estate Market for the Current Week

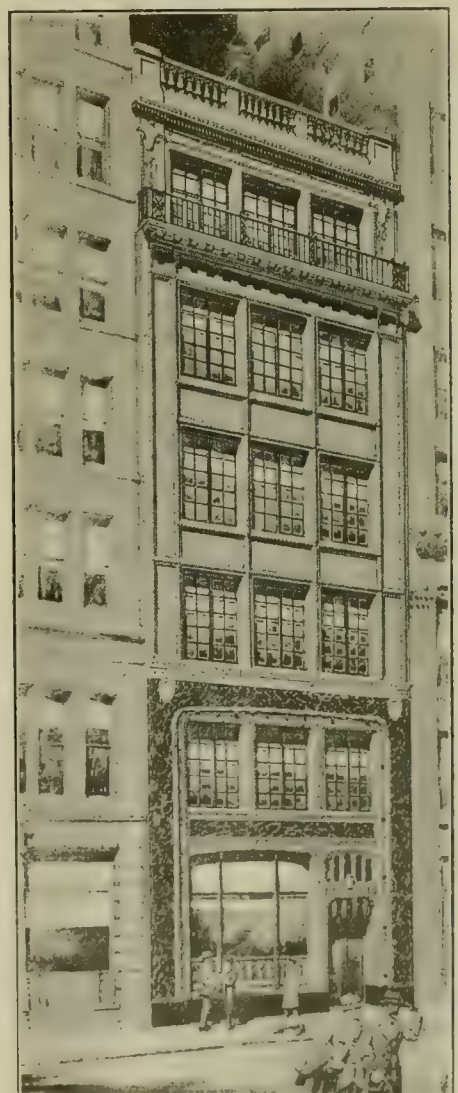
The Market Sustained Its Recent Activity and Large Transactions Were a Feature Throughout the City, Including Financial District

THERE was no abatement, this week, of the phenomenal activity that has prevailed in the real estate market. All parts of the city were represented in the investment movement. Private dwellings in all the numbered streets from Ninth street to practically the end of Manhattan Island figured in the dealing. Washington Heights and Harlem were conspicuous in this regard. A few high class dwellings in the Fifth avenue neighborhood changed hands and they were on some of the finest residential blocks. The Bronx loomed strong with several large transactions, notably a large factory and shipping site and a big corner. Loft and commercial buildings downtown in Manhattan were in good demand and lower Broadway, in the financial district, contributed a sale that makes continued keen interest in that part of the city so rich in fee values. Marking the activity in the West Side was the sale of two ten-story loft buildings. Madison avenue put in an appearance with a sale of a corner office building worth in the neighborhood of a million dollars, while the acme of trading was reached in the sale of the 12-story office building at 27-29 Pine street. A loft building in middle Broadway was sold. George Ehret, who owns a large number of parcels of valuable realty throughout the city, disposed of a big parcel in St. Marks place. Broadway, in the Times Square district, witnessed the sale of the old Hotel Metropole property disguised under the name of Yates. Third avenue, in the Bronx, was a busy mart of real estate dealing.

Saks & Company obtained a parcel in East Fiftieth street in connection with their purpose to erect a new store building on Fifth avenue, nearby, as told in our news columns recently. All in all, brokers and sellers in all parts of town can look back upon a week full of satisfactory returns.

An interesting feature of the week's dealing was the acquisition by B. F. Keith of a block front on Macomber Square in Brooklyn that belonged to the Fleet estate, which will be reimproved with a theatre. In their lifetime the two Fleet brothers would not part with any of their real estate holdings which abound in the neighborhood of Fulton street and De Kalb avenue. Frequently they would not rent a store unless the prospective tenant paid to the last dollar what they deemed it should bring. Consequently the purchase of this block front by Keith means a toning up of the neighborhood in appearance as well as in values.

The leasing of a West Side corner store that for many years had been devoted to saloon purposes showed that the new tenant, who is a grocer, pays considerably more rent than did the saloon tenant; and saloons as a rule paid higher rentals by far than any other line of business and obtained longer leases. Brokers report that former saloon properties throughout the city are now yielding rentals as large, and larger in some instances, than saloons brought.



New Building for Noyes Co.

Charles F. Noyes was one of the first brokers to advocate "buying for occupancy." Since then the Charles F. Noyes Co. has been foremost among real estate firms in selling buildings in the downtown district to tenants for occupancy, and the movement has spread throughout the city. Last year Mr. Noyes purchased for his own account 118 William st, a 6-story building on a lot 25 by 130 and adjoining the northeast corner of John and William sts, now improved with a 20-story office building. The purchase was made primarily to secure a permanent business home for the Noyes organization, and last week Mr. Noyes announced that he had sold a half interest in the building to Starkweather & Shepley, one of the most prominent insurance concerns in the country, with offices in Providence, New York, Boston, Chicago and Paris, France.

The new buildings—six floors and basement—will eventually be occupied by the two firms. The ground floor, which will be a feature of the new building, will be one large floor of 3,000 sq. ft. without any sub-divisions. About 400 sq. ft. will be reserved by Starkweather & Shepley for their underwriting department, and the balance used by the Noyes Co. for its executive offices in connection with the two floors above. Starkweather & Shepley will use the upper floors of the building for executive and departmental offices.

Major A. J. S. Holton, of Clinton & Russell, the architects, in commenting on the architectural features of the building, stated. "I think the new building to be occupied by Starkweather & Shepley, insurance, and the Charles F. Noyes Co., real estate, will probably be the handsomest individual building in lower New York. We have endeavored to create a facade of unusual beauty and distinction, preserving at the same time the maximum of light in each story. The style is Italian Renaissance, and advantage has been taken of its delicacy of feeling in the execution of the stone modelling and carvings, and in the color treatment. The latter characteristic has been carefully carried out in the selection and arrangement of the materials employed. There are colored marbles for the field and panel work and a warm Italian stone for all the moulded trim and carvings. Above a polished green marble base, a wide margin of black and gold marble frames a two-storied opening, which is sub-divided with stone mullions and pilasters, richly ornamented on low relief. The three stories above, simple in treatment, are panelled in yellow kato marble, frames with ornamental stone architraves, stiles and rails. At the sixth floor level is a balcony of wrought iron, above which the top story, set back somewhat from the street line, is faced with pilasters carrying the main cornice and balustrade of the same richly carved stone as above.

The interior has been designed for the special use of the two tenants. The ground floor of the building covers the entire lot, 25 by 130, and the office floors are 90 feet deep. The Brown window, allowing the maximum amount of light, is used both front and rear. No expense has been spared in the matter of construction or layout. The building will be lighted by a special, indirect lighting system; ventilation has been provided for at every point, and the entrance of the building has been especially designed so as to look out for the requirements of the two tenants. A large electric elevator will quickly serve the various floors. The general contract has been awarded to Bernard F. Golden, and the marble and other materials are ready, and the work of construction has started."

NEW BUILDING OF CHAS. F. NOYES COMPANY.

The Charles F. Noyes Co. business was established in 1898, and has grown from practically nothing, until today the business is one of the largest in its line in the city. From the beginning it has been under the ownership and direction of Charles F. Noyes. Starkweather & Shepley was established in 1872, and is the largest business of its particular type in the country. John F. Huntsman, Jr., is vice-president of the company, and resident director.

The two firms, as firms, have taken leases on their respective premises for twenty-one years. It is understood that the investment in ground and building is approximately $350,000, and the new building will be completed in the fall, at which time possession of the premises will be taken.

PRIVATE REALTY SALES.

THE total number of sales reported, but not recorded in Manhattan this week was 150, as against 147 last week and 107 a year ago.

The number of sales south of 59th street was 59, as compared with 59 last week and 33 a year ago.

The number of sales north of 59th street was 91, as compared with 88 last week and 74 a year ago.

From the Bronx 30 sales at private contract were reported, as against 52 last week and 43 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 614.

Another Co-operative House.

Horace S. Ely & Co. are arranging a sale of the 10-sty. Sarsfield apartment house at the southwest corner of Broadway and 143d street to a company being formed and in which are a few of the tenants in the house. The property is being sold by the Broadway-Thirtieth Street Corporation, Louis B. Brodsky, president, which has been holding the house at $900,000. It has an annual rental of approximately $100,000. The structure fronts 100 feet on Broadway and 125 feet on 143d street and has accommodations for 100 families and six stores.

It was erected 8 years ago by the McMorrow Engineering and Construction Co. The new owners will conduct it on a co-operative basis. The selling company acquired it recently from the Durham Realty Co., Benjamin N. Duke, president.

Du Pont Buys Yates Hotel.

T. Coleman du Pont, L. M. Boomer and associates, who control the Hotels Claridge and Wallick in the east side of Broadway, between 43d and 44th sts, bought from Alonzo Hornby the adjoining 6-sty Yates Hotel, formerly the Metropole, at 147-151 West 43d st, 60x100.5, for about $500,000. They have also purchased from John J. Lussier his 32-year lease on the premises, paying about $250,000 for it. The du Pont-Boomer interests own and operate the Hotel McAlpin, the Waldorf-Astoria, the Savarin restaurant in the Equitable Building and the Fifth Avenue Building restaurant in this city. They also control the Bellevue-Stratford in Philadelphia, and last Wednesday acquired control of the Willard in Washington.

Bankers Buy in Broadway.

Charles F. Noyes Co. sold for Robert E. Dowling to Benjamin Block and Peter J. Maloney, 51 Broadway, extending through to Trinity pl, a 6-sty and basement fireproof office building, on a plot 26.4x196.6x26.3. The building is one of the best individual buildings in the financial district. The buyers secured the property as a permanent home for their banking business, known as Block, Maloney & Co., now at 74 Broadway, where they will remain until the leases in their new home expire, 3 years hence.

Buys 12-Story Office Building.

Occupying a plot 50.1x94.8xirregular, the 12-story banking and office building, 27-29 Pine street, has been sold by Andrews & Co. to the Banque Industrielle de Chine, of 31 Pine street, adjoining. The reported selling price is $1,300,000 and the sellers are understood to have paid less than $700,000 for the property in 1916. Part of the building was long occupied by Kuhn, Loeb & Co. The Charles F. Noyes Co. and William D. Bloodgood & Co. were the brokers.

Burrell Building Bought.

The Winter Realties, Inc., sold to the Rochelle Realty Corporation, 169-171 Madison avenue, at the northeast corner of East 33d street, a 16-story office and commercial building, on a plot 49.5x100. It is known as the Burrell building and was built by the seller six years ago.

Century Old Holding Sold.

L. Tannebaum, Strauss & Co., in conjunction with Horace S. Ely & Co., sold for Louis Langdon Kane and others 518 Broadway, a five-story brownstone loft and store building, on a lot 25.10½x100. It has been in the family of the sellers more than 100 years. The buyer is the Lebertan Corporation.

Former McAlpin Home Sold.

City Real Estate Co. sold through John J. & Theo A. Kavanaugh to a buyer, for occupancy, 9 East 90th street, on Carnegie Hill, a 5-story brick and stone American basement dwelling, on a lot 26x100.8½. The house adjoins the east side of the grounds of the Andrew Carnegie mansion. It was long the home of George McAlpin.

RECENT LEASES.

Big Lease Means New Building.

The Pottier property at 489 Fifth av and 12 E 42d st, forming an "L" around the 20-sty Bankers Trust Co building, at the southeast corner of these thoroughfares, is to be improved with a tall building. This became known last Monday with the confirmation by Justice McAvoy of the lease of the property to the National Drug Stores Corporation. The rental for the property to be paid for the first 21 years is $2,500,000, with two renewals for a similar period. On the site, which is at present improved with the 7-sty Depew building on the Fifth av end and a 6-sty building on 42d st, the lessees plan to build a skyscraper in which will be located a branch store. The property is owned by Mrs. Emilie M. Heckard, Miss Marie Barry Pottier, August R. W. Pottier and Theodore Baettenhaussen. They acquired it several years ago from Chauncey M. Depew and it is classed among the highest priced inside realty in the city. The frontage on Fifth av is 51 ft and extends back 100 ft, while the 42d st "L" measures 22x98.9 feet. The deal was made direct with Dr. W. A. Heckard, husband of one of the heirs.

Long Lease of a "Taxpayer."

Robert M. Kern and Jacob Amron leased from Charles L. Bernheimer the 3-sty taxpayer at the southwest corner of Broadway and 81st st, on a plot 76x104, for a term of 21 years, with two renewals for similar periods, and the rental in the aggregate will be about $3,000,000.

Apartment Leased on Plans.

PEASE & ELLIMAN leased for 845 Fifth Avenue, Inc., an association of the present tenants in the building at the south corner of Fifth av & 66th st, which recently took it over from the Barnum-Schley Syndicate which built it, an apartment of the entire 8th floor and having 17 rooms, to Mrs. William Harkness. There are now only four apartments left, although the building will not be ready until September.

Fine New Apartment Leased.

DOUGLAS L. ELLIMAN & CO. leased a large apartment of 20 rooms and 6 baths, comprising the entire floor, to V. Everit Macy, in 845 Park av, corner 66th st, which was recently sold to a syndicate composed of Wright C. Morrell and Cornelius N. Bliss, Jr., and Charles D. Norton.

Butterick Makes Long Lease.

The Butterick Publishing Co. leased 2,400 square feet in the Flatbush Industrial Building for a term of 10 years. The company is locating in Section A of the 36th st wing of this building and will use 28,800 square feet on each of the basement, first and second floors. It is understood that the rent for the term above mentioned is in excess of $450,000.

BENEDICT BROTHERS are understood to have received a sum equivalent to $175,000 for their lease on the property at the southwest corner of Broadway and Fulton st, so that the American Telephone and Telegraph Co. can go ahead with the addition to its skyscraper. The arrangement also includes provisions for quarters for the jewelers on the westerly end of the new building in the Fulton st side.

Activity in Queens.

H. Pushae Williams, president of the Queensboro Chamber of Commerce, announces that body has secured the services of Percival Mullikin, who will join the executive staff on May 10 as an additional assistant to Walter I. Willis, secretary.

Mr. Mullikin, who has been connected with the Long Island Star and Flushing Journal for the past 15 years in both editorial and reportorial capacities, will devote his entire time to promoting the construction of homes throughout Queens, and to keeping the public constantly informed regarding the needs, opportunities and advantages of Queens from the standpoint of residential development.

Important Auction Sale.

For the purpose of selling well located parcels of real estate that were bought by the city of New York in connection with the creation of easements during the construction of various municipally owned rapid transit routes, Henry Brady, auctioneer, will sell at auction on May 26, at the Real Estate Exchange Salesroom, five holdings that were so acquired.

They are the site of the old Grand Union Hotel, forming the east side of Park avenue, from 41st to 42d street; the block along the easterly side of West Broadway, extending from Park place to Murray street; the southwest corner of Beekman and William streets; the block fronts on the west side of Centre street from Canal to Walker street, and from Canal to Howard street, and the parcel on the west side of Flatbush avenue extension, north of DeKalb avenue.

Subsurface easements have been taken by the city for transit purposes, and the property is no longer needed in connection with transit development, but will be sold subject to underground rights of way, including tracks and station platforms.

The city has constructed substantial foundations under the street grades, upon which the new purchasers may erect modern buildings of any type. The proceeds of the sale will be added at once to rapid transit funds for the further development of the city-owned transit system.

It is generally agreed that the Grand Union Hotel site is the most desirable large plot of unimproved real estate in the city, if not in the country. The plot extends a distance of 197 feet 6 inches along Park avenue and 230 feet along East 42d and East 41st sts. The upset price is set at $2,800,000.

The area of the plot is 45,425 square feet, equivalent to about 18 city lots. Under the street level the city has constructed along a triangle extending from the junction of 41st street and Park avenue to a point midway between Lexington and Park avenues at 42d street, four tracks and station platforms. The area of this under-surface easement taken for city rapid transit lines is approximately 20,500 square feet. Over and surrounding this underground right of way the city has constructed foundations that in places extend down to bedrock, capable of sustaining a tall office building.

The only reservation made by the city in connection with the sale of the Grand Union Hotel site will be for two entrances to the Grand Central subway station. One of these entrances will be located in 42d street and the other in Park avenue. The purchasers of the property will be given window privileges on the Grand Central subway side of the mezzanine, with direct connection, if desired, to the mezzanine. There has been constructed in connection with this site a pasageway leading directly to the Grand Central Terminal Building, so that occupants of the structure to be erected on the Grand Union Hotel site will have practically direct connection not only with the Grand Central express station of the subway system but also with the New York Central and New York, New Haven & Hartford Railroad systems.

Traffic counts made on the various platforms of the Grand Central subway station indicates that these platforms are used daily by approximately 240,000 persons in transit from upper and lower Manhattan, the west side of Manhattan, Queens and the territory served by the New York Central and New Haven Railroad systems. The average daily traffic at 42d street approximates 500,000 persons.

The total upset price placed on all the properties by the city is $3,580,000.

Your Building Opportunity

THE Atlantic Terra Cotta for the 13-story Apartment House illustrated was made before the war for an out-of-town customer. The building was stopped by war conditions. We are now permitted to sell at one-half present day prices.

As illustrated, the Atlantic Terra Cotta constitutes two complete 13-story facades on a right-angle corner, with a ground plan of 112 ft. x 70 ft. The material can be readily adapted to a larger or smaller building.

In any such adaptation our drafting department will co-operate with your architect.

The Terra Cotta is Atlantic Terra Cotta, of Atlantic quality and Atlantic service goes with it. It is grey in color, similar to the Terra Cotta used for the Pennsylvania Hotel, New York.

BUILDING SECTION

Marked Increase in Residential Building for April

Figures of F. W. Dodge Company for Month Indicate Decided Improvement in This Class Throughout the Country

THE outstanding feature of the F. W. Dodge Company's April building statistics is that residential building has, after lagging behind for some months, resumed the place of prime importance over all other classes of construction. Figures on awards of contracts in the territory north of the Ohio and east of the Missouri rivers during April give to residential building 31 per cent of the total, whereas during the first quarter of the year it represented but 19 per cent of the total.

The total amount of contracts awarded during April, 1920, in the Dodge Company's territory was $344,007,000. This shows a slight increase over the March figure, which was $327,897,000, and a very considerable increase over the figure for April, 1919, which was $188,852,000. The total for the first four months of 1920 amounts to $1,114,415,000, as compared with $464,407,000 for the first four months of 1919.

Analysis of the April figures shows $103,743,000, or 31 per cent, for residential buildings; $65,498,000, or 20 per cent, for public works and utilities; $62,181,000, or 19 per cent, for industrial buildings; and $57,115,000, or 15 per cent, for business buildings.

During April contemplated work was reported amounting to $445,053,000, bringing the total for contemplated work reported for the first four months of this year up to $2,144,637,000. Contemplated work reported from January 1 to May 1, included, $482.344,000 for residential buildings; $432,523,000 for industrial buildings; $423,317,000 for public works and utilities; $301,693,000 for business buildings.

Building contracts awarded in April in the New England States amounted to $28,971,000, which is one-third less than the figure for March, although it is double the figure for April of last year.

In detail the April, 1920, figures show the following items: $9,744,000, or 33 per cent, for residential buildings; $6,934,000, or 24 per cent, for business buildings; and $6,829,000, or 24 per cent, for industrial buildings.

Contemplated projects amounting to $51,924,000 were reported in April, bringing the total of contemplated work reported from January 1 to May 1 up to $245,727,000; including $57,320,000 for industrial buildings; $52,577,000 for residential buildings; and $42,114,000 for business buildings.

In New York State and Northern New Jersey, building contracts in April amounted to $87,741,000, an increase of 31 per cent over the figure for the month of March, and over three times the figure for April, 1919.

The total for April, 1920, included the following items: $37,417,000, or 43 per cent, for residential buildings; $20,557,000, or 23 per cent, for public works and utilities; and $10,464,000, or 12 per cent, for business buildings.

Contemplated work amounting to $104,490,000 was reported in April. From January 1 to May 1, the amount of contemplated work was $407,760,000, divided as follows: Residential buildings, $115,509,000, or 28 per cent; public works and utilities, $84,480,000, or 21 per cent; business buildings, $81,461,000, or 20 per cent; industrial buildings, $66,110,000, or 16 per cent.

April building contracts in eastern Pennsylvania, southern New Jersey, Maryland, Delaware, the District of Columbia and Virginia, amounted to $50,644,000, which is practically equal to March figure, although it is 81 per cent greater than the figure for April, 1919.

The April, 1920, figures contain the following items: $14,604,000, or 29 per cent, for residential buildings; $10,758,000, or 21 per cent, for industrial buildings; $10,433,000, or 21 per cent, for public works and utilities, and $9,916,000, or 19 per cent, for business buildings.

Contemplated projects reported in April amounted to $66,891,000, bringing the total of contemplated work from January 1 to May 1, up to $363,612,000, which includes $87,962,000 for residential buildings, $79,387,000 for public works and utilities, $71,353,000 for industrial buildings, and $40,335,000 for business buildings.

Building contracts let during April in western Pennsylvania, West Virginia and Ohio amounted to $60,811,000, a decrease of 10 per cent from the preceding month, but an increase of 82 per cent over the figure for April of last year.

The April, 1920, figures include: $16,514,000, or 27 per cent, for residential buildings; $12,540,000, or 20 per cent, for industrial buildings; $12,312,000, or 20 per cent, for public works and utilities, and $9,542,000, or 16 per cent, for business buildings.

Contemplated work reported in April amounts to $57,164,000, bringing the total of contemplated work recorded from January 1 to May 1 up to $237,678,000, which includes $69,428,000 for residential buildings, $63,625,000 for industrial buildings, and $36,186,000 for business buildings.

Building contracts let in the central west (comprising Illinois, Indiana, Iowa, Wisconsin, Michigan, and portions of Missouri and eastern Kansas) in April amounted to $94,523,000, an increase of 5 per cent over the figure for the preceding month, and increase of 18 per cent over April, 1919. As building costs have increased considerably more than 18 per cent during the past year, this indicates a decrease in actual volume of building end engineering construction as between April, 1919, and April, 1920.

The April, 1920, figures include: $23,091,000, or 24 per cent, for industrial buildings; $22,599,000, or 24 per cent, for residential buildings; $18,887,000, or 20 per cent, for business buildings; and $17,622,000, or 18 per cent, for public works and utilities.

Contemplated work was reported during April to the amount of $149,873,000, which brings the total of work in this condition reported from January 1 to May 1 to $830,905,000, including $181,624,000 for public works and utilities, $167,800,000 for industrial construction, $148,185,000 for social and recreational projects, and $145,591,000 for one and two-family dwellings, apartments, etc.

April building contracts in Minnesota and North and South Dakota amounted to $11,316,400, which was practically the same as the figure for the preceding month, although it was more than double the figure for April, 1919.

The April, 1920, figures included: $2,864,000, or 25 per cent, for residential construction; $2,428,000, or 21 per cent, for educational buildings; $2,080,000, or 18 per cent, for public works and utilities, and $1,403,000, or 12 per cent, for industrial construction.

Contemplated work reported in April amounted to $14,711,000. The total of contemplated work reported during the first four months of 1920 amounts to $58,955,000, including $14,544,000 for public works and utilities, $11,636,000 for business buildings, and $11,277,000 for residential projects of different types.

State Appropriates Millions For Buildings and Roads

(Special to The Record and Guide)

Albany, May 6, 1920.

ALTHOUGH it was the policy of the legislative financial committees to limit appropriations for construction and defer a large part of the institutional extension plan until next year in the hope of escaping to some extent the high cost of materials and excessive labor charges, an analysis of the appropriation bill proper and other bills affecting improvements indicates that this policy of economy will not have the effect of completely stopping all construction at state institutions.

Millions have been appropriated for additional accommodations at the various state hospitals and institutions and improvements at various state enterprises.

For a new cell block at Sing Sing prison $300,000 was appropriated. For a new death house at the same prison an appropriation of $200,000 was made. For the continuation of work at Wingdale prison there is an item of $350,000 and for improvements at Auburn prison an appropriation of $75,000.

A new armory at Troy will be built shortly and for the preliminary work an appropriation of $200,000 was made. For an addition to the Rochester armory an item of $50,000 is available.

An appropriation of $85,000 was made for additional accommodations at the Brooklyn State Hospital; $75,000 at the Buffalo State Hospital for a heating plant and $100,000 for ward enlargements.

For a new heating plant at the Central Islip State Hospital an item of $60,000 is available and for an extension which will enlarge accommodations an appropriation of $450,000 was made.

For new cottages at the Hudson River State Hospital an appropriation of $75,000 is available.

Kings Park State Hospital was given $300,000 for the construction of additional wards and accommodations.

For the construction of a new dormitory at the State Institute of Applied Agriculture on Long Island an appropriation of $75,000 is available. For the extension of the Cornell Agricultural College, a new building and other improvements, an appropriation of $500,000 was made. The Potsdam Normal School was given an appropriation of $100,000 for construction. The State Fair Commission was granted $50,000 for the construction of a new horse stall system.

Alternations to the east building at the Manhattan State Hospital will cost $75,000 for which an appropriation was made, and for the conversion of buildings used by the Federal Government at this site an appropriation of $90,000 was made. It is planned to convert the buildings used by the navy department into quarters for state patients.

The Middletown State Hospital received an appropriation of $385,000, of which $100,000 is for additional accommodations and the balance for general improvements.

For a new building on the Marcy site of the Utica State Hospital an appropriation of $1,300,000 was made.

Letchwork Village will receive $265,000 for the construction of cottages for patients and $60,000 for a connecting underground tunnel.

For a central heating plant at the Rome State School for Mental Defectives an appropriation of $75,000 was made.

Under a bill recently signed by the Governor an appropriation of $1,850,000 was made for the construction of barge canal terminal in New York City, Buffalo and Rochester. Of this amount $750,000 will be spent in New York City, $600,000 in Buffalo and $500,000 in Rochester.

Plan New Projects Despite Growing Material Shortage

Figures of F. W. Dodge Company Show Tremendous Increase in Both Contemplated Construction and Contracts Awarded

BUILDING totals for the week of April 24 to 30, inclusive, show a decided improvement when compared with the corresponding figures for the previous month or so, and indicate that the building industry in the metropolitan district would be occupied to the limit of its facilities if only materials could be secured without delay. There has never been a time when such a vast amount of new building and engineering construction was actually contracted for and waiting for a favorable moment to start. At the same time there is a tremendous volume of new building work being planned by architects and engineers that will shortly be released for estimates.

Figures compiled by the F. W. Dodge Company show that during the week of April 24 to 30, inclusive, 521 new building and engineering operations were reported as being planned in New York State and New Jersey north of Trenton. This construction will involve an outlay of approximately $28,608,700. During the same period contracts were awarded for 258 building and engineering projects that will require an expenditure of $22,014,100. An analysis of these figures shows a steady improvement in the number of housing operations, but at that the number is relative small when compared with other types of construction and in no manner sufficient to supply the demand for living accommodations in this territory.

The list of 521 contemplated building operations announced during the week is grouped as follows: One hundred and one business buildings, such as stores, lofts, offices, commercial garages, etc., $4,179,000; 20 educational projects $11,967,600; 4 hospitals and institutions, $180,000; 37 factory and industrial buildings $2,181,000; 3 military and naval structures, $36,000; 3 public buildings, $35,000; 44 public works and public utilities, $2,236,700; 2 religious and memorial buildings, $47,000; 292 residential projects, including apartments, flats and tenements and one and two family dwellings, $6,772,900, and 15 social and recreational projects, $973,500.

Among the 258 projects placed under contract during the week of April 24 to 30 were 50 business projects of various types, $1,988,000; 11 educational projects, $3,483,000; 2 hospitals and institutions, $5,800; 20 factory and industrial projects, $1,735,000; 2 military and naval projects, $14,600; 22 public works and public utilities, $9,664,400; 1 religious edifice, $75,000; 147 residential operations, including multi-family and private dwellings, $4,698,300, and 3 social and recreational projects, $350,000.

John S. Hyers Company Expands.

In order to obtain adequate facilities for its rapidly growing business the John S. Hyers Company, Inc., general contractors, recently leased the entire second floor of the building at 13 West 30th street, which they are now altering extensively. The additional space will provide for a large drafting and estimating room, general office and a suite of private offices for the executives.

The John H. Hyers Company, while relatively a new factor in the building industry of Greater New York, has in its personnel men who have been prominently identified with the development of the building industry in the Metropolitan district for a number of years and who bring to the new organization a wide experience and technical knowledge of building construction in all of its various phases.

The organization is composed of John S. Hyers, president; George H. Chivvis, vice-president, and David L. Weil, secretary and treasurer. Mr. Hyers obtained his early building experience with the well-known firm of W. A. & F. E. Conover, with which he was associated for more than ten years. During this time he had direct supervision of a number of large building projects, and was active in the construction of the handsome country residence of Clarence Mackay at Roslyn, L. I.

Severing his connection with the Conovers, Mr. Hyers became associated with C. H. Cottrell, interior decorator, as superintendent of all building construction incidental to large decorating contracts. During his alliance with Mr. Cottrell he went to Chicago to supervise the alterations in connection with the Rector Restaurant project, which is said to be one of the most elaborate operations of its kind in the West. He also had charge of the building end of a vast amount of private residential work in and around New York in the years he was associated with Mr. Cottrell.

Later Mr. Hyers went with A. B. Clark, widely known as an expert in every type of foundation construction, and he was identified with the foundation work of a number of important building operations in this city. Mr. Hyers was selected for the position he occupied with this firm because of his thorough familiarity with varying soil conditions and his wide experience in shoring, caisson and cofferdam work. During his experience with this organization he had direct charge of the foundations for the structure at 1 Wall street, said to be quite unusual in a number of respects, foundations for the Brunswick Building at Fifth avenue and 26th street, where difficult problems were also encountered, and also for the foundation work in connection with the addition to the Manhattan Squae Hotel in 77th street, west of Central Park.

For the twelve years prior to the organization of his own firm Mr. Hyers was

JOHN S. HYERS.

general superintendent for the Hess Construction Company, which was principally identified with the commercial development of the mid-town section of Manhattan. This firm erected a large number of modern office and loft buildings and also extensively altered many old-fashioned private houses for commercial uses. Probably the most notable of the structures erected under the supervision of Mr. Hyers during this period was the twenty-story Hess Building, which, including the demolition of the old buildings upon the site, was accomplished in less than seven months and thereby establishing a building record that stood for a long time.

Since the organization of the John S. Hyers Company last October this firm has finished a large amount of work and has made a reputation for speed combined with efficiency that will count heavily in years to come. Among the principal operations this organization has handled during the past eight months are included the extensive remodeling of the Grand Rapids Building in 32d street at a cost of $125,000; alterations to the Knickerbocker Hotel, a new building for the Willis Pipe Co., in East 21st street, a large factory building at Maspeth, L. I., for S. Mayer & Sonds, and extensive alterations to the Albemarle Building at Broadway and 26th street for Emery Beers and the Chalmers Knitting Mills.

The most recent development of the John H. Hyers Company is the creation of a special department provided to handle the design and construction work in connection with high-class restaurant enterprises. This firm has already had some interesting contracts in this line and with the new facilities now provided it is anticipated that this phase of the business will grow rapidly in importance.

PERSONAL AND TRADE NOTES.

The Rusling Company, engineers, announce the removal of their offces from 39 Cortlandt street to 90-92 West Broadway.

John Gallin & Son, general contractors, have moved their offices to their own building at 252 Front street, where they have arranged larger quarters for their growing business.

Louis Allen Abramson, architect, 46 W. 46th street, recently leased for a term of years the entire building which he is now occupying in part, and will alter the same for the accommodation of his growing architectural practice.

Percival Mullikin will join the executive staff of the Queensboro Chamber of Commerce on May 10 as an additional assistant to Walter I. Willis, secretary. Mr. Mullikin will devote his time to promoting the construction of homes throughout the borough, and to keeping the public informed regarding the needs, opportunities and advantages of Queens Borough from the standpoint of residential development.

CURRENT BUILDING OPERATIONS

ALTHOUGH but slight improvement in the building material situation has developed during the week, the industry as a whole seems optimistic for the future. The best evidence of this is the large amount of new construction that has been placed under contarct during the past week or so and the number of important building and engineering operations that are now in the hands of contractors for estimates. Then again, architect sand engineers are exceptionally busy on the plans for a tremendous volume of work that will be undertaken just as soon as the material market conditions are more favorable. According to authentic trade reports there has never been a time when so much important construction was being planned or when such a large number of proposed jobs, for which contracts have already been awarded, have been held in abeyance pending the availability of essential materials and supplies.

Undoubtedly the railroad freight congestion is the most important factor in the existing building material famine. For the most part producers have good reserves and have thousands of tons of materials on the rails, but held from arrival at points from which they can be distributed by the embargoes. Meanwhile, the local building industry is prevented from proceeding with its work in hand at a time when it naturally should be engaged to the limit of its facilities. The demand for building materials and supplies is daily growing in intensity and in some lines the market is entirely cleaned out. It is practically impossible to buy Portland cement in even small amounts and there is also great difficulty in getting hollow brick, hollow tile, lath and various other items without which no building construction can proceed.

As a general thing building material prices are steady, that is where it is possible to obtain them. For the balance of the list the quotations are largiy nominal because dealers have nothing to sell. It is anticipated that some increases will be registered as new suplies start to arrive and the scramble for preference commences.

Common Brick.—Owing to the scarcity of Portland cement in Greater New York, a condition practically amounting to a famine, a large amount of active construction has been forced to shut down, for the time being at least. It is quite natural that the temporary inactivity of the building industry should be reflected in the demand for common brick. The week in the New York wholesale market for Hudson River common brick has been a quiet one for this time of the year as far as active sales are concerned, but on the other hand the strike of the brick handlers and other factors have kept the brick interests keenly on edge. Despite the drop in demand common brick producers have continued to send their loaded barges to the city, and at the present time the market is actually overloaded. It was reported Friday morning that twenty-six barge loads of common brick had arrived from up-river points during the week and only seventeen of these had been disposed of. At this writing there are at least twenty-five barge loads, representing approximately 10,000,000 brick, remaining unsold in the wholesale market. Although prices have held steadily to the $25 level, there is a possibility of a slight recession from this figure in order to stimulate sales, as manufacturers are not inclined to hold their boats at this end any longer than is absolutely necessary. Considerable activity in the Hudson River yards was noted this week. The clear weather has dried out the open yards and it is predicted that brickmaking will be underway to the capacity of available labor within the next week or two at the most. The scarcity of brickmaking labor is the chief problem of the producers at this time and unless workmen are available in greater number than are to be obtained at present the output for the 1920 season is likely to be seriously curtailed.

Summary.—Transactions in the North River common brick market for the week ending Friday, May 7, 1920. Condition of market: Demand relatively light; prices unchanged, but weakening slightly. Quotations: Hudson River, $25 a thousand to dealers in cargo lots alongside dock. Number of cargoes arrived, 26; sales, 17. Distribution: Manhattan, 4; Brooklyn, 7; Bronx, 2; New Jersey points, 4. Remaining unsold, 25.

Roofing and Building Papers.—The demand for these materials has slacked off to some extent during the past week, but jobbers are reporting a fair volume of business in localities where building construction has been active. Locally sup-

MATERIALS AND SUPPLIES

plies are generally low and manufacturers are prevented from coming to the aid of the jobbers because of the freight congestion and embargoes that has tied up practically all building materials. Prices range considerable according to the demand and the condition of dealers' stocks.

Lime.—The past week has brought further advances in price for all kinds and grades of lime made necessary because of increased manufacturing costs and the additional cost of bags. The market is quiet, with demand dull, because of the general quietude of the local building situation brought about by the scarcity of essential building materials. Demand is not expected to pick up to any extent until all commodities are available in much better volume than they are at this writing.

Portland Cement.—Local dealers are entirely cleaned out of this material and they are very uncertain as to when to expect a renewal of supply. This question is entirely dependent upon the railroads' effort to relieve the freight congestion and lift the embargoes now in force. Manufacturers all report adequate cement in their bins for all reasonable demands and many producers have a large volume on the rails but are unable to get it to the dealers. The most important event in the Portland cement situation this week has been the announcement of an increase in price effective immediately. Dealers are now quoting new prices of $4.50 per barrel for deliveries in Greater New York, with rebate for returned bags at 25 cts. each instead of 15 cts., as before. Increased cost of bags and advanced wages to labor is given as the reason for the raise in price.

Cast Iron Pipe.—A scarcity of this commodity continues to affect business and the best deliveries possible cannot be maed under six months after the orders are placed. The recent advance of $4 a ton on cast iron pipe does not seem to have decreased the demand to any great extent, particularly on private work, but according to current reports there is a tendency on the part of municipalities to hold their large projects in abeyance in the hope of a reduction from the existing price levels. In general prices are unchanged, but in some instances advances above the list have been obtained.

Structural Steel.—Although there is a large amount of important construction now being figured in the metropolitan district actual tonnage orders are few and far between because of the generally slackened building activity. Steel bookings were lighter this week than for some time past and no great improvement is anticipated until the freight embargoes are lifted and building materials are again available in quantity to meet the tremendous demand. The important fabricated steel awards of the week include 1,600 tons for an office building in West 35th street, and 1,000 tons for a loft building at 4th avenue and 21st street, both to the Hay Foundry & Iron Works. Prices on mill shipments of fabricated material remain practically unchanged.

Nails.—A number of important local jobbers have made statements to the effect that they anticipate substantial wire nail deliveries within the next few weeks. Reports from producers are not so optimistic, however, and even if nails were to be released in any volume the supplies would naturally have been on the dealers' books for months. According to the best informed it is extremely doubtful if any actual relief will be afforded in the matter of nail supply for months to come, and the relief may be too late to be of assistance in the 1920 building season. Prices prevailing in this locality vary considerable. On wire nails the quotations range from $4.25 to $8 base per keg, and on cut nails, which are almost impossible to obtain at this time, quotations run from $7.75 to $9.50 per keg.

Linseed Oil.—The market has weakened materially and no decided improvement is possible while the general building situation is so hampered by material shortages as it is to-day. The prospects would be far brighter should there be an immediate change in the material supply situation, but as this is entirely dependent upon unsnarling the railroad freight situation, the outlook is gloomy. Prices vary somewhat, but quotations in general follow those of the past month or so.

A New Hollow Metal Door.

The Board of Fire Underwriters has recently set its seal of approval upon a new hollow metal, self-closing fire door that embodies a number of features which give to the device a wide range of adaptability. This door is known as the "Biltrite" Hollow Metal Door, and is patented and manufactured by the Leonard Sheet Metal Works, Inc., Hoboken, N. J.

This new fire door is being made up in both black and galvanized iron, for interior or exterior use, and its sturdy construction, despite its relatively light weight, together with its finished appearance, makes it vastly more suitable and desirable for general use than the old-

fashioned tin-covered doors or other types of fire doors designed for the protection of horizontal exits.

The smooth outside surface of this door permits its painting and graining to harmonize with the finish of the surroundings in which it is placed, and there are no sharp edges to obstruct or tear clothing, or locks to become open by accident. This type of door requires practically no outlay for repairs and upkeep, in which it differs entirely from the tin-covered type of door.

This door is hung on stanadrd tracks and hangers of the sliding type and any standard hardware may be used to hang the swinging type. Due to its construction, it is able to withstand rough usage. Its finished appearance makes it suitable for use in warehouses, garages, piers, elevator shafts, etc.

Honest Rating

It is quite possible for a 2-ton truck to carry a 4-ton load. But it is still only a 2-ton truck. The extra load is a strain. It is equally possible to develop a higher rating on a boiler than the natural capacity. But this does not change the real rating of the boiler.

Boilers are purchased according to the rating. You cannot distinguish a rating by looking at the boiler. You have to take the manufacturer's word for it.

RICHARDSON & BOYNTON CO.'S Boilers are honestly rated to deliver continuous warmth with the least effort and fuel. Under pressure, this rating can be greatly enlarged. But that is not the way you want to run a heating plant.

Write us for heating manuals which show you how to avoid mistakes in installing an adequate heating plant.

Artificial Stone is growing in popularity

Unlike other Building Units, Artificial Stone is a NON-CONDUCTOR of DAMPNESS, COLD and HEAT. It reduces building costs and expedites construction. A wide variety of facing effects produced with crushed granite, marble, brownstone, Indiana limestone, carborundum, etc., makes it a sightly stone for every type of structure and its durability insures the lowest possible maintenance cost.

We court investigation of the most searching kind, and are always pleased to go over the subject in greater detail with anyone interested in building for permanence, beauty and economy.

Another Mayor's Committee

In accordance with his announced intention Mayor Hylan has appointed a Housing Conference Committee, of which Tenement House Commissioner Mann is chairman. The Mayor is to be congratulated on having selected men and women who are so eminently fitted for the work which the Mayor has in hand for them to do, because they are, one and another of them, exceptionally well informed on the various phases which enter into the housing question.

The Mayor has a happy way of choosing subjects for investigation by committees of eminent personages. He is keenly alive to the questions that are of prime importance to the many residents of the first city in the land and he seldom fails to crystallize, temporarily, the thought of the town upon any important matter by the appointment of a Mayor's Committee to cogitate upon it.

In his letter of appointment the Mayor's analytical powers and deftness of summarization are shown with such clearness that the committee has the good fortune to have the situation outlined and visualized at the start. He says: "It is obvious that we are not dealing with a theory but with a condition in the shortage of houses, which amounts to a crisis" and "lack of housing is as dangerous to the community at large as lack of food and clothing, and is the leaven for the fermentation of unrest." These words go right to the heart of the matter—they ring true.

There is room for regret that the Mayor did not bring this same power of comprehensive analysis and suggestive summarization to the question of the lines along which the committee might work out the problem which he so urgently asks them to solve. He has been so felicitous in his choice of the membership of the committee that there is room for regret that he has overlooked the opportunity to point out the way for action by the municipality or by the community or by associations of citizens that would relieve the distressed neighbors within the five great boroughs of the nation's biggest city. It is quite certain that had he done so there is no one of the sixty-eight distinguished members of this latest Mayor's Committee but would have done his or her best to work out the problem along the lines of the Mayor's suggestion, however strongly each and everyone of them hitherto might have believed that it could only be solved by the laws of political economy and not according to the exigencies of mere politics.

How Strikes Hurt Labor

Whatever else it may have done, the recent outlaw railroad strike seems to have accomplished one thing anyway. It interfered sufficiently with the transportation of coal, steel and other supplies so as to have thrown out of work for an indefinite period many thousands of men in various industries. Not only is this true here in the East, but in Detroit even that great promoter of the workingman's millenium, Henry Ford, has felt compelled to lay off 30,000 men in his own plant. And now a new switchmen's strike, affecting particularly Chicago and St. Louis, is improving the chances of many thousands of other workmen losing their jobs in industrial plants.

When strikers tie up the railroads and interfere with the hauling of coal and iron and steel and other commodities vital to manufacture, they seem to give no thought to the hundreds of thousands of fellow-workmen who can't work if they have nothing to work with. This is a lesson, obvious enough it would seem, which is being brought home to thousands of workingmen hitherto ready to applaud strikes by men in other industries than those in which they themselves find employment. It is a wholesome lesson for them to learn. It should bring home to them the fact that they are, after all, merely a part of the vast population as dependent on uninterrupted transportation of food and materials as any of the so-called plutocratic class about which radical labor leaders rant.

Due both to strikes and shortage in equipment, the railroads of the country report vital congestion in freight at nearly all of the important shipping centers excepting in the South. The railroads of the country, when turned back to their owners by the Government, were in such condition that 226,000 new cars and thousands of engines are needed to restore anything like normal conditions. Prompt movement of freight with such equipment as is available becomes doubly important for this reason, if for no other. Labor can help itself by keeping things moving.

Every Reform Has Its Perplexities

Another forward stride in municipal reform is announced by Grover Whalen, Commissioner of Plant and Structures, who has contracted for twenty-five taxicabs to take the place of and do away with 209 city-owned high-powered cars.

Mr. Whalen has discovered that 75 per cent of the cost of operation of the present fleet of automobiles is in "waiting time." While Commissioners and others entitled to use these vehicles are under roof in their offices, or somebody else's offices or mayhap in a restaurant or soda parlor, their chauffeurs and machines are standing alongside the curb innocuously doing nothing at $1,500 per year per chauffeur, plus interest on the cost of the car. Mr. Whalen proposes that city officials shall be taxied from hither to yon as circumstances and the necessities of the business of the municipality require and that the chauffeurs shall read the taxi meters at start and finish of the trip and turn in their reports to the municipal garage which is located beneath the Manhattan terminal of the Brooklyn Bridge.

Commissioner Whalen expects to save the taxpayers between $50,000 and $100,000 a year by the institution of this reform and is entitled to their gratitude to offset the grumbling of the unhorsed—or should it be unflivvered—officeholders. In these days of unstinted and phenomenally meretricious extravagance a saving of even $50,000 or $100,000 is exceedingly meritorious.

But this does not seem to be the full measure of Com-

missioner Whalen's proposed reform. Of greater moment, it may be, is the inception of the idea of the application of the meter as a measure of an officeholder's activity in the line of civic duty. The conception is capable of indefinite extension. Meters might, for instance, be invented to measure the flow of words from the mouths of the elected or appointed officials, whether on the public platform or in private conference; or to keep tab on the activities of the letter-writing sort of officeholder, and so on. It does not seem worth while to more than suggest the number of ways the meter can be made to serve in guaging the abilities and usefulness of public servants.

The working of Mr. Whalen's innovation, which he expects to get into operation in about three months, will be watched with interest by all. In the meantime what would be registered by a meter of emotions in, say the office of Commissioner of Public Works William J. Flynn of the Bronx, who, having urgent business with Commissioner of Public Works John E. Bowe of Richmond and having called up the municipal garage at the Brooklyn Bridge for a taxi to take him to the Staten Island ferry is informed that he will have to wait until a taxi returns from conducting Commissioner of Public Works Frank H. Sullivan of Queens back to his office after his consultation in Brooklyn with Commissioner of Public Works Joseph A. Guider of that Borough?

Tamest of Moving Days

[*Editorial from Evening Sun, May 5, 1920*]

The first of the two critical dates in the local rent situation has passed without anything more sensational than an odd explosion of judicial wrath in the Bronx. The strike of tenants, so much talked of, fell through, and there were no evictions worth speaking of on May Day or after. Indeed the quiescence of the occasion, after all the preliminary ebullition, was almost disappointing.

Perhaps the explosion has been bottled up for the first of October, but, somehow, we suspect that date will pass tamely also. The statutes passed by the Legislature, even though questioned as to validity, have given pause to profiteers. Moderate landlords need no curb. Probably the conditions will adjust themselves to reason of their own accord before the fall moving day comes around.

According to some news articles printed toward the end of last week there has been already considerable liquidation of the housing problem. One of our contemporaries announced that there had been a tremendous exodus from the city and 175,000 persons had found suburban homes since the beginning of the year. This number of individuals would mean at least 45,000 families, and so presumably 45,000 dwellings of one kind or another thrown on the city renting market. If the figures be even approximately true, there should be pretty nearly an end of the corner in homes; competition should be restored in the near future and prices would be under control.

This does not mean, however, that there is a prospect of a sharp drop—or any sort of drop—in rentals from present figures. At the most it promises that increases based on mere cupidity or products of speculation are not likely to be so common. There is, in fact, no basis of expectation of a return to pre-war rates at the present time for the very good reason that carrying and operating charges are much higher than they were; the cost of erecting new houses is very great and discouragingly uncertain. Therefore owners and builders are compelled to make high rental charges to cover their expenses and get a return on their money.

The Record and Guide, organ of the real estate interests in New York, publishes in its issue of May 1 an exhaustive discussion of the running costs and rental value of high class apartment houses, in which it reaches the conclusion that to meet the present conditions increases must be made to tenants over the figures of 1914: For operating and maintenance, 50 per cent.; for first mortgage interest charges, 5 per cent.; for second mortgage interest, amortization, depreciation and owner's income, 25 per cent.; total, 80 per cent. This increase in houses of the better class must apply to all the apartments if the owner is not to lose. If some be vacant or held at a lower figure by leases, the rest must compensate.

All that can be said of this is that so long as there are enough people with the funds and the inclination to hand out, the landlords will be able to collect their tolls; but when or if the market fails of tenants, the rents and presumably the running costs will have to readjust themselves. Apartments of the best class, which the Record and Guide speaks of, are luxuries of the wealthy. As it says, probably half of what the tenants pay is not for shelter, but for exclusiveness, location and "a high quality of equipment and service." This class of house has developed in New York "in point of convenience and luxury far beyond other cities in America or Europe." It embodies "the last word in modern equipment." Of course those who insist on these appliances of ease must pay for them. The obligation is on the owners to keep their fingers on the pulse of demand and not run ahead of it. Doing so they will always be safe.

But the general public has small interest in this phase of the question. The rich can take care of themselves; the poor have the Tenement House Commission to protect them. The complaint of the vast body of people of moderate means is that, while their rents have been gently but firmly jacked up, equipment and service have been somewhat violently let down. Decorations and even repairs have been abandoned, attendance has been minimized and the scarcity of labor plead as an excuse, although the high costs of these things, which are not supplied or employed, are equally the excuse for raised charges.

The one real solution is more building. The real estate spokesman argues that legislation in the interest of the tenant checks this. No doubt he is largely right; but we imagine the high and uncertain cost of labor and of material —where labor again comes in—is the real difficulty. If something like a settled condition for builders could be secured, building would be done. It is the way builders live and pay their way. And if building were done extensively the law of supply and demand would take care of the rest speedily.

Legislature Made Liberal Appropriations for Good Roads

(Special to The Record and Guide)

Albany May 6, 1920.

Including an appropriation of $10,000,000 from the 1912 highway bond issue which, of course, will not be available until next year, the present Legislature was generous in highway appropriations. State Highway Commissioner Greene asked for an appropriation of $15,000,000 with which to continue the building of the state road system, but the Legislature cut this estimate in half, appropriating $7,500,000 for maintenance and repair. Other large highway items include appropriations of $2,302,000 for state aid to county and towns for highway purposes; $3,750,000 for roads to be constructed with federal aid and $300,000 for rural post roads.

The Superintendent of Public Works was given an appropriation of $600,000 for maintenance and repair of structures along the route of the barge canal in addition to numerous appropriations for bridges. For the reconstruction of the Cohoes-Lansingburg bridge spanning the Hudson at Troy and destroyed by fire, an appropriation of $300,000 was made.

Bills Signed or Vetoed by Mayor Hylan and Governor Smith

Measure for Relief of War Contractors Fails by Action of City Executive, But Bill for Protection of Builders from Thieves Is Approved

(Special to the Record and Guide.)

Albany, May 13, 1920.

MAYOR HYLAN has vetoed the Walker bill which would permit the New York City Board of Estimate to allow claims against the city for the difference between the original contract price and the actual expenditures a contractor on a public utility or public work was forced to make by reason of the increased cost of labor and materials that resulted from war conditions. The bill applied only to public contracts made by the city prior to April 6, 1917, when war was declared and performed at a loss by the contractor during the period of the war. Governor Smith announced the veto after acting upon several bills affecting New York City. The Mayor's veto kills the bill, for the Governor is without authority to approve any city measure disapproved by the local executive.

Mayor Hylan also vetoed the McDonald bill providing that no tax lien shall be sold at public auction for non-payment of tax unless notice of the sale had been served upon the owner of the property by registered mail at least three months before the date of the proposed sale.

The Russell bill designed to alter the present method of assessing for sewer improvements in New York City was also vetoed by the Mayor.

Governor Smith has signed the bill repealing Section 88 of the General Municipal Law and Section 50 of the State Finance Law which compels all governing boards awarding contracts for plumbing, gas fitting, steam and hot water heating and ventilating apparatus which exceeds $1,000 to draw the specifications so as to permit separate and independent bidding upon all classes of work. The enactment of this repeal act was forced by the embarrassment caused state and municipal boards letting plumbing and heating contracts. Where the work was divided among several contractors the margin of profit was very small and in numerous instances the contractors performed the work at a loss. The result was that bidders for these contracts were very few and in several state institutions and a large number of municipal buildings the completion of work was delayed by the refusal of reliable contractors to take the contracts for separate pieces of the work except at increased cost.

The Karle bill providing that in computing assessments on property benefitted by a local improvement all property within the area of benefit, although otherwise exempt by law, shall be included in such computation was signed by the Governor this week, and the bill introduced by Senator Karle which empowers New York City to widen Kill's path in Brooklyn and Queens Borough by acquiring by purchase or condemnation lands on both sides of this thoroughfare from Jamaica avenue, Brooklyn, to Myrtle avenue, Queens.

The McGarry bill authorizing the construction of a boulevard across Jamaica Bay without action by any local board in New York City and amending the plans for this improvement was also approved by the Governor.

Mayor Hylan has returned to the Governor with his approval the Cotillo bill amending the New York Charter by making mandatory instead of permissive the appointment by the mayor of a board of purchase patterned after the state central purchasing board. This bill authorizes such purchasing board to make its own rules concerning the storage of materials, supplies and equipment as well as purchase and distribution. The board may provide storage places wherever it deems them necessary.

The Mayor has also accepted the charter amendment providing that in 1920 certificates of indebtedness may be issued not in excess of $7,000,000.

The Knight bill supported by builders and property owners in New York City and up-state designed to simplify the penal law provisions affecting receipt of stolen property was signed by the Governor. This bill which makes it a felony to receive stolen property valued at more than $50 and a misdemeanor where the value is $50 or less was advocated as a means of providing summary justice for persons who accept building materials stolen from construction work and who reap a profit from the lead, copper and other metals removed by thieves from vacant houses. At a hearing given this bill it was declared that thieves operating in New York City make a specialty of copper wire, lead pipe, electric and gas fixtures, all of which have increased enormously in price, and find easy sale to persons acting as brokers for this unlawful traffic. The telephone and telegraph companies also backed the bill.

Two bills providing an appropriation of $250,000 for the purchase of a site for a new state arsenal in New York City to replace the present arsenal at Seventh avenue and Thirty-fifth street and directing the deposit of the proceeds of the sale of the old arsenal with the State Treasurer were also signed by the Governor. The latter bill introduced by Minority Leader Donohue was necessary to prevent the utilization of these moneys for the building of a new arsenal in Albany.

The Governor has also approved Assemblyman Mullen's bill amending Section 298 of the Real Property Law by providing that acknowledgment or proof of a conveyance of real property within the state may be made before an official examiner of title within his authorized district.

The Cuvillier bill exempting from taxation real property purchased from the proceeds of a bonus or insurance paid or granted by the United States or New York State for military or naval service and owned by the person receiving such bonus or insurance was also signed by the Governor. The exemption is limited to $5,000 of assessed valuation.

The Lockwood bill permitting New York City to use $6,000,000 of the proceeds of sales of corporate stock or bonds for erecting a municipal building in Brooklyn was approved by the Governor.

The salaries of the borough presidents of Richmond and Queens are increased from $7,500 to $10,000 under the Carroll bill approved by the Governor and the salaries of all the Municipal Court Justices in New York City are raised $1,000 each by the Burlingame bill also signed.

The Lockwood-Donohue teachers increased pay bill which will require an appropriation of $20,500,000 was signed by the Governor. The money necessary to provide this increase will be raised by the imposition of a direct state tax of one and one-half mills.

Under the terms of the Swift bill approved by the Governor five or more persons may incorporate as a cooperate association or organization to take title to real estate and to enjoy the same privileges with respect to this property as a private person enjoys.

Two Blocks in Grand Central Zone Leased for Long Term

Railroad Companies Dispose of Last Improvement With Plots North of Station to Syndicate for Business Buildings

SURPASSING all individual real estate transactions of this year, and probably those of many years, was the leasing, during the week, of more than two square blocks of land between Park and Madison avenues, 45th to 47th streets, for improvement with two immense mercantile buildings. The term of the lease is for 21 years with the privilege of two renewals, the original term alone amounting to about $15,000,000. Estimated cost of construction, which will begin within a few months regardless of building conditions, will total about $25,000,000. This undertaking marks the disposition of the last of the unused properties of the New York Central and Hudson River Railroad Co. and the New York, New Haven & Hartford Railroad Co. in the vicinity of the Grand Central Terminal.

Those companies have leased the holdings mentioned to a syndicate composed of Major S. Fullerton Weaver, and William Crawford, who have been specialists in the erection of large buildings during recent years; Edward H. Everett, of Washington, D. C., and Walter Russel, an artist, who initiated the modern co-operative apartment house movement a few years ago. Douglas L. Elliman & Co. negotiated the lease.

Plans for the new buildings for these sites are in course of preparation by Warren & Wetmore, the same firm who designed the Grand Central Terminal. It is their purpose to perfect a design that will harmonize architecturally with the surroundings. A 31-story building will occupy the block bounded by Madison and Park avenues, 46th and 47th streets, and a 25-story building will cover the block bounded by Madison and Park avenues, 45th and 46th streets, and an extension to Vanderbilt avenue. There will be a total combined floor area of 1,500,000 square feet, and each single floor will afford a greater area than is obtainable in any other building in the city. Several large firms have already reserved space on the plans.

The 31-story building will be for all practical purposes two buildings inasmuch as it will be divided by Vanderbilt av, but the two sections will be connected by a series of bridges that will make all parts of each intercommunicable.

Much engineering work will have to be done in connection with the preliminary work on these structures on account of two levels of railroad tracks nearby and pentrating beneath the surface of Park avenue. It will be recalled that the railroad companies obtained fee to most of the buildings along Park avenue north of 45th street when they enlarged Grand Central Terminal a dozen years ago. This was for the purpose of widening its trackage space. As a result there will be no basement floors except on the Madison avenue side of the projected buildings. Underground space for lighting and heating plants will not be necessary because light and heat for the buildings will be furnished by a central heating and lighting plant.

Already more than one-third of the total floor space has been leased on the plans to downtown firms who will follow the uptown trend. Two large banks are among the group of tenants.

Structural improvements in the Grand Central zone during recent years have added more than $1,500,000 in taxes to the city treasury and the prospects are that the sum will be duplicated within the next few years.

Record Breaking Rentals in Mid-Town Section

LONG noted as one of the high class and busiest hotels in New York, the Knickerbocker, at the southeast corner of Broadway and 42d street, is about to close its doors and undergo remodeling into a loft and commercial building by its owner, William Vincent Astor. James B. Reagon, who has owned the business of the hotel since it opened, is receptive to the plan and relinquishes his lease on the entire property which has 15 years and 8 months to run. The site of the hotel is far more valuable for commercial than it is for hotel purposes. The hotel business in some parts of New York is not what it was before the prohibition amendment went into effect. Mr. Reagan probably obtains a very good consideration for the surrender of his lease and the goodwill of the Knickerbocker.

Extensive structural work will have to be done to this famous hotel in order to make it over into a business building. Charles A. Platt, architect, is busy planning the best way to utilize the large floor space for business uses. About $1,000,000 will be expended on the work.

Real estate men predict record breaking uptown rentals for stores in the remodeled Knickerbocker. It is believed that the corner store will yield at least $2,500 a front foot a year and that other Broadway frontages will bring at least $1,500 a front foot a year rental. The opinion is based on the large rentals now obtaining on Broadway and in 42d street near that thoroughfare. The Knickerbocker has a frontage on Broadway of 102 feet and on West 42d street of 185 feet. Figured on present rental values the ground floor of the hotel when remodeled should yield a total rental of more than $400,000 a year. There is strong competition for stores in this locality and its retail possibilities are immense. A store 16 feet wide in the north side of 42d street, between Broadway and Sixth avenue now brings an annual rental of $22,000, while at 135 to 139, in the same 42d street block, the United Cigars Stores Co., which control the property, has declined offers of $1,500 a front foot a year. It awaits an offer of rental of the total plot aside from the small space used by itself.

Interesting is the fact that Ralph Gusshee, who several months ago leased the 5-story brownstone business building, on a lot 25 x 100, at 141 West 42d street, is paying annual rental at the rate of $1,200 a front foot.

On Broadway, between 41st and 42d streets, still larger rentals are being obtained. Close to $2,000 a front foot, on a new lease, was recently obtained for the store at the northeast corner of Broadway and 41st street, now occupied by Park & Tilford, while the store at 1,455, just across the way, is being held at a figure slightly below $1,500 a foot front yearly.

A clothier some time ago leased the two buildings 125-127 West 42d street, 4 stories in height and covering a plot 40 x 100.5, at $40,000 a year net, for a long term, which is at the rate of $1,000 a front foot. Stores in the building at the southwest corner of Sixth avenue and West 42d street, which were made from a good sized safe, and are but 20 feet in depth, are yielding an annual return of $1,000 a front foot.

Further north on Times Square are happy instances of strong rental power for stores. The five stores that have been carved out of the ground floor of the old Hotel Wallick have been leased from the plans at an annual front foot rental of $1,600, while the corner at 43d street brings $2,000 a front foot annually.

An estimate based on property conditions in the Times Square section places the rental power of business floors in the remodeled Knickerbocker Hotel at from $4 to $6 a square foot annually. Rentals have increased from $3.50 to $6 a square foot a year in the new National Association Building in course of construction in West 43d street, on the site formerly occupied by the Racquet & Tennis Club; and this increase is based primarily on the excessive demand for business space in the Times Square zone.

The highest annual rental yet obtained in the mid-Fifth avenue neighborhood is in the new buildings of the Guaranty Trust Co., at the avenue and 43d street, which yields $9.

Offers Favorable Terms To Purchasers of Interboro Lots

Speculative Builders Have Rare Chance to Obtain Plots for Apartment Buildings to Relieve Housing Shortage

SOMETHING in the shape of a genuine surprise is the announcement made yesterday by Joseph P. Day that the Interborough Rapid Transit Co., in connection with the forthcoming sale of its unused real estate, by public auction, has perfected arrangements whereby it will be enabled to leave 70 per cent. of the purchase price of each vacant lot on mortgage, and to subordinate this mortgage to a building loan, provided the purchaser builds in one year from the date of sale.

On the other hand, to meet the requirements of those who, at the forthcoming sale, will buy lots "for a profit," without the present intention of building, the Interborough Company also has agreed to accept 80 per cent. of the purchase price in forty equal monthly payments, or at the rate of 2 per cent. a month. This means that the Interborough will accept as little as 20 per cent. cash on the purchase of its vacant lots, many of which are located in the seven Broadway blocks, 218th to 220th streets, and 238th street to Spuyten Duyvil Parkway, at 242nd street; also, in Long Island City, at the Jackson avenue station on the Queensboro subway. All of these lots are located on I. R. T. Co. subway lines, in the five cent fare zone, and at, or adjacent to I. R. T. Co. subway stations.

This rare offering of real estate on such extremely easy and favorable terms, is the Interborough's contribution to a safe and sane solution of the City's housing problem, which, at the moment is the most distressing and acute condition that has ever confronted and confounded the New York public.

The decision of the Interborough Company to, in this way, aid materially in giving impetus to the impending building "boom" follows closely upon a survey completed recently by Frank Mann, Tenement House Commissioner, which revealed the startling fact that not more than 2,000 vacancies exist in the tenements of the entire city, the number including any and everything in the way of shelter; also that there is a total of only 547 unoccupied apartments in modern buildings, fit for human habitation.

In October of last year, Commissioner Mann reported that there were 103,000 tenement houses in the city, providing 982,-296 apartments. At the same time it was calculated that approximately 30,000 apartments in new and old buildings were then unoccupied.

Tenement house construction, since last October, has been practically nil, the current operations being chiefly of the high grade class, too expensive even for the consideration of the higher salaried man. These, including all housing projects for Manhattan, represent an expenditure of less than $5,000,000, and houses that will provide living quarters for not more than 200 families.

At about the same time Commissioner Mann made public his survey the F. W. Dodge Co. published important statistics of residential construction in Greater New York, which tended to show that contracts were let, during 1919, for 988 apartments, with 15,945,100 square feet of floor space, costing $51,-874,500. Apartment building contracts for this same district, let from January 1st to May 1st, 1920, involve the erection of only 172 apartments, having 2,617,000 square feet of area, and estimated the cost at only $11,723,500.

The total provision for new housing in New York City during 1919, including private dwellings, aggregate an estimated cost of $129,201,130.

The total during the first quarter of the present year, as indicated by contracts let for similar work, is $38,133,900.

These figures clearly indicate the slump in the normal housing program, the almost certain continuance of high rents so long as the demand exceeds the supply, and the necessity that exists for building immediately.

The Interborough Rapid Transit Company has made a move in the right direction, and has set an example that well might be followed by other big interests having unused, vacant real estate at their disposal. There is nothing that can be done that will so encourage the construction of new buildings as to follow the example of the Interborough Rapid Transit Company in offering to subordinate its mortgages to building loans.

In addition to the lots in upper Broadway (Manhattan and the West Bronx), the Harlem River and Van Cortlandt Park sections, the Interborough real estate to be sold by Mr. Day, at 14 Vesey street, on Tuesday, May 25th, at noon, for whatever it may bring, includes the unique and valuable parcel at 156 and 158 East 42nd street, known as the Queensboro subway station and office building, and which was built originally with a foundation strong enough to carry two stories additional to the three already erected.

This is practically the only privately owned parcel in 42nd street, East of 5th avenue and in the Terminal zone, that is available to purchasers. It is anticipated that the offering of this parcel will arouse a large amount of competitive bidding between speculators and investors, regardless of which the property is to be sold for whatever it may bring.

The Long Island City holdings of the Interborough Co. are splendidly represented in the listing of its improved and unimproved real estate located directly at, and adjacent to the Jackson avenue (Queensboro) subway station—four minutes' ride from the Grand Central Terminal—and fronting in the East River, where adjacent property for many blocks north and south is occupied largely by the industrial plants of prominent concerns.

There is also a prominent plot of four lots at City Island to be sold.

Bill for Federal Realty Tax

CHAIRMAN FORDNEY, of the Ways and Means Committee of the House of Representatives, has framed a new bill to provide funds to pay the proposed $2,000,000,000 soldiers' bonus. The bill includes a tax of one-half of one per cent. on all real estate transactions, and should be opposed by all interested in realty.

The Fordney bill provides:

"Receipts for payments on sales of real estate. On each receipt, issued between December 1, 1920, and November 30, 1922, both dates inclusive, evidencing any payment made during such period on account of any sale, or contract of sale of, or contract to sell, lands, tenements, or other realty, whenever made, 25 cents for each $50 or fraction thereof of the amount of the payment.

"Any person who receives, between December 1, 1920, and November 30, 1922, both dates inclusive, any payment, whether in cash or in anything of value, on account of a sale, or contract of sale of, or contract to sell, any lands, tenements, or other realty, shall at the time give to the person making such payment a written receipt evidencing such payment and shall affix thereto the proper stamps. Such receipt shall show the date thereof, the name and address of the person giving it, the date and amount of the payment, the name and address of the person making the payment, and the transaction on account of which the payment is made.

"Whoever fails to give any receipt required by this subdivision, or to state therein correctly the amount received, or to affix the proper stamps, or whoever receives any recipt required by this subdivision without having the proper stamps affixed thereto, shall be guilty of a misdemeanor and on conviction thereof shall be fined not more than $1,000, or be imprisoned not more than six months, or both."

The Real Estate Board of New York believes that the excess profits tax has been the source of a great many evils and has increased considerably the high cost of living and it should be repealed or radically amended and that in such case and in lieu of it a small tax on real estate would not be objectionable, but that the proposed tax as an additional tax would be harmful in the extreme, in this time of grave housing shortage it would have a further deterring effect on the lending of money for new housing already greatly curtailed by the existing tax levied on the income derived from mortgages. Every real estate owner who realizes the gravity of the situation should urge upon their senator and representative at Washington the need of the time is the intelligent readjusting of existing taxes rather than the piling up of new taxes.

Interborough's Necessity—
The Public's Opportunity

The Interborough's Necessity is the result of increased operating costs and a 50% reduction in the purchasing power of the nickel.

The Public's Opportunity is the forthcoming auction sale of the unused real estate belonging to the Interborough Rapid Transit Co. and which must be sacrificed now to liquidate a loan made as of January 1, 1920, to pay the interest due to bondholders. This means that the many valuable properties to be disposed of must be sold for whatever they may bring, regardless of the sacrifice involved. The Interborough Company must sell properties strategically located along the subways, selected long before the effect of rapid transit had become apparent. The Interborough, today, is not in a position to hold this valuable real estate until its possibilities have been realized, and

Review of Real Estate Market for the Current Week

Grand Central Terminal Neighborhood Gave Brokers and Investors a Feast of Real Estate News With Greenback Salad

LEADING the transactions of the week in real estate was the conclusion of negotiations whereby the New York Central & Hudson River Railroad Company and the New York, New Haven & Hartford Railroad Company leased more than two square blocks, adjacent to the Grand Central Terminal, to a syndicate that will improve the holdings with two huge co-operative office buildings. It is one of the most remarkable real estate deals on record. The total cost of leaseholds and buildings will be $40,000,000 or as much as two of the big bridges across the East river and the land and approaches cost. In fact the construction of two such buildings, nowadays, is almost as big an engineering feat as the building of a massive bridge; and, yet, the lay mind looked upon the cost of the first bridge across the East River as a phenomenal expenditure. The comparison may make the lay mind grasp the scope of this huge real estate and building proposition. It almost astounds the professional realtor's mind.

The effect of this great improvement will be far-reaching. It will establish a new and more extensive business environment in what is now partly a residential section of the city. It means the making over of a large part of the city adjacent to the route of the New York Central through it and the creation of real estate values that were undreamed of for that part of the city two decades ago. It demonstrates that trade, always defiant of residential conditions, will eventually capture all territory south of Central Park. The park itself seems to be the only bulwark against trade establishing conspicuous outposts farther north. New trade centers will follow in the wake of this great commercial real estate undertaking near the Grand Central Terminal. The movement into Fourth avenue a decade ago, or less, will be more than duplicated in this new neighborhood evolution. It is the great real estate romance of the time.

The number of large sales of real estate in Fifth avenue and its vicinity, this week, demonstrated that the New York market is not weakening appreciably. The news columns will tell the story. The movement there makes the conclusion imperative that all of the old remodeled dwellings on the avenue will within the next decade give way to the creation of large office and commercial structures.

An interesting development of the week was the fact that the National Jewelers Board of Trade was contemplating urging the removal of the wholesale jewelry district from Maiden lane and its vicinity to the midtown business area. It would seem logical that this trade, which thrives by the expenditures of the well-to-do, should be nearer to the big retail jewelry houses and department stores farther uptown; in fact, there is a healthy percentage of the wholesale jewelry trade in and near Fifth avenue at this time. During the last two years the Maiden lane district of the trade has been invaded materially by other lines of business and the trend is becoming stronger. Commerce finally hits the logical spot for its particular phase. The present big real estate movement throughout the city reflects changes in the trade character of various neighborhoods and the establishing of new property values and new structures.

Among the notable sales of the last seven days were the Eighth avenue property known as Reisenweber's, numerous business buildings downtown, several important corner properties, the Bank of the Metropolis building, a parcel in the Bowery for reimprovement, a block front apartment house on Washington Heights, two good sized sales of improved property in the Bronx and several large sales in Brooklyn.

To Alter Grand Central Palace.

AFTER an existence of eight years as a house for large expositions and business shows, for which it was expressly built, the Grand Central Palace, on Lexington avenue, will cease to be used as such after April 1, 1921, notices to that effect having been sent out from the office of the Palace. Alfred I. du Pont is understood to be at the head of an organization that owns the property, and it will be altered for business purposes.

In the four exposition halls within the Grand Central Palace is a greater number of square feet of floor space than in any other auditorium structure in New York. The excessive demand for commercial space makes the building a better investment rented out to business firms for their permanent purposes, assuring the owners of the property from $5.00 to $6.00 a square foot a year, which, of course, is much more than the property yields now.

Unless some other exposition building is erected in this city, men who make a specialty of expositions assert that many large exhibition enterprises that meet here annually will have to go to other cities. The effect of such a situation on business here would not be salutary.

When the leasehold of the Grand Central Palace was bought by the organization headed by Mr. du Pont, the statement was made that the great building would continue to be used for various expositions and displays and that a vast market place for the exhibition of all sorts of goods from everywhere would be established there. Twelve stories in height, the Palace has four floors given over to exhibitions and offices.

Tax-paying Time Not Changed.

The Real Estate Board of New York desires to correct an impression abroad among real estate owners that there has been a change in the date for the payment of the second half of this year's taxes.

Erroneous information was recently published by an official organization furnishing service of this character. It was stated that Senator Downing's Bill, Int. 1407, had passed both the Senate and Assembly. This bill would have changed the payment of the second half of this year's tax from November 1 back to July 1 and would have incurred great hardship on thousands of taxpayers. The pendency of the legislation and particularly the impression that it had passed raised the question of the allowance of rebates for the second half and the Comptroller's office temporarily declined to allow the rebates although it was accepting checks for later adjustment.

The Real Estate Board not having been able to beat the bill in the Senate and learning that the official notice was in error and that the bill was still in the Committee on Rules of the Assembly renewed its opposition. The bill did not come out of the Committee on Rules.

Property owners may, therefore, dismiss the matter and pay taxes and secure rebates as formerly.

Real Estate Golfers.

The Spring Golf Tournament of the Real Estate Board will be held at the Cherry Valley Club, Garden City, Long Island, next Wednesday, May 19. Trains leave Seventh avenue and 33d street, Pennsylvania Railroad, and Atlantic avenue, Brooklyn, as follows: 7.15, 7.50 and 9 a. m., and 12.30, 1.12 and 1.55 p. m. There will be 16 prizes as a Guests' Special.

Elliman & Co.'s Opening.

What may be characterized as the formal opening of the new building and offices of Douglas L. Elliman & Co., at 15-17 East 49th street, between Fifth and Madison avenues, will take place from three to six o'clock this afternoon. It will be recalled that the firm removed prematurely to its new building from its old one on Madison avenue a few weeks ago, as the result of a fire. Fortunately the equipment of the new office was sufficiently completed to warrant occupancy of it.

The officers and directors of Douglas L. Elliman & Co. are: Douglas L. Elliman, president and treasurer; Roland F. Elliman, vice-president and assistant treasurer; Argyll Rosse Parsons, vice-president; Henry A. Frey, secretary; Herbert R. Lawrence, Alfred E. Taylor, Herbert A. Wildman, Burgoyne Hamilton, Leslie H. Moore, Robert C. Knapp.

PRIVATE REALTY SALES.

THE total number of sales reported but not recorded in Manhattan this week was 135, as against 147 last week and 114 a year ago.

The number of sales south of 59th street was 53, as compared with 59 last week and 42 a year ago.

The number of sales north of 59th street was 80, as compared with 85 last week and 72 a year ago.

From the Bronx 30 sales at private contract were reported, as against 28 last week and 30 a year ago.

Statistical tables, indicating the number of recorded instruments, will be found on page 650.

New Fifth Av. Corner Building.

Long prominent as the residence of Pierre Lorillard, the 4-sty brick dwelling remodeled into a banking house for the Astor Trust Co., at 389 Fifth av, at the northeast corner of 36th st, on a plot 38.9x147, has been sold by Frederick Brown to a firm of builders who will reimprove the site with a modern 12-sty office building. The seller bought the property last December from the Roxton Realty Co. About the same time he bought 7 East 36th st, adjoining, a 5-sty American basement dwelling, on a lot 25x98.9, from Frank L. Polk. This parcel has also been resold to the buyers of the corner property. There is a total plottage of about 10,000 square feet. There is a 47-foot L to the corner building which extends to the side of the Tiffany building on the corner above.

Metropolis Bank Building Sold.

The estate of William W. Cole sold to Mrs. Dora Kuch, for investment, the 16-story bank and office building on a plot 32.6x175 at 31 Union Square West, north corner of East 16th street, known as the Bank of The Metropolis building. The same estate also sold to the same buyer 23 East 16th street, adjoining, a 4-sty brick sotre and mercantile building, on a lot 25x92. The reported selling price is close to $2,000,000. Mr. Cole bought the property long ago, as an investment. The building adjoining in East 16th street was bought to protect the rear light of the larger building.

"Reisenweber's" Bought.

Long popular as a dining and banquet resort, the group of buildings known as Reisenweber's, at 981 to 989 Eighth avenue and 300 to 306 West 58th street—forming the southwest corner of those thoroughfares—have been sold by Reisenweber's, Incorporated, John Wagner, secretary and general manager. The main building, at the immediate corner, is 9 stories in height and covers a plot 100.5x125, and contains a large ballroom, rathskeller and numerous banquet rooms and dining rooms. At 304 West

58th street, adjoining the rear of the main building, is a 5-story brownstone building covering a lot 21x50.5, while 306 West 58th street, is a 4-story and basement brownstone dwelling, on a lot 21x100.5. The other 58th street numbers form part of the site of the main building. It is understood that "Reisenweber's" desired to sell because the neighborhood is fast changing into an automobile center.

Central Union Trust Buys.

Gilbert & Kramer sold to the Central Union Trust Co. 786-787 Fifth avenue, at the south corner of East 60th street, a 10-story building, on a plot 50.10x125. The buyer occupies the ground floor as an uptown branch of its business. The sellers bought the property from the estate of Henry Phipps several months ago.

City Buys Police Station Site.

Negotiations are about concluded by the City of New York for the purchase from the Rhona Realty Co. of 111 to 117 West 133d street, four 3-story and basement brownstone dwellings, each on a lot 16.8x99.11, or a total street frontage of 67.2 feet, between Lenox and Seventh avenues. The purpose of the purchase is to provide a site for a new station for the Thirty-first Precinct, now housed in a building in West 135th street, between Lenox and Seventh avenues. The Rhona Realty Co. only recently bought the properties.

Hoffman Estate Sells Corner.

The estate of E. A. Hoffman sold through Spear & Co., in conjunction with Edward J. Crawford, to W. D. Kilpatrick the southwest corner of Greenwich and Murray streets, a 5-sty commercial building, on a lot 27.2x78x34.

Henry Street Settlement Buys.

M. Morgenthau, jr., Co., sold for Dr. Samuel D. Douglas 8 Pitt street, a 5-story building, on the east side of the street just north of Grand street, on a lot 25x100. The purchaser is the Henry Street Settlement, which already controls the building as tenant, and uses it in conjunction with the adjoining property, 466-468 Grand street, known as the Neighborhood Playhouse. The building 8 Pitt street is used for various settlement activities, and in connection with the Neighborhood Playhouse.

Seville Buys Annex Leasehold.

Cruikshank Co. sold for the Almy Realty Corporation to the Hotel Seville Louis C. Raegner president the four lots of property 15-17 East 28th street and 18-20 East 29th street, 50x200, and being the portion of the property covered by the annex of the Hotel Seville.

Joseph Paterno Buys Mansion.

Mrs. Fanny Rockwood, wife of Judge Nash Rockwood, sold her large Colonial residence, with plot 172x304, at the northeast corner of Independence avenue and West 252d street, Riverdale, to Joseph Paterno, the west side builder. It was held at $100,000. Mr. Paterno has also purchased from the estate of Samuel D. Babcock an adjoining plot on Independence avenue containing about 1¾ acres.

Good Sale in Silk Zone.

Bilboa Realty Co., Morris Polsky, president, bought from the Pelhamback Realty Co., 117-119 East 24th street, a 12-story loft building, on a plot 46x98.9.

Annual Number for 1919 of Record and Guide Quarterly Now Ready for Delivery

THE Annual Number of the **RECORD & GUIDE QUARTERLY** contains in this, the final issue of the year, all the data contained in the preceding three **plus** those of the fourth period, making in one compact volume, a complete transcription of all Conveyances, Miscellaneous Conveyances, such as Release of Mortgages and Dowers, Contracts, Agreements, Consents, Assignments of Rents, Power of Attorneys, Designation, Resignation and Appointment of New Trustees and Executors, etc., Mortgages, Extension of Mortgages, Participation and Subordination, Agreements of Mortgages, Assignments of Mortgages, Satisfied Mortgages, Leases, including consents, assignments, cancellations and surrender of leases; Real Estate Appraials, Auction Sales, Wills, New Buildings and Alterations with cross references for the entire year, Borough of Manhattan. These records are arranged geographically, chronologically and alphabetically, so that the subscriber may, at a moment's notice, find the desired information. In order to make these records more complete the attorney's name is inserted in all Mortgages and a geographical cross reference to the Real Estate Appraisals is given. This permits the user in searching for the appraised value of a given parcel, and not having the name of the deceased, to obtain the information instantly. Years of experience have demonstrated that by using the **RECORD & GUIDE QUARTERLY** time and annoyance are saved. It is equally valuable to the broker who maintains an elaborate system of keeping records, or the man who must condense his plant.

LONG ISLAND CITY.—William D. Bloodgood & Co., Inc., sold the northwest corner of Freeman av and Hamilton st, Long Island City, to William Klein, who will immediately erect a factory building. It is within one block of the 8-sty steel structure now being erected by George W. Loft, Inc.

RECENT LEASES.

Spingler Hotel Under Long Lease.

Another New York landmark will disappear through the leasing by the United Cigar Stores Co. from the Spingler and Van Beuren estates of the old Spingler Hotel property at the southeast corner of University place and 14th street for a term of 18 years.

The new lessee will remodel the upper part of the building into business offices and show rooms and itself occupy a store in the immediate corner. Manning & Trunk were the brokers.

The Spingler Hotel has been in existence for more than 50 years and the present proprietors are the sons of the original proprietor. It originally was one of the splendid private dwellings that faced Union square about 1860, when that section of the city was one of the fashionable residential districts of New York.

Leases Whitehall Terminal.

Grover A. Whalen, Commissioner of Plant and Structures, has converted the third floor of the Whitehall terminal of the Staten Island ferries to office uses, and has secured tenants whose payments to the city aggregate $9,410. The fourth floor is to be similarly improved, making the total rent roll for the "head house" of the ferry terminal $15,000 a year. The rental averages $1.20 a square foot. The tenants on the

Consulate of Norway Leases.

Pease & Elliman leased for the owners of Lord's Court Building, at William street and Exchange place, a suite of offices to the Consulate of Norway.

REAL ESTATE NOTES.

ARTHUR DURHAM is now associated with Charles B. Van Valen, Inc., in the sales department.

CHARLES L. WOODY, who for many years has been associated with George D. Yeomans, general counsel of the Brooklyn Rapid Transit Co., has accepted the position as solicitor of the Title Guarantee and Trust Co., left vacant by the death of Walter Lindner. Mr. Woody assumes his position at 176 Broadway on May 17.

ALEXANDER ANGELINOFF is the buyer of 235 and 237 West 14th st, two 5-sty brownstone buildings, the former on a lot 15.9x120 and the latter on a lot 15.9x103.3. He will make extensive alterations.

V. Z. M. BOYAJIAN is the buyer of 180 and 182 Lexington av, at the northwest corner of East 31st st, recently reported sold.

MRS. BRADISH G. JOHNSON is the buyer of 67 East 82d st, that was recently sold.

F. ARNOLD WHEELER, for a number of years sales-manager of the 57th st office of Goodwin & Goodwin, has organized the Wheeler Realty Corporation for the purpose of doing a general brokerage business. Franklin C. Albee, well known among the real estate operators, is associated with the new corporation, and their offices are at 299 Madison av. The firm will specialize in properties from 34th to 59th sts.

CHARLES B. VAN VALEN, INC., have taken over the business of the Leonard Morgan Co., Inc., located for many years at 104 West 42d st. Mr. Morgan becomes treasurer of the Van Valen firm, in charge of the agency department, bringing with him 40 years' of experience in the real estate and insurance business.

WILLIAM H. WHITING & CO., in conjunction with Herman Seiffert, leased for 20 years for Philip Zeitlen to Emil Lang the building at 118 and 120 Fulton st, together with the adjoining properties at 9 to 15 Dutch st, owned by the Reformed Protestant Dutch Church for a term of 20 years. The aggregate amount involved is in excess of $700,000.

HOWARD M. WHITNEY, of the banking firm of H. N. Whitney & Sons, is the buyer of 18 East 80th st, recently sold.

WELDON & SUYDAM negotiated the lease of the ground floor of the Emmett Arcade building at Madison av. and 59th St. to the National Drug Stores Corporation, for a long term of years; while Douglas L. Elliman & Co. effected the lease of the upper floors to the same corporation.

City's Auction Sale.

AN annual rental of approximately $4,750,000 has been figured a reasonable return on a modern office building for the Grand Union Hotel site at 42d st. and Park av. There is a famine in store and office space in the Grand Central zone, and the Grand Union site, which is now ready for improvement with an up-to-date building, will be offered for sale by the city at the Real Estate Exchange Salesroom on May 26. Hundreds of applications for information about the plot, which has an area in excess of 45,000 square feet, have been received at the offices of the Transit Construction Commissioner and of Henry Brady, auctioneer.

Rentals ranging from $1,200 a front foot for stores, to $8 per square foot per annum for office space, have been announced by the owners of the hotel property and the Grand Central Palace lessees.

With the site of the Grand Union Hotel already excavated and foundations for a twenty-five-story office building in place, it will be possible to have the Grand Union Hotel improvement completed as speedily as any of the reconstruction projects now in contemplation can be finished. While the area of the Grand Union Hotel property immediately over the rapid transit express station will be confined by the city to a height of twenty-five stories, it will be possible to erect a tower of much greater height on that part of the old hotel site not included in the subway easement.

In estimating an annual rental of $4,750,000 for space in a modern building on the Grand Union Hotel site, rates more moderate than those now being paid by tenants in the Grand Central zone has been used as a basis. The maximum rental per foot used in the estimate has been $7, and the minimum much less than that sum. Owners of so-called "chain stores," dealing in all sorts of commodities, have expressed their intention of locating, if possible, on the Grand Union Hotel site.

In addition to the big plot at 42d st. and Park av., the city will offer several other parcels at auction on May 26, including the block front at West Broadway, Park pl. and Murray st.; two blocks fronts in Centre st., extending from Canal to Howard st. and from Canal to Walker st.; the corner of William and Beekman sts., and a subway plot in the heart of the business district of Brooklyn.

BUILDING SECTION

Construction Halted By Famine in Building Materials

Although Railroads Promise Relief in Ten Days Neither Dealers Nor Contractors Are Particularly Optimistic at Present

UNLESS immediate action is forthcoming that will materially relieve the freight congestion in the Metropolitan district the building industry will be forced into a period of idleness that is bound to result in a loss of the best part of the building year. This is at present the concensus of opinion among architects, contractors and dealers in building materials and supplies in Greater New York, and vicinity, who are facing substantial losses because they cannot complete the building projects already started, or commence activity on the operations for which plans are completed.

The situation is most serious and is distinctly up to the railroads. During the period of the strike of the switch and yard men there was some excuse for congestion of freight in the yards of the lines entering the Metropolitan district. Since that time, however, the condition has been steadily growing from bad to worse and is at present at a point where only thoroughly drastic measures will afford any relief.
